Trenton, NJ 08608

To Whom It May Concern:

I am writing to formally withdraw my candidacy for the Ewing School Board election. Unfortunately, I am unable to run due to a conflict of interest with my current employer. After submitting a request for approval to participate in the election process, my current employer advised it was not permitted for employees to appear on the ballot of a public election.

I decided to run because I have a passion for community work and wanted the opportunity to support the children of the community by being a member of the Ewing Board of Education. I want to express my gratitude for the support and encouragement I have received during the process. I look forward to volunteering for community work in another capacity.

I wish the Ewing School Board continued success in their efforts to provide a quality education for all students in the district. Thank you for your understanding and support.

Sincerely,

Shereen Primus
