Subject: OPRA request - Active911 Call Data - March 2019

Dear Wildwood City,

This is a request for public records made under OPRA and the common law right of access. I am not required to fill out an official form. Please acknowledge receipt of this message.

Records requested:

Please provide an export of the fields of digital data contained within the Active911 dispatch software in electronic spreadsheet (Excel or CSV) format detailing all alarms / calls for the period of March 1st, 2019 to March 31st, 2019.

If you intend to claim that the department does not have access to this information, please be advised that Active911 computer systems have confirmed that there is an account that has been created under the name "Wildwood Fire" registered to the department's address. I will provide a screenshot of this information upon request.

I am requesting all columns of the fields of data in spreadsheet / excel electronic format, which include: id received sent
priority description details external_data place address unit cross_street city state lat lon
coordinate_source source units cad_code map_code map_id alert_key messages responses

The Active911 web interface should allow this data to be exported in CSV or similar original electronic format from the "alarms" tab of the web interface. To assist you in fulfilling this OPRA request, the following is a link to a support article on the Active911 website detailing this process: <http://wiki.active911.com/wiki/index.php>

Yours faithfully,

Gavin Rozzi
