Good afternoon,

The City has received your response to the City's reasonable request for an extension of your Open Public Records Act ("OPRA") request until 8/28/2020 (an additional 7 business days). We regret to hear that you find this extension unacceptable.

It is important for you to know that due to the Coronavirus (COVID-19), a State declared health emergency remains in effect. And while under the declared State of emergency, the following provision applies as provided for by N.J.S.A. 47:1A-5(1), amended on March 20, 2020:

"During a period declared pursuant to the laws of this State as a state of emergency, public health emergency, or state of local disaster emergency, the deadlines by which to respond to a request for, or grant or deny access to, a government record under paragraph (1) of this subsection or subsection e. of this section shall not apply, provided, however that the custodian of a government record shall make a reasonable effort, as the circumstances permit, to respond to a request for access to a government record within seven business days or as soon as possible thereafter."

Please know that the City will continue to pursue addressing your OPRA by the City's requested date of 8/28/2020.

Subject: Opinion of Lewis V. Baldwin on MLK House and HPO misuse of his name.

Hello to you all,

If you are receiving this you've made my life somewhat difficult in the last 5 years regarding the MLK house, excluding media present. This is to make you aware of the opinion of one the the most renowned King historians in the nation, Lewis V. Baldwin. You know him, right Mr. McVarish? You emailed him a couple of years ago and asked him a question that never had anything to do with the application that was filed and you used his comments without his permission in a denial letter that claimed Dr. King's first sit in was of "minimal import". To say the least, he was not to happy with even the thought of it after I showed him the same evidence I showed you.

Dr. Baldwin feels betrayed and is appalled by your office using his name and words in your denial letter. I asked him 3 very specific questions as to satisfy your criteria of significance. He is a very smart man and says this can be a great thing for NJ to celebrate. So now that you have the words of a man who has dedicated 4 decades of his life to Dr. King and his legacy, will you now accept his opinion?

Questions:

1. Do you concur with the decision of the NJDEP's Historic Preservation Office that the incident in Maple Shade that took place to MLK is of "minimal historic import"?
2. Do you believe the home in Camden from where Dr King plotted his first civil rights activity deserves to be placed in the NJ and National Register of Historic Places?
3. How do you feel that the NJDEP's Historic Preservation Office used your name and words from an email in 2016 for their decision to deny the application to have the home in Camden placed on the register filed in 2020?

Answers:

Thanks again for sharing so much rich information with me. I can say over and over and over again that what you have uncovered is more than "good enough," and no person of sound mind and goodwill would say otherwise.

Now let me answer your questions:

1. I wholeheartedly disagree with the NJDEP's Historic Preservation Office's decision "that the incident in Maple Shade that took place to MLK is of 'minimal historic import'." How can anyone honestly make such a claim involving such a towering historic figure, whom we happen to honor annually with a national holiday? The King monument in Washington, D. C. stands alongside those of

our most celebrated U. S. presidents, and King's birthday is recognized or celebrated in some one hundred countries. I agree with your point that "New Jersey failed to protect the rights of King in 1950," but the state can make proper amends by honoring and/or protecting King's legacy today. If the NJDEP's Historic Preservation Office continues to exist and act as if the discrimination King faced in the state in 1950 is of "minimal historic import," then it would be standing in the tradition of those Mississippians who still do all in their power to either deface or destroy monuments to the memory of King, Medgar Evers, Emmett Louis Till, and other martyrs. Let me also say that much of the significance of the Maple Shade incident lies in the fact that it was King's very first sit-in or act of protest against racial discrimination.

2. I most certainly believe that "the home in Camden from which King plotted his first civil rights activity deserves to be placed in the New Jersey National Register of Historic Places." New Jersey cannot wipe away this part of its history by destroying places that should be preserved as historic landmarks. By agreeing to preserve the home in Camden as an historic place, the state would make a powerful statement about its efforts to honestly face an ugly side of its history while striving to exemplify the spirit of what King called "the beloved community."

3. Frankly, I was appalled and very disappointed to be informed and to learn that the NJDEP Historic Preservation Office had apparently used my name and words from an email in 2016 for its decision to deny the application to have the home in Camden, New Jersey placed on the register filed in 2020. Having studied and written about Dr. King for almost four decades, I could never agree to such a decision. Had I been asked, I would have made this abundantly clear.

Hope this is helpful Patrick. Keep up the great work!

Sincerely,

Lewis V. Baldwin

Thanks for the quick response but you didn't answer my question about why it wasn't added in 2016?

Also, can you let me know the reason given for Paul Schopp recusing himself from involvement with matters regarding 753 Walnut street?

As to #3, Department of Planning receive and approves the applications. Did you receive applications for 753 Walnut St in 2018 and 19? We know about the 2017 application, which was awarded and then disbanded. Did that have anything to do at the time with the NJDEP telling the city the property wouldn't be approved?

Thanks,

1. Why was the property not added to the registry in 2016 when the commission first voted on it?
2. What is the cities position on the DEP ruling that the home in Camden is not historically significant and what does that due to the city designation?
3. Why hasn't the city answered the grant applications filed on behalf of 753 Walnut Street that were filed in 2018 seeking the same \$229,035 that was previously allocated?

1. Why was the property not added to the registry in 2016 when the commission first voted on it?
2. What is the cities position on the DEP ruling that the home in Camden is not historically significant and what does that due to the city designation?

3. Why hasn't the city answered the grant applications filed on behalf of 753 Walnut Street that were filed in 2018 seeking the same \$229,035 that was previously allocated?

Thanks,

Patrick Duff

Thanks for the quick response but you didn't answer my question about why it wasn't added in 2016?

Also, can you let me know the reason given for Paul Schopp recusing himself from involvement with matters regarding 753 Walnut street?

As to #3, Department of Planning receive and approves the applications. Did you receive applications for 753 Walnut St in 2018 and 19? We know about the 2017 application, which was awarded and then disbanded. Did that have anything to do at the time with the NJDEP telling the city the property wouldn't be approved?

Thanks,

1. Why was the property not added to the registry in 2016 when the commission first voted on it?
2. What is the cities position on the DEP ruling that the home in Camden is not historically significant and what does that due to the city designation?
3. Why hasn't the city answered the grant applications filed on behalf of 753 Walnut Street that were filed in 2018 seeking the same \$229,035 that was previously allocated?

Thanks,
Patrick Duff

Good afternoon Kelly: Hope all is well.

As discussed, I wanted to send/forward you a few items related to our declining role with the MLK House. First, please see below. It is a few emails from my coworker Meishka about returning our project files to Mr. Duff (currently, he has not responded to our November 27<sup>th</sup> and January 29<sup>th</sup> email). I have also attached a letter from Mrs Hunt's attorney related to the agreement of sale between Mrs Hunt and Cooper's Ferry (FYI – this agreement of sale was never signed).

If you have any questions, please do not hesitate to contact me. Thanks.

Good afternoon Patrick,

CFP was given no original documentation, however, we will gladly return all of the copies you have provided, as well as a copy of the CDBG application.

We are sorry that this project did not work out and we wish you the best. Our intentions were to assist in whatever way possible, including planning support and fundraising assistance. You were aware that CFP was looking for funding for this project. And although we applied for a CDBG grant, no funding has been awarded to us for this project. We would recommend contacting the City about the CDBG funds.

We also want to point out that our office incurred certain project costs from outside consultants (like property survey and a preliminary environmental assessment). If you are interested in copies of these documents, we will offer these to the team immediately.

You were made aware that the questionable historic status of the project became an unmovable concern, and were unable to obtain any permissions from the MLK Center as requested. We are sorry that this information was not provided to Mrs. Hunt, however, as the designated representative, I assumed that you would pass along such information.

Please feel free to pick up the copies from my office anytime on Wednesday, November 29<sup>th</sup> between 9am-4pm. I will leave them with our office manager, Nakia Maxwell.

Hello Cooper's Ferry,

We humbly request the return of the documents left in your possession regarding Mrs. Hunt's property. I dropped off a copy of the deed, proof of Jesthroe Hunt's death and documents showing the inheritance tax's were paid, we request all to be returned. At this time we do not wish you, Cooper's Ferry Partnership, to do anything else on behalf of the

property at 753 Walnut Street. We request that all documents regarding all the grants that were applied for on behalf of 753 Walnut Street to be turned over so we can have an understanding of what was done on behalf of Mrs. Hunt's Home, without her knowledge I might add.

We have been nothing but forthcoming with your organization, along with the city, but the transparency surely was not reciprocal from either party. Mrs. Hunt entered into this agreement in good faith and that good faith has been lost completely.

Just so we are clear, you have no rights to do anything else on the behalf of 753 Walnut Street. The previous agreement is no longer on the table.

Regards,  
Patrick Duff

Dear Dr. Williams,

I am writing you this so the property on 753 Walnut Street can be placed on the historic register for the city of Camden. I have found two living witnesses who can attest to Dr. King living in Camden and I have audio taped interviews with both people confirming his presence in the city. First is Jeannette Lily Hunt, who is the owner of the property at 753 Walnut street where King once stayed. The second if Donald "Ducky" Birts, who met King in the early 60's in Camden and also in Philadelphia. I personally interviewed Mr. Birts who explained that Dr. King told him first hand that he used to live in Camden.

This information is buttressed by a 1981 article from the Courier Post written by Eileen Stillwell along with a police complaint from Maple Shade NJ bearing the signature of "M.L. King". In the article Benjamin Hunt is explains how Dr. King stayed at the house during his Seminary years. The article was titled "Camden man housed activist" and was published on Jan. 16th of 1981. The police complaint is from June 12th 1950 and the address listed for M.L King is 753 Walnut Street in Camden.

The fact he lived in Camden is also buttressed by an article that was written by the late Judge Thomas McGann. In that article McGann explains that he was listening to a radio program that played an excerpt from Dr. King testifying at a senate committee where King stated that he was "staying with friends in Camden" during his first ever civil rights struggle.

With all of this information we are seeking the property be placed on Camden's historic registry. The owner of the home will be placing the home under a nonprofit in order to apply for grants to begin the restoration process. I would like to speak at your next planning meeting on June 11th so I can publicly present the idea to the planning commission and answer any questions the commission may have about the project. I hope to work closely with you in order to move this project forward and begin to apply for grants to restore the house.

Why don't you let the commission take a look at this PowerPoint I put together. They may also want to listen to the interview of Thelma Lowery that I attached. She actually lived in the home with Dr. King. Can I ask, will Mr. Schopp be at the meeting? I have some questions for him.

I have a lot of questions. How about provide me with the minutes of the said meeting from October 27<sup>th</sup> 2016? I was at the meeting, I know what was voted on, and it wasn't that. Please send me the minutes to the next historic preservation meeting that took place after the october 27<sup>th</sup> one as well.

Nothing was ever said about a state designation. Why did the papers report the home was added to Camden's registry?

Please send those minutes ASAP.

Why don't you let the commission take a look at this PowerPoint I put together. They may also want to listen to the interview of Thelma Lowery that I attached. She actually lived in the home with Dr. King. Can I ask, will Mr. Schopp be at the meeting? I have some questions for him.

I have a lot of questions. How about provide me with the minutes of the said meeting from October 27th 2016? I was at the meeting, I know what was voted on, and it wasn't that. Please send me the minutes to the next historic preservation meeting that took place after the october 27th one as well.

Nothing was ever said about a state designation. Why did the papers report the home was added to Camden's registry?

Please send those minutes ASAP.

Dear Dr. Williams,

I am writing you this so the property on 753 Walnut Street can be placed on the historic register for the city of Camden. I have found two living witnesses who can attest to Dr. King living in Camden and I have audio taped interviews with both people confirming his presence in the city. First is Jeannette Lily Hunt, who is the owner of the property at 753 Walnut street where King once stayed. The second is Donald "Ducky" Birts, who met King in the early 60's in Camden and also in Philadelphia. I personally interviewed Mr. Birts who explained that Dr. King told him first hand that he used to live in Camden.

This information is buttressed by a 1981 article from the Courier Post written by Eileen Stillwell along with a police complaint from Maple Shade NJ bearing the signature of "M.L. King". In the article Benjamin Hunt is explains how Dr. King stayed at the house during his Seminary years. The article was titled "Camden man housed activist" and was published on Jan. 16th of 1981. The police complaint is from June 12th 1950 and the address listed for M.L King is 753 Walnut Street in Camden.

The fact he lived in Camden is also buttressed by an article that was written by the late Judge Thomas McGann. In that article McGann explains that he was listening to a radio program that played an excerpt from Dr. King testifying at a senate committee where King stated that he was "staying with friends in Camden" during his first ever civil rights struggle.

With all of this information we are seeking the property be placed on Camden's historic registry. The owner of the home will be placing the home under a nonprofit in order to apply for grants to begin the restoration process. I would like to speak at your next planning meeting on June 11th so I can publicly present the idea to the planning commission and answer any questions the commission may have about the project. I hope to work closely with you in order to move this project forward and begin to apply for grants to restore the house.

With all of this information we are seeking the property be placed on Camden's historic registry. The owner of the home will be placing the home under a nonprofit in order to apply for grants to begin the restoration process. I would like to speak at your next planning meeting on June 11th so I can publicly present the idea to the planning commission and answer any questions the commission may have about the project. I hope to work closely with you in order to move this project forward and begin to apply for grants to restore the house.

Sincerely,

Dear Dr. Williams,

I am writing you this so the property on 753 Walnut Street can be placed on the historic register for the city of Camden. I have found two living witnesses who can attest to Dr. King living in Camden and I have audio taped interviews with both people confirming his presence in the city. First is Jeannette Lily Hunt, who is the owner of the property at 753 Walnut street where King once stayed. The second is Donald "Ducky" Birts, who met King in the early 60's in Camden and also in Philadelphia. I personally interviewed Mr. Birts who explained that Dr. King told him first hand that he used to live in Camden.

This information is buttressed by a 1981 article from the Courier Post written by Eileen Stillwell along with a police complaint from Maple Shade NJ bearing the signature of "M.L. King". In the article Benjamin Hunt explains how Dr. King stayed at the house during his Seminary years. The article was titled "Camden man housed activist" and was published on Jan. 16th of 1981. The police complaint is from June 12th 1950 and the address listed for M.L King is 753 Walnut Street in Camden.

The fact he lived in Camden is also buttressed by an article that was written by the late Judge Thomas McGann. In that article McGann explains that he was listening to a radio program that played an excerpt from Dr. King testifying at a senate committee where King stated that he was "staying with friends in Camden" during his first ever civil rights struggle.

Dear Ed Williams

I am writing you this to ask for your assistance on a project at 753 Walnut St in Camden NJ. The house that I am speaking of is the former residence of Dr. Martin Luther King Jr. while he was a seminary student at Crozer Seminary College.

I am working with Jeff Moon and Ed Clifton from Tao Architecture, along with doug Mcvarish from the NJ Historical Society to have the house deemed historic and Any be nationally recognized. We were at the location just yesterday taking photo's and meeting with Ms. Hunt, the owner of the location, who's wishes are to have to home deemed historic and preserved to it's original condition.

Any help that you may provide will be greatly appreciated. I hope to hear from you soon.

Hello Dr. Williams,

Could you please send me a copy of the Agenda for the 25th?

Also, please tell me what it was that was voted on last time at the meeting? Specifically, what did you vote "yes" to doing? I have now spoken to several people in attendance and none remembers any caveat about needing approval from the state Historic Preservation office to place it on the list. If that is true, your document proves a severe conflict of interest with Paul Schopp also serving on the research committee that will help steer the DEP's decision.

Did you have any knowledge that Mr. Schopp was serving on the research team that will influence the DEP's decision?

Patrick Duff

Nothing was ever said about a state designation. Why did the papers report the home was added to Camden's registry?

Please send those minutes ASAP.

Why don't you let the commission take a look at this PowerPoint I put together. They may also want to listen to the interview of Thelma Lowery that I attached. She actually lived in the home with Dr. King. Can I ask, will Mr. Schopp be at the meeting? I have some questions for him.

Why was it never added? Who made the decision to not add it? Will it be added?

Hey Dr. Williams,

I am just checking to see what the deal is with the home being placed on the historic registry? How can they vote 5-0 to place it on the registry and never follow through with actually placing it on the registry?

Dear OPRAResquest,

If a meeting happened, the law requires that minutes are taken for that said meeting. Before I file a complaint I just want to get your side of the story straight. Are you saying that a meeting took place regarding millions of dollars of grants that no minutes were ever taken on? Are you also claiming that since no members of the public attended the meeting no minutes were needed? Where is the law on that one? That's when minutes are most important, so we can go back and see what happened inside our government.

Yours sincerely,

Patrick Duff

-----Original Message-----

Good afternoon Mr. Duff,

In regards to your attached OPRA request submitted on January 3<sup>rd</sup> 2018,

This email concludes the City's response to your OPRA request.

Sincerely,
