01/04/20 14:46:53 Please notify owner of Animal Laws and advise it will be followed up by HELO and or Animal Control officers/ Caller: Craig Faltarelli of Toms River, NJ certified ACI/ACO received a call about a dog left outside 24/7. Animal is tehtered and legally cannot be tethered between 11pm-5am unless pen is built around dog house and is compliant (wind break and insulation)/ No exemption for artic dogs!/ Animal must come inside between hours of 11pm-5am./ Dog house currently in use has no windbreak so defeats purpose even with temperature below 32 degrees

12/23/19 13:35:00 V82 I was dispatched to 730 S. 7th street for a welfare check on the dog at that residents. My self and officer M. Garvey spoke to the residents. The only corrections that need to be made is a wind break. The dog house is an Igloo with plenty of clean hay in it. The owners whose name I could not get due to them being upset that we were there, stated that they just purchased a tarp for the pen and will put it up as soon as possible. I gave the residents a copy of the shelter and tethering laws.
