Lacey EMS [REDACTED]
To: Veronica Laureigh <laceyclerk@laceytownship.org>

Tue, Jan 1, 2019 at 3:08 PM

Hi Veronica,

We have multiple layers of safeguards in place and we caught an error by Cornerstone through our normal monthly insurance auditing. They balance billed a few residents and have assured us it won't happen again. The following three residents were balance billed for the associated dollar amount. I personally went to each residents house to refund the erroneous charge via check.

[REDACTED] \$94.41 dos 10/20/18 # 1931 - Refund
issued.

[REDACTED] \$29.43 dos 10/27 #2034 - Not home. Will
try again.

[REDACTED] \$9.89 dos 10/23 #2015 - Left my
business card with a neighbor who said he will give it to her when she
gets back. Will issue refund when she calls me back.

Take care,
Ray

To: [REDACTED]

Mayor McDonald,

My name is Chris Gann I reside at 112 Frog hollow Rd in Forked River. I am writing you because a growing concern I have for our county. I am a Paramedic and have been since 2007. When I first became certified MONOC removed medic unit 715 from Lacy Twp which was stationed on Manchester Ave. I still work for MONOC and as a provider in our area I am concerned about the amount of time it takes for a medic unit to get to Lacy. The national average for EMS response is about 8 minutes. Since we no longer have a medic unit stationed in Lacy that leaves us waiting for a unit to respond from Toms River or Stafford township. That mean the average patient is either not going to get a medic unit due to proximity or they are going to have to wait around 20 minutes for advanced life support to get there. I am not sure your background or knowledge about EMS so I will tell you quickly that if you have any major problem such as cardiac, respiratory, allergic reaction, or significant trauma paramedics are going to be the ones that will be able to make the most difference. We are an ER on wheels and care a majority of the front line medications to treat major emergencies before the patient even gets out of their house. I know Lacy has its volunteer fist aid squad and I also understand that Lacy EMS is running a paid BLS unit as much as possible, and that is great. The problem is that they can only do so much. It is the advanced care in the field that can be a matter of life and death for a lot of patients. Not having a medic unit to respond in our town is an injustice to the community and can be the difference between life and death in a lot of medical emergencies that are time sensitive. MONOC took the unit down to save money because they did not feel that the area warranted a medic unit but that was wrong back then and is even a greater problem now with an increase in population in our township.

I am not sure if you are able to do anything about this but I urge you to think about the patients in our town that truly need help that are stuck waiting to get to the ER for care with their problem. I will be more than glad to talk to you further if needed and provide you with any information possible to help support getting better care for the patients in our town.

Sincerely,
Chris Gann

Lacey EMS [REDACTED]

Tue, Jan 15, 2019 at 11:32 AM

To: Veronica Laureigh <laceyclerk@laceytownship.org>

As I read further:

The average national EMS response time is 8-9 minutes, close enough. However, national standards do not break out the difference between ALS and BLS response times. Meaning, he cited all EMS responses. I'd venture a guess and say that the national average of ALS response times is closer to where we are today (12-15) minutes. In most parts of Lacey we meet or exceed the national average and absolutely blow away county and state averages.

He cited waiting 20 minutes for help. Not true. We don't sit on scene waiting for ALS. 23s average response time from time of dispatch to being on scene is 6-7 minutes. If it's truly an immediate life threat we move quickly and get to the hospital. Even in 26 they don't sit there and wait.

He cited an ER on wheels. Just like EMTs rarely save a life Medics rarely save a life. Out of all calls in 2018 that were immediate life threats most of them were overdoses which we handled on scene and the person regained consciousness after narcan and aggressive airway management and ALS was cancelled. From there, less than 20% of our calls are long term life threats (needing medical assistance in 1-2 hours) and of those less than 5% are immediate life threats. Of that 5% half of them are cardiac arrest patients and the survivability of a cardiac arrest event in the field regardless of ALS response time is extremely low. So in essence we are talking about approximately 2.5% of EMS calls where a faster ALS response would truly matter. But wait, there's more. This is assuming that unit is sitting and waiting for one of those 2.5% calls to come in. Not in Waretown, not being redirected to handle call overflow in Toms River or Stafford during the summer which happens all the time.

He's thrown out a lot of scare tactics and like you said he's bashing his own company. He speaks of population growth but does he know the demographic makeup of the population growth? Typically speaking the elderly consume the greatest EMS resources. Yes, our call volume has increased as does our population. However, I've seen no increase in ALS criteria calls. If anything, I've seen an increase in BLS calls and decrease in ALS calls (because we are better trained now than ever and are more skilled at differentiating between an ALS and BLS call). Also having an MD as medical control gives us the ability to do more than ever including most recently giving the drug albuterol via nebulizer for respiratory distress patients (should be live in a month or two).

That's all I got to say about that :)

Good Afternoon All,

This e-mail is to make my concerns about the operation of Lacey Twp EMS and the fraudulent claims they make to myself and the residents of Lacey Twp. First and foremost Lacey EMS is paying staff to run First Aid calls with money they received on donations. This converts them to from a non-profit 501 (c) 3 as they claim to be on all there donation request mailings to a not-for-profit 501 (c) 7. They started billing and within 1 week started paying their members, it takes approximately 3 months to receive any income from billing. Where did the money come from to sustain a payroll? Donations from residents? I will also be forwarding my concerns to all news media outlets and the IRS as they are misleading the residents of Lacey Twp and you all as the Committee. I also find it disturbing how you as the committee gave Lacey EMS assets and allowed them to title those assets in their name because they were concerned with the future leadership of Lacey Twp not supporting and revoke those assets from them.

To: Veronica Laureigh <laceyclerk@laceytownship.org>

Veronica,

Attached please find the requested information.

- VCI Remount of 238 will be done with Houston Galveston co-op through VCI.
 - At the bottom of the RFQ you will see a trade in credit of 4,000. We will not be receiving this credit since 238 will be going to BLFD. We will be using a box they have on-site from another agency turn in that will be refurbed just as if it were ours. The cleanest way to do this will be the squad will cover the 4K when the new vehicle is delivered and then BLFD can cut us a check for \$4K when we give them 238.
- The four AED's and their associated accessories/supplies have been competitively priced by our primary supplier Henry Schein.
 - The revision came in far less than the original request amount.

Respectfully,

Ray Benedetti

Arrest

1 message

Lacey EMS [REDACTED]

Sat, Jul 13, 2019 at 2:47 PM

To: "lanceyclerk@laceytownship.org" <lanceyclerk@laceytownship.org>

Veronica,

One of our EMTs (Andrew Steitz) was arrested on an outstanding warrant from Pennsylvania on a Marijuana arrest.

I'm required to file a report with the NJ Department of Health which I have done.

Andrew is currently suspended without pay pending disposition of his legal issues.

Thanks,
Ray

To: Veronica Laureigh <laceyclerk@laceytownship.org>

Veronica,

Last year we talked about labor for our roof and we would supply the material. Someone from DPW looked at the roof and said it was good. It wasn't good and now we have a major leak. It's going to need a tear off and re-roof (see below pictures). If the crew would have caught this last year when they inspected it, it wouldn't be this bad.

Any chance the squad can cover the materials and we have a crew do it ASAP?

Thanks,
Ray

Dear Mr. Mayor and Committee,

Although I am prohibited by law by discussing, disclosing or sharing any patient information I did want to thank you.

Because each of you and Veronica placed your faith and trust in me and my team late last summer when I asked for your support to allow me to move to compensated staff a life was saved.

Today, a few of you were witness to what a rapid and what was characterized as an overwhelming response looks like. This is only possible with your support and compensated staff at headquarters and on the road. We had one unit already on scene at the time of the emergency and an additional backup ambulance and a supervisor arrived in two minutes.

Please take a minute to congratulate yourselves. Without all of your support the outcome may have been different. Each of you had a part in a life being saved today.

Best regards,
Ray

To: Linda Covello <lcovello@laceytownship.org>, Ray Benedetto <rbenedetto@laceytownship.org>, Rachel Linstra <lacey@laceytownship.org>

Linda last evening the governing body agreed to assist Lacey EMS with their roof problem. We agreed to split the cost of \$9,650 with them. I need a PO issued for our half to American custom Roofing LLC, 12 Horner Lane, Forked River, NJ 08731. I have a quote from them for our records

Via this email I will ask Ray to gather the W-9 and Business Registration from American Custom Roofing so we may set them up as a vendor in our system.

Thank you

Veronica,

I'd like to invite you and a guest as well as the Mayor and Committee and their guests to an end of summer get together.

It will be at the Tuna Club on Sunday Spetember 15th from 3pm - 7pm. Food provided by Captains Inn, beer and wine will be available. This will be very informal. Shorts, t-shirts and sandals are encouraged.

Thanks,
Ray

To: Ray Benedetti [REDACTED], Justin Meehan [REDACTED], John Szafranski [REDACTED],
Scott Knauer <[REDACTED]>, Adam Nappi [REDACTED] <[REDACTED]>, Dave Streno [REDACTED]

Bcc: Tim McDonald [REDACTED]

Just a reminder to all emergency squads.

If you are taking one of the Township insured vehicles out of the Monmouth, Ocean, Burlington County Area, you must request permission to do so. Notification needs to be made to me in order for me to notify the insurance company in advance.

Included in the notification is the purpose of the journey. This includes the annual conventions as well.

Please remember that at all times, our response to our residents come first. If Sending your vehicles and manpower to an event, parade, or non-emergency call would jeopardize your ability to answer calls in your call area, you should not be asking to go. We serve Lacey first and our residents.

Any questions, please contact me

Thank you

Hi there,

JHA sent a questionnaire regarding a policy renewal. It doesn't look like something I should complete and perhaps it was erroneously put in my mail slot.

After I looked at it, it does look like a few adjustments will need to be made to it regarding career and volunteer staff.

Should I have this brought up to your office?

Thanks
Ray

Hi Veronica,

Would you be able to help me get on the list to be notified when properties are going to be condemned? I would love to be able to use them for drills like the FD does.

Hope you're week is going well.

Ray
