PROSECUTOR JOSEPH D. CORONATO
OCEAN COUNTY PROSECUTOR'S OFFICE
119 HOOPER AVENUE
TOMS RIVER, NEW JERSEY, 08753

**AFFIDAVIT IN SUPPORT OF
APPLICATION FOR AN ARREST WARRANT**

STATE OF NEW JERSEY)
) SS.
COUNTY OF OCEAN)

I, Detective David Brubaker, of full age, being duly sworn according to law, upon his oath, deposes and says:

- 1) I am employed as a Detective with the Ocean County Prosecutor's Office High Tech Crime Unit.
- 2) In the course of my duties I have conducted investigations regarding but not limited to violations of the New Jersey Criminal Code Title 2C.
- 3) I have probable cause to believe and do believe that **Matthew H. Wolny** committed the crimes listed herein:

Manufacture of Child Pornography N.J.S.A. 2C:24-4b(4)
Distribution of Child Pornography N.J.S.A. 2C:24-4b(5)(a)
Possession of Child Pornography N.J.S.A. 2C:24-4b(5)(b)

- 4) The basis my probable cause is as follows:
 - a) On September 03, 2013, the IP address of 68.192.126.171 was seen on the ARES network sharing files.
 1. The suspect system was providing access to thirteen (13) files which have been identified by NCMEC (National Center for Missing & Exploited Children) as Child Pornography. The identification of these files was made by comparing the file's SHA1 hash value against a database maintained by NCMEC. These files were contained within the suspect system's shared folder which is open to any user of the ARES file sharing network. A description of those files is as follows:

- b) On September 04, 2013 an Ocean County Grand Jury Subpoena was issued to CSC Holdings, Inc to produce records indicating the subscriber information for the individual using the IP address 68.192.126.171 on September 01, 2013 at 2359 hours EDT. On September 12, 2013, CSC Holdings, Inc. supplied a Return for the Subpoena previously issued on September 04, 2013. It lists, in part, subscriber information for the individual assigned the IP address of 68.192.126.171 on the previously stated date and time as:

Matthew Wolny
 11 Maryland Dr
 Jackson, NJ 08527
 Acct# [REDACTED]

- e) An onsite forensic examination was conducted of the computers. The ARES file sharing application was found to be installed. There were in excess of 550 video files present in the 'My Shared Folder' consistent with child pornography.
- f) A video recorded interview was conducted of Matthew Wolny by myself and Detective Mitch Cowit of Jackson Police. During that interview, Matthew Wolny stated:
1. That he works in the IT field for Howell Board of Education
 2. That he uses the file sharing application, ARES, and is familiar with how it works
 3. He has searched for, and saved files consistent with child pornography on his computer and attached storage devices
 4. He understands that any files saved within the 'My Shared Folder' of the ARES application are available for distribution and download by any user of the ARES network
 5. His preference for subject matter of these files are males between the ages of 13 – 18 years old
 6. There are hundreds, if not thousands of files of child pornography on his computer and attached storage devices
 7. He is a member of the Toms River YMCA, and while in the locker room there, has used his cell phone to secretly record boys changing their clothes.
 8. He is a member of the Windsor Drum Corp, based out of West Windsor, and has massaged the shoulders of 14-15 year old male members in a way that he described as inappropriate
 9. While at a competition in Maryland with the Windsor Band Corp, Labor Day weekend 2013, he shared a room with three juvenile males under the age of 16, and shared a bed with a juvenile '■', but no sexual contact occurred. While sharing that room, he secretly recorded ■ while showering with his cell phone.
 10. He receives sexual gratification, and masturbates when watching the videos that he downloads using the ARES application, and also the videos that he manufactures using his cell phone.
- a. I am aware based upon my training and experience that peer to peer networks are frequently used in the trading of child pornography. I know that one network, known as the Ares network is being used to trade digital files, including still images and movie files, of child pornography. I am aware of the following information regarding the Ares file sharing network:
- The Ares network is an open source public file-sharing network. Most computers that are part of this network are referred to as nodes. A node can simultaneously provide files to some peers while downloading files from other nodes. Nodes may be elevated to temporary indexing servers referred to as "supernodes". Supernodes increase the efficiency of the Ares network by maintaining an index of the contents of network peers. Ares users

query supernodes for files and are directed to one or more peers sharing that file. There are many supernodes on the network, if one shuts down the network continues to operate.

- The Ares network can be accessed by computers running many different client programs, some of which include the original Ares Galaxy program, and derivatives compiled from the source code which is open source and freely available. These programs share common protocols for network access and file sharing. The user interface, features and configuration may vary between clients and versions of the same client.
- During the installation of an Ares client, various settings are established which configure the host computer to share files. Depending upon the Ares client used, a user may have the ability to reconfigure some of those settings during installation or after the installation has been completed. Typically, a setting establishes the location of one or more directories or folders whose contents (files) are made available to other Ares users to download. This location is commonly referred to as the "My Shared Folder" and in many versions is defaulted to be on the computer's "Desktop".
- The client software processes files located in a user's shared directory. As part of this processing, a SHA-1 hash value is computed for each file in the user's shared directory. The client software processes files located in a peer's shared directory. As part of this processing, a SHA-1 hash value is loaded from a prior record or computed for each file in the user's shared directory.
- The Ares network uses SHA-1 values to improve network efficiency. Users may receive a selected file from numerous sources by accepting segments of the file from multiple users and then reassembling the complete file on the local computer. The client program succeeds in reassembling the file from different sources only if all the segments came from exact copies of the same file. The network uses SHA-1 values to ensure exact copies of the same file are used during this process.
- Upon connecting to the Ares network, a list of shared files, descriptive information and the files associated SHA-1 values are sent to supernodes. This allows other users to locate these files. The frequency of updating information is dependent upon the client software being used and the Ares networking protocols. This information sent to the ultra-peers is data about the file and not the actual file. The file remains on the user's computer. In this capacity, the supernode acts as a pointer to the files located on a user's computer.
- When a download of a file is initiated, the user is presented with a list of users (nodes) who had told the Ares network that they have

the requested file available for others to download. Typically, the supernodes and hosts computers on the network return this list containing node information and the Internet Protocol (IP) addresses of computers which have reported they have the same file (based on SHA-1 comparison) or in some instances portions of the same file available to others to download. This procedure allows for the detection and investigation of those computers involved in sharing digital files of known actual child pornography.

- Obtaining files from the Ares network, as described herein, returns the candidate list, including IP addresses, which can be used to identify the location of computers. Although the IP address is not usually visible to the end user in the common Ares clients, it is returned and used by the software to initiate the download.
- Law Enforcement has modified the Ares program to allow the downloading of a file from a single IP address as well as displaying the IP address which is known to all Ares clients but not displayed.

Based upon my knowledge of the facts of this investigation(i.e. downloaded files and interview admissions), as well as my training and experience in conducting online child sexual exploitation investigations involving the possession and distribution of child pornography, it would appear that Matthew H. Wolny, actively and knowingly manufactured, distributed and possessed video files consistent with child pornography.

Based on the above, I have probable cause to believe, and do believe that Jonathan R. Woods has violated the following New Jersey Statues:

Manufacture of Child Ponography N.J.S.A. 2C:24-4b(4)
Distribution of Child Pornography N.J.S.A. 2C24-4b(5)(a)
Possession of Child Pornography N.J.S.A. 2C:24-4b(5)(b)

Therefore, I respectfully request the court to issue a warrant for the arrest of Matthew H. Wolny for the aforesaid crimes.

New Jersey Judiciary Additional Questions for Certain Sexual Offenses

NOTE:

If you are pleading guilty to a violation of a condition of community supervision for life, pursuant to N.J.S.A. 2C:43-6.4 and the violation occurred on or after July 1, 2014 you should answer Question 4b.

These additional questions need to be answered if you are pleading guilty to the offense of aggravated sexual assault, sexual assault, aggravated criminal sexual contact, kidnapping under 2C:13-1c(2), endangering the welfare of a child by engaging in sexual conduct which would impair or debauch the morals of the child under 2C:24-4a, endangering the welfare of a child pursuant to 2C:24-4b(3), (4) or (5)(a), endangering the welfare of a child pursuant to 2C:24-4b(5)(b)(i) or (ii) (if the offense was committed on or after February 1, 2018), leader of a child pornography network pursuant to 2C:24-4.1 (if the offense was committed on or after February 1, 2018), luring or enticing a child pursuant to 2C:13-6, criminal sexual contact pursuant to 2C:14-3b if the victim is a minor; kidnapping pursuant to 2C:13-1, criminal restraint pursuant to 2C:13-2 or false imprisonment pursuant to 2C:13-3 if the victim is a minor and the offender is not the parent, promoting child prostitution pursuant to 2C:34-1b(3), (4), or any attempt to commit any such offense. Please note for Question 4b(2) that while endangering the welfare of a child pursuant to 2C:24-4b(5)(b)(iii), can be subject to parole supervision for life upon a motion of the prosecutor, this offense was not included in the February 1, 2018 amendments to the offenses subject to Megan's Law under 2C:7-2b(2). Note also that Question 7 includes the offense of felony murder if the underlying crime is sexual assault, as well as any offense for which the court makes a specific finding on the record that, based on the circumstances of the case, the offense should be considered a sexually violent offense, or an attempt to commit these offenses.
