RE: Retention

17 North Main Street
Medford Twp, Burlington County
SRP-PI: 991749
Activity Number Reference: RET220001
Hired To Address: Specific Known Contaminated AOC(s)

Dear Katherine Burger:

This letter serves to advise you that an LSRP Notification of Retention Form has been received by the New Jersey Department of Environmental Protection (NJDEP) at/or for the case(s) noted above. The NJDEP confirms that Marc H Selover was retained on August 4, 2022.

On May 7, 2009, the Site Remediation Reform Act (SRRA) was enacted. SRRA establishes criteria for the licensing of site remediation professionals who will assure that contaminated sites are remediated in accordance with the Technical Requirements for Site Remediation, N.J.A.C. 7:26E. SRRA authorizes the NJDEP to establish mandatory timeframes for the completion of each phase of remediation. These timeframes, as well as other requirements of the Act, have been codified in regulations that became effective on November 4, 2009. The complete rule can

be found at www.state.nj.us/dep/srp/regs/arcs/arcs_rule.pdf. N.J.A.C. 7:26C-2.4 identifies the requirements with which you must comply.

Per NJDEP's records, the following case types have been identified for this case:

<i>Case#</i>	<i>Case Type</i>
LSR220001	Spill Act Discharge

**Note: For some Retentions, Remedial Action Permits, some Childcare facilities and for some computer tracking system issues there will be no Case Types.

As the person responsible for conducting the remediation at case 17 North Main Street, Medford Township, Burlington County, the SRRA requires you to do the following:

- ~ Within 45 days of the hiring the licensed site remediation professional (LSRP) to perform the remediation you are required to submit the first annual remediation fee and a completed Annual Remediation Fee Reporting form. This can be filed electronically through NJDEP Online, <http://www.nj.gov/dep/online/> ;
- ~ Conduct the remediation without the prior approval of the NJDEP in accordance with the requirements set forth at N.J.A.C. 7:26E, the Technical Requirements for Site Remediation and N.J.A.C. 7:26C, Administrative Requirements for the Remediation of Contaminated Sites;
- ~ Provide the NJDEP with access to the contaminated site and documents concerning the remediation; and
- ~ Obtain all necessary permits.

Failure to comply with the obligations above may result in the NJDEP taking direct oversight of the remediation of the contaminated site. Once a site or a portion of a site is under direct Department oversight, the responsible party forfeits all rights in the decision making process regarding the remedial investigation and remedial action to be performed at the site, including remedy selection. Additionally, the responsible party will be required to post a remediation funding source and the NJDEP will control the disbursements from the remediation funding source. (http://www.nj.gov/dep/srp/guidance/srra/direct_oversight.pdf)

The contact information provided above is based on information previously provided to the NJDEP. If you have questions on any of the above contact information, you can contact the Compliance Assistance Duty Officer at (609) 633-1464.

Sincerely,

Kirstin Hahn, Bureau Chief
Bureau of Case Assignment & Initial Notice
