I don't think we should email blast this, like [REDACTED] is asking us to do, but I think putting it on the agenda that is posted on the website is acceptable.....Mark, can you weigh in?
George what time is good for you on Monday afternoon after 3:30?

How is this statement:

"The Mayor has a call into the prosecutor's office. Since this is a criminal investigation, he has to obtain direction on what he can say publicly. He will be as transparent as possible and share what he is allowed at the meeting on Monday. By holding a public meeting, questions can be asked and answered if allowed. "

Cathy,

Thank you for the information. Has the mayor responded to my suggestion to you the other day about sending out an email-blast regarding this topic? Given the postponement and level of interest it would seem even more warranted to utilize an email-blast.

Warm regards,

A majority vote is required to approve a public contract, while Mark may be able to authorize spending, he cannot choose independently who should be hired. I don't think this is a public spectacle, this is transparency about the fact that there has been destruction of public property. We must find out why this occurred and if the information can be retrieved.

We should not be blaming any individual who discovered that this occurred, rather I feel that we should be trying to find out why it happened in the first place. Was it a mistake, or was it intentional, can public property be restored?

These are the questions I have.

I have been asked many questions regarding this issue. Since we have been criticized for lack of transparency, the issue needs to be discussed in public regardless of us being able to pass the expense behind closed doors.

The experts tell us that we needed to start the investigation yesterday because time is important and we should have begun this earlier. Every day that passes will make it harder to recover the data if possible at all.

The emails were public property and as custodians of the property, we need to act so it is possible to hold those responsible either through error or deliberately for all costs. This will include the value of any unrestoreable information. This could be over a million dollars and more if we find malicious intent and get a punitive award.

Ms. Reese and Mr. Krane,
I do hope that the process followed for notifying the public of Special Township Council meetings is reviewed. I received the agenda for the meeting via the email service established on May 28, 2024. I had planned to attend in person. Late in the afternoon of May 29 I went to the Agenda Center and there was nothing about the meeting, not the title and the words Canceled or to be Rescheduled, nothing as if it did not exist. There was nothing in the calendar website if the Township website and there was no pop up window with information, there was in fact no information.

Thus I emailed both of you for information, thank you for both responding. I recognize that you both took time from your day to respond to me.

I did receive an email notification from the Agenda Center, with a link to another date and agenda for another Special Meeting on June 3, 2024.

I hope that the process followed for the dissemination of the cancellation/rescheduling of the meeting is reviewed. This is a Township meeting and as such I am looking at the website as it should have the information needed and in this case it did not. Adding the words Canceled or Rescheduled TBD to the May 30th date would have been helpful and I would not have emailed the two of you. Individuals who signed up for the meeting via Zoom were notified of the cancellation, but not those who were planning to attend in person. Do I now need to register for meetings via Zoom to be alerted to changes? That does not seem effective.

Regards,
[REDACTED]

Do you understand why a special meeting is needed two weeks prior to the TC meeting? Can the town send out an email blast explaining what is going on?

What is the appropriate response as to why there is an urgency when we have a meeting coming up and legally what can be disclosed regarding the details of the proposed investigation.

Shaun,

Yes, both Donna and I did.

And the meeting is scheduled for tomorrow at 10:00 AM

It will be broadcasted live on the access channel, our website, and Facebook.

The media has been notified. And we already have 24 Zoom requests.

Cathy: I meant to ask, did you check if 1pm was acceptable to the rest of the committee? As we all know, this meeting wasn't required to hire this vendor and I would like to confirm the other time option I provided was check before we set a time I can't attend.

Thanks

I wont be able to attend until the 5th. Why is a special meeting required to hire a professional at what I assume is a lower cost item? Mark should simply request quotes based on a scope that captures the bullets below and then we can vote to proceed based on the dollar value. I am assuming we don't have a quotes based on the SOW yet and wouldn't by the 31st.

Law enforcement asked that we conduct our own investigation and time is of the essence. They determining if a crime was committed and we must determine who is responsible and establish potential changes in policy.

We need to do the following:

1. Determine how this happened.
2. Determine if it affected more than the two we know about.
3. Attempt to find the missing files.

4. Find out if anyone is or has been deleting "Deleted items".
5. Preserve evidence for future civil litigation.

I hope you can attend.

What is the appropriate response as to why there is an urgency when we have a meeting coming up and legally what can be disclosed regarding the details of the proposed investigation.

I have been asked many questions regarding this issue. Since we have been criticized for lack of transparency, the issue needs to be discussed in public regardless of us being able to pass the expense behind closed doors.

The experts tell us that we needed to start the investigation yesterday because time is important and we should have begun this earlier. Every day that passes will make it harder to recover the data if possible at all.

The emails were public property and as custodians of the property, we need to act so it is possible to hold those responsible either through error or deliberately for all costs. This will include the value of any unrestorable information. This could be over a million dollars and more if we find malicious intent and get a punitive award.

Unfortunately I can not make this meeting as previously stated I have an all day commitment. I am however receiving a lot of questions regarding the meeting.

Below is an example:

Do you understand why a special meeting is needed two weeks prior to the TC meeting? Can the town send out an email blast explaining what is going on?

What is the appropriate response as to why there is an urgency when we have a meeting coming up and legally what can be disclosed regarding the details of the proposed investigation.

Thank you

Cathy,

Thank you for the information. Has the mayor responded to my suggestion to you the other day about sending out an email-blast regarding this topic? Given the postponement and level of interest it would seem even more warranted to utilize an email-blast.

Warm regards,
[REDACTED]

We are trying to reschedule for Monday, but have not coordinated a time with the all the members of the Township Committee.

I will let you know what time, and your requests to participate via zoom will be carried over to the meeting on Monday. You will not have to resubmit your request.

Have a lovely weekend.

How is this statement:

"The Mayor has a call into the prosecutor's office. Since this is a criminal investigation, he has to obtain direction on what he can say publicly. He will be as transparent as possible and share what he is allowed at the meeting on Monday. By holding a public meeting, questions can be asked and answered if allowed. "

I don't think we should email blast this, like [REDACTED] is asking us to do, but I think putting it on the agenda that is posted on the website is acceptable.....Mark, can you weigh in?
George what time is good for you on Monday afternoon after 3:30?
