145. Crash Description/ Narrative

On 06/20/2024, a crash investigation revealed that V1 struck V2 due to driver inattention and improper turning.

Upon arrival I spoke with D1. D1 stated that he was approaching a stop sign in the Acme parking lot (515 Berlin Cross Keys Road), when he came to a complete stop. D1 stated he started to make a left turn and he turned the steering wheel too far and drove head on into V2. D1 stated on BWC that the crash was his fault. D1, P1, and P2 were not injured during the course of the MVC. V1 sustained minor damage to the front driver's side. V1 was parked in a parking spot and left at the scene by the owner at the conclusion of the investigation.

D2 stated he was approaching the intersection when he noticed V1 turning sharply. D2 stated that before he could react, V1 struck V2. It should be noted that V2 did not have a stop sign. D2 had a complaint of head pain and was evaluated by a BLS supervisor, D2 signed a refusal. V2 sustained minor drivers' side front end damage. V2 was driven from the scene at the conclusion of the investigation by D2.

D1 was issued one summons for 39:4-97 - Careless Driving (E24 005678).

145. Crash Description/ Narrative

Two (2) vehicle crash occurred just north of the intersection of Almonesson Road and S. Black Horse Pike, Blackwood, NJ 08012.

V1 was attempting to merge into ongoing traffic on S. Black Horse Pike and collided with the rear bumper of V2. V2 was at a complete stop in traffic just prior to a traffic signal.

I spoke with the driver of V1, who stated that while attempting to merge into traffic on S. Black Horse Pike, he accelerated into the southbound lane. D1 attempted to break but was unable to come to a complete stop prior to colliding with the rear bumper of V2.

I spoke with the driver of V2, who stated that he came to a complete stop at the southbound traffic signal at the intersection of Almonesson Road and S. Black Horse Pike. D2 stated that he was behind several vehicles and came to a complete stop prior to being struck by V1 on the rear of the vehicle.

Minor paint transfer, surface dents, and body damage were observed on both V1 and V2. That is consistent with both statements from D1 and D2.

V1 bearing NJ/ZVZ55C suffered moderate front bumper and license plate damage and was driven off-scene by the driver. V2 bearing NJ/J59RPE suffered minor rear bumper and license plate damage and was driven off scene by the driver.

Following too closely and driver inattention in V1 appear to be the main contributing factors to the crash.

No third-party witnesses or surveillance cameras were observed in the immediate area.

145. Crash Description/ Narrative

Crash occurred on the private parking lot of 1421 N. Black Horse Pike.

I spoke to Driver 1 who stated he was reversing in the private parking lot and collided with the rear passenger side bumper of Vehicle 2. Driver 1 was very apologetic and took responsibility for the crash.

I spoke to the owner of Vehicle 2 who corroborated Driver 1 statement, due to him observing it.

Vehicle 1 sustained minor damage to its driver side rear bumper.

Vehicle 2 sustained minor damage to its passenger side rear bumper.

Both vehicles drivable and both parties were provided with a case number in reference to the motor vehicle crash.

Nothing further to report at this time.
