Subject: Applegarth 4th grade roof leak

Dear Mrs. Chanley,

A community member just reached out to me a few minutes ago to share this and so I am emailing you to make sure you are aware and this is being taken care of. A 4th grade classroom (I believe the teacher's name is Mrs Sheppard) in Applegarth school had a big leakage from the roof when the students came into the classroom for the first time after the break. There was a big puddle on the floor and apparently all teaching supplies on and around the teachers desk were soaked. What was shocking to hear was that the students and teacher spent the entire day in that classroom despite the water still dripping from the roof.

I understand this was a rough winter with lots of pipe bursts everywhere. It is not surprising that this happened in Applegarth, I am surprised that the students and teacher were not relocated to a safe and dry place till this was taken care of.

I am hoping the administration will look into this matter urgently and ensure the students and teacher are in a safe and dry environment for class tomorrow.

Thanks & Regards,
