Hi Brian,

Hope all is well. We met at Gary Scharfenberger's event at Seastreak a few weeks ago, you said you might be able to give more insight on how you adopted and structured cannabis legislation for a dispensary in Neptune City.

Would you be able to share what you deemed appropriate for a licensing fee for the dispensary? You only have one license currently correct?

Any insight on your current ordinances and zoning would be greatly appreciated as well.

Best,
Melissa
