145. Crash Description/Narrative

On Monday, August 25, 2025 at approximately 17:31 hours, Jackson Police Dispatch advised multiple units of a motor vehicle crash, in the roadway, on E. Veterans Highway at the South Street intersection involving a Jackson Township Police Officer.

At the time of the crash, the weather was approximately 81 degrees with sunny skies and clear visibility. These values were obtained from weather.com.

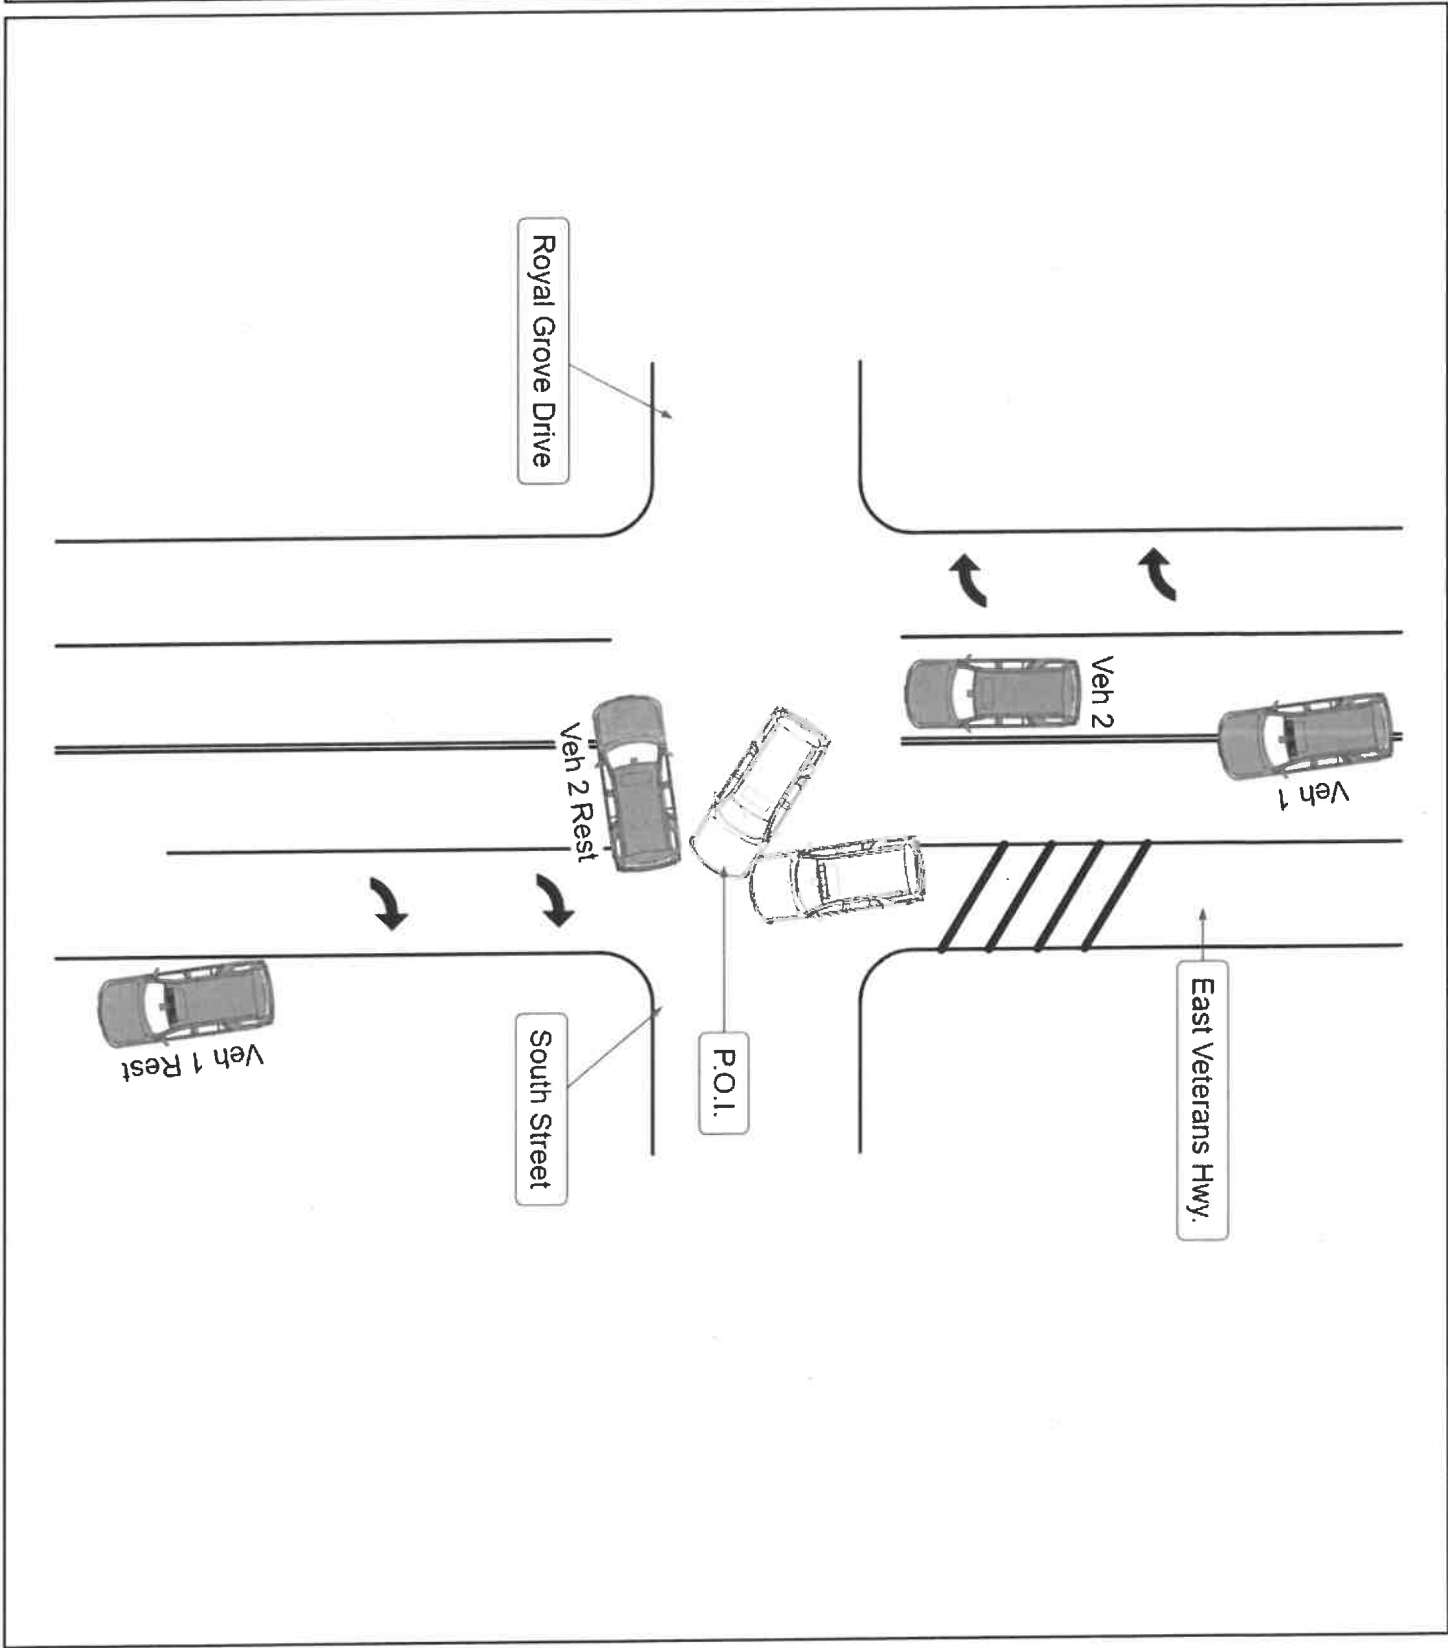

My initial observations were of a heavily damaged, black, sports utility vehicle, with driver side intrusion. This vehicle is labeled as Vehicle 2, and was later identified as a 2014 GMC Arcadia, 4-door suv, black in color, registered to Garnet M. Grayson ((NJ DL G72512737407602), DOB 07/18/1960, 819a Balmoral Court, Lakewood, NJ). This vehicle was resting in the westbound lane of the roadway, facing southbound.

Jackson First-Aid, Hatzolah, Whitesville Fire Company #57 responded to the scene and rendered aid to both drivers.

Continuing from page 2...

The other vehicle involved was observed as a Ford Explorer. The Ford Explorer is labeled as Vehicle 1 and was later to be determined to be a 2023 Ford Explorer Police Interceptor, blue and white in color, registered to the Jackson Township Police Department, 102 Jackson Drive, Jackson, NJ 08527. This vehicle was at rest off the roadway left near the westbound side of the roadway, but was facing eastbound.

The roadway in the area of the crash was littered with fluids and debris from the vehicles. The roadway prior to the crash was dry and clear.

E. Veterans Highway (County rte. 528) is primarily east/ west roadway, with one lane of travel in each direction. In the area of the crash, the roadway is divided by a solid double yellow line, indicating no passing. With the lane width approximately 12 feet from the fog line to the center of the roadway from each travel lane. The shoulders of the roadway is approximately 13 feet, from the curb edge to the fog line. In this area of E. Veterans Highway, the roadway is bordered by a 6 inch curb, with a sidewalk on the eastbound side. In this area on the eastbound side of the roadway closest to Royal Grove Road is a right turn only section, on the westbound side near South Street is a marked shoulder lane with no parking. The speed limit of the roadway is 50 mph. The roadway is an asphalt paved level surface, in good condition.

South Street, is a private roadway within the Southwind Mobile Home Community. The roadway is approximately 35 feet from curb to curb with no lane markings. This roadway is accross from Royal Grove Road.

I spoke with the driver of the GMC Arcadia, listed as vehicle 2. The driver, identified as Yateisha Pierce (NJ DL P41857890058742, DOB 08/02/1974) stated in the effect, that she was attempting to make a left hand turn from E. Veterans Highway onto South Street. She further stated she didn't know what else happened during the crash.

The driver of vehicle 1, who is identified as Officer Daniel Scharff, was responded to an emergency service call for a pediatric drowning victim, specifically a 2 year old child that was unresponsive and not breathing. He was operating a 2023 Ford Explorer Police Interceptor fully marked patrol vehicle with his emergency lights and siren engaged.

Roadway evidence at the scene shows an area of an engagement between vehicle 1 and 2 within the intersection of E. Veterans Highway and South Street, approximately 10 feet from the South Street right of way. This was determined by a dig mark in the blacktop and tire redirection marks in this area. Prior to the area of engagement I observed faint skid marks from vehicle 1 approximately 60 feet in length that started at the center divided line with the drivers side tires. The skid marks continued across the westbound lane to the area of engagement.

Beyond the area of engagement it can be seen from marks in the roadway that the front passenger tire of vehicle 1 was locked and sliding against the pavement until vehicle 1 struck the curb on the westbound edge. Vehicle 1 then continued along the grassy surface off the roadway where it struck a sign post before coming to rest approximately 100 feet from initial impact.

Vehicle 2 was found to have rotated approximately 180 degrees after impact which is evident by the vehicles final rest position, as well as an overlapping skid mark from the drivers side tire.

Motor Vehicle Crash Description	Station _____	Case No. <u>25-069957</u>

Continued from page 4...

Both vehicles, the Area of Engagement, as well as skid marks, were marked with orange marking paint at the scene.

Officer's crash investigation reveals the following after hearing both Drivers' statements and watching MDVR footage from Vehicle 1. Driver 1 was responding to an emergency, with overhead emergency lights, interior emergency lights, and audible siren illuminated and activated. Driver 2 was stopped in the lane of travel, with her left turn signal illuminated and flashing, waiting for vehicles traveling in the opposite direction to clear, so that she could make her left turn onto South Street. As Vehicle 1 approaches Vehicle 2 from the rear, traffic flowing in the opposite direction is observed moving to the right, to allow plenty of travel room for Vehicle 1. As Vehicle 1 closes the distance with Vehicle 2 and attempts to pass Vehicle 2 on the left side, as is commonly and the preferred side to pass on when responding to an emergency, the last vehicle traveling in the Westbound lane, passes Vehicle 2 in the opposite direction and moves to the right shoulder. At this time, Vehicle 2 begins to turn left, as she now has a clear westbound lane of travel, and is believed safe to make the left turn. Driver 1, who is now moving into the westbound lane, brakes heavily and attempts to maneuver further left, but is unable to avoid striking Vehicle 2. Based on MDVR footage, it appears Driver 2 did not see or hear Vehicle 1 approaching from the rear, as she was watching westbound traffic to clear.

After the collision, which occurs in the intersection with South Street, Vehicle 1 continues in its path, striking the curb at the corner of the intersection, travels over the curb, where the front driver side tire strikes a sign post (sign did not require to be repaired), and then continues across the grass where it comes to rest approximately 145 feet from the intersection. Vehicle 2 rotated approximately 180 degrees after collision, and came to rest facing south in the westbound lane of East Veterans Highway.

Driver 1 sustained an abrasion to the left forearm and a small cut to the left side of the head. Driver 2 complained of pain to the head and neck area. Both drivers were transported via ambulance to MMCSC for further treatment and subsequently released within a few hours.

Both vehicles contained severe disabling damage and were towed from the scene by Freedom Towing.

It should be noted that the diagram completed for this crash is not to scale. Vehicles were traveling in an eastbound direction prior to this motor vehicle crash.

End of report.

Supplemental Investigation Report

On August 25, 2025 I was contacted by Sgt. Reiff #278 and requested to respond to the above listed location to process a motor vehicle crash involving a department vehicle.

Upon arrival at the scene I was met by Sgt. Reiff #278, and Patrolman Cilento #335. Together we conducted a visual walkthrough of the scene. After being apprised of the details of the investigation and conducting my visual walkthrough I began processing the scene. I documented the scene photographically utilizing a Nikon D7200 digital camera. A total of 78 photographs were taken of this scene. See Photographic log for details. The captured digital images were transferred to this agencies (E) Evidence drive where they are retained for evidence.

After photographing the scene I examined the scene for any items of evidential value to be collected. None were located or discovered.

No further action taken by this detective.
