Subject: MANDATORY ACTION REQUIRED FOR CYBER SECURITY
Date: Wednesday, August 17, 2022 3:52:27 PM

Hello,

If you are receiving this email, it is because you have a mantuatownship.com domain email address. Due to increasing cyber-attacks we are required from the JIF to take additional security initiatives to ensure cyber coverage. As a Mantua Township employee, you are not required to have your email on your phone but if you choose, **we require that all employees** whom have their email downloaded on their phone, additionally download the Microsoft Authenticator App from either your Google Play Store or Apple Store as the first step to implementing the 2FA. Once you have completed this, please email me so that Ancero can turn on 2FA (multi-factor authentication) and then we can proceed with the next step to this additional security. If you do not want to have 2FA on your phone, we ask that you uninstall outlook from your phone as this puts the town at risk for cyber-attacks.

Please reach out with any questions.

Thank you,

Candice Pennewell
Chief Financial Officer
Township of Mantua
401 Main Street
Mantua, New Jersey 08051
