**HEAVY CIVIL
CONSTRUCTION**

→ EarleCo.com

Earle specializes in constructing and rehabilitating the region's infrastructure systems. With expertise in all forms of heavy civil construction work including site work, bridge construction, grading, milling, paving, concrete flatwork, concrete paving, and underground drainage and utilities, we have the diverse experience to self-perform any size project.

With a firm emphasis on project control, we perform almost every aspect of every project in-house. This level of project control is rare within the industry and is the primary driver to project success and quality. All of our equipment, coupled with cutting-edge technology systems, enables our teams to have the capacity and expertise to roll onto a project, hit it hard, and finish well within an aggressive schedule. All of our equipment is custom tailored for the work being performed, allowing our teams to work effectively while minimizing disturbances to the traveling public.

Safety is our number one priority. Extraordinary effort goes into protecting our employees, job sites, and the public. Our teams are highly trained and equipped in how to perform their tasks safely and efficiently. As a result, Earle maintains an industry-leading record for safety.

Concrete Construction

On larger road construction projects there are often several aspects of construction with concrete work often being one of those components. From curb and sidewalk to decorative stone walkways and retaining walls, our crews can complete from the smallest to the most detailed plan.

The Earle Asphalt Company concrete crews have handled a variety of projects ranging in size and scope with some of the most complex projects being decorative streetscape projects. These more detailed projects require crews that are versatile and skilled in multiple areas. Our crews have completed many projects with award winning quality. We have the capability to do decorative stone curbing, stone patios and walkways, decorative retaining walls, stamped concrete and asphalt, a variety of poured concrete finishes and more.

Concrete work is often one of the early phases of a project. Our concrete crews understand what it takes to meet deadlines in order to allow other crews in to complete their work. They also understand that their workmanship is a large part of the overall quality of a project. Our crews consistently deliver in both areas which enables us to continue to lead the industry.

Draining & Utility Work

As a total service road construction company, Earle Asphalt Company also performs underground drainage and utility work. Frequently a component of our road construction projects, we have adapted to include this service to the growing list of services we provide. From building and installing drainage catch basins to laying water and sewer pipe, our crews have the expertise and equipment to handle it all.

Being equipped with state-of-the-art late model equipment enables our crews have every tool necessary to begin a project and complete in a professional, timely manner. All equipment is custom tailored for the work being performed which is often on the center and sides of live roads and highways. Our equipment allows them to work effectively while minimizing disturbance to the traveling public.

Grading & Site Work

As a full-service contracting company, Earle Asphalt Company also offers site and grading work. We can handle any size project from small parking lot or subdivision to widening the states busiest highways and intersections.

Our grading crews have all of the tools and equipment necessary to complete a project professionally and on time. Our personnel are fully trained in using site survey equipment and utilize the most innovative, state of the art laser and GPS technology to ensure quality and efficiency.

As with all Earle crews, they are committed to achieving industry leading quality. Our grading crews are typically the first crew on a project which will then transfer to several of our other crews in various capacities including paving and landscaping. The quality and timeliness of their work is imperative in achieving a quality product which meets project deadlines.

Roadway Milling

Earle Asphalt Company has been milling roads since the early 1990's. As our roads age and are resurfaced we continue to add layers of asphalt. Eventually the added layers of asphalt become an issue for proper drainage, curb reveals and overall roadway grade. This issue prompted the need to cut these roads down before the resurfacing begins which is referred to as milling. Today, nearly every road that is paved requires some form of milling.

Hand in hand with many of our paving projects, milling has become as much a part of our company as any of our other functions. We have state of the art milling machines that are capable of cutting up to 12' of asphalt in one pass. However, we also have machines that can cut an area as small as 12" wide or anywhere in between. This type of versatility allows us to handle any project large or small. From parking lots to highways there is no project we cannot handle.

Our crews are fully trained in the latest operational and safety practices. They travel with all of tools and equipment necessary to complete a job properly and on time. Like anything, a road is built from the bottom up. If the surface is milled incorrectly, it is difficult to achieve the proper paved surface. Our crews understand this logic and are experts in delivering the quality product which gives our paving crews the surface they need to perform the job properly.

Roadway Paving

In 1968, Earle Asphalt Company began as a paving company. Founder, Walter R. Earle started his business as a small paving contractor, predominantly paving private roads, driveways and commercial parking lots. Today Earle Asphalt Company continues to pave everything from those same private roads and parking lots to major interstate highways and airports. No paving job is too small or too large.

With nearly 40 years of experience in paving, our teams possess what it takes to perform the job properly. Our crews are fully trained on the latest paving practices and come prepared to every job with state-of-the-art tools and equipment necessary to get the job done right. With almost every facet of a project being handled in house, we have a greater ability to control project flow and quality. Our field management personnel are experts at interfacing with customers and engineers to help ensure that the unique needs of every project are addressed in a manner that exceeds expectation.

To date, Earle Asphalt Company has won well over 20 state and national awards for quality paving in our 50-year history. This type of quality takes commitment from every level of an organization. This commitment was made by Walter R. Earle in 1968 and remains a core part of our foundation today.

Except with respect to affectional or sexual orientation and gender identity or expressions, the Contractor or Subcontractor will ensure that equal opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, the disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. APPENDIX B

MANDATORY EQUAL EMPLOYMENT OPPORTUNITY LANGUAGE FOR CONSTRUCTION CONTRACTS

(Pursuant to N.J.S.A. 10:5-31 et seq. (P.L.1975, c.127) and N.J.A.C. 17:27-1.1 et seq.)

During the performance of this Contract, the Contractor agrees as follows:

The Contractor or Subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the Contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The Contractor or Subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The Contractor or Subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the Contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The Contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the Contractor or Subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program, may, in its discretion, exempt the Contractor or Subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B and C, as long as the Dept. of LWD, Construction EEO Monitoring Program, is satisfied that the Contractor or Subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The Contractor or Subcontractor agrees that a good faith effort shall include compliance with the following procedures:

- A. If the Contractor or Subcontractor has a referral agreement or arrangement with a union for a construction trade, the Contractor or subcontractor shall, within three business days of the Contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the Contractor or Subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the Contractor's or Subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said

assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the Contractor or Subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the Contractor or Subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

- B. If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the Contractor or Subcontractor agrees to take the following actions:

(1) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the Contractor or Subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the Contractor or Subcontractor:

(i) The Contractor or Subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the Contractor or Subcontractor shall in good faith determine the qualifications of such individuals. The Contractor or Subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the Contractor or Subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the Contractor or Subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said Contractor or Subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the Contractor or Subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

- C. The Contractor or Subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the Contractor or Subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the Contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA 201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The Contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program and to the public agency compliance officer.

The Contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the-job programs for outreach and training of minorities and women.

- D. The Contractor and its Subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq.

APPENDIX C

EQUAL OPPORTUNITY FOR INDIVIDUALS WITH DISABILITY

(Pursuant to the Americans with Disabilities Act of 1990)

The Contractor and the Owner do hereby agree that the provisions of Title 11 of the Americans with Disabilities Act of 1990 (*the "Act"*) (*42 U.S.C. S121 01 et seq.*), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this Contract. In providing any aid, benefit, or service on behalf of the Owner pursuant to this Contract, the Contractor agrees that the performance shall be in strict compliance with the Act. In the event that the Contractor, its agents, servants, employees, or Subcontractors violate or are alleged to have violated the Act during the performance of this Contract, the Contractor shall defend the Owner in any action or administrative proceeding commenced pursuant to this Act. The Contractor shall indemnify, protect, and save harmless the Owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The Contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the Owner's grievance procedure, the Contractor agrees to abide by any decision of the Owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the Owner, or if the Owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the Contractor shall satisfy and discharge the same at its own expense.

The Owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the Contractor along with full and complete particulars of the claim. If any action or administrative proceeding is brought against the Owner or any of its agents, servants, and employees, the Owner shall expeditiously forward or have forwarded to the Contractor every demand, complaint, notice, summons, pleading, or other process received by the Owner or its representatives.

It is expressly agreed and understood that any approval by the Owner of the services provided by the Contractor pursuant to this Contract will not relieve the Contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the Owner pursuant to this paragraph.

It is further agreed and understood that the Owner assumes no obligation to indemnify or save harmless the Contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the Contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the Contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the Contractor from any liability, nor preclude the Owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
