[View this email in your browser](#)

The Institute for Citizens & Scholars is seeking small teams of young people in organizations in New Jersey and across the country who want to build their civic capacities while making a difference in their communities and get paid for their time.

Organization-based teams are encouraged to apply; however, we welcome applications from groups of young people who seek to work together despite having no formal organizational affiliation.

Teams will receive up to \$14,000—including \$1,800 stipends for Fellows and \$4,000 for Leads—to fund their work. Organizations will additionally receive up to \$1,000 in funding to offset expenses. Together, teams will learn, network, and build coalitions throughout the Fellowship.

Applications must be received by April 14, 2023.

I am sorry to hear that Committeeman Calabrese stepped down but will be looking forward to seeing you at tonight's meeting. Perhaps at the meeting's conclusion, we can take a moment with Mr. Gately and Mrs. Potter and have a brief conversation about the sewer hookup and set up a time to discuss further if need be.

Thanks,
Michelle

We switched township engineering firms last year, so they inherited our sewer connect project. We've reached out to them, but is there someone working on your sewer connection transition engineering that he can reach out to get us back to working together?

Good afternoon Bob,

Thank you for taking the time to visit our preschool this morning. I am so proud of the preschool team and how quickly they have transitioned our youngest learners to a full school day. I hope you enjoyed seeing the children - they love guests and after spending some time with them I always leave with a smile.

I apologize for my unexpected exit but I had an emergency at our high school that needed my immediate attention.

I wish you and your family a Merry Christmas and a Happy and Healthy New Year! See you in 2023.

Best regards,

Good evening, Michelle,

Next Friday, November 18 we will be having two presentations by the NJCCIC at the municipal building. At 10 AM, our IT Committee will be meeting for a management presentation on best practices for network design and management to reduce the risk of cyber threats. At 11:30 AM, we will be having a lunch and learn for our staff on best practices in their daily computer use to reduce cyber threats. If you have a point person for the school district technology who would like to participate, we would be pleased to have them join us for one or both programs.

I heard a presentation from the NJCCIC last spring at the New Jersey Conference of Mayors and was very impressed. They offered free risk assessments and consulting to New Jersey government entities.

Thank you for your consideration,

Good afternoon, Michelle,

It was a busy September and we missed our lunch meeting. I know that you're also meeting with our liaisons, but would you also have time for another lunch in October?

Thank you,
Bob
