COMMITTEE REPORTS

Technology

A Technology Committee Meeting of the Board of Education of the Toms River Regional Schools took place at 1144 Hooper Avenue, Toms River, N.J., on Thursday, June 18, 1998 at 6:00 P.M.

Chairperson Vasil read the following opening statement:

"Good Evening, Welcome to a Technology Committee Meeting of the Board of Education of the Toms River Regional Schools.

Notice of this meeting was published in the Asbury Park Press and Ocean County Observer on June 11, 1998 which constituted at least 48 hours notice as required by law under the Open Public Meetings Act."

In attendance were Betty Vasil, Chair, Richard Longo, Beverly Clayton, Robert Kernasovic, Meera Malik and Linda Garvey. Guests present were Michael Ritacco, Margaret Bartlett, Bob Ciliento, Jerry Jellefs and Bob Rapp.

During the meeting, the following items were discussed:

Mr. Rapp explained to the committee that we have installed filtering devices on computers for students' use to access the Internet. Since no filtering system is fool-proof, all students using the Internet must have a contract signed by them and their parents.

Mrs. Bartlett reviewed with the committee possible funding sources for technology for the 1998-00 year. She informed the committee that the district has applied for a number of grants and we are hopeful that we could be awarded some monies through these sources. As a matter of fact, we were just notified today that we have been awarded a \$200,000 grant from the New Jersey Technology Literacy Challenge Fund. Funds from this grant will be available July 1.

Toms River, N.J., June 23, 1998

MOTION TO ACCEPT THE NEW JERSEY TECHNOLOGY LITERACY CHALLENGE FUND GRANT

The Universal Service E-Rate discounts appear to be severely curtailed at the federal level, and at this point funding from this source does not look hopeful.

Our district Walk-a-Thon was a huge success and we should know the total amount raised shortly. The district is also continuing seeking business and private partnerships.

District staff have responded overwhelmingly to the planned summer technology in-services. Over 800 certificated staff have signed up to participate. Presently, we have 25 sessions scheduled for the summer and because of staff interest, we will attempt to schedule additional days.

Dear Mr Ciliento

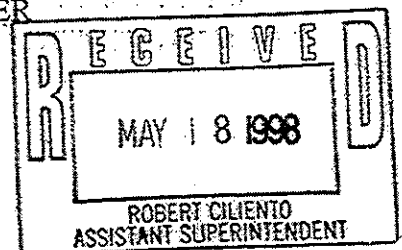

Thank you so much for all the support you gave the USAF Academy Catholic Cadet Choir on our visit to Toms River. With the unsettled nature of all the logistics, your flexibility and willingness to provide bus transportation simply made the trip possible. If it were not for your efforts, we would have been unable to perform in Toms River. I'd like to give you a special thank you for transporting the choir to New York City on Sunday. We had two terrific performances there and a great experience for the cadets that again would not have been possible without your support.

I'd like to take this opportunity to commend Mr Ron Swierzbini for all his invaluable support and coordination. Ron stuck with us until the eleventh hour while we juggled airplanes and buses. He has told me that the cadets and the Toms River community have made extremely positive impressions on each other, and had the added joy of seeing a product of the Toms River School System, Cadet Second Class Craig Swierzbini, be a very positive role model for the youth of the community.

Once again, Mr. Ciliento, thank you for your gift to the USAF Academy Catholic Cadet Choir and to the people of the Toms River area. If you are ever at the Air Force Academy, please give me a call and allow me to give you the VIP tour of the Cadet Chapel and the organs.

Best Regards

GARY G. DE KLER

TO: Chief School Administrators

FROM: Leo Klagholz

SUBJECT: The Equivalency and Waiver Process for Special Education

The State Board of Education adopted new regulations for special education at its June 3, 1998 public meeting. By this action, the State Board repealed N.J.A.C. 6:28 and replaced it with N.J.A.C. 6A:14. Consequently, all special education equivalencies and waivers granted from August 1995 to the present expire at the end of this school year and are no longer in effect. This memo notifies each district board of education of the adoption of the new regulations and the requirements to bring closure to the equivalencies and waivers granted through May 1998.

Based on the State Board's adoption of the new special education regulations codified as N.J.A.C. 6A:14, the chief school administrator of each district that received an equivalency or waiver to N.J.A.C. 6:28 must complete the following:

- Prepare a statement of assurance stating that the district will no longer adhere to the equivalency or waiver allowance(s) but will adhere to the new special education code at N.J.A.C. 6A:14. Copies of all letters from the Commissioner granting equivalencies or waivers in special education must be attached to the statement.
- Present the statement of assurance and its attachments at an open public meeting of the district board of education within 45 days of the June 3, 1998, State Board meeting or at the next district board of education meeting. The statement of assurance and attachments must be considered public documents according to N.J.S.A. 47:1A-1 et seq. must be available upon request.
- Within 15 days of reporting the statement of assurance at the district board of education meeting, the chief school administrator must file a copy of the statement of assurance and its attachments with the county office.

The county superintendent will verify that each district that received an equivalency or waiver completed the process described above. Also, the county superintendent will verify compliance through the monitoring procedures under IDEA and as part of the department's district monitoring.

The special education code is the first chapter revised as a result of the Comprehensive Review of Code initiative. This new chapter will be implemented as adopted. N.J.A.C. 6A:14-4.10(f) states that an equivalency or waiver may not be granted to the new special education chapter of code. Consequently, requests for this specific chapter will no longer be accepted for consideration.

A copy of the new chapter, N.J.A.C. 6A:14, is available on the department's website at <http://www.state.nj.us/education> or you may call the Office of Special Education at (609) 292-0147 to receive a copy. The chapter will also be published in the July 6, 1998 *NJ Register*.

Athletic Director
Toms River Regional Schools

Toms River, NJ 08753

Dear Mr. Lundy:

I am requesting at this time, the use of the Toms River South tennis courts during the month of August, so that I may begin summer practices for the Toms River South girls tennis team.

I would like to use the courts beginning on Monday, August 3, 1998, and ending the last Thursday in August. Practices will be run on every Monday and Thursday evenings from 5:30 p.m. - 7:30 p.m. No equipment of any kind would be needed from the school.

All persons involved will have it made clear to them, that they may not practice unless all proper paperwork and proper procedures have been followed. It will also be made known to all participants that these practices are strictly voluntary and that not attending them will have no reflection on whether they become members of the team or not.

Sincerely,

Ken Ashman, Coach
