CAUTION! Cutting, grinding, drilling, sanding and/or shaping of cured concrete product may release dust which can cause lung disease and other health issues. Unhardened concrete can cause severe skin irritation and/or burns. It is the sole responsibility of the user to wear protective clothing, masks, and eye protection when working with this product. If skin contact does occur wash exposed area promptly with water and seek medical attention. The strength of this concrete is based upon a slump of 3" - 4" when tested in accordance with ASTM C 94 - 2012. Additional water added to this concrete will reduce its strength. ***This load contains*** 190 ***gallons of water from the batch plant. The undersigned authorizes the ADDITION of*** 5 ***gallons of water onsite and hereby assumes responsibility for the strength and durability of the concrete once additional water is added. If a pump is used to place concrete, the purchaser should utilize High Range Water Reducer (HRWR) to adjust slump.***

Signature_____ **Print Name**_____

IMPORTANT NOTES: Any and all warranties shall be voided when exterior concrete is not placed in accordance with ACI Specifications (4500 psi air-entrained concrete properly cured and sealed); Contact between deicing salts and concrete causes surface deterioration; Purchaser must provide an area for trucks to wash down chute after discharge; Purchaser is responsible for requirements of ACI 305 and 306; *See REVERSE side of ticket for RESPONSIBILITY, DELAY AND DELIVERY TERMS.*

DELAYS

Seller's price for material delivered to the job-site is based upon promp unloading of trucks. Purchaser will be liable, at Seller's current rates, for all waiting time of trucks at site, in excess of free time allowed by Seller for unloading of each yard of concrete. Since Seller exerts every reasonable effort to maintain scheduled deliveries, Seller shall not be responsible for delays from causes beyond its control.

RESPONSIBILITY

This concrete covered hereby has been prepared in accordance with the information given by or on behalf of Purchaser to Seller. Seller shall have no responsibility to check any such specifications or any formula of designs herein on or which such specifications are based. Seller shall have no responsibility for any errors in any such specifications or for slump, yield strength or quality of any concrete prepared in accordance with such specifications. Purchaser will purchase from Seller at Purchaser's expense any admixtures required by it. Seller shall not be responsible for the effect of such admixtures of and to the concrete before and after delivery, and for all effects of and to the concrete before and after delivery, arising from such specifications. Seller shall not be responsible for slump, yield, strength or quality of any concrete to which water or any other material is added by or at the Purchaser's request. Seller is not responsible for concrete after delivery When concrete is required to meet a specific compressive strength test or when quality of character of the materials is to be determined, the concrete shall be tested only from samples taken from truck at time of delivery and subjected to ASTM Specifications which shall be decisive and controlling. Purchaser's exceptions and claims shall be deemed waived unless made in writing within 4 hours from the time of delivery. Seller shall be given full opportunity to investigate them. The word "Purchaser" as used herein shall include Purchaser, its employees, agents, representatives and contractors.

TERMS OR PURCHASE AND DELIVERY

1) If payments are in default of due date, a 1 1/2% Service Charge per month will be added (18% per year);

2) Purchaser accepts all responsibility for damage to vehicle or property when delivery requested off public roads;

3) Should account be placed for collection Purchaser agrees to pay a reasonable attorney's fee of Thirty (30%) Percent in addition to any court costs.

CAUTION! Cutting, grinding, drilling, sanding and/or shaping of cured concrete product may release dust which can cause lung disease and other health issues. Unhardened concrete can cause severe skin irritation and/or burns. It is the sole responsibility of the user to wear protective clothing, masks, and eye protection when working with this product. If skin contact does occur wash exposed area promptly with water and seek medical attention. The strength of this concrete is based upon a slump of 3" - 4" when tested in accordance with ASTM C 94 - 2012. Additional water added to this concrete will reduce its strength. ***This load contains _____ gallons of water from the batch plant. The undersigned authorizes the ADDITION of _____ gallons of water onsite and hereby assumes responsibility for the strength and durability of the concrete once additional water is added. If a pump is used to place concrete, the purchaser should utilize High Range Water Reducer (HRWR) to adjust slump.***

Signature_____ **Print Name** _____

IMPORTANT NOTES: Any and all warranties shall be voided when exterior concrete is not placed in accordance with ACI Specifications (4500 psi air-entrained concrete properly cured and sealed); Contact between deicing salts and concrete causes surface deterioration; Purchaser must provide an area for trucks to wash down chute after discharge; Purchaser is responsible for requirements of ACI 305 and 306; *See REVERSE side of ticket for RESPONSIBILITY, DELAY AND DELIVERY TERMS.*

DELAYS

Seller's price for material delivered to the job-site is based upon prompt unloading of trucks. Purchaser will be liable, at Seller's current rates, for all waiting time of trucks at site, in excess of free time allowed by Seller for unloading of each yard of concrete. Since Seller exerts every reasonable effort to maintain scheduled deliveries, Seller shall not be responsible for delays from causes beyond its control.

RESPONSIBILITY

This concrete covered hereby has been prepared in accordance with the information given by or on behalf of Purchaser to Seller. Seller shall have no responsibility to check any such specifications or any formula of designs therein on or which such specifications are based. Seller shall have no responsibility for any errors in any such specifications or for slump, yield, strength or quality of any concrete prepared in accordance with such specifications. Purchaser will purchase from Seller at Purchaser's expense any admixtures required by it. Seller shall not be responsible for the effect of such admixtures of and to the concrete before and after delivery, and for all effects of and to the concrete before and after delivery, arising from such specifications. Seller shall not be responsible for slump, yield, strength or quality of any concrete to which water or any other material is added by or at the Purchaser's request. Seller is not responsible for concrete after delivery. When concrete is required to meet a specific compressive strength test or when quality of character of the materials is to be determined, the concrete shall be tested only from samples taken from truck at time of delivery and subjected to ASTM Specifications which shall be decisive and controlling. Purchaser's exceptions and claims shall be deemed waived unless made in writing within 4 hours from the time of delivery. Seller shall be given full opportunity to investigate them. The word "Purchaser" as used herein shall include Purchaser, its employees, agents, representatives and contractors.

TERMS OR PURCHASE AND DELIVERY

1) If payments are in default of due date, a 1 1/2% Service Charge per month will be added (18% per year);

2) Purchaser accepts all responsibility for damage to vehicle or property when delivery requested off public roads;

3) Should account be placed for collection Purchaser agrees to pay a reasonable attorney's fee of Thirty (30%) Percent in addition to any court costs.

CONDITIONS

Roadway

Purchaser agrees to maintain suitable roadways for Seller's trucks to point of delivery. Purchaser is responsible for all damage by or to Seller's trucks after leaving street and for all resulting liability, loss or expense to Seller. Purchaser is responsible for all Tow Truck charges for Seller's vehicles past the curb line if required.

DELAYS

Seller's price for material delivered to the job-site is based upon prompt unloading of trucks. Purchaser will be liable, at Seller's current rates, for all waiting time of trucks at site, in excess of free time allowed by Seller for unloading of each yard of concrete. Since Seller exerts every reasonable effort to maintain scheduled deliveries, seller shall not be liable for delays from causes beyond its control.

RESPONSIBILITY

This concrete covered hereby has been prepared in accordance with the information given by or on behalf of Purchaser to Seller. Seller shall have no responsibility to check any such specifications or any formula of designs therein on or which such specifications are based. Seller shall have no responsibility for any errors in any such specifications or for slump, yield, strength or quality of any concrete prepared in accordance with such specifications. Purchaser will purchase from Seller at Purchaser's expense any admixtures required by it. Seller shall not be responsible for the effect of such admixtures of and to the concrete before and after delivery, and for all effects of and to the concrete before and after delivery, arising from such specifications. Seller shall not be responsible for slump, yield, strength or quality of any concrete to which water or any other material is added by or at the Purchaser's request. Seller is not responsible for concrete after delivery. When concrete is required to meet a specific compressive strength test or when quality of character of the material is to be determined, the concrete shall be tested only from samples taken from truck at time of delivery and subjected to A.S.T.M. specifications which shall be decisive and controlling. Purchaser's exceptions and claims shall be deemed waived unless made in writing within 4 hours from time of delivery. Seller shall be given full opportunity to investigate them. The word "Purchaser" as used herein shall include purchaser, its employees, agents, representatives and contractors.

TERMS

Payment shall be made as stated on the front side hereof, but all charge accounts shall be paid within 30 days. And further, purchaser, contractor/owner does hereby authorize and empower the Prothonotary, Clerk of Court or any Attorney of any Court of Record of Pennsylvania, or elsewhere, to appear, for and to confess judgement against purchaser for the sum due, as of any term, past, present or future, with or without declaration, with costs of suit, release or errors, without stay of execution and with 20 percent, added for collecting fees and to collect this note.

Warning: Injurious to Eyes.
Caused Skin Irritation
Read this Warning Before Using
Contains Portland Cement

Contact with wet, unhardened concrete, mortar, cement or cement mixtures can cause skin irritation, severe chemical burns or serious eye damage. Avoid contact with eyes and skin. Wear waterproof gloves, a fully-buttoned, long-sleeve shirt, full-length trousers and tight-fitting eye protection when working with these materials. If you have to stand in wet concrete, use waterproof boots that are tight at the top and high enough to keep concrete from flowing into them.

If you are finishing concrete, wear knee pads to protect knees. Wash wet concrete, mortar, cement or cement mixtures from your skin with fresh, clean water immediately after contact. Indirect contact through clothing can be as serious as direct contact, so promptly rinse wet concrete, mortar, cement or cement mixtures from clothing. Seek immediate medical attention if you have persistent or severe discomfort. In case of eye contact, flush with plenty of water for at lease 15 minutes. Consult a physician immediately.

KEEP OUT OF REACH OF CHILDREN.

USER AGREES TO CONVEY THIS WARNING TO ALL PERSONS WHO MAY USE OR COME INTO CONTACT WITH WET (UNHARDENED) CONCRETE, MORTAR, CEMENT OR CEMENT MIXTURES.

SILICOSIS

Silicosis is caused by exposure to respirable crystalline silica dust. Crystalline silica is a basic component of soil, sand, granite, and most other types of rock, and it is used as an abrasive blasting agent. **Silicosis** is a progressive, disabling, and often fatal lung disease. Cigarette smoking adds to the lung damage caused by Silica,

EFFECTS OF SILICOSIS

- Lung cancer - Silica has been classified as a human lung carcinogen.
- Bronchitis/Chronic Obstruction Pulmonary Disorder.
- Tuberculosis - Silicosis makes an individual more susceptible to TB.
- Scieroderma - a disease affecting skin, blood vessels, joints and skeletal muscles.
- Possible renal disease.

SYMPTOMS OF SILICOSIS

- Shortness of breath; possible fever.
- Fatigue; loss of appetite.
- Chest pain; dry, nonproductive cough.
- Respiratory failure, which may eventually lead to death.

SOURCES OF EXPOSURE

- Sandblasting for surface preparation.
- Crushing and drilling rock and concrete.
- Masonry and concrete work (e.g., building and road construction and repair).
- Mining/tunneling; demolition work.
- Cement and asphalt pavement manufacturing.

PREVENTING SILICOSIS

- Use all available engineering controls such as blasting cabinets and local exhaust ventilation, avoid using compressed air for cleaning surface.
- Use water sprays, wet methods for cutting, chipping, drilling, sawing, grinding, etc.
- Substitute non-crystalline silica blasting material.
- Use respirators approved for protection against silica; if sandblasting, use abrasive blasting respirators.
- Do not eat, drink or smoke near crystalline silica dust.
- Wash hands and face before eating, drinking, smoking away from exposure area.

Roadway

Purchaser agrees to maintain suitable roadways for Seller's trucks to point of delivery. Purchaser is responsible for all damage by or to Seller's rucks after leaving street and for all resulting liability, loss or expense to Seller. Purchaser is responsible for all Tow Truck charges for Seller's ehicles past the curb line if required.

DELAYS

Seller's price for material delivered to the job-site is based upon prompt unloading of trucks. Purchaser will be liable, at Seller's current rates, or all waiting time of trucks at site, in excess of free time allowed by Seller for unloading of each yard of concrete. Since Seller exerts every reasonable effort to maintain scheduled deliveries, seller shall not be liable for delays from causes beyond its control.

RESPONSIBILITY

This concrete covered hereby has been prepared in accordance with the information given by or on behalf of Purchaser to Seller. Seller shall iave no responsibility to check any such specifications or any formula of designs therein on or which such specifications are based. Seller shall nave no responsibility for any errors in any such specifications or for slump, yield, strength or quality of any concrete prepared in accordance with such specifications. Purchaser will purchase from Seller at Purchaser's expense any admixtures required by it. Seller shall not be responsible for the effect of such admixtures of and to the concrete before and after delivery, and for all effects of and to the concrete before and after delivery, arising from such specifications. Seller shall not be responsible for slump, yield, strength or quality of any concrete to which water or any other naterial is added by or at the Purchaser's request. Seller is not responsible for concrete after delivery. When concrete is required to meet a specific compressive strength test or when quality of character of the material is to be determined, the concrete shall be tested only from samples taken rom truck at time of delivery and subjected to A.S.T.M. specifications which shall be decisive and controlling. Purchaser's exceptions and claims shall be deemed waived unless made in writing within 4 hours from time of delivery. Seller shall be given full opportunity to investigate them. The word "Purchaser" as used herein shall include purchaser, its employees, agents, representatives and contractors.

TERMS

Payment shall be made as stated on the front side hereof, but all charge accounts shall be paid within 30 days. And further, purchaser, contractor/owner does hereby authorize and empower the Prothonotary, Clerk of Court or any Attorney of any Court of Record of Pennsylvania, or elsewhere, to appear, for and to confess judgement against purchaser for the sum due, as of any term, past, present or future, with or without declaration, with costs of suit, release or errors, without stay of execution and with 20 percent, added for collecting fees and to collect this note.

FAILURE TO PROPERLY CURE CONCRETE VOIDS ALL WARRANTIES.

BUYER'S COPY NO. 1

CONDITIONS

Roadway

Purchaser agrees to maintain suitable roadways for Seller's trucks to point of delivery. Purchaser is responsible for all damage by or to Seller's trucks after leaving street and for all resulting liability, loss or expense to Seller. Purchaser is responsible for all Tow Truck charges for Seller's vehicles past the curb line if required.

DELAYS

Seller's price for material delivered to the job-site is based upon prompt unloading of trucks. Purchaser will be liable, at Seller's current rates, for all waiting time of trucks at site, in excess of free time allowed by Seller for unloading of each yard of concrete. Since Seller exerts every reasonable effort to maintain scheduled deliveries, seller shall not be liable for delays from causes beyond its control.

RESPONSIBILITY

This concrete covered hereby has been prepared in accordance with the information given by or on behalf of Purchaser to Seller. Seller shall have no responsibility to check any such specifications or any formula of designs therein on or which such specifications are based. Seller shall have no responsibility for any errors in any such specifications or for slump, yield, strength or quality of any concrete prepared in accordance with such specifications. Purchaser will purchase from Seller at Purchaser's expense any admixtures required by it. Seller shall not be responsible for the effect of such admixtures of and to the concrete before and after delivery, and for all effects of and to the concrete before and after delivery, arising from such specifications. Seller shall not be responsible for slump, yield, strength or quality of any concrete to which water or any other material is added by or at the Purchaser's request. Seller is not responsible for concrete after delivery. When concrete is required to meet a specific compressive strength test or when quality of character of the material is to be determined, the concrete shall be tested only from samples taken from truck at time of delivery and subjected to A.S.T.M. specifications which shall be decisive and controlling. Purchaser's exceptions and claims shall be deemed waived unless made in writing within 4 hours from time of delivery. Seller shall be given full opportunity to investigate them. The word "Purchaser" as used herein shall include purchaser, its employees, agents, representatives and contractors.

TERMS

Payment shall be made as stated on the front side hereof, but all charge accounts shall be paid within 30 days. And further, purchaser, contractor/owner does hereby authorize and empower the Prothonotary, Clerk of Court or any Attorney of any Court of Record of Pennsylvania, or elsewhere, to appear, for and to confess judgement against purchaser for the sum due, as of any term, past, present or future, with or without declaration, with costs of suit, release or errors, without stay of execution and with 20 percent, added for collecting fees and to collect this note.

Warning: Injurious to Eyes.
Caused Skin Irritation
Read this Warning Before Using
Contains Portland Cement

Contact with wet, unhardened concrete, mortar, cement or cement mixtures can cause skin irritation, severe chemical burns or serious eye damage. Avoid contact with eyes and skin. Wear waterproof gloves, a fully-buttoned, long-sleeve shirt, full-length trousers and tight-fitting eye protection when working with these materials. If you have to stand in wet concrete, use waterproof boots that are tight at the top and high enough to keep concrete from flowing into them.

If you are finishing concrete, wear knee pads to protect knees. Wash wet concrete, mortar, cement or cement mixtures from your skin with fresh, clean water immediately after contact. Indirect contact through clothing can be as serious as direct contact, so promptly rinse wet concrete, mortar, cement or cement mixtures from clothing. Seek immediate medical attention if you have persistent or severe discomfort. In case of eye contact, flush with plenty of water for at lease 15 minutes. Consult a physician immediately.

KEEP OUT OF REACH OF CHILDREN.

USER AGREES TO CONVEY THIS WARNING TO ALL PERSONS WHO MAY USE OR COME INTO CONTACT WITH WET (UNHARDENED) CONCRETE, MORTAR, CEMENT OR CEMENT MIXTURES.

SILICOSIS

Silicosis is caused by exposure to respirable crystalline silica dust. Crystalline silica is a basic component of soil, sand, granite, and most other types of rock, and it is used as an abrasive blasting agent. **Silicosis** is a progressive, disabling, and often fatal lung disease. Cigarette smoking adds to the lung damage caused by Silica,

EFFECTS OF SILICOSIS

- Lung cancer - Silica has been classified as a human lung carcinogen.
- Bronchitis/Chronic Obstruction Pulmonary Disorder.
- Tuberculosis - Silicosis makes an individual more susceptible to TB.
- Scieroderma - a disease affecting skin, blood vessels, joints and skeletal muscles.
- Possible renal disease.

SYMPTOMS OF SILICOSIS

- Shortness of breath; possible fever.
- Fatigue; loss of appetite.
- Chest pain; dry, nonproductive cough.
- Respiratory failure, which may eventually lead to death.

SOURCES OF EXPOSURE

- Sandblasting for surface preparation.
- Crushing and drilling rock and concrete.
- Masonry and concrete work (e.g., building and road construction and repair).
- Mining/tunneling; demolition work.
- Cement and asphalt pavement manufacturing.

PREVENTING SILICOSIS

- Use all available engineering controls such as blasting cabinets and local exhaust ventilation, avoid using compressed air for cleaning surface.
- Use water sprays, wet methods for cutting, chipping, drilling, sawing, grinding, etc.
- Substitute non-crystalline silica blasting material.
- Use respirators approved for protection against silica; if sandblasting, use abrasive blasting respirators.
- Do not eat, drink or smoke near crystalline silica dust.
- Wash hands and face before eating, drinking, smoking away from exposure area.
