Re: Proposal for Professional Services in 2025 – Special Projects Engineer

Dear Mr. Dolan:

CP Engineers, Architecture & Environmental Services (CP) is pleased to submit this Proposal, regarding our professional engineering services, to the Town of Dover. We have provided such professional engineering services to numerous public and private clients. We greatly appreciate the opportunity to provide this information to you and have endeavored to present a concise document which describes our extensive experience.

CP is a New Jersey Certified Small Business Enterprise with a forty (40) year history. CP has a proven record of success in providing engineering and architectural services to public agencies and private companies, including Site/Civil/Municipal, Water/Wastewater, Architectural MEP, Structural and Environmental Services.

Our firm prides itself on consistently meeting, and more importantly exceeding, our clients' needs and expectations. Through strong program management and an advanced streamlined operational approach, the scope, cost, and schedule of every project is met. Our focus is to be an extension of your team. We will ensure that every team member has the information needed in order to make the most informed decisions.

CP's philosophy is simple: provide the highest quality customer service, project management and engineering consulting services at a very cost-effective price, while recognizing and respecting the individual needs of each project and its budget.

CP believes in the following principles when providing engineering services:

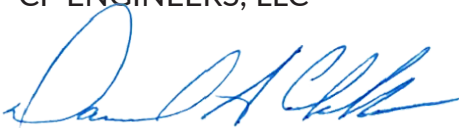

- Maintaining a close working relationship with clients – ownership of the firm is always involved.
- Being responsive to clients' needs and objectives – a high level of customer service.
- Rendering objective engineering recommendations – there are never any surprises.
- A high commitment to ensuring a fair, transparent, and equitable price for services.
- The scope and schedule of every project is correct and completed on time.

CP's staff has extensive experience representing municipalities, public authorities, educational institutions, and corporate entities throughout New Jersey. Our staff has many years of experience managing all aspects of Capital Improvement Projects, including: Loan/Grant acquisition and management; preparation of design plans and specifications; permitting and regulatory compliance; public bidding; and construction services for multi discipline capital projects. The firm's staff are recognized experts and have extensive professional backgrounds that jointly cover all aspects of wastewater engineering, including designing multi-discipline infrastructure projects, troubleshooting operational problems, and assisting with regulatory issues when they arise.

We are excited about the prospect of offering our services to the Town of Dover, and we pledge to provide the highest quality engineering services. Should you have any questions concerning our experience and qualifications, or desire further information, please do not hesitate to contact me.

Sincerely,

CP ENGINEERS, LLC

David A. Clark, P.E., C.M.E.
Vice President

SECTION 1

TECHNICAL CRITERIA

- Submission Form
- Firm Overview
- Service Capabilities

**TOWN OF DOVER
SUBMISSION FORM
(Additional sheets may be used but please use item number)**

1. Names and roles of the individuals who will perform the services and description of their education and experience with projects similar to the services contained herein including their education, degrees and certifications:

The employees from CP Engineers who will service the 2025 contacts are described in detail on the resume pages of this submission, located in Section 2. A detailed organizational chart shows the relationship between the CP employees in the departments they serve. Updated Professional Licenses are included after the resume pages in Section 2.

2. References and record of success of same or similar service:

CP professional references and a listing of current select municipal appointments are included in Section 2 of this submission.

3. Description of ability to provide the services in a timely fashion (including staffing, familiarity and location of key staff):

CP Engineers is ready, willing and able to serve the Township of Dover in 2025. Almost all of our staff lives and works in Morris and Sussex Counties, many within a few miles of Dover Township. CP has recently expanded beyond Sussex County with an office in Morris County, Parsippany Township, which has been open for 15 months and is staffed with some of our most experienced professionals.

4. Cost details, include the hourly rates (rate schedule) of each of the individuals who will perform services and all expenses for the period of 12 months:

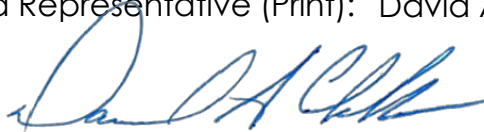

CP's detailed hourly rate sheet for 2025 is included in Section 2 of this submission.

Firm: CP Engineers, LLC

FIRM OVERVIEW

CP Engineers, Architecture & Environmental Services (CP) has been the firm of choice for public and private clients for over 40 years. Initially organized in 1983 and founded on professional excellence, hard work and integrity, CP is proud of its long history of client service and its consistent ability to meet tough engineering, environmental, applied science and quality & compliance consulting head on. Providing seasoned judgement, quality service, technical skill, vision, and resourcefulness, CP remains committed to achieving goals in step with the market and in harmony with the environment. CP is a privately held firm, with two New Jersey offices located at 11 Park Lake Road in Sparta and One Gatehall Drive in Parsippany, and a Pennsylvania office at 2013 Sandy Drive in State College.

CP is a multi-discipline consulting firm offering civil, mechanical, electrical, plumbing, structural and fire protection engineering, water and wastewater engineering, architectural, environmental and applied sciences. Our mission is to provide quality, cost effective and timely service to the private sector as well as federal, state, and local government. Our professionals are acknowledged as experts in their respective fields. The firm's expertise is within a variety of markets including Municipal and Government, Water and Wastewater, Energy, Industrial and Commercial, Education and Real Estate. Our success is largely based on, not only our expertise, but also our ability to involve and obtain consensus from all the stake holders involved in a project through consistent communication and the use of context sensitive design strategies.

*One Gatehall Drive
Parsippany, NJ*

*11 Park Lake Road
Sparta, NJ*

*2013 Sandy Drive
State College, PA*

Our capabilities include:

- ▶ Municipal Engineering
- ▶ Civil and Site Engineering
- ▶ Architectural Services
- ▶ Water Supply and Wastewater Engineering
- ▶ Solid Waste Engineering
- ▶ Mechanical, Electrical and Plumbing (MEP) Engineering
- ▶ Structural Engineering
- ▶ Environmental Engineering, Permitting and Regulatory Assistance

STAFF QUALIFICATIONS AND EXPERIENCE

CP was initially oriented toward the planning and design of municipal infrastructure projects. The company's capabilities have since grown to include full professional services in civil engineering, mechanical, electrical, plumbing and fire protection engineering, water and wastewater engineering, environmental and applied sciences. Every project is carried out under the direction of a Senior Professional with the authority to commit corporate resources and managed by a senior staff professional.

As a result of the multi-discipline nature of the firm, CP is your single source solution to complex and evolving business challenges. This unique composite allows us to provide our clients with effective, innovative and timely solutions to immediate challenges and opportunities, while simultaneously addressing long term business goals. We provide a single source of responsibility throughout the project and maintain consistency in our business relationship.

OPERATING PHILOSOPHY

The operating philosophy at CP is based on the following core values:

- ▶ **LEADERSHIP:** The client is at the center of all that we do as a company and success is measured by the added value that we bring.
- ▶ **SKILL:** Our people are the value we bring to the client and the foundation of who we are as a company.
- ▶ **ETHICS:** Excellence in quality and service is the standard and our full-time responsibility.
- ▶ **VISION:** We are one company always working toward our common goals.
- ▶ **INTEGRITY:** We honor the highest aspirations and ethical standards of our professions.
- ▶ **INNOVATION:** We are committed to the growth and financial strength of the company and the opportunities we create for our people.

CP ADVANTAGES

It is unusual to find in one company the experience and expertise needed to address such a broad range of issues while maintaining the customer service quality of a small firm. CP is such a company. For over four decades, CP has been providing the consulting, planning, design and construction period services for a wide range of clients, ranking among the most significant professional services firms in the area. Having all these professionals under one roof ensures an exceptional quality control process and reduced turnaround time. CP has developed a level of practical understanding and knowledge of the local contractors which allows us to administer the construction/execution phase so that our clients get the results they need, on time and on budget.

CP's services are augmented with full CAD capabilities by exclusive use of the latest AutoCAD versions which enable us to create 2- and 3-dimensional drawings. Along with the thousands of standard details, manufacturer's details and symbol libraries to help in the creation of our drawing files, CP's state-of-the-art computers, printers and plotters accomplish the varied needs of clients from traditional site and building design to GIS mapping and more.

With engineering, architectural and CAD technicians working closely together, we can produce high quality, comprehensive, well-coordinated and easy to understand contract drawings in a cost effective and timely manner.

PROJECT MANAGEMENT

The successful completion of projects requires a team characterized by strong project management, technical excellence and experience. The entire project team is responsible to the client's project director, who will be kept up to date on the progress of the work on a daily basis during important periods of work and at least weekly at all other times during the project.

CP utilizes a web-based time capture system that feeds directly into our cost accounting system facilitating real-time tacking of labor effort versus budget. Each project is reconciled on a monthly basis to ensure consistent progress and maintenance of project scope, cost and schedule.

The project manager is responsible for the review of vouchers from contractors and expense reports to verify that there is proper allocation to each task. The project manager will visit the site at critical times to ensure conformance with the contract documents. They will be responsible for coordinating tasks for the optimum utilization of manpower and materials.

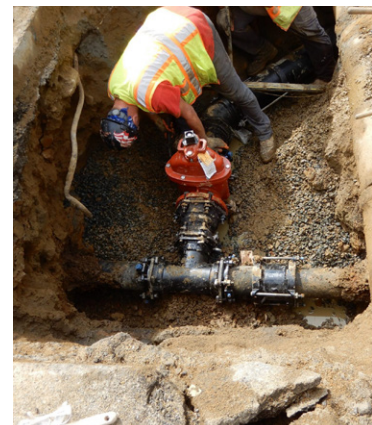

CP offers project continuity, knowledge of environmental regulations and building codes, and our ability to work closely with the client's staff. With the distinct ability to coordinate multiple projects and tasks simultaneously, the commitment of CP's management provides the resources and experience needed to bring about project success with timely and the most cost-effective conclusions.

SERVICE CAPABILITIES

The following outlines some of the services offered by CP Engineers:

CIVIL ENGINEERING

- Roadway reconstruction & resurfacing
- Site plans
- Street lighting
- Flood control and drainage
- Irrigation systems
- Sidewalks and curbs
- Storm drainage systems
- Water mains
- Local roadway study and analyses
- Subdivisions
- Streetscape design and visioning
- Parks, playgrounds & athletic fields
- Parking fields
- Bulkheads & Marinas
- Visual impact analyses
- Resident engineering inspections
- Survey and mapping
- Environmental impact statements
- Wetlands delineation
- Environmental permits and approvals
- Regulatory compliance
- Solid waste management and composting
- Landfill design and leachate recovery
- Retaining walls and berms
- Earthen and structural embankments

MECHANICAL, ELECTRICAL, PLUMBING AND FIRE PROTECTION (MEPF) ENGINEERING

- Comprehensive grant programs
- Feasibility analyses
- Sustainability
- Renovation of existing facilities
- Recreation, pools and parks planning
- Master plans and revisions
- Needs assessments
- Planning studies
- Building condition surveys
- Restoration of historic structures
- Removal of barriers to the handicapped
- Zoning ordinance review
- Electrical systems
- Feasibility and implementation studies
- Power supply
- Exterior and interior building services
- Closed circuit TV security systems
- Emergency power generation
- Site/systems and load evaluations
- Energy studies
- Site lighting
- Fire and security systems
- SCADA systems
- Utility company rebates and incentives
- HVAC system design
- Heat and cooling load analysis
- Steam systems
- Hydronics
- Heat recovery
- Chillers and cooling towers
- Laboratory ventilation systems
- Automatic temperature controls
- Site/systems evaluations
- Feasibility/implementation studies
- Energy conservation
- Cost/benefit analysis
- Fire protection systems

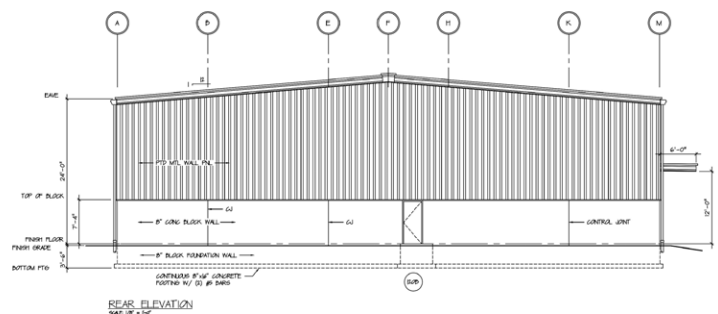

STRUCTURAL ENGINEERING

- Structural Analysis
- Damaged Structure Review
- Forensic Inspection
- Design of New Construction
- Design Review
- Renovations, Additions and Restorations
- Wastewater Treatment Plants
- Grade Beams
- Bridge Design
- Foundation Design
- Retaining Wall Design
- Fabrication and Shop Drawing Review
- Prefabricated and Modular Construction

ARCHITECTURAL

- Planning
 - Facility & Structural Evaluation
 - Site Selection Analysis
 - Facility Space Programming
- Studies/Reports/Surveys
 - Adaptive Re-Use Studies
 - Existing Conditions Surveys & Drafting
 - Code Compliance Studies
 - ADA Compliance Studies
- Architectural Design
 - Program Development
 - Schematic Design
 - Design Development
 - Construction Documents
 - Specifications
- Roofing
 - Analysis/Studies
 - Replacement
 - Maintenance
- Construction Administration
 - Bidding & Analysis
 - Construction Phase Management
- Post-Occupancy
 - Post-Occupancy Review
 - Maintenance and Warranty Review

WATER RESOURCES

- Supply well design
- Plant rehabilitation design
- Distribution system analysis and design
- Distribution system modeling
- Iron removal treatment systems
- Operation and maintenance programs
- Automated mapping/facilities mapping
- Storage tank design
- Storage tank rehabilitation
- Geographic Information Systems (GIS)
- Comprehensive groundwater modeling
- VOC removal treatment systems
- Water filtration systems
- Instrumentation and computer controls
- Surface water supply treatment
- Training programs
- Contract administration
- Construction oversight
- Asset management plans
- Standby power & storm resiliency
- Wastewater treatment plant design
- Treatment facility evaluation
- Asset management plans
- Outfalls and leaching systems
- Chemical feed systems
- Waste characterization
- Treatment system optimization
- Nutrient removal
- Wastewater management planning
- Wastewater reuse
- Sludge thickening, dewatering
- Sludge treatment, disposal
- Odor control
- UV and chemical disinfection systems
- Sewer system extension planning
- User cost analysis
- Prepare/ update sewer use ordinances
- NJPDES Permitting
- Sanitary sewers
- Sewer rehabilitation studies and design
- Infiltration/inflow evaluation
- Pump station evaluations and analyses
- Security systems
- Discharge monitoring reports
- Plant performance monitoring
- Preparation of O&M manuals
- Facility startup
- GW/Effluent monitoring programs
- Operator training
- Industrial pretreatment programs
- SCADA Systems
- Standby power & storm resiliency

ENVIRONMENTAL & APPLIED SCIENCES

- Process optimization and control
- Secondary containment
- Air and water pollution control
- Hazardous waste management
- Hazardous materials storage
- Waste minimization
- Environmental site assessments
- Environmental compliance audits
- Environmental permitting
- Site investigations
- Remedial investigations
- Feasibility studies
- Industrial hygiene
- Indoor air quality
- Risk assessment
- Soil and groundwater remediation
- Regulatory compliance programs
- Storage tank management
- Environmental/safety training courses
- Computer modeling

PFAS Treatment & Removal

- Management & Remediation of PFAS Levels
- Modification of Water Treatment Systems
- Elimination of Future Exposure
- Application of New Technologies
- Knowledge of New Jersey State & EPA Regulations and Guidelines

Water Treatment Systems - PFAS Removal

CP performed environmental and engineering consulting services for our confidential client in Sussex County. The client was in need of modifications to the Water Treatment System at a school property. CP reviewed and assisted in the materials necessary for the design, bid support and permitting regarding the installation of PFAS removal equipment for the school.

Water System PFOA Treatment

CP was retained by client to provide professional engineering services for the treatment of the water system to remove Perfluorooctanoic Acid (PFOA) from its drinking water. The project began with a technological evaluation and preliminary investigations to determine the required equipment needed, the sizes of equipment and a construction cost estimate. CP then performed engineering design for the chosen technology and equipment and secured water and land use permits in coordination with the NJDEP and the local Township. CP worked to prepare and coordinate the required NJDEP I-Bank documentation and will provide bid phase service for the installation.

PROFILE

David is a licensed Professional Engineer with more than 31 years of experience in civil/municipal and environmental engineering. During his career, he has managed projects for a vast client base including public, educational, and private clients involving infrastructure, facilities, and projects in the built environment.

His various and diverse experience encompasses analysis, design, and construction of civil engineering projects such as natural gas, water, and sanitary and storm water infrastructure. Furthermore, it includes building structural inspection and evaluation, structural design and analysis, geotechnical and foundation design, facilities management, recreation and athletic field design and layout, site plan and subdivision layout, grading, and roadways. Dave also has extensive experience with watershed hydrologic analyses, hydrologic and hydraulic analysis and design for storm water management facilities, individual subsurface disposal systems, petroleum facility design, dam hazard classification analyses, dam reconstruction and rehabilitation, and floodplain determinations for non-delineated waters.

Dave's environmental background and knowledge involves implementation and management of contaminant investigation and remediation design at hazardous materials or waste sites along with regulatory compliance and hazardous waste reduction protocols for a major petrochemical client. Additionally, He has pervasive experience in site remediation of soil and groundwater contamination, environmental permitting and regulatory compliance for civil engineering projects, and due diligence and regulatory compliance for commercial and industrial real estate transactions.

Dave maintains comprehensive knowledge of state, county and local regulatory and permitting requirements as they relate to the planning and implementation of engineering, utility and environmental projects, as well.

Dave has provided engineering design and consulting services for numerous New Jersey counties, municipalities and educational facilities. He served as Board Engineer for the City of Orange Township Zoning Board of Adjustment from 2008 to 2014 and again from 2016 to present and the Planning Board from 2008 to 2014 and again from 2015 to 2019 and a CP Engineer still represents the Planning Board presently. He also serves as the Land Use Board Engineer for the Borough of Mt. Arlington (2019 to present).

SELECTED PROJECT EXPERIENCE

- Coordinated and implemented numerous facilities projects for Sussex County Community College over the course of a year. Construction Engineer for \$2.89 MM architectural and HVAC upgrades to one of the main classroom facilities. Upgrades delivered on time and under budget for fall 2015 semester student and staff occupancy.
- Inspection and preparation of engineering reports for several large and small dams in central and northern New Jersey. Preparation of hydrologic and hydraulic analysis and reports for Class I dams. Design of dam repairs, reconstruction, and rehabilitation along with all associated permitting at various Class I and II dams, including overtopping protection, spillway re-design and bridge replacement over existing bridge spillway.
- Prepared design and construction plans for the structural repair of the Borough of Pompton Lakes' existing Department of Public Works facility building including structural steel, masonry, wood framing, and concrete repairs. Performed construction inspection and administration of the project.

AWARDED PROJECTS

Lake Tranquility Dam, 2011
NJ Society of Municipal
Engineers, Award Winning
Facility

SELECTED PROJECT EXPERIENCE CONTINUED

- Developed HVAC upgrade plans, bidding oversight, and construction administration and observation of two separate HVAC projects for air conditioning of 18 classrooms and a multi-purpose room for the Frankford Board of Education.
- Design-build project for the complete reconstruction of the primary access driveway due to a collapsed culvert at the Williams Transco natural gas facility in Carlstadt, New Jersey in conjunction with J. Fletcher Creamer. Design included 60 feet deep sheet pile headwalls with a unique design required to install the culvert after the headwalls were installed. It also involved the control of water and construction around a significant amount of existing utilities including high pressure natural gas transfer mains.
- Assisted the Mt. Arlington Borough in the submission for and receipt of grant funding from Morris County Parks Commission for the construction of hiking and biking trails in the Lake Rogerene area. Responsible for the preparation of trail design plans and contract documents in accordance with U.S. Forest Service guidelines, design of footbridge, prepared permit documents, and obtained requisite county and state environmental permits for the trail and bridge construction.
- Implemented the formal closure and compliance with the New Jersey Department of Environmental Protection (NJDEP) requirements of the Mt. Arlington Borough Landfill. Prepared design documents and permitting with NJDEP and NJ Highlands for the redevelopment of the landfill as a solar farm and Borough owned boat and recreational vehicle storage area.
- Coordinated with the Mt. Arlington Borough for the development and submission of two Green Acres applications for the disposition of existing Green Acres parkland and compensation with existing Borough owned land.
- Served as Land Use Board Engineer for the Borough of Mt. Arlington from 2019 to present.
- Acted as City of Orange Township's Planning Board Engineer 2008-May 2014 and April 2015-2019 and the Zoning Board of Adjustment Engineer from 2008-May 2014 and March 2016-present.
- Developed a commercial site for two 9,600 SF flex buildings for Airport Road Properties, LLC. Services included site planning, stormwater management design, individual subsurface sewage system design, local and county planning board approvals.
- Designed and constructed a 5,900 SF addition to the Township of Sparta's Recreation Department Maintenance Building at Station Park in partnership with internal Township departments and outside professionals.
- Provided engineering and environmental support for all Township department projects related to capital improvement, permitting, sit and construction inspection, and additional Township missions as a member of the office of the Township Engineer.
- Administered engineering and environmental permitting assistance to Chugach Technical Solutions, LLC in order to provide facility-wide building and construction support a various projects at Picatinny Arsenal, Rockaway Township, New Jersey.
- Developed site and civil design documents for the construction of a water treatment building and appurtenant structures to upgrade an existing water treatment facility for New Jersey American Water. Services provided include submission for local Land Use Board approval as well as requisite Freshwater Wetlands and Flood Hazard Area approvals from the NJDEP.
- Supplied site and civil design documents for the construction of a service building to upgrade an existing water supply facility and submitted them for local Land Use Board approval.

LICENSES & CERTIFICATIONS

Professional Engineer
New Jersey
Certified Municipal Engineer
New Jersey

PROFILE

I am a Licensed Professional Engineer and a Certified Municipal Engineer with significant experience in municipal improvement, land-use development, and environmental permitting projects. I have designed various site/civil, roadway improvement and stormwater management projects for both public and private clients. Furthermore, my experience includes recreation projects such as the design and layout of athletic/recreation field facilities and pedestrian trail systems. In addition, I have experience in municipal engineering from my time as member of the office of the Municipal Engineer in multiple municipalities as well as serving as the Planning Board Engineer for the City of Orange Township.

SELECTED PROJECT EXPERIENCE

- Reviewed Planning Board, Zoning Board, and Land Use Board applications for conformance with local Development Standards and Land Use Ordinances or Redevelopment Requirements for multiple municipalities from 2015 to present.
- Designed, prepared construction plans, and bid packages for various public roadway reconstruction, realignment and repaving projects. Provided construction administration and observation services associated with various public capital improvement projects in the Borough.
- Prepared design plans and bid packages for multiple public recreation projects in the Borough of Mount Arlington. Inclusive of the preparation of approved grant funding applications from the Morris County Parks Commission, preparation of county and state environmental permit applications, and design plans and contract documents in accordance with U.S. Forest Service guidelines.
- Prepared and submitted a Sanitary Landfill Closure Plan to the New Jersey Department of Environmental Protection and obtained approval and assisted in the design of the landfill redevelopment project for the former municipal landfill in the Borough of Mount Arlington.
- Designed a roadway restoration and curb construction project in the City of Summit.
- Provided engineering support for all Township projects related to capital improvement, permitting, site and construction inspection, and additional Township missions as a member of the office of the Township Engineer in the Township of Sparta.
- Administered the municipal Road Opening Permit Program for multiple municipalities from 2019 to present.
- Reviewed Planning Board, Zoning Board, and Land Use Board applications for conformance with local Development Standards and Land Use Ordinances or Redevelopment Requirements for multiple municipalities from 2015 to present.

SELECTED PROJECT EXPERIENCE (CONTINUED)

- Prepared site and civil design plans for the construction of a water treatment building and associated site improvements to upgrade an existing water treatment facility for New Jersey American Water. Prepared applications and supporting documentation for Freshwater Wetlands and Flood Hazard Area authorizations from the New Jersey Department of Environmental Protection.
- Prepared a Drainage Analysis of stormwater management infrastructure throughout a private community of approximately 2,700 homes. Administered the yearly cleaning and inspection of the stormwater management system for this community.
- Assisted in the preparation and submission of a Green Acres Diversion/Disposition Plan and associated documents in the Borough of Mount Arlington.
- Prepared site development plans for a private client in the Borough of Hopatcong for the construction of two commercial warehouse buildings, including stormwater management design and access permitting to the adjacent county roadway.
- Prepared design and construction plans for a new 7-mile vacuum sewer main and associated infrastructure and facilities for a New Jersey State public park on a coastal barrier island.

- Condev Repelling
- OSHA 30 HR Construction Safety and Health

PROFILE

I am a proficient engineering professional offering a wide range of services and expertise, with more than 18 years of experience in the Civil/Environmental and Ocean Engineering Fields. I have been responsible for project management, general construction services, QA/QC Compliance, project engineering, construction inspection and Contractor/Client relations. I am highly skilled in troubleshooting problems, creating and implementing solutions and overseeing operations.

I have played instrumental roles in the implementation of several large civil/environmental infrastructure projects and ocean engineering telecommunications projects through preparation of reports and documents, engineering design work and project execution. I have overseen and participated in projects ranging in cost from several thousand dollars to more than \$100 million.

I have been integral to the success of projects of significant size and complexity, with my roles including planning and preliminary design, detailed design and contract document preparation, construction management and contract administration, and startup/testing services. I bring to each project extensive project experience, focused attention to detail and sensitivity to client needs.

SELECTED PROJECT EXPERIENCE

- Served as Senior Construction Inspector during the construction of a 17.5-acre landfill cell at the Sussex County Solid Waste Facility. Employing special design techniques and utilizing state-of-the-art materials, we nearly doubled the capacity of the cell, greatly extending the life of the landfill.
- Performed construction phase inspection for Landfill Cell 2A Capping at the Sussex County Solid Waste Facility. The design incorporated a state-of-the-art double composite liner system, innovative HDPE gas collection and conveyance system and new permanent stationary flare. This allowed the facility to reduce the amount of leachate produced and paved the way for the future installation of a methane-to-electricity generation plant.
- Served as Senior Construction Inspector during the construction of a 7-acre landfill cell at the Warren County PCFA on behalf of the NJDEP, performing Quality Assurance.
- Performed various field engineering tasks for the Encap Landfill Project, including reporting and documenting all field changes and activities and QA/QC of all material entering the site.
- Served as Senior Construction Inspector during the repair and re-establishment of the 400-foot dam for the Scenic Lakes Community in Vernon, NJ. The project consisted of the installation of more than 7,000 cy of fill material to stabilize the failing dam, including drain piping and spillway reconstruction. Oversaw the compaction testing and coordinated geotechnical investigations where required.
- Served as Resident Engineer for the construction and startup phase of the Awosting WWTP Upgrade for the West Milford Municipal Utilities Authority. The plant retrofit serves additional capacity needs of the Awosting Community. The project retrofit consisted of the removal of the existing process and installation of a new Membrane Bioreactor Process, sludge holding tank, equalization tank, bar screen, fine screen, SCADA system and chemical dosing process. The retrofit upgraded an isolated WWTP in Northern New Jersey from an antiquated process to meet modern and future NJDEP permit requirements.

LICENSES & CERTIFICATIONS

AWARDED PROJECTS

Oxford WWTF Upgrade:
Presented with the Distinguished Engineering Award by the New Jersey Alliance for Action.

SELECTED PROJECT EXPERIENCE CONTINUED

- Served as Resident Engineer for the construction and startup phase of the Phase 3 Expansion of the Sussex County Municipal Utilities Authority Upper Wallkill Wastewater Treatment Plant. The plant expansion serves additional capacity needs of the Vernon Town Center Area. The project consists of a side stream treatment process to treat 265,000 gpd of wastewater into Class 2A groundwater standards for discharge to groundwater at a remote site in Vernon Township, as well as existing plant improvements, including a new clarifier and sludge pumping station. The expansion utilizes the Membrane Bioreactor Process to achieve the required level of treatment.
- Serving as the Resident Engineer for the Upgrade of the Oxford Wastewater Treatment Plant for the Warren County (Pequest River) Municipal Utilities Authority. The upgrade will allow the facility to meet new more stringent effluent limits for ammonia and phosphorous. Services I will provide for the duration of the project include planning, feasibility, design, onsite construction services, startup, inspection and client and contractor coordination.
- Provided onsite Construction Inspection and management services on two wastewater infrastructure replacement projects for Vernon Township, allowing the collection and delivery of wastewater to the Sussex County Wastewater Treatment Facility. The installation of gravity and force main sewers throughout Vernon Town Center included directional drilling, extensive roadwork and liaising between business owners and contractors. The installation of the Vernon Pump Station included a 20-foot deep wet well, block building and coordinating mechanicals on a 3:1 sloped mountainside.
- Provided onsite Construction Inspection and management services on two NJDOT Realignment Projects, including the installation of gravity and force main sewers, manholes, air release chambers and dry hydrants and the replacement of the potable water conveyance system within the realignment areas. Sewer TV inspections and jetting was imperative to locate additional sewer concerns within the Byram and Sussex Borough Township collection systems prior to NJDOT paving. Maintained constant direct interaction with the NJDOT Resident Engineer regarding conflicts with new storm sewers and existing Township utilities.
- Performed Township Engineering inspections and surveying for road replacement and resurfacing and utility replacement. Services included onsite inspection and engineering for the realignment and resurfacing of County and Township roads throughout Mt. Arlington, including curbing, sidewalks, lighting, reconstruction and reclamation.
- Provided onsite Coating & Construction inspection along with management services on multiple potable water storage tanks. Services included inspection of the replacement of steel purlins and support steel, safety and security upgrades, surface preparation and coating system installation as per NACE requirements. Specification writing and plan preparation along with Contractor and Client relations. Clients include American Water Military Southeast Morris County MUA North Jersey Water District Supply Commission and various Townships.
- Performed onsite inspection of critical potable water crossings for the NJAW water system throughout New Jersey. Provide recommendations for repairs and/or restorations based on findings. Create plans and specifications for repairs and oversee onsite construction.

PROFILE

As an experienced construction inspector for CP Engineers, Architects & Environmental Services, I have project experience in reading Rebar Shop, Structural, MEP, Civil, CAD and Architectural Drawings. Specifically, I have extensive knowledge regarding reading and interpreting project specifications and blue prints. I am also well versed in reinforced concrete and masonry procedures. I am proficient in Microsoft Office, Word, Power Point, Excel and ProCore software. I am fluent in three languages, English, Spanish and Portuguese.

SELECTED PROJECT EXPERIENCE

- Overall management of field operations including cost management, daily construction activities and goals, labor tracking/scheduling, and daily reports.
- Lead geotech and field managing inspector at North American LG Electronics Main Office in Englewood Cliffs.
- Coordinating with general contractors, subcontractors, quality control, and town/DCA inspectors to ensure compliance with construction code and approved specifications.
- Coordinating with project management staff to track overall progress and manage project schedule.
- Ordering and scheduling delivery of construction materials, equipment, and tools.
- Meeting with town and third party inspectors to ensure quality of work meets specifications.
- Recommending measures to improve production methods, equipment performance, final product quality and crew performance.
- Performing multiple inspections a day such as; concrete, concrete placement, rebar, masonry.
- Ensuring a safe and healthy work environment for workers by following OSHA regulations.
- Providing thorough inspection reports and maintain detailed records.
- Quality assurance representative inspecting active construction work and personally performing construction materials testing.
- Extensively reviewing and utilizing structural, architectural, steel shop drawings.
- Training inspectors as well as managing teams of inspectors during large-scale concrete pours.
- Ensured finished products remained structurally stable and accurate to the required dimensions.
- Coordinated with supporting departments to always ensure products produced to the deadlines.

LICENSES & CERTIFICATIONS

Professional Engineer

- New Jersey
- Pennsylvania

PROFILE

I am a licensed Professional Engineer with over 25 years of experience in mechanical engineering and project management. During the course of my career, I have worked on diverse projects that span from equipment design to complete plant thermal hydraulic analyses. I have managed multi-disciplinary project teams that worked on complex jobs such as analyses and plant modifications for nuclear power plants, emergency generator installations, and HVAC system upgrades. I have played a key role in the design of spent fuel storage facilities, piping system modifications, security updates, and thermal hydraulic analyses to evaluate potential accident scenarios. My design engineering experience includes design of pressure vessels, heat exchangers, and HVAC design. I have also provided technical support to operating facilities and new plant design.

SELECTED PROJECT EXPERIENCE

- Managed the replacement of the cooling system components including the primary cooling tower at the Selective Insurance Company of America corporate headquarters.
- Served as the project lead for the installation of standby generator transfer switches to allow rapid connection at Jersey City's Fire and Police stations.
- Led the design team of an HVAC system upgrade for the laundry building at the United States Military Academy at West Point.
- Managing a team for the bid and construction phase services for the installation of a standby generator for the White Oak Ridge Pumping Station of the East Orange Water Commission. Services include the installation of a 2,000kW, 5kV outdoor diesel, 5kV transfer switchgear, and 1,000kW load bank.
- Directed a multi-disciplinary team project for two years to prepare Entergy's James A. FitzPatrick nuclear power plant for catastrophic weather events. Coordinated design work that included: construction of new, robust equipment storage buildings; redundant diesel generator installations; plant piping and hydraulic configurations; and provisions for integrating resources from offsite.
- Acted as lead engineer for HVAC system design for Control Room's new mechanical room at a nuclear power plant. Mechanical room was an extension of the Control Room and had fire protection, room pressurization, and security requirements beyond those mandated by building code.
- Led the design engineering of a freestanding air conditioning system that required all ductwork to be seismically supported from the 20+ foot ceiling in a nuclear power plant.
- Served as lead engineer for two years to develop a combined construction and operating license application for a new nuclear power plant.
- Collaborated on a project to evaluate the effects of multiple spurious operations of fire protection system components.
- Managing various water main extension projects for the Borough of Mount Arlington to improve water quality and system reliability.
- Managing various wastewater projects for the Borough of Mount Arlington to provide service to additional customers and improve system reliability.
- Managing a wastewater project for the Township of Sparta to convert an aging wastewater treatment plant to a pumping station.

PROFILE

Matthew is an experienced designer and inspector with a background in Individual subsurface disposal systems, land use development projects, residential reconstruction projects and forensic engineering. He is proficient in design, project management, construction observation, QA/QC compliance and contractor/client relations.

SELECTED PROJECT EXPERIENCE

- Northern New Jersey Region – Oversaw the completion of several rehabilitation projects, including two multi-million dollar building rehabilitation projects, including the overall site inspection, deficiency reporting, design & analysis, technical specifications, bidding and construction coordination efforts.
- Sparta, NJ - Participated in the design, technical specification development, permitting and construction oversight of two waste-water treatment system force mains located in environmentally sensitive areas.
- Warren County, NJ – Performed the inspection, reporting, design and construction oversight of a community-wide deck, siding and framing replacement project. Prepared technical specifications for a CCTV sewer main inspection as well as technical specifications for a mechanical screening.
- Statewide – Inspected buildings, structures and sites for conformance with approved site plans. My forensic analyses and reports were used in negotiation efforts and litigation between community associations and developers. Additionally, I was responsible for the analysis of previously weakened structural building components to determine the remaining strength in an effort to save clients' money during multi-year construction projects.
- Rockaway, NJ – Assisted with the preparation of technical specifications for the upgrade of an existing Air Stripping Plant.
- Oxford, NJ – Assisted with the preparation of technical specifications for a UV Disinfection system to be used in an existing open channel wastewater treatment plant. Also performed a structural analysis of proposed renovations and sized appropriate beams/members to carry necessary loads. Prepared technical specifications and plans for repair and rehab of a wastewater treatment plant access road.
- Morris County, NJ – Reviewed technical deficiency reports for existing water storage tanks and developed site plans to repair water storage tanks to bring them up to current safety codes and standards.
- Morris/Sussex Counties, NJ – Developed Soil Erosion and Sediment Control plans.
- NJ/NY – Designed and inspected more than 1,000 individual subsurface disposal systems. Performed laboratory soil and fill testing and on-site in-situ soil tests and test holes.
- Additionally, I have experience in preparing Planning Board site plans, TWA applications and preparing detailed engineer's reports.

LICENSES & CERTIFICATIONS

Engineer-in-Training
New Jersey

Stormwater Training
NJDEP Design Review Course

Green Infrastructure Training
Rutgers University

PROFILE

I am a certified Engineer-in-Training in the State of New Jersey. Thus far in my civil engineering career, I have focused on municipal infrastructure improvement projects, as well as various site, roadway, and stormwater management projects, providing engineering assistance to Senior Project Managers and Engineers in the development of plans and applications, and conducting site visits.

SELECTED PROJECT EXPERIENCE

- Assisted in the preparation of a Soil Erosion and Sediment Control Plan and NJDEP permit application for a roadway drainage rehabilitation project at Picatinny Arsenal.
- Reviewed Planning Board, Zoning Board, and Land Use Board Applications for conformance with local Development Standards and Land Use Ordinances for the City of Orange, Borough of Mount Arlington, and Township of Sparta.
- Assisted in providing engineering support for municipal projects related to capital improvement, permitting, construction inspection, and additional projects as a member of the office of the Municipal Engineer in the Township of Sparta and Borough of Mount Arlington.
- Assisted in the design and preparation of construction drawings, estimates, and bid packages for various public roadway reconstruction, realignment, and repaving projects.
- Assisted in the preparation of drawings, estimate, and bid package for the White Lake 2022 Athletic Fields project for Sparta Township.
- Assisted in the design and preparation of site development plans for a private client in the Borough of Hopatcong for the construction of a warehouse building and associated site improvements.
- Assisted in the design and preparation of site development plans for several private clients in the cannabis cultivation and cannabis retail business.
- Assisted in the design of stormwater management systems and prepared Stormwater Management Reports for various site development projects.

PROJECT PROFILE

Project Profile:	Borough of Mount Arlington 2020 Logan Way Roadway Reconstruction (CP Project No. 576C024)
Client Contact:	Carolyn Rinaldi Borough Administrator (973) 398-6832
Project Duration:	May 2020 through April 2022
Professional Fee:	\$100,000 (inclusive of survey, geotechnical investigation, design, SESC permitting, and construction admin services)
Project Cost:	\$343,000

Project Description:

CP prepared the design and construction documents for the reconstruction of Logan Way in the Borough of Mount Arlington. Approximately 1,000 LF (0.19 miles) of roadway was reconstructed along with the installation of curb and drainage improvements. Bids were received by Mount Arlington, reviewed by CP and the Borough's legal counsel, with CP preparing the recommendation to award documents. CP provided construction administration and observation services and was the liaison with the local residents on this project.

PROJECT PROFILE

Project Profile: Borough of Mount Arlington
2018 NJDOT Roadway Restoration Project
(CP Project No. 576C007)

Client Contact: Carolyn Rinaldi
Borough Administrator
(973) 398-6832 x116

Project Duration: March 2019 through July 2021

Professional Fee: \$190,000 (inclusive of design, NJDOT
Municipal Aid grant administration and
construction services)

Project Cost: \$875,000

Project Description:

CP prepared the design and construction documents for the restoration of Henmar Road, North Glen Avenue and a portion of Seasons Drive in the Borough of Mount Arlington. Approximately 6,300 LF (1.19 miles) of roadway was restored along with associated drainage improvements and the construction and/or rehabilitation of ADA compliant sidewalk ramps. Bids were received by Mount Arlington, reviewed by CP and the Borough's legal counsel, with CP preparing the recommendation to award. CP provided construction administration and observation services and was the liaison with the local residents on this project. Throughout the project, CP administered the grant received by the Borough from the NJDOT Municipal Aid Program (SAGE).

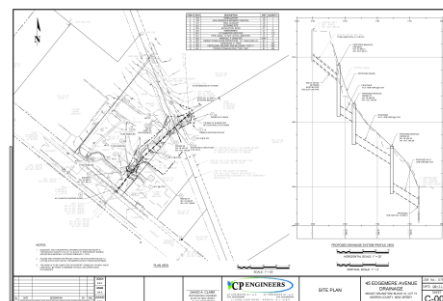

PROJECT PROFILE

Project Profile:	Borough of Mount Arlington 45 Edgemere Avenue Drainage (CP Project No. 576C003)
Client Contact:	Carolyn Rinaldi Borough Administrator (973) 398-6832
Project Duration:	September 2019 through July 2020
Professional Fee:	\$31,200 (inclusive of design, permitting, and construction administration services)
Project Cost:	\$136,519.20

Project Description:

CP prepared the design and construction documents for the lining of an existing drainage pipe, the installation of 3 storm water manholes and 200 linear feet of HDPE drainage pipe, and the removal and restoration of the existing drainage trench. Bids were received by Mount Arlington, reviewed by CP and the Borough's legal counsel, with CP preparing the recommendation to award documents. CP provided construction administration and observations services and was the liaison with the local residents on this project. The project was successfully completed on-time and on-budget, inclusive of a project scope update to accommodate design modifications for the pipe termination resulting from negotiations with the adjacent property owner (Morris County).

PROJECT PROFILE

Project Profile: Borough of Rockaway
Water Treatment Plant – Air Stripper
Improvements
(CP Project No.579.103)

Client Contact: Thomas Slockbower
DPW Superintendent
(973) 627-7025

Project Duration: August 2019 – July 2020

Professional Fee: \$34,000

Project Cost: \$150,000

Project Description:

CP provided design, regulatory compliance, bid and construction phase services for improvements to the Air Stripping Tower at the Borough's Water Treatment facility. The Stripping Tower removes VOC's from the Borough's groundwater wells which provide water to the entire Borough, as well as parts of Rockaway Township. Improvements included; replacement of the packing with higher efficiency material, replacement of the air system, addition of an air filtration system, and piping changes within the building to enhance operations. The project was completed on time and below the project budget.

PROJECT PROFILE

Project Profile: Summit Sewer and General
Architectural and Engineering
Services Consultant

Client Contact: Aaron Schrager, PE, CME, PP
Director - Department of Community
Services & City Engineer
(908) 277-9440

Project Duration: 2023 through current

Professional Fee: \$200,000

Project Description:

As the Sewer and General A/E Consultant, CP maintains weekly office hours at the municipal building to address ongoing capital projects, bid phase services, and resident concerns.

Services Performed include:

- Architectural Services
- Municipal Facilities Building Expansion
- Upgrades to DPW Facility
- Site Planning
- Flood Analysis

During weekly office hours at the municipal building, CP's staff assists the engineering department with coordination and planning of current and future capital projects.

PROJECT PROFILE

Project Profile: Township of Sparta
Houses Corner Road Improvements Project
(CP Project No. 620C058)

Client Contact: James Zepp
Director, Public Works
(973) 729-6178

Project Duration: February 2022 through Present

Professional Fee: \$23,000 (including grant administration)

Project Cost: \$475,500

Project Description:

CP prepared design and construction documents to assist Sparta Township in utilizing cooperative purchasing for the restoration of a portion of Houses Corner Road. Approximately 8,300 LF (1.57 miles) of roadway were restored along with associated drainage improvements constructed by the Township DPW. Throughout the project, CP has administered the grant received by the Township from the NJDOT Municipal Aid Program (PMRS).

PROJECT PROFILE

Project Profile:	Township of Sparta White Lake Recreational Facility Athletic Fields Expansion Project (CP Project No. 620C061)
Client Contact:	Josh Hertzberg Councilman (201) 779-3075
Project Duration:	May 2022 – December 2022
Professional Fee:	\$98,400 (inclusive of design, permitting, and construction support)
Project Cost:	\$3,000,000

Project Description:

The Township of Sparta retained CP to provide design and bidding phase services for the construction of new athletic fields and associated improvements at the White Lake Fields facility. The design includes four new softball fields with large outfields to provide suitable area for other athletic and recreational activities, vehicle access and parking, stormwater management, landscaping, and provisions for the construction of future improvements. CP supported the Township during the public bidding process as well as reviewed the bid(s) received by the Township and provided a recommendation for the award for the construction contract.

PROJECT PROFILE

Project Profile:	Borough of Mount Arlington Lake Rogerene Trails Project (CP Project No. 576C011)
Client Contact:	Carolyn Rinaldi Borough Administrator (973) 398-6832 x116
Project Duration:	July 2018 through May 2021
Professional Fee:	\$66,200 (inclusive of permitting, design, bid services and construction services)
Project Cost:	\$292,000

Project Description:

The Borough of Mount Arlington retained CP to provide design, bidding, regulatory permitting and construction phase services for the rehabilitation and expansion of existing recreational trails and trailhead access parking. The design of the new trails was performed in conformance with Morris County Trail Construction Grant Program requirements and the project complied with applicable NJDEP freshwater wetlands and flood hazard area permitting requirements. Bids were received by Mount Arlington, reviewed by CP and the Borough's legal counsel, with CP preparing the recommendation to award documents. CP provided construction administration and observation services and was the liaison with the local residents on this project.

PROJECT PROFILE

Project Profile:	Borough of Mount Arlington Recycling Center Walls (CP Project No. 576C009)
Client Contact:	Carolyn Rinaldi Borough Administrator (973) 398-6832 x116
Project Duration:	July 2018 through November 2019
Professional Fee:	\$47,700 (inclusive of design and construction services)
Project Cost:	\$194,850

Project Description:

CP prepared the design and construction documents for demolition of existing retaining block retaining walls and construction of new concrete retaining walls and pads at Mount Arlington Borough's recycling center facility. This facility is utilized by residents of the Borough for their recycling needs. Bids were received by Mount Arlington, reviewed by CP and the Borough's legal counsel, with CP preparing the recommendation to award documents. CP provided construction administration and observation and was the liaison with the local residents for this project. The project was successfully completed on-time and on-budget.

PROJECT PROFILE

Project Profile: Chugach Industries
Building 3150 Design Parking Area
(CP Project No. 986.005)

Client Contact: Robert Llewellyn
Public Works Manager
(973) 724-4645

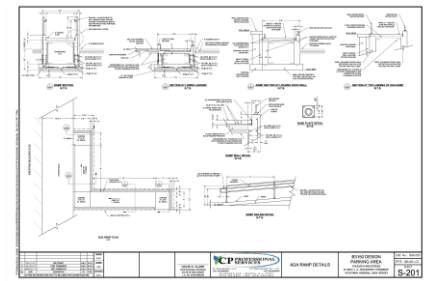

Project Duration: June 2017 through February 2018

Professional Fee: \$67,200

Project Cost: \$750,000

Project Description:

CP prepared the design and construction documents for the rehabilitation of the parking lot for Building 3150 on Picatinny Arsenal. The design included an ADA compliant ramp to access the building from the parking area as well as concrete retaining wall repair, concrete retaining wall construction, asphalt restoration, and parking area lighting improvements. The design was completed on-time and on-budget.

PROJECT PROFILE

Project Profile: City of New Brunswick
Buccleuch Park Facilities Renovations
(CP Project No. 627.001)

Client Contact: Thomas D. Valienti
Director of Engineering & Public Works
(732) 745-5056

Project Duration: February 2023 through ongoing

Professional Fee: \$39,000

Project Cost: \$1,200,000

Project Description:

CP Engineers was retained by the City of New Brunswick to perform architectural design services for the renovations to the gazebo, the pavilion, and restrooms at Buccleuch Park. This expansive public park is located on 78 acres in Middlesex County.

PROJECT PROFILE

Project Profile:: Jersey City Division of Architecture
Hamilton Park Gazebo
Repair Project
(CP Project No. 623.003)

Client Contact: Brian F. Weller, L.L.A.
Director
(201) 547-5900

Project Duration: March 2017 through July 2018

Professional Fee: \$29,950

Project Cost: \$326,350

CP developed the design drawings and specifications required to repair the gazebo which was impacted by a truck. The repairs included replacing a basement wall (including a security door and window) and part of the gazebo floor; providing a new electrical service from the utility to the gazebo; relocating park lighting and playground water controls.

2025 SCHEDULE OF FEES AND CHARGES

The following describes the basis for compensation for services performed during the calendar year 2025, effective January 1, 2025. This Schedule of Fees and Charges will be adjusted annually on January 1 of each subsequent year to reflect changes in the cost of conducting business for the new year.

PERSONNEL CHARGES

The charge for all time required in the performance of the Scope of Services, including office, field and travel time, will be at the Hourly Rate set forth below for the labor classifications indicated.

<u>Labor Classification</u>	<u>Hourly Rate</u>
Senior Principal	220
Principal	210
Senior Project Manager	198
Project Manager	190
Senior Design Engineer	196
Design Engineer	192
Senior Project Engineer	182
Project Engineer	167
Assistant Project Engineer	160

NEW JERSEY ANTI-DISCRIMINATION PROVISIONS
N.J.S.A. 10:2-1 ET SEQ.

Pursuant to N.J.S.A. 10:2-1, if awarded a contract, the contractor agrees that:

a. In the hiring of persons for the performance of work under this contract or any subcontract hereunder, or for the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under this contract, no contractor, nor any person acting on behalf of such contractor or subcontractor, shall, by reason of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex, discriminate against any person who is qualified and available to perform the work to which the employment relates;

b. No contractor, subcontractor, nor any person on his behalf shall, in any manner, discriminate against or intimidate any employee engaged in the performance of work under this contract or any subcontract hereunder, or engaged in the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under such contract, on account of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex;

c. There may be deducted from the amount payable to the contractor by the contracting public agency, under this contract, a penalty of \$50.00 for each person for each calendar day during which such person is discriminated against or intimidated in violation of the provisions of the contract; and

d. This contract may be canceled or terminated by the contracting public agency, and all money due or to become due hereunder may be forfeited, for any violation of this section of the contract occurring after notice to the contractor from the contracting public agency of any prior violation of this section of the contract.

A handwritten signature in blue ink, appearing to read "Dan A. Chalk", is positioned below the text of the contract provisions.

Americans with Disabilities Act of 1990

The CONTRACTOR and the OWNER do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "ACT") (42 U.S.C. § 12101 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant thereto, are made a part of this contract. In providing any act, benefit, or service on behalf of the OWNER pursuant to this contract, the CONTRACTOR agrees that the performance shall be in strict compliance with the Act. In the event that the Contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the CONTRACTOR shall defend the OWNER in any action or administrative proceeding commenced pursuant to this Act. The Contractor shall indemnify, protect, and save harmless the OWNER, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The CONTRACTOR shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the OWNER grievance procedure, the CONTRACTOR agrees to abide by any decision of the OWNER which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the OWNER or if the OWNER must incur any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the CONTRACTOR shall satisfy and discharge the same at its OWN expense.

The OWNER shall, as soon as practicable after a claim has been made against it, give written notice thereof to the CONTRACTOR along with full and complete particulars of the claim. If any action or administrative proceedings is brought against the OWNER or any of its agents, servants, and employees, the OWNER shall expeditiously forward or have forwarded to the CONTRACTOR every demand, complaint, notice, summons, pleading, or other process received by the OWNER or its representatives.

It is expressly agreed and understood that any approval by the OWNER of the services provided by the CONTRACTOR pursuant to this contract will not relieve the CONTRACTOR of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the OWNER pursuant to this paragraph.

It is further agreed and understood that the OWNER assumes no obligation to indemnify or save harmless the CONTRACTOR, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the CONTRACTOR expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the CONTRACTOR'S obligations assumed in this Agreement, nor shall they be construed to relieve the CONTRACTOR from any liability, nor preclude the OWNER from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.

Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.

A handwritten signature in blue ink, appearing to read "Dan A. Clark", is written over a horizontal line.

PAY TO PLAY ADVISORY
Disclosure Requirement
P.L. 2005, Chapter 271, Section 3 Reporting
(N.J.S.A. 19:44A – 20.27)

Any business entity that has received \$50,000 or more in contracts from government entities in a calendar year will be required to file an annual disclosure report with ELEC.

The report will include certain contributions and contract information for the current calendar year.

At a minimum, a list of all business entities that file an annual disclosure report will be listed on ELEC's website at www.elec.state.nj.us.

If you have any questions please contact ELEC at:
1-888-313-ELEC (toll free in NJ) or
609-292-8700

An analyst from ELEC's Special Programs Section will assist you.

STATEMENT OF OWNERSHIP DISCLOSURE

N.J.S.A. 52:25-24.2 (P.L. 1977, c.33, as amended by P.L. 2016, c.43)

This statement shall be completed, certified to, and included with all bid and proposal submissions. Failure to submit the required information is cause for automatic rejection of the bid or proposal.

Name of Organization: CP Engineers, LLC

Organization Address: 11 Park Lake Road, Sparta, NJ 07871

Part I Check the box that represents the type of business organization:

- ☐ Sole Proprietorship (skip Parts II and III, execute certification in Part IV)
- ☐ Non-Profit Corporation (skip Parts II and III, execute certification in Part IV)
- ☐ For-Profit Corporation (any type) ☒ Limited Liability Company (LLC)
- ☐ Partnership ☐ Limited Partnership ☐ Limited Liability Partnership (LLP)
- ☐ Other (be specific): _____

Part II

- ☒ The list below contains the names and addresses of all stockholders in the corporation who own 10 percent or more of its stock, of any class, or of all individual partners in the partnership who own a 10 percent or greater interest therein, or of all members in the limited liability company who own a 10 percent or greater interest therein, as the case may be. **(COMPLETE THE LIST BELOW IN THIS SECTION)**

OR

- ☐ No one stockholder in the corporation owns 10 percent or more of its stock, of any class, or no individual partner in the partnership owns a 10 percent or greater interest therein, or no member in the limited liability company owns a 10 percent or greater interest therein, as the case may be. **(SKIP TO PART IV)**

(Please attach additional sheets if more space is needed):

Name of Individual or Business Entity	Address
CP Consulting Engineers, Inc.	11 Park Lake Road, Sparta, NJ 07871

Part III DISCLOSURE OF 10% OR GREATER OWNERSHIP IN THE STOCKHOLDERS, PARTNERS OR LLC MEMBERS LISTED IN PART II

If a bidder has a direct or indirect parent entity which is publicly traded, and any person holds a 10 percent or greater beneficial interest in the publicly traded parent entity as of the last annual federal Security and Exchange Commission (SEC) or foreign equivalent filing, ownership disclosure can be met by providing links to the website(s) containing the last annual filing(s) with the federal Securities and Exchange Commission (or foreign equivalent) that contain the name and address of each person holding a 10% or greater beneficial interest in the publicly traded parent entity, along with the relevant page numbers of the filing(s) that contain the information on each such person. **Attach additional sheets if more space is needed.**

Website (URL) containing the last annual SEC (or foreign equivalent) filing	Page #'s

Please list the names and addresses of each stockholder, partner or member owning a 10 percent or greater interest in any corresponding corporation, partnership and/or limited liability company (LLC) listed in Part II **other than for any publicly traded parent entities referenced above**. The disclosure shall be continued until names and addresses of every noncorporate stockholder, and individual partner, and member exceeding the 10 percent ownership criteria established pursuant to N.J.S.A. 52:25-24.2 has been listed. **Attach additional sheets if more space is needed.**

Stockholder/Partner/Member and Corresponding Entity Listed in Part II	Address
Stanley G. Puszcz	25 Pheasant Walk, Sparta, NJ 07871
Stephen E. Donati	55 Waters Edge Road, Sparta, NJ 07871

Part IV Certification

I, being duly sworn upon my oath, hereby represent that the foregoing information and any attachments thereto to the best of my knowledge are true and complete. I acknowledge: that I am authorized to execute this certification on behalf of the bidder/proposer; that the **Township** is relying on the information contained herein and that I am under a continuing obligation from the date of this certification through the completion of any contracts with **Township** to notify the **Township** in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification, and if I do so, I am subject to criminal prosecution under the law and that it will constitute a material breach of my agreement(s) with the, permitting the **Township** to declare any contract(s) resulting from this certification void and unenforceable.

Disclosure of Investment Activities in Iran

Person or Entity

CP Engineers, LLC

Part 1: Certification

COMPLETE PART 1 BY CHECKING **EITHER BOX.**

Pursuant to Public Law 2012, c. 25, any person or entity that is a successful bidder or proposer, or otherwise proposes to enter into or renew a contract, must complete the certification below to attest, under penalty of perjury, that neither the person or entity, nor any parent entity, subsidiary, or affiliate is identified on the State Department of Treasury's Chapter 25 list as a person or entity engaging in investment activities in Iran. The list is found on Treasury's website at www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf.

The Chapter 25 list must be reviewed prior to completing the below certification. If a vendor or contractor is found to be in violation of law, action may be taken as appropriate and as may provided by law, rule or contract, including but not limited to imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

☒

I certify, pursuant to Public Law 2012, c. 25, that neither the person or entity listed above, nor any parent entity, subsidiary, or affiliate thereof is listed on the N.J. Department of the Treasury's list of entities determined to be engaged in prohibited activities in Iran pursuant to P.L. 2012, c. 25 ("Chapter 25 List"). I further certify that I am the person listed above, or I am an officer or representative of the entity listed above and am authorized to make this certification on its behalf. I will skip Part 2 and sign and complete the Certification below.

OR

☐

I am unable to certify as above because the person or entity and/or a parent entity, subsidiary, or affiliate thereof is listed on the N.J. Department of the Treasury's Chapter 25 list. I will provide a detailed, accurate and precise description of the activities in Part 2 below sign and complete the Certification below.

Part 2: Additional Information

PLEASE PROVIDE FURTHER INFORMATION RELATED TO INVESTMENT ACTIVITIES IN IRAN.

You must provide a detailed, accurate and precise description of the activities of the person or entity, or a parent entity, subsidiary, or affiliate thereof engaging in investment activities in Iran below and, if more space is needed, on additional sheets provided by you.

Part 3: Certification of True and Complete Information

I, being duly sworn upon my oath, hereby represent and state that the foregoing information and any attachments there to the best of my knowledge are true and complete. I attest that I am authorized to execute this certification on behalf of the above-referenced person or entity.

*I acknowledge that the **Township** is relying on the information contained herein and thereby acknowledge that I am under a continuing obligation from the date of this certification through the completion of any contracts with the **Township** to notify the **Township** in writing of any changes to the answers of information contained herein.*

*I acknowledge that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification, and if I do so, I recognize that I am subject to criminal prosecution under the law and that it will also constitute a material breach of my agreement(s) with the **Township** and that the **Township** at its option may declare any contract(s) resulting from this certification void and unenforceable.*

**CERTIFICATION OF NON-INVOLVEMENT IN PROHIBITED
ACTIVITIES IN RUSSIA OR BELARUS**

Pursuant to N.J.S.A. 52:32-60.1, et seq. ([L. 2022, c. 3](#)) any person or entity (hereinafter “Vendorⁱ”) that seeks to enter into or renew a contract with a State agency for the provision of goods or services, or the purchase of bonds or other obligations, must complete the certification below indicating whether or not the Vendor is identified on the Office of Foreign Assets Control (OFAC) Specially Designated Nationals and Blocked Persons list, available here: <https://sanctionssearch.ofac.treas.gov/>. If the Department of the Treasury finds that a Vendor has made a certification in violation of the law, it shall take any action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, certify that I have read the definition of “Vendor” below, and have reviewed the Office of Foreign Assets Control (OFAC) Specially Designated Nationals and Blocked Persons list, and having done so certify:

(Check the Appropriate Box)

☒ A. That the Vendor is not identified on the [OFAC Specially Designated Nationals and Blocked Persons list on account of activity related to Russia and/or Belarus](#).

OR

☐ B. That I am unable to certify as to “A” above, because the Vendor is identified on the [OFAC Specially Designated Nationals and Blocked Persons list on account of activity related to Russia and/or Belarus](#).

OR

☐ C. That I am unable to certify as to “A” above, because the Vendor is identified on the [OFAC Specially Designated Nationals and Blocked Persons list](#). However, the Vendor is engaged in activity related to Russia and/or Belarus consistent with federal law, regulation, license or exemption. A detailed description of how the Vendor’s activity related to Russia and/or Belarus is consistent with federal law is set forth below.

(Attach Additional Sheets If Necessary.)
