CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

- A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

- B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

- C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☐ Building C.2. ☐ Fire Protection

I further certify that I will perform the following work:

C.3. ☐ Electrical C.4. ☐ Plumbing

- D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature _____ Date _____

II. AGENT SECTION (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Certificate Comments:

☐ **Certificate of Occupancy**

This serves notice that said building or structure has been constructed in accordance with the New Jersey Uniform Construction Code and is approved for occupancy.

☒ **Certificate of Approval**

This serves notice that the work completed has been constructed or installed in accordance with the New Jersey Uniform Construction Code and is approved. If the permit was issued for minor work, this certificate was based upon what was visible at the time of inspection.

☐ **Certificate of Continued Occupancy**

This serves notice that based on a general inspection of the visible parts of the building there are no imminent hazards and the building is approved for continued occupancy.

☐ **Temporary Certificate of Compliance**

The following conditions must be met no later than or the owner will be subject to fine or order to vacate:
This certificate has an expiration date of:
Conditions to be met:

☐ **Certificate of Clearance - Lead Abatement 5:17**

This serves notice that based on written certification, lead abatement was performed as per NJAC5:17 to the following extent.

- ☐ Total removal of lead-based paint hazards in scope of work
☐ Partial or limited time period (years); see file

☐ **Certificate of Clearance - Asbestos Abatement**

This serves notice that based on written certification, asbestos abatement was performed to the following extent.

- ☐ Total removal of asbestos hazards in scope of work
☐ Partial or limited time period (years); see file

☐ **Certificate of Compliance**

This serves notice that said potentially hazardous equipment has been installed and/or maintained in accordance with the New Jersey Uniform Construction Code and is approved for use until

☐ **Temporary Certificate of Occupancy**

The following conditions must be met no later than:
or the owner will be subject to fine or order to vacate:
This certificate has an expiration date of:

Goodman[®]

Air Conditioning & Heating

10 SEER Air Conditioners

With Your Comfort In Mind

As a consumer, you need answers to several questions before you can make an informed choice to replace your current home air conditioning system or choose a system for your new home.

Why should I buy a Goodman 10 SEER Air Conditioner?

Quality — Value — Support

Goodman Manufacturing is the second largest heating and air conditioning producer in North America. We have achieved this position by an unrivaled commitment to:

Quality

Goodman quality means you get a reliable air conditioner. We use high quality components and strictly adhere to exclusive Goodman quality-driven processes during product assembly. These processes include a "run test" of each air conditioner before shipment, plus a "tear down" of one unit from each production line and each shift to perform a comprehensive final quality audit.

Value

Goodman value means a high-quality, reliable product at a fair price. Our proven history as an industry price leader comes from concentrating on operational efficiencies, taking advantage of large volume material purchases and avoiding expensive media branding campaigns.

Support

With over 700 stocking distribution locations throughout North America and the largest service base in the industry, you can be confident that the right part and qualified service technician are close by. Your Goodman 10 SEER Air Conditioner is also backed by one of the strongest warranty programs in the industry.

How good is your warranty?

Goodman Warranties

Goodman 10 SEER Air Conditioners have a full 5-Year Warranty for functional parts and the compressor for all residential units up to 5 tons.

With Your Comfort In Mind

GoodCare™

For even greater protection and worry-free ownership, ask your Goodman Dealer about GoodCare™, an affordable Extended Parts and Labor Warranty for your entire Goodman system.

Goodman

Air Conditioning & Heating

Why should I buy a new unit now?

You should consider

SEER Rating - A 10 SEER (Seasonal Energy Efficiency Ratio) efficiency rating is today's manufacturers' standard as directed by the federal government. The older installed units in many homes may have an operational efficiency of 6 SEER or less.

This means your existing unit, if still working, may be costing you money. Here is an example of the potential annual cost savings by replacing an older 6 SEER air conditioner with a new Goodman 10 SEER Air Conditioner.

ENERGY STAR® CLIMATE ZONE	CITY IN CLIMATE ZONE	10 SEER SAVINGS OVER 6 SEER
3	Newark	\$130
6	Atlanta	\$243
8	Las Vegas	\$317
10	Houston	\$392
12	Miami	\$467

- 1) The higher the SEER, the greater the efficiency - and the lower the operating cost. SEER: Seasonal Energy Efficiency Ratio is the industry measurement used by the Department of Energy.
- 2) These figures represent estimated cooling cost savings of a 3-ton system at \$0.10/KWHR are based on formulas published by the DOE and EPA.
- 3) These figures are for comparison purposes only. Actual savings will vary according to personal use habits, square footage, location, how your unit is installed and the construction of your home. Ask your Dealer for details.

Cost vs. Performance - You must determine the optimal cost performance that balances your cooling efficiency needs with your financial investment and your anticipated energy savings. Actual savings will vary depending on the unit replaced, quality of installation, home construction factors, local utility rates and environmental considerations.

What does all this mean to me?

By purchasing a Goodman 10 SEER Air Conditioner, you get - **GREAT VALUE**

- A high quality, reliable unit at a fair price
- Energy savings over older, lower efficiency units
- More SEER for your purchase dollar
- A warranty program that provides 5 years of parts coverage

Major Features of Goodman 10 SEER Air Conditioners

- Heavy-gauge, galvanized steel cabinet with baked-on powder coating provides years of protection and superior appearance
 - Thin-lanced aluminum fins dissipate heat more efficiently
 - Totally-enclosed, permanently lubricated fan motor delivers longer service life
 - Top-discharge fan is designed for quiet, vibration-free operation
 - Long-life compressor is warranted for 5 years
 - Rifle-bored copper tubing resists rust and corrosion
 - Lowered cabinet protects coil
 - Factory-installed liquid line filter keeps refrigerant system cleaner for longer life
 - Elevated base pan protects unit from rust
- "Sweat and Forget" brass service valves are easily accessible, assuring leak-free operation

What is the next step?

Your Goodman Dealer can answer that question.

Goodman Manufacturing — A Recognized Industry Leader

Goodman Manufacturing has grown into the second largest heating and air conditioning producer in the United States and the world's largest, privately-held heating and air conditioning manufacturer by providing the three most critical elements of customer satisfaction — quality, value and support.

Founded in 1982, Goodman's growth includes 4 manufacturing facilities, the acquisition of the Amana Company and the creation of a national distributor network providing over 700 stocking distribution locations in North America.

Goodman
Air Conditioning & Heating

www.goodmanmfg.com

Air Conditioning & Heating

With Your Comfort In Mind

**GMT & GDT
Gas Furnaces**

Family comfort is the primary goal of any homeowner. GMC's 80% AFUE gas furnaces provide a cost efficient and effective home heating alternative.

GMT Multi-Position and GDT Downflow 80% AFUE Gas Furnaces

Energy efficiency is key to controlling the cost of heating your home.

Older central heating systems rate at 60% AFUE or less, meaning only 60% of the gas burned contributes to your home's heating. The remaining 40% is lost energy, both wasteful and expensive. Compared to a 60% AFUE furnace, the 80% AFUE rated GMT and GDT gas furnaces cut this energy loss by half.

The Department of Energy (DOE) established the Annual Fuel Utilization Efficiency (AFUE) system to calculate the annual operating cost of home gas furnaces. An 80% AFUE rating is today's manufacturers' standard as directed by the federal government.

Designed With Your Comfort In Mind

**Your GMC Gas Furnace is
designed for reliability.**

The heart of any furnace is the heat exchanger. Our patented aluminized steel tubular heat exchanger is corrosion resistant and practically eliminates the potential for leaks. We also back this tubular heat exchanger with a limited twenty-year warranty.

The GMT and GDT furnaces also have integrated controls with diagnostics plus combination redundant gas valve and regulator for further reliability. Your GMC 80% Gas Furnace uses a quiet operating, sound isolated blower assembly to reduce noise levels. This motor features a silicon mounting system to isolate vibration and electrical noise. Thanks to special ball bearing technology that reduces bearing temperatures, a second motor cooling fan and its associated noise has also been eliminated.

GMC Warranties

Confirming Our Commitment to Quality

GMC Warranties

In addition to the heat exchanger limited twenty-year warranty, your GMT or GDT gas furnace has a full 5-Year Warranty on all functional parts.

Extended Warranty

For even greater protection and worry-free ownership, ask your GMC Dealer about GoodCare™, an affordable Extended Parts and Labor Warranty for your new furnace or entire GMC system.

A Homeowner's Example

Example of potential annual cost savings of replacing a 60% AFUE gas furnace with a new GMT or GDT 80% AFUE gas furnace by GMC.

ENERGY STAR® CLIMATE ZONE COOL/HEAT	CITY IN CLIMATE ZONE	80% AFUE SAVINGS OVER 60% AFUE
1	Bangor	\$880
2	Minneapolis	\$745
3	Newark	\$610
4	Atlanta	\$474
5	Greensboro	\$338

- 1) The higher the AFUE, the greater the efficiency – and the lower the operating cost. AFUE: Annual Fuel Utilization Efficiency is the industry measurements used by the Department of Energy.
- 2) These figures represent the heating cost savings of a 100,000 BTUH system at \$0.65/Therm are based on formulas published by the DOE and EPA.
- 3) These figures are for comparison purposes only. Actual savings will vary according to personal use habits, square footage, location, how your unit is installed and the construction of your home.

Quality-Value-Support

GOODMAN Manufacturing is the second largest heating and air conditioning producer in North America.

GMC quality means using high quality components and strictly adhering to exclusive GMC quality-driven processes during product assembly. These processes include a "run test" of each furnace before shipment plus a "tear down" of, at a minimum, one unit from each production line and each shift to perform a comprehensive final quality audit.

GMC value means a high-quality, reliable product at a fair price. We control costs by concentrating on operational efficiency, taking advantage of large volume material purchases and avoiding expensive media branding campaigns.

With over 700 stocking distribution locations throughout North America supporting the largest service and dealer base in the industry, you can be confident that the right part and qualified service technician are close by.

Goodman Manufacturing – A Recognized Industry Leader

Goodman Manufacturing has grown into the second largest heating and air conditioning producer in the United States and the world's largest, privately-held heating and air conditioning manufacturer by providing the three most critical elements of customer satisfaction – quality, value and support.

Founded in 1982, Goodman's growth includes 4 manufacturing facilities, the acquisition of the Amana Company and the creation of a national distributor network providing over 700 stocking distribution locations in North America.
