Independent Auditor's Report

The Honorable Mayor and
Members of the Board of Commissioners
City of Wildwood, New Jersey

Report on the Financial Statements

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the City of Wildwood, as of December 31, 2018 and 2017, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles.

As described in Note 1 of the financial statements, the financial statements are prepared by the City of Wildwood on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the City of Wildwood as of December 31, 2018 and 2017, or changes in financial position for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis balance sheets and account group as of December 31, 2018 and 2017, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2018 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Wildwood's basic financial statements. The supplementary information listed in the table of contents and the letter of comments and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United State of America, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

The letter of comments and recommendations section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 6, 2019 on our consideration of the City of Wildwood's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Wildwood's internal control over financial reporting and compliance.

NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Wildwood (hereafter referred to as the "City") is a resort community in the County of Cape May, State of New Jersey. The City covers an area of approximately 1.3 square miles with a population according to the 2010 census of 5,325. The City was incorporated by an Act of the New Jersey Legislature on January 1, 1912.

The City Commission is governed by the Walsh Act, and consists of a Mayor and two Commissioners. From 1912 to 1982, the City had a commission form of government. In 1983, the government changed to the mayor-council. In 1995, by voter referendum, the City switched back to the commission form of government.

The Commissioners serve a four-year term of office. Voters within the City choose three Commissioners to serve the four year term. During 2011 the Commissioners approved a change in the election from May to December, this will extend the current terms an additional six months. The three elected commissioners then choose one of their members to serve as Mayor. The individual City Commissioners have direct supervisory control over their respective departments. The chief financial officer has been appointed to prepare and administer the annual budget.

Except as noted below, the financial statements of the City of Wildwood include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the City of Wildwood, as required by N.J.S. 40A:5-5.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provide financial support to the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or the levying of taxes. The Wildwood Special Improvement District and Business Improvement District are component units of the City; however they are not presented as part of the financial statements of the City. The Corporations issue separate financial statements which are available from the corporate offices.

B. Description of Funds

The accounting policies of the City of Wildwood conform to the accounting principles applicable to municipalities that have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with the respect to public funds. Under this method of accounting, the City of Wildwood accounts for its financial transactions through the following separate funds:

CITY OF WILDWOOD
NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

Current Fund -- resources and expenditures for governmental operations of a general nature, including Federal and State grant funds.

Trust Funds -- receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund -- receipt and disbursement of funds for the acquisition of general facilities, other than those acquired in the Current Fund.

Water and Sewer Utility Operating and Capital Fund -- The Water and Sewer Utility Operating and Capital Funds account for the operations and acquisition of capital facilities of the municipally owned Water and Sewer Utility.

General Fixed Assets Account Group -- All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds.

C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from accounting principles generally accepted in the United States of America applicable to local governmental units. The more significant policies in New Jersey follow. A modified accrual basis of accounting is followed with minor exceptions.

Revenues -- are recorded as received in cash except for certain amounts that are due from other governmental units. Receipts from Federal and State grants are realized as revenue when anticipated in the City budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the City's Current Fund, in addition the receivables for utility billings are recorded with offsetting reserves in the Utility Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due to the City which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Expenditures -- are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts that may be canceled by the Governing Body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; interest on utility capital indebtedness is on the accrual basis. Compensated absences are treated on a pay as you go basis with no amount charged to operations in the year incurred.

CITY OF WILDWOOD
NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

Foreclosed Property -- Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved.

Interfunds -- Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The cost of inventories of supplies for all funds, except for the Water and Sewer Operating Funds, are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on various balance sheets. The City did not take a physical inventory of the supplies in the Sewer Utility Fund; therefore, no amount is reported on the Sewer Utility Operating Fund balance sheet.

General Fixed Assets -- The City has developed a fixed assets accounting and reporting system, as promulgated by the Division of Local Government Services, which differs in certain respects from accounting principles generally accepted in the United States of America.

As required by New Jersey Statutes, foreclosed property is reported in the current operating fund of the City.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value at the time the land is foreclosed or donated. Land purchased by the City is valued at cost. Expenditures for long lived assets with an original cost in excess of \$5,000 are capitalized.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital Funds until such time the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have been accounted for separately.

Property and equipment purchased by the Water and Sewer Utility Funds are recorded in the capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not purport to represent reproduction costs or current value. Contributions in aid of construction are not capitalized. The balance in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the utility capital fund represents charges to operations for the costs of acquisitions of property, equipment and improvements. The utility does not record depreciation on fixed assets.

Levy of Taxes. – The County Board of Taxation certifies the tax levy of the City each year. The tax levy is based on the assessed valuation of taxable property within the City. Taxes are payable on the first day of February, May, August, and November. Any taxes that have not been paid by the 11th day of the 11th month in the fiscal year levied are subject to being included in the tax sale and the lien enforced by selling the property in accordance with NJSA 54:5 et seq.

The City is responsible for remitting 100% of the school, county and special district taxes to the respective agency. The loss for delinquent or uncollectible accounts is borne by the City and not the school district or county or special district.

Interest on Delinquent Taxes – It is the policy of the City of Wildwood to collect interest for the nonpayment of taxes or assessments on or before the date when they would become delinquent. The Tax Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of taxes becoming delinquent after due date and eighteen percent (18%) per annum on any amount of taxes in excess of \$1,500.00 becoming delinquent after due date and if a delinquency is in excess of \$10,000.00 and remains in arrears beyond December 31st, an additional penalty of six percent (6%) shall be charged against the delinquency. There is a ten day grace period.

CITY OF WILDWOOD
NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017

Lewy of Utility Charges – The City operates a water utility fund and a sewer utility fund. Rates are determined by ordinance and changed as necessary. Water and Sewer charges are based on flat fees and usage based on the type of entity. Charges are billed annually and due in quarterly installments.

Interest on Delinquent Utility Charges – It is the policy of the City to collect interest for the nonpayment of utility charges on or before the date when they would become delinquent. The Utility Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of charges becoming delinquent after due date and eighteen percent (18%) per annum on any amount of charges in excess of \$1,500.00 becoming delinquent after due date.

Capitalization of Interest – It is the policy of the City of Wildwood to treat interest on projects as a current expense and the interest is included in both the current and utility operating budgets.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America or the statutory basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

D. Required Financial Statements

The State of New Jersey requires the following financial statements to be presented for each fund on the regulatory basis of accounting: Balance Sheet, Statement of Operations and Changes in Fund Balance, Statement of Revenue and Statement of Expenditures. These statements differ from those presented under Generally Accepted Accounting Principles, which requires a Statement of Net Position and Statement of Activities in addition to the fund financial statements.

E. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statement of Operations in order to provide an understanding of changes in the City's financial position. However, comparative (i.e., presentation of prior year totals by fund type) data have not been presented in the Statement of Revenue-Statutory Basis and Statement of Expenditures-Statutory Basis since their inclusion would make the statements unduly complex and difficult to read.

F. Recent Accounting Pronouncements Not Yet Effective

In November 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 83, "Certain Asset Retirement Obligations". This statement is effective for fiscal periods beginning after June 15, 2018, will not have any effect on the City's financial reporting.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, "Fiduciary Activities". This statement is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the City's financial reporting.

**CITY OF WILDWOOD
NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, "Leases". This statement is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the City's financial reporting.

In April 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 88, "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements". This statement is effective for fiscal periods beginning after June 15, 2018, will not have any effect on the City's financial reporting.

In June 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 89, "Accounting for Interest Costs Incurred before the End of a Construction Period". This statement is effective for fiscal periods beginning after December 15, 2019, will not have any effect on the City's financial reporting.

In August 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 90, "Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61". This statement is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the City's financial reporting.

In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, "Conduit Debt Obligations". This statement is effective for fiscal periods beginning after December 15, 2020, will not have any effect on the City's financial reporting.

Note 2: BUDGETARY INFORMATION

Under New Jersey State Statutes, the annual budget is required to be a balanced cash basis document. To accomplish this, the City is required to establish a reserve for uncollected taxes. The 2018 and 2017 statutory budgets included a reserve for uncollected taxes in the amount of \$189,295 and \$92,069. To balance the budget, the City is required to show a budgeted fund balance. The amount of fund balance budgeted to balance the 2018 and 2017 statutory budgets was \$2,571,000 and \$2,204,000.

**CITY OF WILDWOOD
NEW JERSEY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

The Chief Financial Officer has the discretion of approving intra department budgetary transfers throughout the year. Inter department transfers are not permitted prior to November 1. After November 1 these transfers can be made in the form of a resolution and approved by City Council. The following significant budget transfers were approved in the 2018 and 2017 calendar years:

expenditure to protect or promote the public health, safety, morals or welfare or to provide temporary housing or public assistance prior to the next succeeding fiscal year. Emergency appropriations, except those classified as a special emergency, must be raised in the budgets of the succeeding year. Special emergency appropriations are permitted to be raised in the budgets of the succeeding three or five years. During 2012 the City approved two special emergency appropriations, one for the preparation of a reassessment program and one for the preparation of the tax map. The unfunded balance as of December 31, 2018 was \$0 and \$0 respectively.

Note 3: INVESTMENTS

As of December 31, 2018 and 2017, the City had no investments.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

Credit Risk. New Jersey Statutes 40A:5-15.1(a) limits municipal investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America, the local unit or school districts of which the local unit is a part; obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk. The City places no limit on the amount the City may invest in any one issuer.

Note 4: CASH

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or fund that may pass to the municipality relative to the happening of a future condition. As of December 31, 2018 and 2017, \$1,617,547 and \$1,619,179 of the City's bank balance of \$34,293,744 and \$34,393,201, respectively were exposed to custodial credit risk.

Description of Plans

Substantially all of the City's employees are covered by the Public Employees' Retirement System (PERS) and Police and Fireman's Retirement System (PFRS), a cost-sharing multiple-employer defined benefit pension plan which has been established by state statute and is administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and Police and Fireman's Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the report can be accessed on the internet at <http://www.state.nj.us/treasury/pensions/annrpts.shtml>.

Public Employees' Retirement System

The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full time employees of the State or any county, City, school district or public agency provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Police and Fireman's Retirement System

The contribution policy for the PFRS is set by N.J.S.A. 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate.

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provide for employee contributions of 7.34% thru June 30, 2018 and 7.50% from July 1, 2018 to December 31, 2018 of employees' annual compensation, as defined. PFRS provide for employee contributions of 10.0% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in PERS and PFRS. The current PERS rate is 13.37% of covered payroll and for PFRS a rate of 27.35% of covered payroll. The City's contributions to PERS for the years ending December 31, 2018, 2017 and 2016 were \$772,571, \$733,770 and \$708,744 respectively, equal to the required contributions for each year.

The contribution policy for the PFRS is set by N.J.S.A. 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10.0% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate. The City's contributions to PFRS for the years ending December 31, 2018, 2017 and 2016 were \$1,400,514, \$1,173,681 and \$1,138,068 respectively, equal to the required contributions for each year.

During the preparation of the 2009 budget the City elected to defer 50% of its required pension contributions. The deferred amounts were required to be funded starting in the 2012 budget including interest at 8.5% per annum.

Significant Legislation

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increased from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.

- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PERS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60th from 1/55th, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PERS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a 1/7th of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

NOTE 11: PENSION PLAN FOR LIFEGUARDS

The City of Wildwood has established a pension plan to provide retirement, disability and survivor pension benefits for the individuals who serve on the City's lifeguard force. An eligible employee becomes a plan member upon employment. Employee contributions shall be withheld from the member's salary at the rate of 4.0% and contributed to the plan for his benefit. Retiree benefits are paid out of the trust fund. A plan member may retire with a pension only after his 45th birthday and after he has completed 20 years of service, the last 10 must have been completed immediately preceding his application.

The City's contributions to the Lifeguard Pension for the years ending December 31, 2018, 2017 and 2016 were \$0, \$0 and \$0, respectively. The City's trust for the Lifeguard Pension at December 31, 2018 was \$469,211. Currently there are only three individuals receiving benefits. The benefits paid by the trust for the years ended December 31, 2018, 2017 and 2016 were \$32,714, \$36,635 and \$71,673, respectively.

Note 12: PENSION LIABILITIES

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the City's pension liabilities. However, due to the fact that the City reports on the regulatory basis of accounting, no financial statement impact will be recognized.

The following represents the City's pension liabilities as June 30, 2018:

Public Employees' Retirement System

The City has a liability of \$16,278,075 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the City's proportion is 0.08267387980%, which was an increase of 4.79% from its proportion measured as of June 30, 2017.

For the year ended December 31, 2018, the City would have recognized pension expense of \$1,088,230. At December 31, 2018, the City would report deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate	2.25%
Salary increases:	
Through 2026	1.65% - 4.15% (based on age)
Thereafter	2.65% - 5.15% (based on age)
Investment rate of return:	7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and

NEW JERSEY
NOTES TO FINANCIAL STATEMENTS

beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term	
		Expected	Real

investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2043 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate.

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 5.66%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.66%) or 1-percentage point higher (6.66%) than the current rate:

	1% Decrease (4.66%)	Current Discount Rate (5.66%)	1% Increase (6.66%)

Pension plan fiduciary net position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Police and Firemen's Retirement System

The City has a liability of \$20,857,716 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the City's proportion is 0.15414024560%, which is an increase of 3.20% from its proportion measured as of June 30, 2017.

For the year ended December 31, 2018, the City would have recognized pension expense of \$2,289,296. At December 31, 2018, the City would have reported deferred outflows of resources and deferred inflows of resources related to PFRS from the following sources:

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2062, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2018, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease (5.51%)	Current Discount Rate (6.51%)	1% Increase (7.51%)
City's proportionate share of the net pension liability	\$ 27,170,129	20,857,719	15,652,176

In addition to the PFRS liabilities listed above, a special funding situation exists for the Local employers of the Police and Fire Retirement System of New Jersey. The State of New Jersey, as a non-employer, is required to pay the additional costs incurred by Local employers under Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The June 30, 2018 State special funding situation net pension liability amounts of \$1,838,050,687, is the accumulated differences between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The fiscal year ending June 30, 2018 State special funding situation pension expense of \$217,714,180 is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2018. The pension expense is deemed to be a State administrative expense due to the special funding situation.

Although the liabilities related to the special funding situation are the liabilities of the State of New Jersey, the proportionate share of the statewide liability allocated to the City of Wildwood was 0.15414024560%. The net pension liability amounts allocated to the City was \$2,833,176. For the fiscal year ending June 30, 2018 State special funding situation pension expense of \$335,585 is allocated to the City.

NOTE 13: POST-RETIREMENT BENEFITS

General Information about the Plan:

The City offers Other Post-Retirement Benefits (OPEB) to its employees through the State Health Benefit Local Government Retired Employees Plan (the Plan) a cost-sharing multiple employer defined benefit other postemployment benefit plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at:

<https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of post retirement medical coverage for employees and their dependents who:

- 1) retired on a disability pension;
 - or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;
 - or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;
 - or 4) retired and reached age 62 with at least 15 years of service with the employer.
- Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for

CITY OF WILDWOOD
NEW JERSEY

their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Allocation Methodology:

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense, however under the Regulatory Basis of Accounting followed by the City these amounts are not accrued or recorded in the financial statements and the information listed in this note is for disclosure purposes only. Statewide across all member employers, the special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding situation and the nonspecial funding situation, the Collective Total OPEB liabilities for the year ended June 30, 2018 were \$6,338,578,586 and \$9,642,524,641, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's non special funding situation during the measurement period July 1, 2017 through June 30, 2018. Employer and non-employer allocation percentages have been rounded for presentation purposes.

Special Funding Situation:

Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the collective net OPEB liability that is associated with the local participating employer.

Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	1.97%	1.97%

At June 30, 2018 the City's proportionate share of the Collective Net OPEB Liability was \$24,052,802. The State's proportionate share for the Special Funding Situation that is associated with the City is \$18,587,287. The City's proportion of the Collective Net OPEB Liability was 0.153529% which was an increase from the prior year of 5.28%. The State's proportionate share attributable to the City of the Collective Net OPEB Liability for the Special Funding Situation was 0.299127% which was an increase from the prior year of 4.08%.

City's Proportionate Share of Collective Net OPEB Liability	\$ 24,052,802
State's proportionate share that is associated with the Borough	18,587,287
Total	<u>\$ 42,640,089</u>

For the Year ended June 30, 2018 the City's Total OPEB Expense was \$1,106,511 and the State of New Jersey realized Total OPEB Expense in the amount of \$562,659 for its proportionate share of Total OPEB Expense that is associated with the City.

The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%
Salary increases*:	
Through 2026	1.65% to 8.98%
Thereafter	2.65% to 9.98%

* Salary increases are based on the defined benefit plan that the member is enrolled in and his or her age.

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

Certain actuarial assumptions used in the June 30, 2017 valuation were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan – the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2010 to June 30, 2013 and July 1, 2011 to June 30, 2014, respectively.

100% of active members are considered to participate in the Plan upon retirement.

Health Care Trend Assumptions

For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long-term trend rate after seven years. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate

The discount rate for June 30, 2018 was 3.87%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Net OPEB Liability to Changes in the Discount Rate

The following presents the Net OPEB liability as of June 30, 2018, calculated using the discount rate as disclosed above as well as what the Net OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

NOTE 14: POST-RETIREMENT BENEFITS

The City also provides dental and vision coverage for retirees but not through the NJSHP.

The Regulatory Basis of Accounting does not permit the accrual of Actuarially determined OPEB Expenses or Liabilities. The City reports all OPEB related costs on the "pay as you go" basis. The following information is for disclosure purposes only and has not been accrued in the Financial Statements of the City.

The actuarial determined valuation of these benefits has been reviewed and will be reviewed bi-annually for the purpose of estimating the present value of future benefits for active and retired employees and their dependents as required by GASB 75.

The actuarial valuation report was based on 189 total participants including 45 retirees.

Annual OPEB Cost and Net OPEB Liability

The City's annual OPEB cost represents the accrued cost for post-employment benefits under GASB 75. The cumulative difference between the annual OPEB cost and the benefits paid during a year will result in a net OPEB obligation. The annual OPEB cost is equal to the annual required contribution (ARC) less adjustment if a net OPEB obligation exists. The ARC is equal to the normal cost and amortization of the Unfunded Actuarial Accrued Liability (UAAL) plus interest.

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates and assumptions about the probability of occurrences of events far into the future, including future employment, mortality and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

In the December 31, 2018 actuarial valuation, the "Entry-Age-Normal as a Percentage of Salary" method was used for all participants. The actuarial assumptions used to project future costs included a discount rate of 3.00% and annual health insurance cost trend rate of 3.25%. In addition, the unfunded actuarial accrued liability is being amortized period of 20 years.

Other Post-employment Benefit Costs and Obligations

In the December 31, 2018 actuarial valuation, the Actuarially Determined Contribution for the year's ending December 31, 2018 and 2017 were projected as follows:

Note 15: DEFERRED COMPENSATION

Employees of the City of Wildwood may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

The deferred compensation plan is available to all employees of the City. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency.

The deferred compensation plan is administered by an unrelated financial institution. Under the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are the property of the employees.

As part of its fiduciary role, the City has an obligation of due care in selecting the third party administrator. In the opinion of the City's legal counsel, the City has acted in a prudent manner and is not liable for losses that may arise from the administration of the plan.

Note 16: LABOR CONTRACTS

As of December 31, 2018, the City's employees are organized in the following collective bargaining units. Contracts are continually being negotiated the following table shows their current status.

Contract	Category	Expiration	Covers
UAW #2327	Public Works, Water, Sewer, Traffic Operations, Municipal Court and Clerk Typists	12/31/18	All employees in public works, water, sewer, traffic operations, municipal court and clerk typists. Supervisors are excluded.
FOP	Police	12/31/18	All uniformed police, detectives, and other special police units, excluding the chief and captain.
Firemen's Mutual Benevolent Asso.	Firefighters	12/31/21	All uniformed firefighters.

Pursuant to P.L. 2011, c. 78 any collective bargaining agreement entered into after June 28, 2011 requires employee contributions to health insurance coverage based on percentages of income as listed in the law.

Note 17: ACCRUED SICK AND VACATION BENEFITS

The City has permitted full time employees to accrue unused sick and vacation time, which may be taken as time off or paid at a later date at an agreed upon rate. The monetary value of these earned and unused employee benefits has not been accrued by either charges to operations or to budgets of prior years, although in some cases they might be material, since the realization of this

liability may be affected by conditions which preclude an employee from receiving full payment of the accrual. At December 31, 2018 and 2017, the City estimates this liability to approximate \$4,162,406 and \$3,953,244, respectively. The policy of not reflecting the accrued benefit is not in agreement with GASB Statement No. 12. Effective January 1, 2002 the State of New Jersey is allowing municipalities to accrue a compensated absences liability. The City has established an accrual of \$100,000.

Note 18: ECONOMIC DEPENDENCY

The City of Wildwood is economically dependent on the tourism industry.

Note 19: RISK MANAGEMENT

The City is a member of the Atlantic County Municipal Joint Insurance Fund. The Fund provides its members with the following coverage:

Workers' Compensation and Employer's Liability
Liability other than Motor Vehicles
Property Damage other than Motor Vehicles
Motor Vehicles
Boiler and Machinery
Employee Dishonesty

Contributions to the Fund, including a reserve for contingencies, are payable in two installments and are based on actuarial assumptions determined by the Fund's actuary. The Commissioner of Insurance may order additional assessments to supplement the Fund's claim, loss retention, or administrative accounts to assure the payment of the Fund's obligations.

The Fund provides the City with the following coverage:

Workers' Compensation and Employer's Liability
Liability other than Motor Vehicles
Property Damage other than Motor Vehicles
Motor Vehicles
Boiler and Machinery

Contributions to the Fund, are payable in an annual premium and based on actuarial assumptions determined by the Fund's actuary. The City's agreement with the pool provides that the pool will be self-sustaining through member premiums and will reinsure through commercial insurance for claims in excess of \$500,000 for each insured event.

The Fund publishes its own financial report for the year ended December 31, 2018, which can be obtained from:

Note 20: LITIGATION

The City is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the City, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

Note 21: MORTGAGE RECEIVABLE

On February 8, 2000, the City entered into an intergovernmental agreement with the New Jersey Sports and Exposition Authority for the construction of the Wildwood Convention Center. This agreement included a mortgage in the amount of \$3,092,392 payable to the City. The mortgage requires annual payments through 2018. The State is currently behind in the annual payments.

The agreement also calls for a payment in lieu of taxes in the amount of \$30,000 per year. This amount has not been paid for the 2017 and 2018 years and a receivable has been established.

Independent Auditor's Report

The Honorable Mayor and
Members of the Board of Commissioners
City of Wildwood, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the various funds and account group of the City, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise City's basic financial statements, and have issued our report thereon dated August 6, 2019, which was adverse due to being presented in accordance with the New Jersey regulatory basis of accounting.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, identified as Finding 2018-001.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Financial Statement Findings and Responses

Finding 2018-001

Criteria – New Jersey statutes require that purchases in excess of \$40,000 be obtained through public bidding unless specific exemptions exist.

Condition – During the course of testing the City's compliance we noted several instances where purchases were split to amounts less than \$40,000, however the total project is well in excess of the statutory bid threshold.

Cause – The City was improperly splitting purchase orders to be below the bid threshold.

Effect – The City was not in compliance with the State purchasing law and may not have received the lowest price had the project been publicly bid.

Recommendation – That the City ensure that all contracts are awarded in accordance with State purchasing law and that purchases not be split to avoid the bid limits.

Management Response – The City will ensure that all purchases are made in accordance with the applicable statutes.
