Hey Steve-

I'm just curious- who authorized our legal counsel to look into this (costing us legal fees) and who requested it be put on executive summary.

I know I didn't.

Complaint Process

As a unit of the Division of Consumer Affairs, the New Jersey Board of Massage and Bodywork Therapy (Board), takes its responsibilities seriously. A copy of the complaint will be forwarded to the licensee with a cover letter from the Board requiring a detailed written response to the allegations in the complaint. Once that response has been received, it will be reviewed and disposition may be recommended. If the Board needs additional information, the licensee may be required to appear to answer questions concerning the matter.

Please be advised that any information you supply on the complaint form may be subject to public disclosure. If an investigation into the matter is conducted, the information is subject to public disclosure only after the completion of the investigation. You are also advised that the completed complaint form is a "government record," which the Board may be obligated to provide to anyone making a request pursuant to the Open Public Records Act (OPRA).

You are further advised that pursuant to Section 4B of Executive Order No. 26, information concerning any individual's medical, psychiatric or psychological history, diagnosis, treatment or evaluation is not a government record subject to public access.

The disposition of the matter may take several months. Please understand that the Board can only take formal action if it finds sufficient basis that the licensee violated State laws or regulations. If the Board determines that formal action is required, the matter is referred to the Office of the Attorney General. In that case, formal charges may be filed against the licensee and the licensee will be given an opportunity to defend himself or herself. This process can take a considerable period of time.

If the complaint involves a dispute over fees, please be advised that the Board has limited jurisdiction over fees charged by professionals. If the Board determines that there is insufficient basis to pursue disciplinary action, but determines that the matter involves a fee dispute, your complaint may be referred to the Alternative Dispute Resolution (ADR) Unit of the Division of Consumer Affairs. The ADR is a free mediation service that can be helpful in resolving such matters.

Until a final determination has been made, the Board is not permitted to disclose information regarding the matter. You will be notified in writing when a final determination has been made.

Subject: Bob Menendez's Stunning Hypocrisy on Women

Senator Menendez Can't Selectively "Believe Women"

Public has a right to know the facts and decide for themselves

Bob Menendez is a hypocrite. Last week in a speech on the floor of the Senate, Bob Menendez called for all women to be believed. Yet, Menendez claims that no one should believe the underage women who accused him. The public has a right to know all the facts about the FBI investigation into Senator Menendez and decide for themselves.

FACT: The FBI and President Obama's Justice Department had specific, corroborated evidence to back up allegations that Senator Menendez had sex with underage girls in the Dominican Republic. Those women never recanted. It's also important to note these are not the same women who recanted in affidavits released by Dr. Melgen's cousin.

FACT: The FBI also discovered a "black book" listing Menendez 9 separate times alongside the names and phone numbers of multiple women in what an FBI agent testified looked to be a ledger of prostitution activity.

FACT: The pilot of Menendez's friend, convicted felon Salomon Melgen, also testified he flew "young girls" who "look[ed] like escorts" on Melgen's plane. In addition, the FBI confirmed that young women

who received substantial sums of money from Dr. Melgen were at Casa De Campo at the same time as Menendez.

FACT: Confronted with the FBI's corroborating evidence that placed Menendez in the same place at the same time the alleged sex with underage victims took place, Menendez lied. The Obama DOJ called his denials "demonstrably false." Menendez and his legal team argued in federal court documents that these allegations, even if true "would hardly be a crime."

I'd like to request a closed session on Tuesday night at 7:00PM to discuss the revoking of the Mercantile License for East Meets West massage parlor.

I would like our Borough Attorney present.

If this matter is something I can just bring up in regular council, then I'd request that it be added to the agenda instead.

Thanks in advance,

Paul

Also, the Borough Attorney is drafting up his opinions on our options for East Meets West massage parlor and I'd like to discuss those either in Executive Session or open session. He'll have them ready in time for the meeting.

Complaint Process

As a unit of the Division of Consumer Affairs, the New Jersey Board of Massage and Bodywork Therapy (Board), takes its responsibilities seriously. A copy of the complaint will be forwarded to the licensee with a cover letter from the Board requiring a detailed written response to the allegations in the complaint. Once that response has been received, it will be reviewed and disposition may be recommended. If the Board needs additional information, the licensee may be required to appear to answer questions concerning the matter.

Please be advised that any information you supply on the complaint form may be subject to public disclosure. If an investigation into the matter is conducted, the information is subject to public disclosure only after the completion of the investigation. You are also advised that the completed complaint form is a "government record," which the Board may be obligated to provide to anyone making a request pursuant to the Open Public Records Act (OPRA).

You are further advised that pursuant to Section 4B of Executive Order No. 26, information concerning any individual's medical, psychiatric or psychological history, diagnosis, treatment or evaluation is not a government record subject to public access.

The disposition of the matter may take several months. Please understand that the Board can only take formal action if it finds sufficient basis that the licensee violated State laws or regulations. If the Board determines that formal action is required, the matter is referred to the Office of the Attorney General. In that case, formal charges may be filed against the licensee and the licensee will be given an opportunity to defend himself or herself. This process can take a considerable period of time.

If the complaint involves a dispute over fees, please be advised that the Board has limited jurisdiction over fees charged by professionals. If the Board determines that there is insufficient basis to pursue disciplinary action, but determines that the matter involves a fee dispute, your complaint may be referred to the Alternative Dispute Resolution (ADR) Unit of the Division of Consumer Affairs. The ADR is a free mediation service that can be helpful in resolving such matters.

Until a final determination has been made, the Board is not permitted to disclose information regarding the matter. You will be notified in writing when a final determination has been made.

2017 Inventory of Total Rewards Programs and Practices Results

From telemedicine and stress reduction to weight management and health advocacy programs, today's employers are providing a dramatic increase of progressive health plans, tailor-made to the always thriving workforce. Results from a new survey published by World at Work and Korn Ferry Hay Group speak broadly to the latest trends in the market. Although there haven't been substantive changes in traditional benefits, more and more companies are offering progressive health benefits to meet the needs of an evolving, always-on workforce. Employees are accustomed to having 24/7 access to information, which is increasing the popularity of benefits that offer constant access to meet a wide range of health and wellness issues. With a tight labor market and fierce competition for qualified talent, organizations are becoming more creative in offering unique health and wellness benefits to help them enhance talent attraction and retention efforts.

Programs that saw a significant increase in prevalence year-over-year are shown below:

Table 1. Increased usage in 2017 versus 2016		
	2017	2016
Telemedicine services	73%	49%
Behavioral health plan (not an EAP)	94	78
Employee assistance program (EAP)	96	80
Weight-management programs	70	58
Seminars, webinars, or literature to promote wellness and well-being	87	76
Tobacco-/smoking-cessation support	84	73
Participatory wellness program	75	65
Wellness incentives (e.g., cash and noncash prizes, acknowledgement, rewards)	66	56
Stress-reduction programs/offerings (e.g., yoga, massage, meditation)	65	56
Lactation-support services (e.g., education, lactation consultants, mother's room)	71	65
Source: WorldatWork and Korn Ferry Hay Group, May 2018		

Just under 1,000 World at Work member employers responded to the annual survey. See the full text of the [release](#) announcing the survey results and the [chart-pack](#) of survey results for more information.
