Subject: Update

Good Afternoon All,

As most of you are aware, most facilities will be closed until further notice. Should there be any questions or concerns, the COVID-19 hotline at the Health Department is (732) 341-9700 x 7411. For updates, view the Health Department website at www.ochd.org.

Thank you and stay healthy!

Kind Regards,

Victoria Machtinger
Assistant Administrative Analyst
Ocean County Health Department

Hi Ellen,

I did not talk to you yesterday, but I am happy to include my colleagues at the OCHD, and they will follow up.

Appreciate the email - and all you are doing in the schools to help support reducing the spread of COVID-19.

Stay well,

Hello

Yesterday I called you on an individual with initials MN and you had asked about when the initial symptoms began. She said they began 12/28/20 and felt like allergies or sinus infection.

Hope that helps

Take care

Subject: COVID vaccine school nurses are 1A and qualify NOW
Importance: High

Good evening school nurses,
I hope all is well with everyone. I just wanted to send a reminder to all school nurses that you **currently qualify for phase 1A COVID vaccination**. If you want to be vaccinated next week, please let us know. Please also spread the word.

You can respond to this email to me but please also copy my assistant Mary Kaminski at mkaminski@ochd.org. We are currently offering the Moderna vaccine at Toms River HS North Arena.

Stay well, happy new year.
Dan

Subject: RE: Staff Member & Student COVID Positive

If you cannot determine who has or has not been in close contact with the known positives and they all were in close proximity to each other then they should be all requested to quarantine. I know some schools and programs initiated smaller "pods" of training meaning they limited the number of players who participated in drills and/or activities. This would then keep players exposure to others at a minimum through smaller groups. Was that instituted at all do you know? I will confer with the team here and we will touch base.

Subject: Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,
Mrs. Cara DiMeo

Subject: Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

Hi Mary As I spoke to you today, Can you Please forward your policy or procedures regarding the Tracing of COVID - 19. The Toms River Schools would like to include these in our Procedures in case we have a positive Covid -19 Diagnosis. Administration would also like to know what are our responsibilities in contacting you. Will you also contact us if you have been notified of a positive student from a lab or physicians office.

Thank You for your assistance.

Catherine Shea, RN MS

Subject: School Subcommittee meeting / Mental Health Resources
Categories: COVID Watch

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

Subject: EAP January Newsletter
Attachments: Jan 2021 Ex.pdf

Happy New Year to all of our One Source EAP clients. 2021 certainly is starting off with more than the usual amount of stress brought about by the ongoing pandemic, continuing economic impacts and political unrest. However, this stress is also tempered by hope. Not only the hope usually brought on by the start of a new year but also for the COVID-19 vaccine.

Our January Newsletter, which is attached, focuses on hope - what it really means and how we can all develop it in our lives. Should you have specific topics impacting your employees, please let us know so we can build them into our communications and seminar planning.

If there is anything else we can do for you, please contact us.

Best,

Lynda

Hello,

Attached you will find the One Source EAP December Newsletter. The topic is Virtual Therapy, which is rapidly gaining popularity due to COVID-19. At One Source EAP, we are concerned with your employees' mental AND physical health. As such, the clinicians in our network pivoted to offering virtual therapy via phone and video at the beginning of the pandemic.

We hope you and your employees find this newsletter helpful at this time.

Attachments: November mid month update.pdf

Hello,

Attached is our One Source EAP mid-month update for November. The topic is very timely: **Helping Children Through COVID Holidays**. While adults have some degree of control over how the holidays will look and feel, children need some extra attention to navigate them this year. This quick read includes additional reading with ideas to help the children in your life open up about their feelings and be a part of the planning for safe, enjoyable and memorable holidays.

Please cascade to your employees and post for those that may not have access to email.

Be sure to let us know how we can help you and your employees further.

Enjoy your day,

Lynda

Attachments: November 20 Ext.pdf

Good morning,

Attached, you will find the November EAP Newsletter for distribution to your employees.

This month's issue tackles the important issue of how to cope with the holidays during COVID-19. This timely information includes links to resources and recommendations on how to care for your emotional health during what promises to be a very unusual holiday season. Some traditions may have to be tailored, but with the challenges also come opportunities to create joy in new ways. Stress relief and self care will be critical – that's where One Source EAP can help.

If One Source EAP can be of further assistance, please feel free to reach out to our team.

Good afternoon. As co-chairs of ASAP- NJ Ocean Region, Nina Rettino of Brick Memorial High School and I would like to officially invite you to our Open Meetings as attendees. Our next one is this Thursday, Dec. 17 at 9 am. I understand this is very short notice and with Covid-19 the health department is inundated, however Nina and I believe it's important that our community partners have access to attend our meetings, and not just when they are presenting.

A Google Meet link will be forthcoming, just giving you the heads up. Thanks so much!

Subject: Ocean County Health Department Programming
Attachments: Escaping Vaping info poster.pdf

Good Morning,

We hope you are doing well and enjoying the new normal of the school year so far. The Ocean County Health Department is dedicated to providing prevention programming to your students to help combat substance use and abuse in Ocean County. With COVID-19, we are now able to offer our programs to your students virtually! The Department of Substance Abuse, Addiction and Opioid Dependency has developed a new program called Escaping Vaping. This program has interactive components, as well as discusses the dangers of vaping, common ingredients found in vapes, marketing information and statistics about EVALI. This program can be offered through a live GoToMeeting platform, or we already have the program pre-recorded on www.phu2.org (can be found in the Drug and Alcohol section under Health Topics in the toolbar) for ease of accessibility. On the PHU2 Website, you can also find our more familiar programs, such as Oh the Places You'll Go. If you do choose to utilize any of the pre-recorded versions, please be sure to complete the program evaluation Google Doc found at the end of the presentations.

I am attaching the program flyer for Escaping Vaping here for your review. If you have any questions, please feel free to contact myself at the number listed below, or my colleague Kelly Larney at klarney@ochd.org or 732-341-9700 Ext: 7232.

We look forward to working with you.

Hi Beth,

As long as the service coordinators can contact all parties then we can proceed with them virtually. I don't have scanner access at home for the signature pages though.

Best,

Ms. Kari Lefebvre, MSW
School Social Worker
Early Learning Center

CDS has updated the NJDOH COVID-19 Public Health Recommendations for K-12 Schools. This document has been posted on the COVID-19 Information for Schools Page at https://www.state.nj.us/health/cd/topics/covid2019_schools.shtml

Key updates are highlighted in the document and include:

1. While in High Regional Risk Level (orange), schools should no longer exclude close contacts of students with COVID-19 compatible symptoms. Schools should continue to identify and exclude close contacts of COVID-19 cases in all Risk Levels.
2. Reinforced recommendations around non-classroom activities and cohorting.

On January 5, the New Jersey Department of Health (NJDOH) sent out a message to clinicians to inform them of K-12 school guidance changes addressing testing for the return of sick students to school. Please see the attached clarification letter from the NJDOH Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics.

Clarifications include:

1. CDC/CSTE symptom criteria should be used to define which students need testing prior to return to school
2. For children with chronic illness, only new or worsening from baseline symptoms should be used to determine exclusion.

Attached please find the Respiratory Virus Surveillance Report for week ending January 9, 2021. All reports (current and archived) in addition to many other useful tools can be found at the NJDOH website at:
<http://www.nj.gov/health/cd/statistics/flu-stats/index.shtml>.

Due to technical difficulties with data entry the NJ Stats report is not being included with this weekly report. This issue is being looked into and we hope to have it resolved for the next report.

Seasonal influenza activity in the United States and New Jersey remains lower than usual for this time of year. Healthcare-seeking behaviors have changed dramatically during the COVID-19 pandemic. Outpatient and emergency department (ED) visits are also currently being affected by these changes in healthcare seeking behaviors including increased use of telemedicine. Many people are accessing the healthcare system in alternative settings which may or may not be captured through surveillance. Syndromic data, for both COVID-like illness (CLI) and influenza-like illness (ILI), should be evaluated in combination with other sources of surveillance data, especially laboratory testing results, to obtain a complete and accurate picture of respiratory illness. The National Center for Health Statistics (NCHS) mortality surveillance data indicates that the current increase in deaths attributed to pneumonia, influenza, or COVID-19 (PIC) is also primarily due to COVID-19 and not influenza. While ILI activity levels may be impacted by the COVID-19 pandemic, this should be interpreted with caution. Though surveillance indicates that flu activity remains unusually low at this time, it may increase in the coming months and an annual flu vaccine is the best way to protect against flu and its potentially serious complications.

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Attached please find the Respiratory Virus Surveillance Report for week ending December 26, 2020. All reports (current and archived) in addition to many other useful tools can be found at the NJDOH website at:
<http://www.nj.gov/health/cd/statistics/flu-stats/index.shtml>.

Please note that an equal number of PCR positive, Influenza A (Subtyping Not Performed) and Influenza B results have been reported in the past 3 weeks. Reports of rapid influenza diagnostic testing results received in the same time frame were also taken into consideration to determine that Influenza A (Subtyping Not Performed) continues to be the predominant strain in circulation.

Seasonal influenza activity in the United States and New Jersey remains lower than usual for this time of year. Healthcare-seeking behaviors have changed dramatically during the COVID-19 pandemic. Outpatient and emergency department (ED) visits are also currently being affected by these changes in healthcare seeking behaviors including increased use of telemedicine. Many people are accessing the healthcare system in alternative settings which may or may not be captured through surveillance. Syndromic data, for both COVID-like illness (CLI) and influenza-like illness (ILI), should be evaluated in combination with other sources of surveillance data, especially laboratory testing results, to obtain a complete and accurate picture of respiratory illness. The National Center for Health Statistics (NCHS) mortality surveillance data indicates that the current increase in deaths attributed to pneumonia, influenza, or COVID-19 (PIC) is also primarily due to COVID-19 and not influenza. NJDOH CDS has updated and posted the following documents located on the COVID-19 Information for Schools Page at https://www.state.nj.us/health/cd/topics/covid2019_schools.shtml:

NJDOH COVID-19 Public Health Recommendations for K-12 Schools.
NJDOH COVID-19 Public Health Recommendations for Reopening Childcare Centers
Guidance for PPE Use in Schools During COVID-19 (NEW)

Key updates are highlighted in the documents and include:

Updated exclusion for individuals with COVID-19 compatible symptoms. Individuals with COVID-19 compatible symptoms should be excluded until they have a negative COVID-19 test or have met the criteria for discontinuing home isolation. An alternate diagnosis should not be accepted for return to school or childcare when individuals meet COVID-19 exclusion criteria.

Updated language from face covering to mask.

Updated definition of close contact.

Updated language from confirmed case to case: to include probable and confirmed cases.

This is a revision to the message that was sent out on November 2nd, 2020: in partnership with the New Jersey Department of Education, to expand our existing influenza-like illness surveillance for schools into an active surveillance system to monitor COVID-19 in K-12 public and private schools. While most of the message remains the same, the attached letter includes the link to a revised training video. Instructions for existing and new school users have also been included below.

For schools who aren't CDRSS users, go to <https://cdrs.doh.state.nj.us/cdrss/login/loginPage>. Under "System Announcements" complete the SIC Module Training Video. Then complete the user agreement at https://cdrs.doh.state.nj.us/cdrss/resources/manuals/User_Agreement.pdf and return to CDS.CO.V.RPT@doh.nj.gov. You will be contacted with further instructions and next steps.

For existing school users who report into the Communicable Disease Reporting and Surveillance System (CDRSS) for influenza-like illness (ILI), nothing additional needs to be done (same login at <https://cdrs.doh.state.nj.us/cdrss/login/loginPage>). Detailed reporting instructions are available at <https://cdrs.doh.state.nj.us/cdrss/login/loginPage>. Go to "System Announcements" and under "Training" refer to the Surveillance for Influenza and COVID-19 (SIC) Module Guide and complete the SIC Module Training Video

For questions on what and when to report, review the training materials that can be found at: <https://cdrs.doh.state.nj.us/cdrss/login/loginPage>. For questions on user accounts or any additional questions regarding reporting email CDS.CO.V.RPT@doh.nj.gov. Your participation in the COVID-19 School Active Surveillance Program will provide public health officials and valuable information to assess the impact of COVID-19 in school communities in New Jersey and will help ensure that students continue to have safe and healthy learning environments.

Public Health Info: Healthcare Providers Should Prioritize Flu Vaccination During the Pandemic

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department

Follow us on Twitter @Ocpublichealth · Like us on Facebook

The New Jersey Department of Health would like to remind all healthcare professionals about both the importance of receiving an annual flu vaccine, as well as the importance of recommending the vaccine to their patients. It's likely that flu viruses and the virus that causes COVID-19 will both be spreading this fall and winter, making it more important than ever that ALL healthcare workers get a flu vaccine! Getting a flu vaccine will not protect against COVID-19; however, the vaccine can reduce flu illnesses, hospitalizations, and can help to conserve potentially scarce healthcare resources during the pandemic.

It is important to note that healthcare workers include those who are directly and indirectly involved in patient care (e.g. dietary and housekeeping staff). Getting a flu vaccine is the best way to protect yourself, family, friends, and patients - especially those who are particularly vulnerable to both COVID-19 and influenza such as older adults and those with chronic health conditions.

New legislation in New Jersey requires healthcare workers to get a flu vaccine unless they have a valid medical contraindication. The state law, enacted in January 2020, requires all employees of hospitals, nursing homes and home health agencies to get a flu vaccine. More information can be found at: www.njleg.state.nj.us/2018/Bills/PL19/330_.PDF.

The following is a list of resources from the New Jersey Department of Health that can help to encourage flu vaccination in your healthcare facility:

*Flu and Healthcare Workers Flyer
https://nj.gov/health/cd/documents/flu/hcw_flu_flyer.pdf

*Why You Need A Flu Vaccine Flyer (For the general public)
https://nj.gov/health/cd/documents/flu/why_you_need_flu_vaccine.pdf

*NJDOH Flu Website
www.nj.gov/health/cd/topics/flu.shtml

***New Jersey Influenza Honor Roll**

The New Jersey Influenza Honor Roll is an initiative that serves to recognize institutions that encourage and promote flu prevention within their communities. There are four categories of eligible institutions: educational facilities, community-based organizations, businesses, and healthcare facilities. Applications for the 2020-21 flu season will be accepted through March 31, 2021. Please consider submitting an application detailing how you helped to prevent the flu. For more information please visit www.nj.gov/health/cd/edu_training/vdpd_flu_honor_roll.shtml

***Power to Protect Campaign**

With support from NJDOH, the Partnership for Maternal and Child Health of Northern NJ is running a statewide flu campaign which includes a website, billboards, resources, and a digital toolkit. The toolkit contains social media shareables targeting different population groups such as families, healthcare providers, and those you care for. Please visit <https://powertoprotectnj.org/> to learn more about the campaign.

Attached please find the New Jersey Department of Health COVID-19 Weekly Activity Report and the guidance document outlining public health recommendations for Local Health Departments regarding K-12 Schools.

New Jersey Department of Health COVID-19 Weekly Activity Report

The COVID-19 Weekly Activity Report provides information on COVID -19 activity levels statewide and by region. An overall COVID-19 Activity Level Index (CALI) score is assigned based on three indicators of COVID-19 transmission - case rate, percent positivity, and syndromic surveillance data. This report provides data to show how COVID-19 is impacting various parts of the state and can be used by local public health partners for improved situational awareness.

This report will be disseminated weekly via LINCS and will be posted to the NJDOH website at <https://www.nj.gov/health/cd/statistics/>.

New Jersey Department of Health COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools

This guidance document outlines NJDOH COVID-19 public health recommendations for school settings and is intended for use by local health departments (LHDs). This guidance is based on what is currently known about the transmission and severity of COVID-19 and is subject to change as additional information is known. Please check the NJDOH, NJDOE and CDC websites frequently for updates.

Additionally, this guidance document includes a COVID-19 Regional Risk Matrix which provides data and public health recommendations for local health departments and schools to consider based on the level of COVID-19 transmission in their region. The matrix is for the LHDs in collaboration with the local school districts and the Communicable Disease Service. Regional risk levels are just one tool that local health departments and schools can use when assessing COVID-19 risk.

The COVID-19 Regional Risk Matrix provides public health recommendations regarding the type of instruction (in-person, hybrid, remote), response to ill staff or students, exclusion criteria, and activities that involve interaction with multiple cohorts.

As this situation is evolving, please continue to check the website

https://www.state.nj.us/health/cd/topics/covid2019_schools.shtml for updates as guidance documents are updated as information changes.

Public Health Info: New Jersey School Immunization Requirements

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

The New Jersey Department of Health (NJDOH) has received inquiries regarding the status of the immunization of pupils in school regulations (N.J.A.C. 8:57-4). The value of immunizations is even more evident during this pandemic: therefore, NJDOH will not waive the vaccine requirements nor will there be any extensions for the upcoming school year. Students will be expected to comply with all vaccine requirements prior to attending virtually or in-person at a New Jersey child care/preschool and school. New Jersey still allows for medical and religious exemptions when applicable.

The potential for the spread of infectious diseases is increased whenever individuals are brought into group settings. New Jersey has minimum vaccine requirements for school attendance. Following the Centers for Disease Control and Prevention's (CDC) recommended immunization is encouraged to provide optimal protection from vaccine-preventable diseases. Ensuring that vaccines are up-to-date can help protect schools and communities from vaccine-preventable disease outbreaks during the COVID-19 pandemic.

For more information please visit the New Jersey Immunization Requirements Frequently Asked Questions document available on the website https://www.nj.gov/health/cd/imm_requirements/ and directly at https://www.nj.gov/health/cd/documents/imm_requirements/vaccine_qa.pdf

This document contains new information regarding DTaP/Tdap vaccinations and the immunization requirements at institutions of higher education.

For your convenience, new/updated information is highlighted in yellow.

Please find attached the COVID-19 Youth Camp Standards. The COVID Standards outline the actions camp operators must take in order to host campers for the 2020 season. The application is required to be submitted to the NJ Department of Health at least 2 weeks prior to operation. Additionally, the camp must forward the attached Attestation form to the Department at least 24 hours prior to hosting campers. Municipally organized camps are required to register, but the application fee will be waived. The project has made available the option for camps who have already submitted their application fees and decide against operating in 2020 to either apply their application fee to a subsequent camp season or to get a full refund. The annual youth camp letter directed to local health officials along with the preop list and finalized pre-operational inspection form are being finalized for distribution later this week. Please encourage camp operators to contact the Youth Camp project at youthcamps@doh.nj.gov or at 609-913-5115 for any questions. If you have questions please do not hesitate to contact us.

The Communicable Disease Service is providing three documents for assistance in rapid control of COVID-19 in healthcare facilities.

(1) The "Guidance for COVID-19 Diagnosed and/or Exposed Healthcare Personnel" is a tool to assist healthcare facilities, healthcare providers and local public health officials in addressing issues surrounding COVID-19 diagnosed and/or exposed healthcare personnel, including returning to work guidance. This document replaces the March 30, 2020 LINCS message entitled "Guidance for COVID-19 Diagnosed and/or Exposed Healthcare Personnel."

(2) The "Infection Prevention & Control Resources for COVID-19 Competency-Based Training" is a list of resources compiled to assist in the rapid control of the global COVID-19 pandemic. Please review these resources with key staff members and volunteers

(3) The "Infection Prevention Audit Tool Development" is a resource to assist healthcare facilities in developing audits tools that can assist in creating an opportunity to provide feedback to staff on their performance and allows for further education to reinforce and clarify key infection prevention concepts

These documents are intended to serve as general resources and may change as more information becomes available.

The New Jersey Office of Emergency Management (NJOEM) has secured the Battelle Critical Care Decontamination System (CCDS) to assist healthcare providers, first response agencies, and any other agencies in decontaminating their N95 respirators at NO CHARGE to the sending agencies.

The Battelle CCDS addresses the current shortage of critical Personal Protective Equipment across the United States. Battelle CCDS is designed to work on N95 respirators to decontaminate biological contaminants including novel coronavirus (SARS-CoV-2). The system is centrally located in Edison Township (Middlesex County) and will service the entire State.

For more information on this system, please see the attached file or visit <http://www.battelle.org/decon>

NOTE: All questions from interested agencies should be directed to the Battelle contacts.

Battelle representatives will coordinate the enrollment and decontamination process for interested agencies. If you have additional questions or would like to enroll in the program, you can either complete the form located at <https://www.battelle.org/inquiry/offerings-and-services/covid-response> or contact one of the Battelle representatives assigned to NJ:

Andre LaFreniere: (401) 935-0084 | lafreniere@battelle.org
Josh Arnold: (614) 512-8057 | arnoldj@battelle.org

All questions from interested agencies should be directed to the above Battelle contacts.

Public Health Advisory: Priority Actions for All Post-acute Care Settings in Response to COVID-19

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

The Communicable Disease Service (CDS) is providing the following updated guidance to assist post-acute care facilities TAKE ACTION to stop the introduction and spread of SARS-CoV-2 (COVID-19), which is currently circulating in New Jersey and the surrounding areas. Many healthcare facilities, including the post-acute care setting, have been heavily impacted.

Immediate Action Items:

1. Restrict persons entering the facility, except in certain compassionate-care situations.
2. Implement active screening of patients/residents and persons in the facility for fever and other COVID-19 signs and symptoms, per shift. Beware of atypical presentation in older adults. Vital signs should include heart rate, blood pressure, temperature, pain and pulse oximetry.
3. Advise any persons who entered the facility to monitor for fever and other COVID-19 symptoms for at least 14 days after exiting the facility. If symptoms occur advise them to self-isolate at home, contact their healthcare provider, and immediately notify the facility of the date they were in the facility, the persons they were in contact with, and the locations within the facility they visited.
4. Create separate wing/unit or floor to accept asymptomatic patients/residents coming or returning from the hospital. This may mean moving patients/residents in facility to create a new wing/unit. Limit staff working between wing/units as much as possible.
5. Create separate wing/unit to accept COVID-19 (+) patients/residents and care for those suspected or confirmed with COVID-19.
6. Stop current communal dining and all group activities. Encourage patients/residents to stay in their room.
7. Utilize telemedicine and alternate means of communication to maintain social distancing orders.
8. Inventory all personal protective equipment (PPE) and develop a strategy to obtain emergency supplies with your local health department.
9. Implement universal masking of all persons in the facility. Review CDC's Strategies to Optimize the Supply of PPE and Equipment at <https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/index.html>.

10. Bundle tasks to optimize PPE and limit exposures. Consider cross-training to conserve resources.
11. Dedicate staff and mobile equipment exclusively to a unit/wing to minimize exposures and transmission throughout a facility and in-between facilities.
12. Review or develop staff contingency plans to mitigate anticipated shortages.

The Communicable Disease Service (CDS) is providing the following updated guidance to assist healthcare facilities and public health officials with decisions concerning discontinuation of transmission-based precautions and home isolation.

The following three documents have been UPDATED to align with CDC guidance released 3/23/2020 that reflects a change in the home isolation period for confirmed cases. Updates include:

Guidance for the Discontinuation of Transmission-based Precautions and Home Isolation for Persons Diagnosed with COVID-19: Includes updated guidance for test-based strategies, guidance for discontinuing transmission-based precautions without testing and discontinuation of empiric transmission-based precautions for patients suspected of having COVID-19.

Sample Discharge Instructions for Persons Diagnosed with COVID-19: Updated to reflect language around quarantine. This replaces previous version.

Frequently Asked Questions for Close Contacts of COVID-19: Updated to reflect language around quarantine. This replaces previous version.

Public Health Advisory: LTC Facility Recommendations during COVID-19 Pandemic

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

Given the congregate nature of long-term care facilities (LTCF) and residents served (e.g., older adults often with underlying chronic medical conditions), this population is at an increased risk of serious illness when infected with COVID-19. LTCF have experience managing respiratory infections and outbreaks among residents and healthcare personnel and should apply those outbreak management principles to COVID-19. Please note this is a rapidly evolving situation and as more data become available this guidance may change.

All LTCFs should remain vigilant with prompt detection, triage, and isolation of potentially infectious persons to prevent unnecessary exposures among residents, healthcare personnel, and visitors at the facility. Please see the attached guidance document for more information and resources. Infection prevention measures include:

- Implement active screening of residents and staff for fever and respiratory symptoms. Remember that older adults may manifest symptoms of infection differently and that other symptomology should also be. Vital signs should include heart rate, blood pressure, temperature, pain and pulse oximetry. These assessments should happen, at a minimum, daily. The facility staff should have a heightened awareness for any change in baseline in their residents.
- Stop current communal dining and all group activities such as internal and external group activities.
- Follow all current CMS guidance regarding the restriction of visitors and non-essential healthcare personnel, except in certain compassionate-care situations
- Review the CMS Quality, Safety & Oversight (QSO) Group memo Ref: QSO-20-14-NH at <https://www.cms.gov/files/document/qso-20-14-nh-revised.pdf> for expanded recommendations.

Remember to:

- Connect with your association and monitor NJDOH, CDC, and CMS announcements, at least daily.
- Conserve personal protective equipment (PPE) in accordance with CDC's Strategies for Optimizing the Supply of PPE - <https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/index.html>.
- Contact your local health department with any questions or concerns. Contact information is available via the local public health directory at <http://www.localhealth.nj.gov/>.
- Report any new cases or persons suspected of COVID-19 occurring in or associated with your facility to your local health department.

In addition to actions described above and attached, facilities should consider the following immediate actions when there is a confirmed case of COVID-19 to prevent further spread to their residents and staff:

- Close the unit to new admissions except as needed to cohort ill individuals or staff.
- Consider closure of the facility to new admissions.
- Consider implementing universal use of facemask for HCP while in the facility
- Encourage residents to remain in their room. If multiple cases are present restrict residents (to the extent possible) to their rooms except for medically necessary purposes.
- Mask all residents (who can tolerate masks) who are symptomatic when providing direct care: if masks are limited or not tolerated use of a tissue to cover the nose and mouth is appropriate.
- Adhere to internal environmental cleaning protocols to ensure appropriate measures are being taken to clean and disinfect where appropriate including high-touch surfaces and all shared medical equipment (e.g., lifts, blood pressure cuffs, medication carts). Consider increasing the frequency of cleaning in the facility.
- Quarantine and monitor exposed contacts including healthcare workers and roommates

Public Health Advisory: LTC Facility Recommendations during COVID-19 Pandemic

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

Given the congregate nature of long-term care facilities (LTCF) and residents served (e.g., older adults often with underlying chronic medical conditions), this population is at an increased risk of serious illness when infected with COVID-19. LTCF have experience managing respiratory infections and outbreaks among residents and healthcare personnel and should apply those outbreak management principles to COVID-19. Please note this is a rapidly evolving situation and as more data become available this guidance may change.

All LTCFs should remain vigilant with prompt detection, triage, and isolation of potentially infectious persons to prevent unnecessary exposures among residents, healthcare personnel, and visitors at the facility. Please see the attached guidance document for more information and resources. Infection prevention measures include:

- Implement active screening of residents and staff for fever and respiratory symptoms. Remember that older adults may manifest symptoms of infection differently and that other symptomology should also be. Vital signs should include heart rate, blood pressure, temperature, pain and pulse oximetry. These assessments should happen, at a minimum, daily. The facility staff should have a heightened awareness for any change in baseline in their residents.
- Stop current communal dining and all group activities such as internal and external group activities.
- Follow all current CMS guidance regarding the restriction of visitors and non-essential healthcare personnel, except in certain compassionate-care situations
- Review the CMS Quality, Safety & Oversight (QSO) Group memo Ref: QSO-20-14-NH at <https://www.cms.gov/files/document/qso-20-14-nh-revised.pdf> for expanded recommendations.

Remember to:

- Connect with your association and monitor NJDOH, CDC, and CMS announcements, at least daily.
- Conserve personal protective equipment (PPE) in accordance with CDC's Strategies for Optimizing the Supply of PPE - <https://www.cdc.gov/coronavirus/2019-ncov/hcp/ppe-strategy/index.html>.
- Contact your local health department with any questions or concerns. Contact information is available via the local public health directory at <http://www.localhealth.nj.gov/>.
- Report any new cases or persons suspected of COVID-19 occurring in or associated with your facility to your local health department.

In addition to actions described above and attached, facilities should consider the following immediate actions when there is a confirmed case of COVID-19 to prevent further spread to their residents and staff:

- Close the unit to new admissions except as needed to cohort ill individuals or staff.
- Consider closure of the facility to new admissions.
- Consider implementing universal use of facemask for HCP while in the facility
- Encourage residents to remain in their room. If multiple cases are present restrict residents (to the extent possible) to their rooms except for medically necessary purposes.
- Mask all residents (who can tolerate masks) who are symptomatic when providing direct care: if masks are limited or not tolerated use of a tissue to cover the nose and mouth is appropriate.
- Adhere to internal environmental cleaning protocols to ensure appropriate measures are being taken to clean and disinfect where appropriate including high-touch surfaces and all shared medical equipment (e.g., lifts, blood pressure cuffs, medication carts). Consider increasing the frequency of cleaning in the facility.
- Quarantine and monitor exposed contacts including healthcare workers and roommates

Public Health Advisory: Guidance / Informational Documentation - COVID-19

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

The Communicable Disease Service (CDS) is providing the following guidance to assist acute care facilities, outpatient providers and public health officials with decisions concerning discontinuation of transmission-based precautions and home isolation. CDS is also providing two resources for patients diagnosed with COVID-19 and close contacts who may or may not have been tested. Please note this guidance may be updated as the information changes.

The three documents are attached:

- (1) Guidance for the Discontinuation of Transmission-based Precautions and Home Isolation for Persons Diagnosed with COVID-19: This document provides guidance for when to discontinue isolation precautions for persons with COVID-19 in the inpatient and community setting. This guidance is subject to change as more evidence becomes available. This document is meant to serve as a guide and not to supersede any internal facility-level infection prevention policies and procedures.
- (2) Sample Discharge Instructions for Persons Diagnosed with COVID-19: This document provides facilities with discharge instructions that may be given to persons diagnosed with COVID-19 while in their care. It provides guidance on home isolation, social distancing and any needed follow-up. Facilities may use this document as is or adapt the language for their own documents.
- (3) Frequently Asked Questions for Close Contacts of COVID-19 Patients and People Who've Been Tested: This document is intended for persons who close contacts of COVID-19 patients and those who may or may not have been tested. It provides guidance on monitoring symptoms, home isolation and cleaning, social distancing and what to expect when/if they receive test result.

Public Health Update: After Hours COVID-19 calls for Communicable Disease Service

NJLINCS Health Alert Network - Distributed by the Ocean County Health Department
Follow us on Twitter @Ocpublichealth · Like us on Facebook

We recognize that there have been some changes about reaching the Communicable Disease Service (CDS) after hours and we wanted to clarify.

CDS is accepting COVID-19 calls from local health departments, health care providers, and medical facility staff. During regular business hours, Monday through Friday from 8am-5pm, call (609) 826-5964. After hours and weekends, please call (609) 392-2020.

Please note that the public should continue to call the 24/7 COVID-19 hotline: 1-800-222-1222 or 1-800-962-1253 if using a non-NJ cell phone. However, please note that the public hotline cannot provide information about where or how to get tested, testing results, or provide personal medical advice.

Subject: FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

This information has been distributed to: DOH Senior Staff; DOH Staff; LINCS Health Officers; LINCS Health Officer Assistants; LINCS Coordinators; LINCS Coordinator Backups; LINCS Epidemiologists; LINCS Health Educators; LINCS Health Planners; LINCS IT Specialists; LINCS Partnership Coordinators; LINCS Public Health Nurses; LINCS Regional Health Planners; LINCS Team Members; LINCS CD Investigators; LINCS REHS; LOCAL Health Officers; LOCAL Public Health; LOCAL CD Investigators; LOCAL Health Educators; LOCAL Public Health Nurses; LOCAL REHS; LOCAL Epidemiologists; Academic Leaders; DOH Program Staff; Public Health Associations; Public Health Council

Further distribution of this message should be directed to: Day Care Centers / Preschools; Educational Institutions; School Administrators; School Nurses; Health Care Facilities / Other; Long-term Care; Health Care Providers; Local Boards of Health; and other partners in your region, as appropriate.

IMPORTANT NOTE: Please do not use reply feature of your email system. If you have questions about the content of this email or any of its attachments, please call your County/City LINCS agency for assistance. Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or

they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Hello Please see attached and the links below for some information in regards to disinfecting the schools.
Thank you
Mary

Good Day,

Attached is a current Infographic from the NJDOH Guidance for School Disinfection during COVID-19 Pandemic. Please consider review with your Environmental Department.
Also, here a few updated links that may be helpful to your school community. Infographics as well community tools about COVID-19.

Subject: COVID vaccine school nurses are 1A and qualify NOW
Importance: High

Good evening school nurses,
I hope all is well with everyone. I just wanted to send a reminder to all school nurses that you **currently qualify for phase 1A COVID vaccination**. If you want to be vaccinated next week, please let us know. Please also spread the word.

You can respond to this email to me but please also copy my assistant Mary Kaminski at mkaminski@ochd.org. We are currently offering the Moderna vaccine at Toms River HS North Arena.

Stay well, happy new year.
Dan

Dave,

Thank you for taking the time to reach out last night in response to my email and discuss the Toms River School closure letter. I appreciated the conversation and the plan moving forward for joint communications review. During the conversation, you referenced “making it right” and in light of today’s APP article was wondering if you would consider writing a letter correction or clarification? I think there is a general misunderstanding from the public in terms of Ocean County Health Department’s role in schools. I am available today if you’d like to discuss further.

Best regards,

Dan

Dave,

I have to say I was a little disappointed in the letter put out by TRS this afternoon as it was not too kind to us. I feel as though it throws Ocean County Health Department under the bus and quite honestly is not completely accurate. We are getting a lot of not so nice calls and emails about it. My conversation last week with Cathy and my conference call with you Saturday morning was our concern over 2 schools and that was all.

Shutting the whole district down was a TRS decision based on what was described to me this morning as "a lot of cases today". My comment to that statement was if you feel full closure is warranted based on what you see, you can certainly do that.

TRS has been a great partner with us in many ways over the years. I look forward to many more years of that but I just ask we work on the messaging and the risk communication go forward.

Subject: FW: NJDOH COVID-19 Weekly Activity Report for week ending 11/14

Please review the latest information.

Good afternoon, hope this email finds you and your family well. Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here - https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf.

Please note this changes Public Health guidance for schools moving forward in terms of overall considerations on page 3 and how to handle close contacts outlined on page 13 of the New Jersey Department of Health's guidance document, available here - https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf.

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns.

We look forward to our continued partnership.

Thank you
Mary

Subject: RE: School COVID Line List Template

Good Day,

I just wanted to clarify regarding the Line List that I sent this week. This is the Line List posted on the NJDOH COVID-19 School website @ https://www.nj.gov/health/cd/topics/covid2019_schools.shtml

The purpose in sharing this document (dated 9/2/2020) is to make everyone aware of its existence in the event that your school has an outbreak. This is a standard in public communicable disease reporting for any infectious disease outbreak. The local health departments will add much of the information required through further investigation. With that being said, it is very important to keep accurate and cumulative data in your schools. Certainly use what works best for your districts/schools. Perhaps you may want to have a secure shared document between your COVID Team (ie: nurse/principal). If a Line List is needed, we will send you a [secure] encrypted email that you can return with the attached line list or other confidential information.

I hope this is helpful going forward. Thank you for your ongoing hard and dedication.

Regards,
Donna

Subject: FW: School COVID Line List Template

Importance: High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Subject: RE: COVID School Nurse Email from OCHD

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,
Jen

**Subject:** COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer  
Jen Crawford Communicable Disease  
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools  
COVID Cannot Test Out of Quarantine  
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,  
Donna

**Subject:** FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13<sup>th</sup> at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

#### NJSIAA COVID-19 Protocols

##### Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,  
OCHD COVID School Nurse Team

**Subject:** FW: School Nurse COVID-19 Information Email and School Nurse meeting  
**Attachments:** CDC Waitng for test Results Form 9.30.20.pdf

Hello,

See below for the information for the Nurse's meeting on Oct 13<sup>th</sup> at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI  
NJSIAA website is now back  
up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

**NJSIAA COVID-19 Protocols**

**Return to Play:**

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,  
OCHD COVID School Nurse Team

School Nurse  
Tue, Oct 13, 2020 3:30 PM - 4:30 PM (EDT)

Please join my meeting from your computer, tablet or smartphone.

**Subject:** School Subcommittee meeting / Mental Health Resources

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

### Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

### PerformCare

Provides the services, resources, tools and support for youth and families to participate in treatment within their homes, schools, and community settings.

Phone (Available 24/7): 1-877-652-7624

Once again, thank you for your time and we will reach out to you next week with the plan going forward. Have a great weekend!

Be well,

Donna

**Subject:** RE: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

Thank you Mary for sending this out. I know I spoke with some of you or your school reps yesterday regarding this. Please know we received this first from Will Smith and his distribution. We later received this "officially" from the NJ DOH at 6:04pm last night even though its dated 1/1/21/.

Happy new year all and thank you for everything you are doing for the children of Ocean Co.

Daniel Regenye, MHA

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Hello Please see attached and the links below for some information in regards to disinfecting the schools.  
Thank you  
Mary

---

Good Day,

Attached is a current Infographic from the NJDOH Guidance for School Disinfection during COVID-19 Pandemic. Please consider review with your Environmental Department.  
Also, here a few updated links that may be helpful to your school community. Infographics as well community tools about COVID-19.

**Subject:** COVID vaccine school nurses are 1A and qualify NOW  
**Importance:** High

Good evening school nurses,  
I hope all is well with everyone. I just wanted to send a reminder to all school nurses that you **currently qualify for phase 1A COVID vaccination**. If you want to be vaccinated next week, please let us know. Please also spread the word.

You can respond to this email to me but please also copy my assistant Mary Kaminski at [mkaminski@ochd.org](mailto:mkaminski@ochd.org). We are currently offering the Moderna vaccine at Toms River HS North Arena.

Stay well, happy new year.  
Dan

**Subject:** RE: FW: School Nurse Moderna COVID-19 Vaccine

Good Day,

The 2<sup>nd</sup> dose of the Moderna vaccine is to be given > 28 days after the 1<sup>st</sup>.  
The second dose can be given up to 50 days post 1<sup>st</sup> dose, **however that is not ideal**.  
So as close to the 28 day mark that it can be given is acceptable.

Learn from yesterday, live for today and hope for tomorrow !  
Happy 2021 to all !!  
Donna

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website [ochd.org](https://ochd.org)

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

**Subject:** School Nurse Question

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Karen

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Karen

**Subject:** Re: FW: School Nurse Moderna COVID-19 Vaccine

The second vaccine must be at LEAST 28 days from the first dose for the Moderna vaccine.

Due to scheduling, it is going to >28 days.

The OCHD is doing an excellent job, and the operation runs very smoothly!

I got my vaccine, and my second one is 37 days after.

I wanted it on a Saturday, so I could rest on Sunday before going to work Monday in the event of any side effects.

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website [ochd.org](https://ochd.org)

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

Hello  
Please see attached and the email from Donna below.  
Thank you  
Mary

---

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website [ochd.org](https://ochd.org)

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.  
Be well and be safe,  
Donna

**Subject:** School Nurse Question

Hi Donna,  
I hope all is well.  
I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?  
Thank you for the information.

**Subject:** Re: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

Hello again

Directly from CDC

Local public health authorities determine and establish the quarantine options for their jurisdictions. CDC currently recommends a quarantine period of 14 days. However, based on local circumstances and resources, the following options to shorten quarantine are acceptable alternatives.

- Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
  - o With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
  - o With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

In both cases, additional criteria (e.g., continued symptom monitoring and masking through Day 14) must be met and are outlined in the full text.

On Thu, Dec 3, 2020 at 10:01 AM Mary Ann McCabe <[mmccabe@trschoools.com](mailto:mmccabe@trschoools.com)> wrote:

Not sure that email came through correctly

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:
  - o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
    - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
  - o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine*

discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.

- With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

2. Persons can discontinue quarantine at these time points only if the following criteria are also met:

- o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring<sup>†</sup> during the entirety of quarantine up to the time at which quarantine is discontinued; and,
- o Daily symptom monitoring continues through quarantine Day 14; and,
- o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs<sup>±</sup>, a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.

3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.

4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

<sup>†</sup> Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

<sup>±</sup> NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

## Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.<sup>8-10</sup> Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

[Top of Page](#)

## Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.
- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

**Subject:** FW: NJDOH COVID-19 Weekly Activity Report for week ending 11/14

Please review the latest information.

Good afternoon, hope this email finds you and your family well. Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here - [https://www.nj.gov/health/cd/documents/topics/NCOV/COVID\\_19\\_Report\\_Week\\_46.pdf](https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf).

Please note this changes Public Health guidance for schools moving forward in terms of overall considerations on page 3 and how to handle close contacts outlined on page 13 of the New Jersey Department of Health's guidance document, available here - [https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts\\_K12Schools.pdf](https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf).

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns.

We look forward to our continued partnership.

Thank you  
Mary

**Subject:** EAP mid November Newsletter  
**Attachments:** November mid month update.pdf

Hello,

Attached is our One Source EAP mid-month update for November. The topic is very timely: **Helping Children Through COVID Holidays**. While adults have some degree of control over how the holidays will look and feel, children need some extra attention to navigate them this year. This quick read includes additional reading with ideas to help the children in your life open up about their feelings and be a part of the planning for safe, enjoyable and memorable holidays.

Please cascade to your employees and post for those that may not have access to email.

Be sure to let us know how we can help you and your employees further.

Enjoy your day,

Lynda

**Attachments:** Excel PPE template MADOE.xlsx; LINC\_S\_Close\_Contact\_oct\_22\_20.108317.pdf; COVID\_test-result-iq-timetable Oct.pdf; reportable\_disease\_magnet.pdf; School Case Report Form 10.24.20.docx  
**Importance:** High

Good Day Ocean County Superintendents and School Nurses,

Hope you are all well as we continue down this long path. We wanted to touch base with everyone regarding recent changes and ongoing support as we manage this COVID-19 pandemic together.

The recent CDC update of the definition of **COVID-19 close contact criteria** places an increased level of contact tracing requirements in our whole community.

**NEW! Close Contact:** *Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

The research underlying this change further reveals the infectiousness and complexity of this novel viral pandemic. NJDOH has adopted the revised CDC definition effective immediately. The NJDOH is currently in the process of updating recommendations and we are watching closely to see any changes that the NJDOE may enact.

Please be aware that the NJDOH **COVID-19 Regional Risk Matrix** is currently in the **Yellow Moderate** category.

This requires 2 important actions:

1. In response to COVID symptomatic students and staff, follow COVID-19 exclusion criteria; wait at least 24 hours and clean/disinfect areas where ill person spent time.
2. Minimize activities that involve interaction with multiple cohorts.

**Reporting of a COVID-19 positive cases** within the schools are **required immediately** according to the New Jersey Administrative Code Title 8, Chapters 57 & 58.

We appreciate the cooperation of the majority of the Ocean County school districts.

However, there have been some districts that have not been in compliance with this statute.

**Ocean County Health Department Main number:**

732-341-9700

Business hours Communicable Disease : ext. 7515

Off business hours: ext. 7411 or "0"

In cases of immediately reportable diseases and other emergencies – if the local health department cannot be reached – the **New Jersey Department of Health** maintains an emergency phone number @ 609-392-2020

Attached is a school case report form that you may find helpful when gathering and reporting positive results. It is necessary to have the COVID lab report in order to establish a case. The prevalence of Rapid COVID-19 testing and the lack of reporting from the diagnosing agencies has slowed our ability to quickly investigate cases. It would be helpful to either identify the

place that the testing was done and or have the case themselves request the lab to fax the report to OCHD Communicable Disease Department. **Fax:** 732-678-0065

Finally below is the NJSIAA link to the updated website of **NJSIAA COVID-19 Resources:**

<https://www.njsiaa.org/health-safety/covid-19-resources>

Thank you for all that you are doing to keep our community safe. We look forward to ongoing collaboration as updates are released.

Be well and be safe.

**Subject:** RE: School COVID Line List Template

Good Day,

I just wanted to clarify regarding the Line List that I sent this week. This is the Line List posted on the NJDOH COVID-19 School website @ [https://www.nj.gov/health/cd/topics/covid2019\\_schools.shtml](https://www.nj.gov/health/cd/topics/covid2019_schools.shtml)

The purpose in sharing this document (dated 9/2/2020) is to make everyone aware of its existence in the event that your school has an outbreak. This is a standard in public communicable disease reporting for any infectious disease outbreak. The local health departments will add much of the information required through further investigation. With that being said, it is very important to keep accurate and cumulative data in your schools. Certainly use what works best for your districts/schools. Perhaps you may want to have a secure shared document between your COVID Team (ie: nurse/principal). If a Line List is needed, we will send you a [secure] encrypted email that you can return with the attached line list or other confidential information.

I hope this is helpful going forward. Thank you for your ongoing hard and dedication.

Regards,  
Donna

**Subject:** FW: School COVID Line List Template

**Importance:** High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

**Subject:** RE: COVID School Nurse Email from OCHD

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,  
Jen

Subject: COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools
COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

School Nurse

Tue, Oct 13, 2020 3:30 PM - 4:30 PM (EDT)

Subject: School Subcommittee meeting / Mental Health Resources

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

Subject: Next Meeting

Hi everyone, our next meeting is this upcoming Wednesday, the 27th at 6:30pm. We will be choosing the meeting dates for the year, voting on officer positions and have information regarding our mobile sensory unit project. Please reach out with events to be added to the monthly flyer and/or other potential agenda topics. I have also attached the slides from yesterday's DDD Covid-19 update webinar.

I look forward to seeing everyone next week,

TRMACDD Committee Meeting
Wed, Jan 27, 2021 6:30 PM - 7:30 PM (EST)

Please join my meeting from your computer, tablet or smartphone.

Subject: Re: OCVPP January Meeting Notice

Good morning all! Just wanted to send a reminder that there is still time to respond to our OCVPP meeting on **January 27th at 3:15 PM**. As mentioned, our topic will be Human Trafficking Prevention and in addition to Dr. Susan Neigher from the NJ Coalition Against Human Trafficking, Keyla Munoz, a victim specialist from the FBI, will also be educating us on Human Trafficking. It will be a wonderful opportunity to learn more about preventing violence in our community. I hope you can join us-please email me to confirm or if you have any questions! See you there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Hey everyone, Happy Thanksgiving. I have the first draft of the December events flyer attached. This one has probably taken me the most time out of any of them and it's also the most events by far we've had on a flyer. If I could get some feedback before I send it out it'd be much appreciated.

Enjoy the holiday everyone and stay safe,

Hello all!

Please see attached meeting minutes for November's meeting-a huge THANK YOU to Ann Keever from Family Planning Center of Ocean County for educating us on the services available thru the center! I am attaching the information brochure about the center for your review.

I am also attaching the Season Stress Support Group thru St Francis Counseling Service that was discussed at the meeting-if you have any clients in need, please feel free to refer!

The next meeting will be in January-I will put out an exact date as soon as I get a clearer idea what January is going to look like within our agency. Please continue to take care of yourselves and each other and I hope you all have a peaceful and safe holiday season. As always, please feel free to contact me with any questions or concerns.

See you in 2021!

If you are receiving this email outside of your typical working hours, I hope you feel no pressure to read or respond until your schedule and workload permit.

Subject: OCVPP November Meeting

Good Afternoon All! It's time for our last OCVPP meeting of 2020! I thank you all for sticking with it thru these interesting times and remaining committed to preventing violence in our communities!

Please mark your calendar for our November OCVPP meeting on **Wednesday, November 18 at 3 PM!** Our speaker this month will be Ann Keever, Director of Health Education and Outreach Services at Family Planning Center of Ocean County. She will be providing a presentation about the services available at FPCOC and we will also be facilitating a discussion about reproductive control/coercion and birth control sabotage. We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by November 16th** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: In response to your inquiry

Bcc:

Thank you for your expression of interest for a position at the Ocean County Health Department in connection with our disease investigation and contact tracing efforts in response to the COVID-19 pandemic.

At the present time we are not scheduling interviews and trainings as we have retained a significant number of both paid and volunteer staff to assist us with our efforts. As we continue to abide by public health social distancing requirements we are restrained from adding to our present capacity. However, we do appreciate your interest and will certainly reach out in the weeks ahead should our needs change. You may further wish to consider applying to the State of New Jersey or other health departments throughout the state who continue to seek valued contributors to their workforce in connection with disease investigation and contact tracing efforts.

Again, thank you for your interest and please be well and stay safe.

Brian E. Rumpf, Esq.
Ocean County Health Department
Director of Administration and Program Development

Good morning all! Just wanted to send a reminder that there is still time to respond to our OCVPP meeting on **January 27th at 3:15 PM**. As mentioned, our topic will be Human Trafficking Prevention and in addition to Dr. Susan Neigher from the NJ Coalition Against Human Trafficking, Keyla Munoz, a victim specialist from the FBI, will also be educating us on Human Trafficking. It will be a wonderful opportunity to learn more about preventing violence in our community. I hope you can join us-please email me to confirm or if you have any questions! See you there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Topic: OCVPP January Meeting

Time: Jan 27, 2021 03:00 PM Eastern Time (US and Canada)

Hello all!

Please see attached meeting minutes for November's meeting-a huge THANK YOU to Ann Keever from Family Planning Center of Ocean County for educating us on the services available thru the center! I am attaching the information brochure about the center for your review.

I am also attaching the Season Stress Support Group thru St Francis Counseling Service that was discussed at the meeting-if you have any clients in need, please feel free to refer!

The next meeting will be in January-I will put out an exact date as soon as I get a clearer idea what January is going to look like within our agency. Please continue to take care of yourselves and each other and I hope you all have a peaceful and safe holiday season. As always, please feel free to contact me with any questions or concerns.

See you in 2021!

If you are receiving this email outside of your typical working hours, I hope you feel no pressure to read or respond until your schedule and workload permit.

Take care,

Thank You

To be clear I am looking for a documented alternative diagnosis like strep {rapid or throat culture} or rapid flu test, not purely clinical acumen.

Thank you

Subject: Re: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

Good Morning

In December we instituted a policy of having siblings of students with COVID compatible symptoms also quarantine at least until the ill student tested negative, had a documented alternative diagnosis like strep or flu, or allowing them back if asymptomatic after the ill child was out for 10 days. I imagine that would still be the preferred policy and would help encourage parents to get their child tested particularly when rapid tests are also being accepted.

Subject: FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

This information has been distributed to: DOH Senior Staff; DOH Staff; LINC'S Health Officers; LINC'S Health Officer Assistants; LINC'S Coordinators; LINC'S Coordinator Backups; LINC'S Epidemiologists; LINC'S Health Educators; LINC'S Health Planners; LINC'S IT Specialists; LINC'S Partnership Coordinators; LINC'S Public Health Nurses; LINC'S Regional Health Planners; LINC'S Team Members; LINC'S CD Investigators; LINC'S REHS; LOCAL Health Officers; LOCAL Public Health; LOCAL CD Investigators; LOCAL Health Educators; LOCAL Public Health Nurses; LOCAL REHS; LOCAL Epidemiologists; Academic Leaders; DOH Program Staff; Public Health Associations; Public Health Council

Further distribution of this message should be directed to: Day Care Centers / Preschools; Educational Institutions; School Administrators; School Nurses; Health Care Facilities / Other; Long-term Care; Health Care Providers; Local Boards of Health; and other partners in your region, as appropriate.

Subject: FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Hello Please see attached and the links below for some information in regards to disinfecting the schools.
Thank you
Mary

Good Day,

Attached is a current Infographic from the NJDOH Guidance for School Disinfection during COVID-19 Pandemic. Please consider review with your Environmental Department.
Also, here a few updated links that may be helpful to your school community. Infographics as well community tools about COVID-19.

Subject: Re: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

Hello again

Directly from CDC

Local public health authorities determine and establish the quarantine options for their jurisdictions. CDC currently recommends a quarantine period of 14 days. However, based on local circumstances and resources, the following options to shorten quarantine are acceptable alternatives.

- Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
 - o With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
 - o With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

In both cases, additional criteria (e.g., continued symptom monitoring and masking through Day 14) must be met and are outlined in the full text.

On Thu, Dec 3, 2020 at 10:01 AM Mary Ann McCabe <mmccabe@trschoools.com> wrote:

Not sure that email came through correctly

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

Good Morning

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:
 - o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
 - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
 - o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine*

discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.

- With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

2. Persons can discontinue quarantine at these time points only if the following criteria are also met:

- o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring[†] during the entirety of quarantine up to the time at which quarantine is discontinued; and,
- o Daily symptom monitoring continues through quarantine Day 14; and,
- o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs[±], a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.

3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.

4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

[†] Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

[±] NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.⁸⁻¹⁰ Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

[Top of Page](#)

Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.
- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

Subject: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

To: Cathy Shea <cshea@trschoools.com>

The Centers for Disease Control and Prevention is expected to release revised guidance on quarantine time for those who may have been exposed to the novel coronavirus from 14 days to 7 days, for those who have received a negative test, and 10 days for those who have not been tested, Fox News has learned.

Subject: Re: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

Hello again
Directly from CDC

Local public health authorities determine and establish the quarantine options for their jurisdictions. CDC currently recommends a quarantine period of 14 days. However, based on local circumstances and resources, the following options to shorten quarantine are acceptable alternatives.

- Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
 - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
 - With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

In both cases, additional criteria (e.g., continued symptom monitoring and masking through Day 14) must be met and are outlined in the full text.

Not sure that email came through correctly

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:
 - o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
 - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
 - o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
 - With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.
2. Persons can discontinue quarantine at these time points only if the following criteria are also met:
 - o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring[†] during the entirety of quarantine up to the time at which quarantine is discontinued; and,
 - o Daily symptom monitoring continues through quarantine Day 14; and,
 - o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs[±], a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.
3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.
4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

[†] Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact

daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

± NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.⁸⁻¹⁰ Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

[Top of Page](#)

Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.
- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

Dave,

Thank you for taking the time to reach out last night in response to my email and discuss the Toms River School closure letter. I appreciated the conversation and the plan moving forward for joint communications review. During the conversation, you referenced “making it right” and in light of today’s APP article was wondering if you would consider writing a letter correction or clarification? I think there is a general misunderstanding from the public in terms of Ocean County Health Department’s role in schools. I am available today if you’d like to discuss further.

Best regards,

Dan

Dave,

I have to say I was a little disappointed in the letter put out by TRS this afternoon as it was not too kind to us. I feel as though it throws Ocean County Health Department under the bus and quite honestly is not completely accurate. We are getting a lot of not so nice calls and emails about it. My conversation last week with Cathy and my conference call with you Saturday morning was our concern over 2 schools and that was all.

Shutting the whole district down was a TRS decision based on what was described to me this morning as "a lot of cases today". My comment to that statement was if you feel full closure is warranted based on what you see, you can certainly do that.

TRS has been a great partner with us in many ways over the years. I look forward to many more years of that but I just ask we work on the messaging and the risk communication go forward.

Yes, entitled “Full list of Monmouth, Ocean County schools with COVID cases, going all-remote”

I will be calling Amanda Oglesby from APP to discuss this so they can print another story clarification. I just had a gentleman come to our building irate at the Health Department. I explained our timeline and what our conversation was. I will also reach out to the Patch to have them print something and have my PIO put something out.

Subject: FW: NJDOH COVID-19 Weekly Activity Report for week ending 11/14

Please review the latest information.

Good afternoon, hope this email finds you and your family well. Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here - https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf.

Please note this changes Public Health guidance for schools moving forward in terms of overall considerations on page 3 and how to handle close contacts outlined on page 13 of the New Jersey Department of Health's guidance document, available here - https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf.

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns.

We look forward to our continued partnership.

Thank you
Mary

Subject: RE: rapid covid-19 test centers

Good morning, Cathy, hope this email finds you well. Busy day for TR Regional calls yesterday!

We do not have a master list of what type of testing is being performed by facility, that is not something assembled or provided to local health departments in the state. We are encouraging residents seeking testing to use <https://covid19.nj.gov/pages/testing> to identify a convenient testing location, along with instruction to check re: insurance coverage (if applicable) and to call the facility to inquire what testing is offered. Obviously we could give you the names of locations reporting rapid results to our office but we would not want that to be interpreted as an exhaustive list or an endorsement. Feel free to call later this AM to discuss.

Best,
Jen

**Attachments:** Excel PPE template MADOE.xlsx; LINC\_S\_Close\_Contact\_oct\_22\_20.108317.pdf; COVID\_test-result-iq-timetable Oct.pdf; reportable\_disease\_magnet.pdf; School Case Report Form 10.24.20.docx

**Importance:** High

Good Day Ocean County Superintendents and School Nurses,

Hope you are all well as we continue down this long path. We wanted to touch base with everyone regarding recent changes and ongoing support as we manage this COVID-19 pandemic together.

The recent CDC update of the definition of **COVID-19 close contact criteria** places an increased level of contact tracing requirements in our whole community.

**NEW! Close Contact:** *Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

The research underlying this change further reveals the infectiousness and complexity of this novel viral pandemic. NJDOH has adopted the revised CDC definition effective immediately. The NJDOH is currently in the process of updating recommendations and we are watching closely to see any changes that the NJDOE may enact.

Please be aware that the NJDOH **COVID-19 Regional Risk Matrix** is currently in the **Yellow Moderate** category.

This requires 2 important actions:

1. In response to COVID symptomatic students and staff, follow COVID-19 exclusion criteria; wait at least 24 hours and clean/disinfect areas where ill person spent time.
2. Minimize activities that involve interaction with multiple cohorts.

**Reporting of a COVID-19 positive cases** within the schools are **required immediately** according to the New Jersey Administrative Code Title 8, Chapters 57 & 58.

We appreciate the cooperation of the majority of the Ocean County school districts.

However, there have been some districts that have not been in compliance with this statute.

**Ocean County Health Department Main number:**

732-341-9700

Business hours Communicable Disease : ext. 7515

Off business hours: ext. 7411 or "0"

In cases of immediately reportable diseases and other emergencies – if the local health department cannot be reached – the **New Jersey Department of Health** maintains an emergency phone number @ 609-392-2020

Attached is a school case report form that you may find helpful when gathering and reporting positive results. It is necessary to have the COVID lab report in order to establish a case. The prevalence of Rapid COVID-19 testing and the lack of reporting from the diagnosing agencies has slowed our ability to quickly investigate cases. It would be helpful to either identify the

place that the testing was done and or have the case themselves request the lab to fax the report to OCHD Communicable Disease Department. **Fax:** 732-678-0065

Finally below is the NJSIAA link to the updated website of **NJSIAA COVID-19 Resources:**

<https://www.njsiaa.org/health-safety/covid-19-resources>

Thank you for all that you are doing to keep our community safe. We look forward to ongoing collaboration as updates are released.

Be well and be safe.

**Subject:** RE: COVID School Nurse Email from OCHD

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,  
Jen

Subject: COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools
COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

You are correct on the second case as long as they did maintain that distancing
The three staff with close contact should quarantine and monitor for symptoms for 14 days from last exposure to that positive case even with the negative test
thanks
Mary Ann McCabe MD

On Mon, Sep 21, 2020 at 2:20 PM Edward Keller <ekeller@trschoools.com> wrote:
Dr. McCabe,

Our second positive staff member had no contact with our first staff member. She went out of her way to stay away from others since the beginning of the school year and assumed she was exposed outside of our building. Her only contact was with three other staff members last week while eating lunch, but all remained more than 6 foot socially distanced throughout the time they were together. The three staff members who were with her have chosen to be tested and are teleworking pending their results. My understanding is that they should be able to return because they did not have sustained personal contact within 6 feet. Please let me know if that is not the case.

The three staff members who had close close personal contact with our first positive case have all been tested and received negative results. They will be back in school next Tuesday.

Respectfully

Ed Keller

On Mon, Sep 21, 2020 at 1:02 PM <mmccabe@trschoools.com> wrote:

Hello

I would need more detail on the circumstances of the second case ?? another coach??

The 2 case discussion was as I recall in a classroom not in a building but I have included Dan at the Health Department on this email

Subject: Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

Subject: Re: COVID-19 investigation chapter

Cathy, sorry for the delay. The disease investigation chapter I sent you defines what would be considered a school outbreak. How that OB is managed is a different question.

Right now, building closure is a consideration when 2 or more cases are identified within 14-days AND are occurring across multiple classrooms, AND a clear connection between the cases cannot be made - i.e., two different cohorts of students. If the cases are linked to an activity in school, we would need to have a conversation to gather more detail.

Hope this helps,
Jen

**Subject:** Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,  
Mrs. Cara DiMeo  
Assistant Superintendent  
Toms River Regional Schools

**Subject:** Re: Positive COVID

Dr. McCabe,

Our second positive staff member had no contact with our first staff member. She went out of her way to stay away from others since the beginning of the school year and assumed she was exposed outside of our building. Her only contact was with three other staff members last week while eating lunch, but all remained more than 6 foot socially distanced throughout the time they were together. The three staff members who were with her have chosen to be tested and are teleworking pending their results. My understanding is that they should be able to return because they did not have sustained personal contact within 6 feet. Please let me know if that is not the case.

The three staff members who had close close personal contact with our first positive case have all been tested and received negative results. They will be back in school next Tuesday.

Respectfully

Ed Keller

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

## New Jersey Department of Health Releases COVID-19 Recommendations for Schools

The New Jersey Department of Health (NJDOH) today released COVID-19 Public Health Recommendations for Local Health Departments for schools.

"The Department of Health in collaboration with the Department of Education, has developed guidance to help local health departments assist schools in providing a safe environment for students and staff," said Health Commissioner Judith Persichilli. "Understanding that COVID-19 may impact certain areas of the state differently, the Department will provide data by 6 regions of the state to inform local decisions."

Regions:

- Northwest: Morris, Passaic, Sussex, Warren
- Northeast: Bergen, Essex, Hudson
- Central West: Hunterdon, Mercer, Somerset
- Central East: Middlesex, Monmouth, Ocean, Union
- Southwest: Burlington, Camden, Gloucester, Salem
- Southeast: Atlantic, Cape May, Cumberland

Every week, beginning this week, NJDOH will be providing information on COVID-19 transmission at the regional level, characterizing risk as low (green), moderate (yellow), high (orange), and very high (red). This information will be posted online on the Department's [website](#). Where a region falls in the color-coding categories is based on three criteria: number of cases in past week, percent positivity past week and syndromic surveillance in the past week.

When regions are in the very high-risk category (red), it is recommended that they implement fully remote learning.

Schools in other risk levels should consult with their local health departments as they work to:

- Implement protocols requiring staff and students to stay home when sick or if they have been in close contact with someone with COVID-19 in the past 14 days. School administrators should be notified of illness.
- Develop a policy for daily symptom screening for students and staff; have plans for students and staff to report symptoms that develop during the day
- Identify rapid testing resources when staff and students develop COVID-19 symptoms.

Schools should:

- Clean and disinfect frequently touched surfaces at least daily
- Ensure adequate hand hygiene supplies are available
- Implement physical distancing measures such as reducing occupancy, installation of partitions and physical barriers, and cancelling large gatherings
- Implement source control through wearing face covering

Regional risk levels are just one tool that local health departments (LHDs) and schools can use when assessing COVID-19 risk. Local health departments have additional knowledge of COVID-19 in their jurisdictions that can inform local planning and response actions.

Local health departments should maintain close communication with school officials in their community to provide information and share resources on COVID-19 transmission, prevention, and control measures and to establish procedures for LHD notification and response to COVID-19 illness in school settings. LHDs should identify a designated point of contact within each school that will be responsible for coordinating COVID-19 response with local public health authorities.

The recommendations released today also provide information about length of school exclusion, the role of testing and steps to take to respond to suspected and known positive students in schools and outbreaks identified in schools.

I'm sorry, the attachment is now included.

Thank you all for taking time out of your busy schedules to attend the first COVID-19 Summer Advisory Committee meeting. We have attached the minutes from the meeting, along with a brief recap.

Over the past couple of weeks, we have had a lot of interest coming in to have additional meetings for our nurses to discuss what their new "normal" will look like. We are happy to announce that our first Nurses Sub-Committee meeting will be held on Thursday, July 9<sup>th</sup> at 9 AM- 10 AM. We will do this virtually via GotoMeeting. A link will be sent out when the day gets closer so that everyone who wants to attend can have access to it. Please bring any questions you may have as well as any suggestions on how we can all safely return to school. All questions and thoughts are welcome! We believe that working together and using each other as resources will help us all in the long run.

Thank you **Danielle Padovani**

**Subject:** COVID-19 Fall 2020 school planning

Vincent,

I hope all is well, I just wanted to reach out to you reaching a conversation we had last week with Dr. McCabe from Toms River Schools. We were discussing the formation of a Public Health/ School advisory group to meet (via the use of technology) and discuss logistics/ concerns about the 2020/21 school year. This group would likely be comprised of school nurses as well as school administrators. The Ocean County Health Department will be looking to set up the first meeting in early June to plan logistics and identify concerns and actions.

Please let me know your thoughts on this as I believe you are the President of the Ocean County Superintendents Association.

Mr. Regenye

Good morning sir. I am hoping you can help address a few questions for me. The County Office has asked that school districts develop plans in the event schools are closed due to the Coronavirus and how we could continue to provide instruction while closed.

One piece of the plan was written approval from the DOH or your local health agency to close a district. I guess my question is how would that process start. If I as Superintendent decides to close the district what evidence would I have to submit to you . If the Health agency decided to close my district how is that determined ? I hope that I have made myself clear and it is not confusing.

Mr. Regenye thank you for your time and I look forward to your response. Feel free to call me to discuss.

**To:** Daniel Regenye  
**Cc:** Cathy Shea  
**Subject:** Re: School Reopening

I like the idea of a county wide school task force Toms River Regional is already moving on air filtration systems HEPA filters and ordering gloves masks etc

I am sure Cathy will put out the call to the nurses regarding working with the HD in contact tracing and investigation

Look forward to meeting soon

Mary Ann

On Fri, May 8, 2020 at 6:10 AM Daniel Regenye <[Dan@ochd.org](mailto:Dan@ochd.org)> wrote:

Thank you for reaching out Dr McCabe and Cathy,

Great idea and we can certainly look to set something up to assist in that manner. Maybe even create a County School task force or advisory group over the summertime where we can all meet (hopefully in person) and discuss logistics of precautionary measures and actions to take. Let me know your thoughts and we can discuss.

One question which could assist us and fill a big gap, we have hired a few school nurses (One of yours from Toms River, one from Manchester and Lakewood) as seasonal employees to assist in our response to COVID-19. These nurses have been coming in to assist with our disease investigation and contact tracing. Do you think there would be any others interested in working as well? This might be something I'd be interested in discussing further.

Maybe we could put it out through the County school nurse association as well? It's a great way to assist during the pandemic and earn some good money at the same time. Counselors and teachers could possibly assist with this as well.

Let me know thoughts.

Let's plan to reach out soon and discuss.

Best regards, stay well.

Good Afternoon

As Ocean County has now transitioned to the red zone I would like to get the OCHD opinion on what transmission criteria would require full remote learning. I do not believe we have had significant in school transmission although we do have a number of staff out on isolation or quarantine. If there is to be a decision to go all remote I would like to make sure it is planned out and families and staff given adequate notice.

Thank You

Mary Ann McCabe, MD

Hi Dan,

Quick question- my 80-year-old father, who lives in Berkeley and has underlying medical conditions (has diabetes and A-Fib, had prostate cancer) can't seem to get an appointment for a vaccination until May when going through the DOH site (which I believe directs to the state site)? Is there a waiting list for people who will come in if you have a number of no-shows in a given day? Or is there a prioritization based on age or other factors for those who sign up? Or are there other entities you are aware of that are administering vaccines?

Any feedback would be much appreciated. Or if there is someone else I should direct my questions to, I would do so. Just concerned for my father. Thanks.

Good evening all,

The Ocean County Health Department has been hard at work trying to roll out the COVID vaccine and accommodate all 1A individuals which we are still in. The Governor did expand phase 1A to include Police and Fire but others have not been included for vaccination at this point.

In an effort to vaccinate 1A school personnel, the health department has transitioned to a new scheduling appointment system. Tomorrow, I will be sending you all a "unique" link for you to pass along JUST TO staff that meet the criteria below.

- 1) School nurse and nursing assistants that assist the nurse in their daily role of nursing office duties.
- 2) School staff that have healthcare provider roles such as ST, PT, OT etc.

My ask for each of you is to prescreen and identify staff that meet this criteria and then forward this registration link which you will receive tomorrow to those individuals. This link will allow your staff to make appointments for COVID vaccination starting this Thursday, January 14, 2021. If you have any questions, please feel free to reach out to me.

Best regards and thank you all for everything.  
Dan

Thank you Will,

Unfortunately the process and criteria we were trying to put in place is not being followed and is being abused so for right now, we need to stop.

Please do not send anyone from your school other than your school nurse at this time.

**Subject:** Vaccine--Please Read

Good afternoon,

I just got off the phone with Dan, and he asked that I reiterate the message sent previously that the vaccine opportunity right now is **ONLY for 1A individuals, which includes school nurses ONLY**. Apparently, dozens of teaching staff members are showing up to the clinic without appointments and overrunning the clinic with unauthorized requests.

Dan is our partner in getting to the finish line on this. I promised to send out a cease and desist immediately. Please help let OCHD best help us by ensuring the message to our staff members is clear--**the vaccine is not yet available to school staff members**.

Thank you,

Will

Good afternoon all, As promised last evening, below is a unique link specific for schools who meet the 1A criteria specified below and in yesterdays email. **At this time I ask you to screen your staff who meet this criteria and pass it along to those individuals ONLY who you have determined to meet the criteria.** The available appointments start this coming Thursday and go through next week. All vaccinations will be administered at Toms River High School North.

Good morning Dan,

A reporter from NJ.com had reached out to us yesterday asking about our district's vaccination capacity, and followed up to ask if she could send a photographer to the arena (see below). How would you feel about this?

----- Forwarded message -----

**From:** Karin Price Mueller <[KPriceMueller@njadvancemedia.com](mailto:KPriceMueller@njadvancemedia.com)>  
**Date:** Mon, Jan 11, 2021 at 3:59 PM  
**Subject:** Re: NJ.com request  
**To:** Michael Kenny <[mkenny@trschoools.com](mailto:mkenny@trschoools.com)>

And I'm sorry for all the emails. Would you be open to me sending a photographer to the location? They would go by whatever rules you want in terms of identifying people, either by taking close-ups only or asking individuals for their permission before taking any photos.

Thank you. (And I'm really not usually a crazy woman. Just this afternoon...)

Hello Karin,

I understand you had reached out to Superintendent Thomas Gialanella seeking some information, and hopefully I can help.

As you may know, our district has been working alongside the Ocean County Health Department to facilitate RWJBarnabas Health Arena-- on our High School North campus-- [as a vaccination site](#) for those who qualify for phase 1A. Our district's Partnership Health Center (PHC) located at 54 Washington Street in Toms River is also working closely with county health officials to provide Covid-19 screening, and hopes to provide vaccinations to educators once the health department opens phase 1B.

Good evening all,

The Ocean County Health Department has been hard at work trying to roll out the COVID vaccine and accommodate all 1A individuals which we are still in. The Governor did expand phase 1A to include Police and Fire but others have not been included for vaccination at this point.

In an effort to vaccinate 1A school personnel, the health department has transitioned to a new scheduling appointment system. Tomorrow, I will be sending you all a "unique" link for you to pass along JUST TO staff that meet the criteria below.

- 1) School nurse and nursing assistants that assist the nurse in their daily role of nursing office duties.
- 2) School staff that have healthcare provider roles such as ST, PT, OT etc.

My ask for each of you is to prescreen and identify staff that meet this criteria and then forward this registration link which you will receive tomorrow to those individuals. This link will allow your staff to make appointments for COVID vaccination starting this Thursday, January 14, 2021. If you have any questions, please feel free to reach out to me.

Best regards and thank you all for everything.  
Dan

Thank you Will,  
Unfortunately the process and criteria we were trying to put in place is not being followed and is being abused so for right now, we need to stop.  
Please do not send anyone from your school other than your school nurse at this time.

**Subject:** Vaccine--Please Read

Good afternoon,

I just got off the phone with Dan, and he asked that I reiterate the message sent previously that the vaccine opportunity right now is **ONLY for 1A individuals, which includes school nurses ONLY**. Apparently, dozens of teaching staff members are showing up to the clinic without appointments and overrunning the clinic with unauthorized requests.

Dan is our partner in getting to the finish line on this. I promised to send out a cease and desist immediately. Please help let OCHD best help us by ensuring the message to our staff members is clear--**the vaccine is not yet available to school staff members**.

Thank you,  
Will

**Subject:** Re: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

Good Morning

In December we instituted a policy of having siblings of students with COVID compatible symptoms also quarantine at least until the ill student tested negative, had a documented alternative diagnosis like strep or flu, or allowing them back if asymptomatic after the ill child was out for 10 days. I imagine that would still be the preferred policy and would help encourage parents to get their child tested particularly when rapid tests are also being accepted.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

This is not our decision. The Governor decides that but I would hope by the end of this month.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Dan,

NJ remains in phase 1A. NJVSS went live for pre-registration, perhaps that is leading to the confusion. Let me know if you need any other clarification.

Thanks,  
Jamie

This is floating around the Principals. I need to know what to tell the school people. Ideally, would like to offer the shots here but I know we need the vaccine levels to do that.  
If Brian gets the school nurses paid - they can help.

**Subject:** [External] Message from NJAS Board

Dear NJAS Members and Friends,

Happy New Year's! I hope all is well with you.

I just received information that Phase 2 COVID-19 vaccine registration in NJ just opened tonight. This means that staff, educators and administrators in K-12 education and higher education levels (University level) can register beginning tonight to reserve their spot for the COVID-19 vaccine.

Link to site: <https://covidvaccine.nj.gov>

This is a difficult time for all of us, but you're not alone: we're just as committed to helping you and to engage, inform and communicate to our members about current scientific highlights and news.

If you have any questions, please feel free to reach out.

Sincerely,

Maria Agapito, PhD

NJAS President

**Subject:** Re: COVID vaccine school nurses are 1A and qualify NOW

Hello

Thank you again for allowing me to come in yesterday I noted that when I attempted to make appt for the second dose the next available was the week of the 22 of Feb which would be very close to the 50 day mark In addition I will be traveling on the 14th of Feb and would like to have full documentation for that trip So I will come in on the 1st or 8th of Feb as I did yesterday if that is OK with you.

You will likely get questions from people unable to get their second vaccine appt within the 50 day time frame.

Thanks Tammi, I forwarded to the State to confirm. I do not think this is true. I was on several calls yesterday and they all said we are no where near 1B yet.

**Subject:** [External] Message from NJAS Board

Dear NJAS Members and Friends,

Happy New Year's! I hope all is well with you.

I just received information that Phase 2 COVID-19 vaccine registration in NJ just opened tonight. This means that staff, educators and administrators in K-12 education and higher education levels (University level) can register beginning tonight to reserve their spot for the COVID-19 vaccine.

Link to site: <https://covidvaccine.nj.gov>

This is a difficult time for all of us, but you're not alone: we're just as committed to helping you and to engage, inform and communicate to our members about current scientific highlights and news.

If you have any questions, please feel free to reach out.

Sincerely,

Maria Agapito, PhD

NJAS President

**Subject:** Travel Quarantine guidance

Good morning all:

As a follow up to yesterday's 9:00am meeting,

I was communicating with Vin Smith yesterday and he brought to my attention the following change to the travel related quarantine. The 14 day quarantine that Public Health is more concerned about and guides on is related to exposure. This 14 day quarantine has not been changed for NJ as the NJ DOH has not adopted the CDC guidance on these changes. This is something we follow closely and will pass along any changes we see or hear.

The below detail on travel quarantine is simply an "ask" of the Governor and as you can see as it's written, it is "expected" to be followed.

As you can further see, the timeline and details are spelt out and well defined for you to implement as you see fit within your institutions and organizations.

A link to the State COVID dashboard with full explanation is as follows.

<https://covid19.nj.gov/faqs/nj-information/travel-and-transportation/are-there-travel-restrictions-to-or-from-new-jersey>

Thank you all, happy early holidays and stay well!

Dan

# Are there travel restrictions to or from New Jersey?

*Last Updated: 12/07/2020*

Copy Link to Article

New Jersey strongly discourages all non-essential interstate travel at this time.

Travelers and residents returning from **any U.S. state or territory** beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) should self-quarantine at their home, hotel, or other temporary lodging following [recommendations from the CDC](#):

- If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.
- If travelers test positive, they should **self-isolate for at least 10 days and should postpone travel during that time.**
- If travelers test negative, they should **quarantine for a full 7 days after travel.**
- If testing is not available (or if the results are delayed), travelers should **quarantine for 10 days after travel.**

The advisory is no longer specific to certain states. Because of the rising number of case counts across all states, there is an increased risk of spread of COVID-19 upon return from any travel.

The self-quarantine is voluntary, but **compliance is expected.** Travelers arriving from areas with increasing COVID-19 cases may wish to postpone their travel to the region if they are unwilling or unable to follow the quarantine advisory.

**Subject:** Re: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

Hello again

Directly from CDC

Local public health authorities determine and establish the quarantine options for their jurisdictions. CDC currently recommends a quarantine period of 14 days. However, based on local circumstances and resources, the following options to shorten quarantine are acceptable alternatives.

- Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
  - o With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
  - o With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

In both cases, additional criteria (e.g., continued symptom monitoring and masking through Day 14) must be met and are outlined in the full text.

On Thu, Dec 3, 2020 at 10:01 AM Mary Ann McCabe <[mmccabe@trschoools.com](mailto:mmccabe@trschoools.com)> wrote:

Not sure that email came through correctly

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:
  - o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
    - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
  - o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
    - With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.
2. Persons can discontinue quarantine at these time points only if the following criteria are also met:
  - o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring<sup>†</sup> during the entirety of quarantine up to the time at which quarantine is discontinued; and,
  - o Daily symptom monitoring continues through quarantine Day 14; and,
  - o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs<sup>±</sup>, a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they

should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.

3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.

4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

† Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

± NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

## Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.<sup>8-10</sup> Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

[Top of Page](#)

## Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.

- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

Good Morning

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:
  - o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
    - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
  - o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*

- With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.
2. Persons can discontinue quarantine at these time points only if the following criteria are also met:
    - o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring<sup>†</sup> during the entirety of quarantine up to the time at which quarantine is discontinued; and,
    - o Daily symptom monitoring continues through quarantine Day 14; and,
    - o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs<sup>±</sup>, a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.
  3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.
  4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

<sup>†</sup> Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

<sup>±</sup> NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

## Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.<sup>8-10</sup> Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

## Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.
- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

Dave,

Thank you for taking the time to reach out last night in response to my email and discuss the Toms River School closure letter. I appreciated the conversation and the plan moving forward for joint communications review. During the conversation, you referenced “making it right” and in light of today’s APP article was wondering if you would consider writing a letter correction or clarification? I think there is a general misunderstanding from the public in terms of Ocean County Health Department’s role in schools. I am available today if you’d like to discuss further.

Best regards,

Dan

Dave,

I have to say I was a little disappointed in the letter put out by TRS this afternoon as it was not too kind to us. I feel as though it throws Ocean County Health Department under the bus and quite honestly is not completely accurate. We are getting a lot of not so nice calls and emails about it. My conversation last week with Cathy and my conference call with you Saturday morning was our concern over 2 schools and that was all.

Shutting the whole district down was a TRS decision based on what was described to me this morning as “a lot of cases today”. My comment to that statement was if you feel full closure is warranted based on what you see, you can certainly do that.

TRS has been a great partner with us in many ways over the years. I look forward to many

more years of that but I just ask we work on the messaging and the risk communication go forward.

Ocean County Superintendents,  
Good evening all, We hope this email finds you and your family well.  
I hope you do not mind me high jacking this past email thread to send this new NJ DOH guidance document information out for schools

Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here:  
[https://www.nj.gov/health/cd/documents/topics/NCOV/COVID\\_19\\_Report\\_Week\\_46.pdf](https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf).

As a result of this elevation, the High COVID-19 Regional Matrix and the HIGH COVID-19 Exclusion Table are now in effect. The New Jersey Department of Health's full guidance document for K-12 schools is available here:  
[https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts\\_K12Schools.pdf](https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf).

**\*\*Updated version dated November 19, 2020 posted today replacing the September 8, 2020 document.\*\***

**IF THE DATE AT THE TOP OF THIS LINK WHICH OPENS DOES NOT READ NOVEMBER 19<sup>TH</sup> AND IT IS HIGHLIGHTED IN YELLOW, PLEASE HIT "CONTROL, R" TO REFRESH**

**PLEASE NOTE:**

**High Exclusion Table (page 13)** indicates close contacts of an individual with COVID-19 compatible symptoms (page 10) should be excluded through 14 days from date of last contact, or until ill individual tests negative for COVID-19.

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns. We plan on scheduling another school workgroup virtual meeting in the coming weeks, date forthcoming.

From my amazing team to your amazing team, we look forward to our continued partnership. THANK YOU for all your efforts.

Did Danielle touch base with guys to review situations? I got caught up on several calls back to back today. If there are any questions or you require additional guidance let's plan to conference tomorrow.

On Mon, Sep 21, 2020 at 2:20 PM Edward Keller <[ekeller@trschoools.com](mailto:ekeller@trschoools.com)> wrote:  
Dr. McCabe,

Our second positive staff member had no contact with our first staff member. She went out of her way to stay away from others since the beginning of the school year and assumed she was exposed outside of our building. Her only contact was with three other staff members last week while eating lunch, but all remained more than 6 foot socially distanced throughout the time they were together. The three staff members who were with her have chosen to be tested and are teleworking pending their results. My understanding is that they should be able to return because they did not have sustained personal contact within 6 feet. Please let me know if that is not the case.

The three staff members who had close close personal contact with our first positive case have all been tested and received negative results. They will be back in school next Tuesday.

Respectfully

Ed Keller

**Subject:** Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

**Subject:** RE: Staff Member & Student COVID Positive

If you cannot determine who has or has not been in close contact with the known positives and they all were in close proximity to each other then they should be all requested to quarantine. I know some schools and programs initiated smaller "pods" of training meaning they limited the number of players who participated in drills and/or activities. This would then keep players exposure to others at a minimum through smaller groups. Was that instituted at all do you know? I will confer with the team here and we will touch base.

**Subject:** Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,  
Mrs. Cara DiMeo

**Subject:** Travel Quarantine guidance

Good morning all:

As a follow up to yesterday's 9:00am meeting,

I was communicating with Vin Smith yesterday and he brought to my attention the following change to the travel related quarantine. The 14 day quarantine that Public Health is more concerned about and guides on is related to exposure. This 14 day quarantine has not been changed for NJ as the NJ DOH has not adopted the CDC guidance on these changes. This is something we follow closely and will pass along any changes we see or hear.

The below detail on travel quarantine is simply an "ask" of the Governor and as you can see as it's written, it is "expected" to be followed.

As you can further see, the timeline and details are spelt out and well defined for you to implement as you see fit within your institutions and organizations.

A link to the State COVID dashboard with full explanation is as follows.

<https://covid19.nj.gov/faqs/nj-information/travel-and-transportation/are-there-travel-restrictions-to-or-from-new-jersey>

Thank you all, happy early holidays and stay well!

Dan

# Are there travel restrictions to or from New Jersey?

*Last Updated: 12/07/2020*

Copy Link to Article

New Jersey strongly discourages all non-essential interstate travel at this time.

Travelers and residents returning from **any U.S. state or territory** beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) should self-quarantine at their home, hotel, or other temporary lodging following [recommendations from the CDC](#):

- If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.
- If travelers test positive, they should **self-isolate for at least 10 days and should postpone travel during that time.**
- If travelers test negative, they should **quarantine for a full 7 days after travel.**
- If testing is not available (or if the results are delayed), travelers should **quarantine for 10 days after travel.**

The advisory is no longer specific to certain states. Because of the rising number of case counts across all states, there is an increased risk of spread of COVID-19 upon return from any travel.

The self-quarantine is voluntary, but **compliance is expected.** Travelers arriving from areas with increasing COVID-19 cases may wish to postpone their travel to the region if they are unwilling or unable to follow the quarantine advisory.

**Follow Up Flag:** Follow up  
**Flag Status:** Completed

I just spoke with OCHD representative Ms Padovani and she asked if you could kindly email her the contact information for the girls' grandparents who were + and where they were tested (some sites are missing reporting of + rapid results), Her phone number is 732-341-9700 ext 7516 if that's easier for you.

[REDACTED] would be eligible to return to school on 12/8 as she is presumed to be positive since she had the symptoms Thursday and Friday, and 10 days quarantine would run out then. Since you are going to stay virtual until 1/4/21, could you please reach out to the guidance department since they might need you to fill out a form to extend the virtual learning.

Thank you.

On Wed, Dec 2, 2020 at 5:10 PM [REDACTED] <[REDACTED]> wrote:

There grandfather tested positive on the 27th he is a first responder and there grandmother on the 28th I do believe they both got the rapid test done. I contacted their pediatrician and he said to self quarantine since we had been around him 4 days prior and family who lives there the day before thanksgiving. We had planned to go over on Thanksgiving day for dinner but that day our family all had low grade fevers [REDACTED] had 99.1 and [REDACTED] had 100.9. Along with their father, younger sister, and myself. We have all stayed home and pretty much slept. [REDACTED] hasn't showed any signs of virus other than thanksgiving and the day after she complained of migraine and when she got up she felt very dizzy. Her sister has still felt this way since thanks giving. I was planning on seeing about making them fully remote until after they get back from winter break on January 4th. So as mentioned [REDACTED] hasn't showed any signs since Friday but her sister [REDACTED] is still showing signs of fatigue and a head ache as of today.

Please let me know if you have any other questions or need anything further from me.

Thank You,

On Dec 2, 2020, at 1:59 PM, Annette Adamek <[aradamek@trschoools.com](mailto:aradamek@trschoools.com)> wrote:

Good afternoon Ms [REDACTED]:

Just emailing since the elementary school nurse at your 4th grade student's school, Ms Fitzgerald, contacted us to ask if we knew if there was a case of COVID19 in your home. I cc'd my colleague (edanyo) and Ms Fitzgerald so you'd not have to reply more than you needed to, and you could do so when time allowed:

Can you please update me with the following details:

Who tested positive for Covid? If more than one person was tested, please list name and result.

When was the first day symptoms were noted?

What is the date of the positive and/or negative test(s)?

What was the type of Covid test performed (nasal swab or rapid result)?  
If any of the household has only been exposed and does not have Covid (or received a negative result), what is the name and the date of last exposure day to the positive person?  
The answers to these questions will allow us to determine when your children will be able to return to in person learning.  
Hoping all is well.

**Subject:** RE: OCASA November Meeting Agenda

Ocean County Superintendents,  
Good evening all, We hope this email finds you and your family well.  
I hope you do not mind me high jacking this past email thread to send this new NJ DOH guidance document information out for schools

Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here:

[https://www.nj.gov/health/cd/documents/topics/NCOV/COVID\\_19\\_Report\\_Week\\_46.pdf](https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf).

As a result of this elevation, the High COVID-19 Regional Matrix and the HIGH COVID-19 Exclusion Table are now in effect. The New Jersey Department of Health's full guidance document for K-12 schools is available here:

[https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts\\_K12Schools.pdf](https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf).

**\*\*Updated version dated November 19, 2020 posted today replacing the September 8, 2020 document.\*\***

**IF THE DATE AT THE TOP OF THIS LINK WHICH OPENS DOES NOT READ NOVEMBER 19<sup>TH</sup> AND IT IS HIGHLIGHTED IN YELLOW, PLEASE HIT "CONTROL, R" TO REFRESH**

### **PLEASE NOTE:**

**High Exclusion Table** (page 13) indicates close contacts of an individual with COVID-19 compatible symptoms (page 10) should be excluded through 14 days from date of last contact, or until ill individual tests negative for COVID-19.

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns. We plan on scheduling another school workgroup virtual meeting in the coming weeks, date forthcoming.

From my amazing team to your amazing team, we look forward to our continued partnership. THANK YOU for all your efforts.

**Subject:** COVID School Nurse Update - NEW Definition Close Contact  
**Attachments:** LINC\_S\_Close\_Contact\_oct\_22\_20.108317.pdf  
**Importance:** High

### To Our School Nurses Partners in Prevention,

**NEW!** *Close Contact: Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

See the attached formal document for more information.

Stay Safe & Be Well,

### Your COVID School Investigation Team

**Jennifer Crawford** - Supervising Field Representative Disease Control  
**Donna Rauch, RN** - Public Health Nurse, COVID-19 Investigator  
**Danielle Padovani** - Field Representative Communicable Disease

**Subject:** RE: School COVID Line List Template

Good Day,

I just wanted to clarify regarding the Line List that I sent this week. This is the Line List posted on the NJDOH COVID-19 School website @ [https://www.nj.gov/health/cd/topics/covid2019\\_schools.shtml](https://www.nj.gov/health/cd/topics/covid2019_schools.shtml)

The purpose in sharing this document (dated 9/2/2020) is to make everyone aware of its existence in the event that your school has an outbreak. This is a standard in public communicable disease reporting for any infectious disease outbreak. The local health departments will add much of the information required through further investigation. With that being said, it is very important to keep accurate and cumulative data in your schools. Certainly use what works best for your districts/schools. Perhaps you may want to have a secure shared document between your COVID Team (ie: nurse/principal). If a Line List is needed, we will send you a [secure] encrypted email that you can return with the attached line list or other confidential information.

I hope this is helpful going forward. Thank you for your ongoing hard and dedication.

Regards,  
Donna

**Subject:** FW: School COVID Line List Template

**Importance:** High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,  
Jen

Subject: COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools
COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: COVID School Nurse Email from OCHD
Attachments: School Exclusion List_9.2018.pdf; COVID-Cannot-Test-Out-of-Quarantine.pdf; reportable_disease_magnet.pdf

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools

COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

Subject: Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

Subject: School Subcommittee meeting / Mental Health Resources

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

Hi Mary As I spoke to you today, Can you Please forward your policy or procedures regarding the Tracing of COVID - 19. The Toms River Schools would like to include these in our Procedures in case we have a positive Covid -19 Diagnosis. Administration would also like to know what are our responsibilities in contacting you. Will you also contact us if you have been notified of a positive student from a lab or physicians office.

Thank You for your assistance.

Subject: FW: School Reopening committee minutes and announcement for sub-committee meeting for nurses
Attachments: Public Health- Education 6-25-20 meeting summary.pdf

I'm sorry, the attachment is now included.

Thank you all for taking time out of your busy schedules to attend the first COVID-19 Summer Advisory Committee meeting. We have attached the minutes from the meeting, along with a brief recap.

Over the past couple of weeks, we have had a lot of interest coming in to have additional meetings for our nurses to discuss what their new "normal" will look like. We are happy to announce that our first Nurses Sub-Committee meeting will be held on Thursday, July 9th at 9 AM- 10 AM. We will do this virtually via GotoMeeting. A link will be sent out when the day gets closer so that everyone who wants to attend can have access to it. Please bring any questions you may have as well as any suggestions on how we can all safely return to school. All questions and thoughts are welcome! We believe that working together and using each other as resources will help us all in the long run.

Hi Nancy,

Thank you for speaking with us just to confirm we will be coming in the 18th and 19th and will have the Hygiene program Health Ambassador style but have each staff member facilitate a full hygiene program for 30 minutes and instead of rotating tables once the staff members finished the program the students would proceed back to class.

If you have any questions please let me know and we appreciate your flexibility and understanding.

Thank you,
Lauren

Good morning Nancy,

I apologize for any inconvenience we just had an emergency meeting for 2019 Novel Coronavirus (COVID-19). Due to the rapidly changing information we are invested in assuring our community is as equipped as possible to prevent and protect against illness. Moving forward any existing programming must be changed to hygiene/handwashing so that students have the tools and knowledge to be prepared.

If you are still interested in us coming out to facilitate a hygiene presentation please confirm at your earliest convenience (instead of health ambassador we would be able to go classroom to classroom to facilitate hygiene to your 4th and 5th graders).

If there are any questions please let me know. I am looking forward to hearing from you.

Thank you in advance,
Lauren

Subject: RE: Quarantine Notification Letter

Hi Cathy,

Yes you are correct, it seems as though this family was able to have isolation and quarantine run simultaneously due to the functionality of their house. Family would only have to quarantine for 14 days from their last exposure with the positive individual and then may return to school.

Thank you,

Danielle Padovani

Subject: Re: Quarantine Notification Letter

To: Meredith <[REDACTED]>

Dear Mrs. [REDACTED],

I completely understand where you're coming from and I'm sure I would have the same concerns if I were in your situation. What a blessing to live where you have the ability for [REDACTED] to truly isolate as recommended by the health department.

I'm going to forward your email directly to the district nurse coordinator, Mrs. Shea.

Sincerely,
Ms. Sincavage, RN

On Wed, Jan 20, 2021 at 8:05 AM Meredith <[REDACTED]> wrote:

Dear Mrs. Sincavage,

Thank you for your call yesterday. This is a very challenging time for everyone. I know the district has a Covid policy in place to protect students and staff. However, I feel that my situation is different and I wanted to know who I can speak with about it? We are in a very fortunate position that since Thursday (1/14/21) [REDACTED] has been quarantined and has been in complete isolation. She will continue to completely isolate until Sunday. She is on the opposite side of our house in our first floor guest room suite and is very far away from her family. Our house has radiant baseboard heat as well. Anything that goes in...food, drinks, clothes stays in her suite and won't come out until Sunday. She was able to leave through her back door and drove herself to get tested. No one has been in her presence or in the same room in almost a week now. Her family has gotten tested this week, within the appropriate window of exposure. I know rules are rules, however, we are in a unique situation and how can we be held to the 10 days plus 14 days rule if we all haven't been with her in person? Please let me know who the appropriate person is that my husband and I can speak with.

Thank you for your time.

Sincerely,

[REDACTED]

Sent from my iPad

On Jan 19, 2021, at 9:48 AM, Stephanie Sincavage <ssincavage@trschoools.com> wrote:

Good morning, Mr. and Mrs. Rizzo,

Mrs. Rizzo, thank you for taking the time to speak with me this morning. I'm sorry to hear [REDACTED] hasn't been feeling well and tested positive for COVID-19 despite all of the care and precautions you and your family have taken. Thankfully, it sounds as if she is already beginning to feel better.

As we discussed in our conversation this morning, [REDACTED] should continue to isolate until 1/24/21, for a total of 10 days. Her siblings will then continue to remain home in quarantine and monitor for symptoms for an additional 14 days, through 2/06/21. This would mean if they were to return to in-person instruction, the first day they could attend would be 2/08/21.

Additionally, I have confirmed that the only document the girls will need in order to return to play is the Return to School Questionnaire found on the trschools.com website. The NJSIAA reversed the policy regarding the need for a physician note in order to return to play after a positive COVID-19 diagnosis. The following is from the NJSIAA website:

Return to Play: "Since COVID-19 has been associated with myocarditis, athletes seeking to return to play after having contracted COVID-19 may wish to consult with a doctor regarding overall medical fitness. NJSIAA does not require any documentation from the school or doctor's office to return to play after a positive test or from a quarantine due to close contact. Upon the completion of six total practices after the start of the season, it will be the school's decision, through consultation with the appropriate school personnel, to determine the date for students and/or teams to safely return to competition after a period of quarantine or isolation."

If anything changes or you have any additional questions, please do not hesitate to reach out to our health office.

Kind regards,

Stephanie Sincavage, RN

Subject: Updated NJDOH K-12 School Guidance

Hi Cathy,

I am not sure if the school nurses at Toms River receive these updates so I just wanted to make sure I forward it to you just in case.

The NJDOH K-12 School Guidance has been updated (on 1/19/21) and the link is below.

https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf

Key updates are highlighted in the document and include:

1. While in High Regional Risk Level (orange), schools should **no longer exclude close contacts of students with COVID-19 compatible symptoms**. Schools should continue to identify and exclude close contacts of COVID-19 cases in all Risk Levels.

2. Reinforced recommendations around non-classroom activities and cohorting.

****PLEASE NOTE that with HOUSEHOLD MEMBERS the guidance has not changed for COVID-19 Symptomatic individuals: “*In all risk levels, students/staff who are household members of a student/staff member who has COVID-19 compatible symptoms and meets COVID-19 Exclusion Criteria should be excluded from school until the symptomatic individual receives a negative test result. If the symptomatic individual tests positive, the household member will need to quarantine.”**

If you have any questions feel free to reach out!
Thank you!

Thank you just a quick question. Why were there close contacts excluded for [REDACTED] and [REDACTED]? They were not in school during infectious period.

Also, just want to double check that [REDACTED] only had 2 staff member excluded and that [REDACTED] had 0 close contacts. Those were the only two that were in school during their infectious period

Subject: Silver Bay Elementary School

Hi Cathy,

Due to the amount of COVID-19 cases reported at Silver Bay Elementary School, I do recommend the school taking a “pause” from in-school instruction.

In the NJDOH K-12 School Guidance, they recommend schools consider closing when there are 2 or more cases identified within a 14 day period that have no clear connection and exposure cannot be easily identified (also known as an unknown exposure).

A temporary closure could consist of remote learning for up to 14 days (we have seen school closures or “pauses” anywhere from 7-14 days) in order to slow the spread of the virus within the school setting.

Ultimately, it is the schools decision but I would be happy to answer any questions and/or offer any guidance.

Thank you,

Hi Annette,

OCHD has received the vaccine. We are going to be vaccinating this week at Toms River High School North. Nothing was mentioned on my team about school nurses- but I don't see why you wouldn't be in Phase 1A.

On our website you can try to make an appointment <https://www.ochd.org/covid19-vaccine/>

I hope that helps. If I hear any differently I will let you know.

Yes close contacts of positive cases they always quarantined. Symptomatic individuals schools were not contact tracing for unless they had an epi link or tested positive. This has since changed.

On Nov 20, 2020, at 8:22 AM, Danielle Padovani <DPadovani@ochd.org> wrote:

Hi Cathy,

No I think you might have read what I wrote wrong.

To start it is very important to not interchange quarantine with isolation. Isolation is for cases and quarantine is for those individuals identified as close contacts.

Close contacts who get a negative test result are not allowed to come back to school, due to the 2-14 day incubation period. Individuals cannot test out of quarantine.

The only thing this new guidance changes is **contact tracing for symptomatic individuals who are not yet tested** (hopefully they do but we cannot force anyone to test). If a student or staff member shows COVID-19 symptoms they must isolate for 10 days (this was the same for when we were on moderate risk) AND now schools must contact trace and exclude close contacts (even if they are not an official case). The only way the close contacts can return is if the symptomatic individual tests negative or has an alternate diagnosis. So if the symptomatic indiv does not get tested.... Close contacts still quarantine.

So essentially there is going to be a lot more people quarantining.

School should consider whether or not they want to go fully remote right now due to the high infectious rate we are experiencing.

If you need any further clarification feel free to give me a call.

Hi Danielle , at the present time we are telling positive cases (staff and students) they must quarantine for 10 days according to CDC. Also all close contacts must quarantine for 14 days regardless if they get a negative test.

So we will need to change our procedures to say close contact individuals that get a negative test can return to school without the 14 days quarantine ? If they are asymptomatic can they return if they decided to get a negative test also.? Please advise.

Good Afternoon,

Here is the link for the COVID-19 Risk Matrix where our county is currently at **High Risk** for the week ending in 11/14.

https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf

This is published on every Thursday here: <https://www.nj.gov/health/cd/statistics/covid/>

Also, here is the link for the K-12 Guidance for schools where on pg. **3 & 13** it advises what the implications are for being in the **High Risk** category.

However, I have also attached in one document the COVID-19 Risk Matrix as well as the important pages 3 & 13 from the school document so you have all the information in one PDF.

Please note the two biggest changes that this brings to schools:

1. School should consider implementing remote learning.
2. If schools are continuing in-person instruction, they should now be contact tracing and excluding **SYMPTOMATIC** (symptoms consistent with COVID-19) individuals, even if they did **NOT** get tested. If an individual ends up testing negative or has an alternate diagnosis then close contacts can return to school.

Previously- symptomatic individuals were instructed to isolate for 10 days, to get tested, and to only return to school if they received a negative test result or an alternate diagnosis. Contact tracing was only done for confirmed symptomatic individuals that were symptomatic AND had an epi-link (probable case).

Hopefully this helps and let me know if there are any questions!

Thank you!

Last year the OCHD did two days of cholesterol/BP/diabetes screening and risk assessment. The program was VERY well received by staff, and many have asked if we could do it again this year. I know that with COVID, your staff is stretched really thin, but wondered if it would be possible to provide one event for this school year?

Hi Ladies. Are either of you available for a quick interview? I have a Rutgers school nursing RN doing her post grad certification with me. She needs this as an assignment. She will be with me tomorrow and Friday morning. Is there any time that works for either one of you?

On Wed, Mar 4, 2020 at 9:07 AM Danielle Padovani <DPadovani@ochd.org> wrote:

Good morning Nancy,

This is Danielle from the Ocean County Health Department. I apologize for any inconvenience. We just had an emergency meeting for 2019 Novel Coronavirus (COVID-19). Due to the rapidly changing information we are invested in assuring our community is as equipped as possible to prevent and protect against illness. Moving forward any existing programming must be changed to a hygiene/Coronavirus program so that students/staff have the tools and knowledge to be prepared.

If you are still interested in us coming out to facilitate a hygiene/Coronavirus presentation please confirm at your earliest convenience. I know that we have a professional development scheduled for the 10th and Student Health Ambassadors on the 18th and 19th.

If there are any questions please let me know. I am looking forward to hearing from you.

Thank you in advance,

Danielle Padovani

Hi Nancy,

I am available between 9 and 10 AM on Friday if your Rutgers student would like to come down to the health department to conduct the interview.

Our address is 175 Sunset Ave, Toms River 08754.

Please confirm her attendance once you find out more information

Thanks,

Lori,

I don't know if your mom's second shot will go through. It's labeled as first dose. She must have scheduled both at the same time and the program does not allow for it. Just email me next week and I will look into it and make it with your dad.

Have a good weekend
Dena

Thank you so much you are amazing. I really appreciate it my mom already has her 2nd shot set up. It's at the arena in Toms River. Late February.

Please stay well
Lori

Subject: FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school
Attachments: NJ_AAP_School_testing.108383.pdf

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you
Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or

they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

This information has been distributed to: DOH Senior Staff; DOH Staff; LINCS Health Officers; LINCS Health Officer Assistants; LINCS Coordinators; LINCS Coordinator Backups; LINCS Epidemiologists; LINCS Health Educators; LINCS Health Planners; LINCS IT Specialists; LINCS Partnership Coordinators; LINCS Public Health Nurses; LINCS Regional Health Planners; LINCS Team Members; LINCS CD Investigators; LINCS REHS; LOCAL Health Officers; LOCAL Public Health; LOCAL CD Investigators; LOCAL Health Educators; LOCAL Public Health Nurses; LOCAL REHS; LOCAL Epidemiologists; Academic Leaders; DOH Program Staff; Public Health Associations; Public Health Council

Further distribution of this message should be directed to: Day Care Centers / Preschools; Educational Institutions; School Administrators; School Nurses; Health Care Facilities / Other; Long-term Care; Health Care Providers; Local Boards of Health; and other partners in your region, as appropriate.

Subject: Re: FW: School Nurse Moderna COVID-19 Vaccine

Does anyone know if we have to adhere to second vaccine at 28 days? I scheduled my second one a little later than that due to scheduling on OCHD choices. (34 days apart).

Thank you.

Bonnie Brink RN

Hello

Please see attached and the email from Donna below.

Thank you

Mary

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website ochd.org

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

Subject: School Nurse Question

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Subject: RE: School COVID Line List Template

Hello,

It would appear that this line list is something provided to the health departments for tracking purposes. School nurses are not at this time doing rapid testing and so they would often not have knowledge of test results and tracking all this information for every child who presents to the school nurse with URI symptoms would be burdensome.

I would like to suggest we pare this down to something more manageable for school nurses if they do testing and also for the many places doing rapid testing. I believe that Quest and LabCorp do get positive PCR information to you. I would suggest name, DOB, address and contact number, type of test {antigen/ saliva} date of onset of symptoms, date of test and, if asymptomatic with a positive rapid, whether a PCR test was sent for confirmation

Maybe we can discuss this Monday morning ??

Have a good weekend

Mary Ann McCabe

Importance: High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Hello Mary , This is alot of information to gather. We really do not get the information such as the symptoms, labs , infection control. Is this form to be sent to you weekly? Or do we keep this at each school in the nurses office? How much information would you be expecting? Please let me know what you would like us to do .

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

New Jersey Department of Health Releases COVID-19 Recommendations for Schools

The New Jersey Department of Health (NJDOH) today released COVID-19 Public Health Recommendations for Local Health Departments for schools.

"The Department of Health in collaboration with the Department of Education, has developed guidance to help local health departments assist schools in providing a safe environment for students and staff," said Health Commissioner Judith Persichilli. "Understanding that COVID-19 may impact certain areas of the state differently, the Department will provide data by 6 regions of the state to inform local decisions."

Regions:

- Northwest: Morris, Passaic, Sussex, Warren
- Northeast: Bergen, Essex, Hudson
- Central West: Hunterdon, Mercer, Somerset
- Central East: Middlesex, Monmouth, Ocean, Union
- Southwest: Burlington, Camden, Gloucester, Salem
- Southeast: Atlantic, Cape May, Cumberland

Every week, beginning this week, NJDOH will be providing information on COVID-19 transmission at the regional level, characterizing risk as low (green), moderate (yellow), high (orange), and very high (red). This information will be posted online on the Department's [website](#). Where a region falls in the color-coding categories is based on three criteria: number of cases in past week, percent positivity past week and syndromic surveillance in the past week.

When regions are in the very high-risk category (red), it is recommended that they implement fully remote learning.

Schools in other risk levels should consult with their local health departments as they work to:

- Implement protocols requiring staff and students to stay home when sick or if they have been in close contact with someone with COVID-19 in the past 14 days. School administrators should be notified of illness.
- Develop a policy for daily symptom screening for students and staff; have plans for students and staff to report symptoms that develop during the day
- Identify rapid testing resources when staff and students develop COVID-19 symptoms.

Schools should:

- Clean and disinfect frequently touched surfaces at least daily
- Ensure adequate hand hygiene supplies are available
- Implement physical distancing measures such as reducing occupancy, installation of partitions and physical barriers, and cancelling large gatherings
- Implement source control through wearing face covering

Regional risk levels are just one tool that local health departments (LHDs) and schools can use when assessing COVID-19 risk. Local health departments have additional knowledge of COVID-19 in their jurisdictions that can inform local planning and response actions.

Local health departments should maintain close communication with school officials in their community to provide information and share resources on COVID-19 transmission, prevention, and control measures and to establish procedures for LHD notification and response to COVID-19 illness in school settings. LHDs should identify a designated point of contact within each school that will be responsible for coordinating COVID-19 response with local public health authorities.

The recommendations released today also provide information about length of school exclusion, the role of testing and steps to take to respond to suspected and known positive students in schools and outbreaks identified in schools.

Subject: RE: COVID School Nurse Email from OCHD

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,
Jen

**Subject:** COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer  
Jen Crawford Communicable Disease  
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools  
COVID Cannot Test Out of Quarantine  
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,  
Donna

**Subject:** RE: FW: School Nurse Moderna COVID-19 Vaccine

Good Day,

The 2<sup>nd</sup> dose of the Moderna vaccine is to be given > 28 days after the 1<sup>st</sup>.  
The second dose can be given up to 50 days post 1<sup>st</sup> dose, **however that is not ideal**.  
So as close to the 28 day mark that it can be given is acceptable.

Learn from yesterday, live for today and hope for tomorrow !  
Happy 2021 to all !!  
Donna

Hi,  
that is my understanding as well, > than 28 days, not sooner.  
Peace and Hope for 2021  
Deb Ewtushek

On Wed, Dec 30, 2020 at 9:50 PM Ensor, Deirdre <[ensor@mtschoools.org](mailto:ensor@mtschoools.org)> wrote:

The second vaccine must be at LEAST 28 days from the first dose for the Moderna vaccine.

Due to scheduling, it is going to >28 days.

The OCHD is doing an excellent job, and the operation runs very smoothly!

I got my vaccine, and my second one is 37 days after.

I wanted it on a Saturday, so I could rest on Sunday before going to work Monday in the event of any side effects.

On Wed, Dec 30, 2020 at 9:25 PM Nancy Arias <[narias@trschoools.com](mailto:narias@trschoools.com)> wrote:

I was told no sooner than 28 days so that is fine.....mine are 34 days apart.

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website [ochd.org](https://ochd.org)

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

**Subject:** School Nurse Question

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Karen

**Subject:** School Subcommittee meeting / Mental Health Resources

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

### DEPARTMENT OF HUMAN SERVICES

#### Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

Link:

<http://www.co.ocean.nj.us/OC/OCDHS/>

#### Children and Family and Behavioral Health Newsletters

Sign up:

[https://visitor.r20.constantcontact.com/manage/optin?v=001VGGvr8xQIKj6vlotUlgPcCm9PebaThSHAd-OEOW4-SS5d8Ji2UxyK9aabOhVAZ8js5txgc\\_qJyQf\\_KgO88lmaAxy\\_S5NoFeM58vUY5coF1uTxPA1MD9e0SoFXX2xz3KWGsPruWa0ordMoVYsrflvM63efJ3J7DvA](https://visitor.r20.constantcontact.com/manage/optin?v=001VGGvr8xQIKj6vlotUlgPcCm9PebaThSHAd-OEOW4-SS5d8Ji2UxyK9aabOhVAZ8js5txgc_qJyQf_KgO88lmaAxy_S5NoFeM58vUY5coF1uTxPA1MD9e0SoFXX2xz3KWGsPruWa0ordMoVYsrflvM63efJ3J7DvA)

#### PerformCare

Provides the services, resources, tools and support for youth and families to participate in treatment within their homes, schools, and community settings.

Phone (Available 24/7): 1-877-652-7624

Once again, thank you for your time and we will reach out to you next week with the plan going forward. Have a great weekend!

Be well,

Donna

May 2020 CCYC Calendar We Are Community final.pdf

Hello families and partners,

I hope you are doing well. I want to share with you our May calendar for Ocean County Council for Young Children virtual meeting dates. The topic of our meetings is "Impact of COVID19 on our families" we will have a Q & A time for parents to ask partners and other families how to overcome their current challenges. We will also have a meeting dedicated only to families with special needs children. Please share to all your staff, community partners and families. CCYC is a group where families and stakeholders can learn and support one another. In addition we have a School Readiness program for families in Lakewood. All details about our Zoom meetings and programs are in the flyer attached and below. I hope you can join us!

PS. Make sure you stop by our Facebook page and check all our updates and resources. <https://www.facebook.com/monmouthoceanccyc/>

**May 6th at 4pm**

Seaside Heights Subcommittee: "Impact of COVID19 on our families" a Q & A time for parents to ask partners and other families how to overcome their current challenges. We are in this together! Zoom link:

**Subject:** [REDACTED]

Hello. I am looking for assistance in scheduling my wife's second COVID-19 vaccine dose. We both had our 1st dose on 1/19/21. I received an email to schedule a second dose (on 1/23/21), however my wife has not received an email as of yet. She also had trouble receiving a confirmation email for her first appointment.

I am asking for assistance to schedule her second dose. The following is her name and email address.

[REDACTED]

[mgluck@trschoools.com](mailto:mgluck@trschoools.com)

I certainly appreciate your assistance in advance.

Sincerely,

Paul T Gluck

Good Afternoon,

My parents have not received the confirmation email for their appointments in February. Is there still a delay? Also, could I find out what time my mother's appointment is? Her Name is [REDACTED] and it's scheduled for Tuesday, February 9th but she doesn't remember the time.

Thank you

Cathy, I spoke with Jen in regards to your question about the Rapid Covid test sites. See her response.

We do not have a list of sites broken down by what type of test is being performed. My suggestion is to provide <https://covid19.nj.gov/pages/testing> and let Cathy decide how best to utilize this resource.

Hope that helps.

### **Public Health Info**

*Distributed by the New Jersey Department of Health*

Subject: New Jersey School Immunization Requirements

Date: 8/12/2020; 13:08:07

Message#: 104157-8-12-2020-PHIN

Contact Info: Jennifer M. Smith, Vaccine Preventable Disease  
Phone: 609-826-4860; Email: [js24@njlincs.net](mailto:js24@njlincs.net)

Attachments: None

The New Jersey Department of Health (NJDOH) has received inquiries regarding the status of the immunization of pupils in school regulations (N.J.A.C. 8:57-4). The value of immunizations is even more evident during this pandemic: therefore, NJDOH will not waive the vaccine requirements nor will there be any extensions for the upcoming school year. Students will be expected to comply with all vaccine requirements prior to attending virtually or in-person at a New Jersey child care/preschool and school. New Jersey still allows for medical and religious exemptions when applicable.

The potential for the spread of infectious diseases is increased whenever individuals are brought into group settings. New Jersey has minimum vaccine requirements for school attendance. Following the Centers for Disease Control and Prevention's (CDC) recommended immunization is encouraged to provide optimal protection from vaccine-preventable diseases. Ensuring that vaccines are up-to-date can help protect schools and communities from vaccine-preventable disease outbreaks during the COVID-19 pandemic.

For more information please visit the New Jersey Immunization Requirements Frequently Asked Questions document available on the website [https://www.nj.gov/health/cd/imm\\_requirements/](https://www.nj.gov/health/cd/imm_requirements/) and directly at [https://www.nj.gov/health/cd/documents/imm\\_requirements/vaccine\\_ga.pdf](https://www.nj.gov/health/cd/documents/imm_requirements/vaccine_ga.pdf)

This document contains new information regarding DTaP/Tdap vaccinations and the immunization requirements at institutions of higher education. For your convenience, new/updated information is highlighted in yellow.

**Subject:** FW: School Reopening committee minutes and announcement for sub-committee meeting for nurses

Thank you all for taking time out of your busy schedules to attend the first COVID-19 Summer Advisory Committee meeting. We have attached the minutes from the meeting, along with a brief recap.

Over the past couple of weeks, we have had a lot of interest coming in to have additional meetings for our nurses to discuss what their new "normal" will look like. We are happy to announce that our first Nurses Sub-Committee meeting will be held on Thursday, July 9<sup>th</sup> at 9 AM- 10 AM. We will do this virtually via GotoMeeting. A link will be sent out when the day gets closer so that everyone who wants to attend can have access to it. Please bring any questions you may have as well as any suggestions on how we can all safely return to school. All questions and thoughts are welcome! We believe that working together and using each other as resources will help us all in the long run.

Thank you!"

Thank you Mary for sending this out. I know I spoke with some of you or your school reps yesterday regarding this. Please know we received this first from Will Smith and his distribution. We later received this "officially" from the NJ DOH at 6:04pm last night even though its dated 1/1/21/.

Happy new year all and thank you for everything you are doing for the children of Ocean Co.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Hello

Yesterday I called you on an individual with initials MN and you had asked about when the initial symptoms began. She said they began 12/28/20 and felt like allergies or sinus infection.

Hope that helps

Take care

Thank you  
Mary

---

Good Day,

Attached is a current Infographic from the NJDOH Guidance for School Disinfection during COVID-19 Pandemic. Please consider review with your Environmental Department.  
Also, here a few updated links that may be helpful to your school community. Infographics as well community tools about COVID-19.

<https://covid19.nj.gov/pages/apptoolkit>

**Cc:** Laurie Halloran  
**Subject:** Follow-Up

Hi Jen,

Laurie Halloran, Joseph A. Citta Elementary School's nurse, spoke to Danielle on Tuesday and left you a voicemail yesterday about the number of Covid positive individuals within our school with no known exposure outside of our school setting. While we have had nine individuals test positive since December 1, six of these cases were directly linked to a community exposure. Three cases, AF on 12/9, EM on 12/11, and AP on 11/27, cannot be traced back to an outside exposure. Danielle informed Laurie that she was going to speak to you, and I know the guidance requires the local health department to conduct an investigation. Can you please let me know what is being suggested by the OCHD at this point? We want to make sure that we continue proceeding in the safest manner possible for our school and local community. Thanks, Jen!

Shannon

Citta Seahawks, with style we fly. Spread your wings, and soar high!

Mrs. Shannon L. Brown  
Principal  
Joseph A. Citta Elementary School

**Subject:** Travel Quarantine guidance

Good morning all:

As a follow up to yesterday's 9:00am meeting,

I was communicating with Vin Smith yesterday and he brought to my attention the following change to the travel related quarantine. The 14 day quarantine that Public Health is more concerned about and guides on is related to exposure. This 14 day quarantine has not been changed for NJ as the NJ DOH has not adopted the CDC guidance on these changes. This is something we follow closely and will pass along any changes we see or hear.

The below detail on travel quarantine is simply an "ask" of the Governor and as you can see as it's written, it is "expected" to be followed.

As you can further see, the timeline and details are spelt out and well defined for you to implement as you see fit within your institutions and organizations.

A link to the State COVID dashboard with full explanation is as follows.

<https://covid19.nj.gov/faqs/nj-information/travel-and-transportation/are-there-travel-restrictions-to-or-from-new-jersey>

Thank you all, happy early holidays and stay well!

Dan

# Are there travel restrictions to or from New Jersey?

*Last Updated: 12/07/2020*

Copy Link to Article

New Jersey strongly discourages all non-essential interstate travel at this time.

Travelers and residents returning from **any U.S. state or territory** beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) should self-quarantine at their home, hotel, or other temporary lodging following [recommendations from the CDC](#):

- If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.
- If travelers test positive, they should **self-isolate for at least 10 days and should postpone travel during that time.**
- If travelers test negative, they should **quarantine for a full 7 days after travel.**
- If testing is not available (or if the results are delayed), travelers should **quarantine for 10 days after travel.**

The advisory is no longer specific to certain states. Because of the rising number of case counts across all states, there is an increased risk of spread of COVID-19 upon return from any travel.

The self-quarantine is voluntary, but **compliance is expected.** Travelers arriving from areas with increasing COVID-19 cases may wish to postpone their travel to the region if they are unwilling or unable to follow the quarantine advisory.

**Subject:** Re: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

Hello again

Directly from CDC

Local public health authorities determine and establish the quarantine options for their jurisdictions. CDC currently recommends a quarantine period of 14 days. However, based on local circumstances and resources, the following options to shorten quarantine are acceptable alternatives.

- Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
  - o With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.*
  - o With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

In both cases, additional criteria (e.g., continued symptom monitoring and masking through Day 14) must be met and are outlined in the full text.

On Thu, Dec 3, 2020 at 10:01 AM Mary Ann McCabe <[mmccabe@trschoools.com](mailto:mmccabe@trschoools.com)> wrote:

Not sure that email came through correctly

This change is not black and white and is dependent on ability/ease of getting a test and on the overall burden of disease in the community. There is also concern that an increased demand for testing on this basis will hinder the ability of those acutely ill to get testing. Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments.

Right now as we are at a high rate of transmission I would want to make sure the local health department is on board since any drop in duration of quarantine results in a certain increased risk of transmission. The best we can do is accept 10 days with no testing requirement and no report of any symptoms post exposure. At the urgent care the upper management is not yet putting into place these new recommendations until they discuss further with the local health departments they work with.

See below direct from the CDC

Mary Ann McCabe, MD

1. CDC recommends the following alternative options to a 14-day quarantine:

- o Quarantine can end after Day 10 without testing and if no symptoms have been reported during daily monitoring.
  - With this strategy, residual post-quarantine transmission risk is estimated to be about 1% with an upper limit of about 10%.
- o *When diagnostic testing resources are sufficient and available (see bullet 3, below), then quarantine can end after Day 7 if a diagnostic specimen tests negative and if no symptoms were reported during daily monitoring. The specimen may be collected and tested within 48 hours before the time of planned quarantine*

discontinuation (e.g., in anticipation of testing delays), but quarantine cannot be discontinued earlier than after Day 7.

- With this strategy, the residual post-quarantine transmission risk is estimated to be about 5% with an upper limit of about 12%.

2. Persons can discontinue quarantine at these time points only if the following criteria are also met:

- o No clinical evidence of COVID-19 has been elicited by daily symptom monitoring<sup>†</sup> during the entirety of quarantine up to the time at which quarantine is discontinued; and,
- o Daily symptom monitoring continues through quarantine Day 14; and,
- o Persons are counseled regarding the need to adhere strictly through quarantine Day 14 to all recommended non-pharmaceutical interventions (NPIs<sup>±</sup>, a.k.a. mitigation strategies), especially. They should be advised that if any symptoms develop, they should immediately self-isolate and contact the local public health authority or their healthcare provider to report this change in clinical status.

3. Testing for the purpose of earlier discontinuation of quarantine should be considered only if it will have no impact on community diagnostic testing. Testing of persons seeking evaluation for infection must be prioritized.

4. Persons can continue to be quarantined for 14 days without testing per existing recommendations. This option maximally reduces risk of post-quarantine transmission risk and is the strategy with the greatest collective experience at present.

These recommendations for quarantine options shorter than 14 days balance reduced burden against a small but non-zero risk of post-quarantine infection that is informed by new and emerging science.

<sup>†</sup> Monitoring can be conducted using any method acceptable to local public health authorities and could include self-monitoring using an approved checklist of signs and symptoms, direct contact daily by public health authorities or their designates, or automated communications systems (e.g., on-line or texting self-checkers).

<sup>±</sup> NPIs that can be practiced by individuals include the following: correct and consistent mask use, social distancing, hand and cough hygiene, environmental cleaning and disinfection, avoiding crowds, ensuring adequate indoor ventilation, and self-monitoring for symptoms of COVID-19 illness. These are also summarized [here](#).

[Top of Page](#)

## Persons who must quarantine together, such as households

Quarantine is intended to physically separate a person exposed to COVID-19 from others. Secondary transmission of infection is especially efficient within households.<sup>8-10</sup> Thus, when housing is shared (e.g., households or co-housed persons such as families, incarcerated persons, students, or military recruits), every effort should be made to physically separate the quarantined person from others such as by having the quarantined person reside alone in a separate closed room or closed area and with exclusive use of their own bathroom. When this separation is not possible, then the household members risk exposure to COVID-19 if the quarantined person develops the illness. People who are quarantined with others, as well as the person in quarantine, should take [steps to prevent spread of infection within the household](#) (e.g., NPIs, a.k.a. mitigating strategies). If the quarantined person is diagnosed with COVID-19, co-housed persons will require evaluation as contacts.

[Top of Page](#)

## Additional considerations

- **Burden of additional testing:** Diagnostic testing during quarantine will require capacity to produce results within a short period of time, and to report these additional results to public health authorities in a timely manner.
- **Equity:** Public health authorities that choose to use diagnostic testing during quarantine should strive to ensure equitable access for all affected persons and communities within their jurisdictions.
- **Serologic testing:** The utility of serologic testing to provide evidence of prior infection that would permit exclusion from quarantine has not been established and is not recommended for this purpose at this time
- **Monitoring and evaluation of changes to quarantine recommendations:** Documented data-driven experience is critical to ensure that these options for quarantine achieve an acceptable balance of risk to benefit once operationalized. CDC strongly encourages collection of data related to the effect of the recommended changes made herein to include (but not limited to): compliance with contact tracing (e.g., engaging with public health to identify contacts), willingness and ability to complete quarantine, change in burden to public health, and observed post-quarantine transmission rates.

These recommendations are based on the best information available in November 2020 and reflect the realities of an evolving pandemic. CDC will continue to closely monitor the evolving science for information that would warrant reconsideration of these recommendations.

Subject: From Fox News - CDC to release revised guidance reducing COVID-19 quarantine time from 14 days to 7-10

To: Cathy Shea <[cshea@trschoools.com](mailto:cshea@trschoools.com)>

The Centers for Disease Control and Prevention is expected to release revised guidance on quarantine time for those who may have been exposed to the novel coronavirus from 14 days to 7 days, for those who have received a negative test, and 10 days for those who have not been tested, Fox News has learned.

Dave,

Thank you for taking the time to reach out last night in response to my email and discuss the Toms River School closure letter. I appreciated the conversation and the plan moving forward for joint communications review. During the conversation, you referenced “making it right” and in light of today’s APP article was wondering if you would consider writing a letter correction or clarification? I think there is a general misunderstanding from the public in terms of Ocean County Health Department’s role in schools. I am available today if you’d like to discuss further.

Best regards,

Dan

Dave,

I have to say I was a little disappointed in the letter put out by TRS this afternoon as it was not too kind to us. I feel as though it throws Ocean County Health Department under the bus and quite honestly is not completely accurate. We are getting a lot of not so nice calls and emails about it. My conversation last week with Cathy and my conference call with you Saturday morning was our concern over 2 schools and that was all.

Shutting the whole district down was a TRS decision based on what was described to me this morning as "a lot of cases today". My comment to that statement was if you feel full closure is warranted based on what you see, you can certainly do that.

TRS has been a great partner with us in many ways over the years. I look forward to many more years of that but I just ask we work on the messaging and the risk communication go forward.

Best regards,

Hello Jennifer,

I am sure you must be extremely busy, but we have a question for you when you have a chance.

We have a student who's parent has tested positive for COVID. She is not able to quarantine from him. Her symptoms started about two weeks ago. At that point her test was negative. Her symptoms worsened over this past weekend and received positive results on Saturday. When should her quarantine end so we know when to start the additional 14 day quarantine for her son?

**Importance:** High

Good Day Ocean County Superintendents and School Nurses,

Hope you are all well as we continue down this long path. We wanted to touch base with everyone regarding recent changes and ongoing support as we manage this COVID-19 pandemic together.

The recent CDC update of the definition of **COVID-19 close contact criteria** places an increased level of contact tracing requirements in our whole community.

**NEW! Close Contact:** *Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

The research underlying this change further reveals the infectiousness and complexity of this novel viral pandemic. NJDOH has adopted the revised CDC definition effective immediately. The NJDOH is currently in the process of updating recommendations and we are watching closely to see any changes that the NJDOE may enact.

Please be aware that the NJDOH **COVID-19 Regional Risk Matrix** is currently in the **Yellow Moderate** category.

This requires 2 important actions:

1. In response to COVID symptomatic students and staff, follow COVID-19 exclusion criteria; wait at least 24 hours and clean/disinfect areas where ill person spent time.
2. Minimize activities that involve interaction with multiple cohorts.

**Reporting of a COVID-19 positive cases** within the schools are **required immediately** according to the New Jersey Administrative Code Title 8, Chapters 57 & 58.

We appreciate the cooperation of the majority of the Ocean County school districts.

However, there have been some districts that have not been in compliance with this statute.

**Ocean County Health Department Main number:**

732-341-9700

Business hours Communicable Disease : ext. 7515

Off business hours: ext. 7411 or "0"

In cases of immediately reportable diseases and other emergencies – if the local health department cannot be reached – the **New Jersey Department of Health** maintains an emergency phone number @ 609-392-2020

Attached is a school case report form that you may find helpful when gathering and reporting positive results. It is necessary to have the COVID lab report in order to establish a case. The prevalence of Rapid COVID-19 testing and the lack of reporting from the diagnosing agencies has slowed our ability to quickly investigate cases. It would be helpful to either identify the

place that the testing was done and or have the case themselves request the lab to fax the report to OCHD Communicable Disease Department. **Fax:** 732-678-0065

Finally below is the NJSIAA link to the updated website of **NJSIAA COVID-19 Resources:**

<https://www.njsiaa.org/health-safety/covid-19-resources>

Thank you for all that you are doing to keep our community safe. We look forward to ongoing collaboration as updates are released.

Be well and be safe.

**Subject:** RE: Staff Member & Student COVID Positive

If you cannot determine who has or has not been in close contact with the known positives and they all were in close proximity to each other then they should be all requested to quarantine. I know some schools and programs initiated smaller "pods" of training meaning they limited the number of players who participated in drills and/or activities. This would then keep players exposure to others at a minimum through smaller groups. Was that instituted at all do you know? I will confer with the team here and we will touch base.

**Subject:** Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,  
Mrs. Cara DiMeo  
Assistant Superintendent  
Toms River Regional Schools

Cc: James Ricotta, Jr.; Cathy Shea
Subject: RE: Feedback

Good morning, Dr. McCabe. My apologies as I was led to believe Donna Rauch replied to you on Friday.

You are correct in your understanding. It remains you cannot test out of quarantine if identified as a close contact to a **positive case**.

As a result of our region's COVID-19 activity level being classified as "High" according to the most recent NJDOH surveillance report, contact tracing and exclusion should also be done for individuals with COVID-19 compatible symptoms. This is summarized in the "High Risk" column on page 13 of the NJDOH's K-12 guidance document. Prior to "High Risk" status, this was only done for known positives. If the individual with clinically compatible illness goes on to test negative (viral test, not rapid), the excluded close contacts would no longer be considered as such and could resume normal activity.

Hope this helps,
Jen

Hello  
Last week I provided the school with my interpretation of the change in guidelines given our bump up to high risk community transmission Mary had forwarded it to others at OCHD for their feedback I would just like to close the loop and confirm that I am providing a correct understanding  
Thanks

Good morning, Laura. I did receive your VM and I have been on the phone most of the morning with school nurses. The answering service should put your call through to me when you identify yourself in a professional capacity so I am sorry for that difficulty.

If last day in school was 10/28 you have no school exposures to report, just looking to provide the student information?

Best,  
Jen

**Subject:** Student tested COVID positive

Hi Jennifer,

I called your office number and was told by the operator the office was closed today for the holiday. I left a message on your after hours number also. We have a student who tested on 11/10/2020 and the parent called this morning with the results being positive. The last day the student was present in school was 10/28/2020 (school was closed last week for teachers' convention week). The parent also tested positive on 10/30/2020 and after being notified on 11/9/2020 the student has been quarantined.

Please contact me when you receive this message.

Thank you,

**From:** Jennifer Crawford  
**Sent:** Tuesday, November 10, 2020 9:44 PM  
**To:** Patricia Lindenbaum  
**Subject:** RE: Covid Quarantine question

Good evening, Patricia. The exposed player should self-QT for 14 days beginning from date of exposure, 11/8, so that would be extend through and including 11/22. The soonest this student should come back to in person instruction (if applicable) would be 11/23 unless the player tests positive or becomes symptomatic - then we need to have a conversation about what the adjusted timeline looks like. As for the sister, she would be considered a contact of a contact at this time and no self-QT would be indicated.

For your "third question", if there is not an available roster for you to identify who is on the team and associated with your school I believe you are in a tough position. You would really need to try and appeal to the parent to provide that information in an effort to protect the rest of the school community (for the same reason her son is recommended to self-QT).

Hope this is helpful. We are not in the office tomorrow (holiday) but I will be working remotely and available on my work cell.

Best,  
Jen

Subject: Covid Quarantine question

Hi Jennifer,

I am a nurse at West Dover Elementary School in Toms River. I had a parent contact me today to state that her son was exposed to an opposing player on a football team this past Sunday, Nov. 8.

I will forward the info I received from mom. I just want to clarify that this means I will have the child stay home for this week and next week? He also has a sister who attends the school- after talking to Cathy Shea it seems that she can attend since she did not have direct exposure or does she need to say home too? The third question I have is that I asked the mom if there were any other children from the school who played on this

team- she did say yes, but did not give me a name. I don't know how to contact this person due to confidentiality issues, but feel that child should stay home as well. Any information you can give me would be greatly appreciated. I do not want to call the mom back again until I have better answers. The kids were not in school today, and will be virtual tomorrow, so I have a day to think this over

Thank you,
Patti Lindenbaum

Subject: RE: rapid covid-19 test centers

Good morning, Cathy, hope this email finds you well. Busy day for TR Regional calls yesterday!

We do not have a master list of what type of testing is being performed by facility, that is not something assembled or provided to local health departments in the state. We are encouraging residents seeking testing to use <https://covid19.nj.gov/pages/testing> to identify a convenient testing location, along with instruction to check re: insurance coverage (if applicable) and to call the facility to inquire what testing is offered. Obviously we could give you the names of locations reporting rapid results to our office but we would not want that to be interpreted as an exhaustive list or an endorsement. Feel free to call later this AM to discuss.

Best,
Jen

Hello Jennifer,

I am sure you must be extremely busy, but we have a question for you when you have a chance.

We have a student who's parent has tested positive for COVID. She is not able to quarantine from him. Her symptoms started about two weeks ago. At that point her test was negative. Her symptoms worsened over this

past weekend and received positive results on Saturday. When should her quarantine end so we know when to start the additional 14 day quarantine for her son?

Subject: COVID question

Hi Jen,

I hope you are well. I have a question for you. A mom of 1 of my student's became ill on 10/19 and tested positive on 10/19. Mom is a teacher at a Hebrew school in Marlton and was exposed at work. Gamboa is the last name. The home only has 1 bathroom but she is sleeping and eating separate from the children. She wears a mask when she is around the family. Can I start the boys quarantine on 10/19 or do I need to wait the 10 days plus another 14???

Thanks,

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer  
Jen Crawford Communicable Disease  
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools  
COVID Cannot Test Out of Quarantine  
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,  
Donna

**Subject:** question?

Hi Jen,

I have a question and need some clarification... If I have 2 COVID + cases in the same household and they are not isolating from each other (Mom and child/Mom and Dad), how long do they need to be in isolation? Is it 10 days from the onset of symptoms from the last person

to test positive??? And significant improvement in symptoms/fever free ect. Cathy Shea told me something else and I am not sure it's correct.... She said its 10 days isolation plus 14 days quarantine for 2 COVID + household contacts.

Thanks

**Subject:** RE: question?

2 positives cases would remain on the minimum of 10-days of isolation independent of one another – if both are already positive (in the same timeframe) there would be no need to isolate from each other.

Does that answer your question?

**Subject:** question?

Hi Jen,

I have a question and need some clarification... If I have 2 COVID + cases in the same household and they are not isolating from each other (Mom and child/Mom and Dad), how long do they need to be in isolation? Is it 10 days from the onset of symptoms from the last person to test positive??? And significant improvement in symptoms/fever free ect. Cathy Shea told me something else and I am not sure it's correct.... She said its 10 days isolation plus 14 days quarantine for 2 COVID + household contacts.

Thanks

**Subject:** Re: COVID-19 investigation chapter

Cathy, sorry for the delay. The disease investigation chapter I sent you defines what would be considered a school outbreak. How that OB is managed is a different question.

Right now, building closure is a consideration when 2 or more cases are identified within 14-days AND are occurring across multiple classrooms, AND a clear connection between the cases cannot be made - i.e., two different cohorts of students. If the cases are linked to an activity in school, we would need to have a conversation to gather more detail.

Hope this helps,  
Jen

**Attachments:** COVID\_test-result-iq-timetable\_Sept.pdf

Good morning, as per our conversation the New Jersey Department of Health (NJDOH) is following the Centers for Disease Control and Prevention's recommendation that the period of quarantine for a household contact of a person with COVID-19 does not begin until the case's isolation ends (<https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html>). Please also see the attached chart from the NJDOH. This time frame could be altered if the case is able to truly isolate, as defined by Public Health.

Best,  
Jen

Subject: Re: OCVPP January Meeting Notice

Good morning all! Just wanted to send a reminder that there is still time to respond to our OCVPP meeting on **January 27th at 3:15 PM**. As mentioned, our topic will be Human Trafficking Prevention and in addition to Dr. Susan Neigher from the NJ Coalition Against Human Trafficking, Keyla Munoz, a victim specialist from the FBI, will also be educating us on Human Trafficking. It will be a wonderful opportunity to learn more about preventing violence in our community. I hope you can join us-please email me to confirm or if you have any questions! See you there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Topic: OCVPP January Meeting

Time: Jan 27, 2021 03:00 PM Eastern Time (US and Canada)

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: OCVPP November Meeting

Good Afternoon All! It's time for our last OCVPP meeting of 2020! I thank you all for sticking with it thru these interesting times and remaining committed to preventing violence in our communities!

Please mark your calendar for our November OCVPP meeting on **Wednesday, November 18 at 3 PM!** Our speaker this month will be Ann Keever, Director of Health Education and Outreach Services at Family Planning Center of Ocean County. She will be providing a presentation about the services available at FPCOC and we will also be facilitating a discussion about reproductive control/coercion and birth control sabotage. We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by November 16th** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

May 2020 CCYC Calendar We Are Community final.pdf

Hello families and partners,

I hope you are doing well. I want to share with you our May calendar for Ocean County Council for Young Children virtual meeting dates. The topic of our meetings is "Impact of COVID19 on our families" we will have a Q & A time for parents to ask partners and other families how to overcome their current challenges. We will also have a meeting dedicated only to families with special needs children. Please share to all your staff, community partners and families. CCYC is a group where families and stakeholders can learn and support one another. In addition we have a School Readiness program for families in Lakewood. All details about our Zoom meetings and programs are in the flyer attached and below. I hope you can join us!

PS. Make sure you stop by our Facebook page and check all our updates and resources. <https://www.facebook.com/monmouthoceanccyc/>

May 6th at 4pm

Seaside Heights Subcommittee: "Impact of COVID19 on our families" a Q & A time for parents to ask partners and other families how to overcome their current challenges. We are in this together! Zoom link:

Good Afternoon,

My parents have not received the confirmation email for their appointments in February. Is there still a delay? Also, could I find out what time my mother's appointment is? Her Name is [REDACTED] and it's scheduled for Tuesday, February 9th but she doesn't remember the time.

Thank you

Thank you.

I appreciate the response.

Is there any update on when new vaccines should be in? Or do you have any advice for checking on the website for available appointments (e.g. available apts open at 8am on website).

Thanks!

Hi,

I was told by my supervisor that I am eligible for the vaccination because of the role I have in the district (Behavior Analyst).

I tried to schedule through the registration link I was given but it said it wasn't working.

Is there another way to schedule?

Thank you,

Hi! I was sent an email today regarding my second vaccine for COVID. I made the appointment and then I realized I made it too soon! I am supposed to go after February 13th and I scheduled it for January 28th. So I canceled it expecting to be able to reschedule and I am unable to do use the link that was sent to me. Is there a way I can please reschedule my second vaccine? I really appreciate your help, as I am looking forward to the second vaccination. Thank you so much!

Hi Perry,

Yes the last email was error. The first confirmation was not right it was saying 1st dose on the bottom. This is the correct confirmation registration form.

Thank you,
Kara Davila

Hi Perry,
It is the 15th not sure why it went to the 23rd and the bottom said first dose. This is the correct registration form.
Your daughter should be getting an email to register if she doesn't please email me back.
Thank you,
Kara

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,
Jen

**Subject:** COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer  
Jen Crawford Communicable Disease  
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools  
COVID Cannot Test Out of Quarantine  
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,  
Donna

Dear Health Department,

My wife and I both received the first dose of the COVID vaccine at the RWJBarnabas Arena on Thursday, January 7, as school employees with close contact with the nurse. We are unable to schedule an appointment for the second dose, as your website says only those in group 1A are eligible. How can we schedule the second dose?

Thank you for your help,

Josh Melson

**Subject:** RE: Covid 19 vaccine

Hello

At this time, we are in PHASE 1a which is for health care workers and first responders. Please continue to check our website at [www.ochd.org](http://www.ochd.org) for updates when we move to the next phase for vaccination. Here is some guidance from the state on phases: <https://covid19.nj.gov/faqs/nj-information/slowing-the-spread/where-can-i-get-vaccinated-if-im-a-healthcare-worker-staff-or-resident-of-a-long-term-care-facility-or-other-member-of-phase-1a-or-if-im-a-sworn-law-enforcement-personnel-and-fire-professional-in-phase-1b>

Thank you

**Subject:** Covid 19 vaccine

I recently tried to sign up for vaccine Nd said it was canceled. We have to go through you. I work directly with child  
Nd feel I should get vaccine ASAP. My daughter works in hospital and husband a cop. I am afraid to get this as everyone else is. Please consider me very soon for vacine.  
Denise

**Subject:** RE: Fans

Good Afternoon,

While there is not much reputable information circulating regarding regular fans and the spread of COVID-19, there is information surrounding air ventilation and HVAC systems that I can provide.

The CDC states: "Increase circulation of outdoor air as much as possible by opening windows and doors if possible, and using fans. Do not open windows and doors if doing so poses a safety or health risk for occupants, including children (e.g., a risk of falling or of breathing outdoor environmental contaminants such as carbon monoxide, molds, or pollens)." It also goes into much greater detail on their website at: <https://www.cdc.gov/coronavirus/2019-ncov/community/office-buildings.html>.

Remember, however, that COVID-19 is spread through respiratory droplets released when people talk, cough, or sneeze, so if a person does any of these in front of a fixated fan the air flow could spread the droplets around quickly.

If you have additional questions, please call our COVID helpline at 732 341 9700 x7411  
Thank you

**Subject:** Fans

Good morning. I was curious if a wall fan would help elevate the change of COVID, or make it worse. Would a wall fan blowing contaminated air around help or harm? Thanks!

**Subject:** Covid 19 vaccine appointment confirmation

Good Afternoon,

My parents have not received the confirmation email for their appointments in February. Is there still a delay? Also, could I find out what time my mother's appointment is? Her Name is [REDACTED] and it's scheduled for Tuesday, February 9th but she doesn't remember the time.

Thank you

## Upcoming Events

### Identifying Depression and Treatment Options During Covid-19

#### Online Event

- Monday, January 25th 10:30am – 11:30am
- Monday, February 8th 10:30 – 11:30am
- Saturday, March 20th 10am – 11am
- Saturday, April 10th 10am – 11am

#### **Registration Required**

#### **Details:**

As a community behavioral health leader, **OceanMHS** is offering a one-hour session on how to recognize depression and access help when and if it is needed. The effects of the COVID-19 pandemic are so individualized, and so many community residents may find themselves or a loved one struggling.

Please join us to learn the signs and symptoms of depression, and how to seek help if needed. This education session is offered at ***no cost*** to attendees thanks to a grant Ocean Mental Health Services received from ***Investors Bank Foundation***.

**Looking at Mental Health Through the Lens of Stigma and Race:  
*Implications for Assessment, Diagnosis,  
Treatment, and Service Delivery***

**Presented by:** Dr. Tawanda L. Hubbard, LCSW

**Date:** March 16, 2021

**Location:** Zoom

**Time:** 8:30 a.m. – 4:30 p.m.

**Pricing:** *Registration Closes on March 12th*

\$89 by March 1, 2021

\$99 after March 1, 2021

*Approved for 6 Clinical & Social Cultural Competence CE credits  
Approval #: 201611-1206*

## ***Registration Required***

### **Description:**

Historically in our country as well as other parts of the world, persons with mental illness have been stigmatized, treated as inferior, and some forced to endure deplorable conditions and treatments. Today, advances have been made in research and practice that has improved treatment and service delivery to persons with mental problems and mental illness, but they still must contend with the stigma that goes along with having a mental disorder. To complicate matters for persons of color with mental health problems and mental illness, they not only have to deal with the struggles of their condition, encounter stigma, but also contend with discrimination. In this workshop, participants will discuss disparities persons of color with mental illness encounter in mental health programs and society-at-large. Look at the history of how persons with mental illness have been seen and shamed; discuss how that view still lives today within the mental health system; prevalence of discrimination in mental health towards persons of color; and identify the role of service providers and agencies in fighting health inequalities and discrimination apart of ensuring quality care. Participants will become familiar and identify how they can operationalize key concepts, such as, social determinants of health, macroaggressions and microaggressions, difference, privilege and power, anti-oppression approach, cultural formulation, social location, etc. All instrumental in understanding and removing stigma and fighting discrimination within the mental health system across the treatment continuum of care working with persons of color.

**Subject:** Rapid Antigen Tests

Good Afternoon!

I just wanted to bring this to everyone's attention.

**ALL Rapid Antigen Positive COVID-19 test results do warrant public health investigation regardless of symptoms because they are all Probable cases.**

On the bottom of pg 5 of the new COVID-19 Disease Chapter, it states that *NJDOH is using the August CSTE case definition to classify all 2020 antigen-positive cases as PROBABLE.*

Please see the below link for the August 2020 CSTE COVID-19 Case Definition.

<https://wwwn.cdc.gov/nndss/conditions/coronavirus-disease-2019-covid-19/case-definition/2020/08/05/>

I apologize for any confusion regarding this but we were just discussing this in my office so I just wanted to bring it to your attention.

***Also, NJDOH has advised that they no longer differentiate between health care workers and the general public regarding needing to re-isolate when re-testing positive in the 3 months after the initial positive test result in the absence of symptoms. So if a health care worker re-tests positive within that 3 month timeframe and remains asymptomatic, they do not need to re-isolate.***

Please let me know

Good Afternoon, team! It is worth bringing to your attention that the NJDOH is now using the August 2020 CSTE case [definition](#) to classify **ALL** 2020 antigen-positive cases as PROBABLE. You can find this language on the bottom of page 5 in the new chapter. This is a change from past practice meaning -

**ALL Rapid Antigen Positive COVID-19 test results do warrant public health investigation regardless of symptoms because they are all Probable cases.**

Any questions, please feel free to reach out,  
Jen

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

School Nurse

Cathy, I spoke with Jen in regards to your question about the Rapid Covid test sites. See her response.

We do not have a list of sites broken down by what type of test is being performed. My suggestion is to provide <https://covid19.nj.gov/pages/testing> and let Cathy decide how best to utilize this resource.

Hope that helps.

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

New Jersey Department of Health Releases COVID-19 Recommendations for Schools

The New Jersey Department of Health (NJDOH) today released COVID-19 Public Health Recommendations for Local Health Departments for schools.

"The Department of Health in collaboration with the Department of Education, has developed guidance to help local health departments assist schools in providing a safe environment for students and staff," said Health Commissioner Judith Persichilli. "Understanding that COVID-19 may impact certain areas of the state differently, the Department will provide data by 6 regions of the state to inform local decisions."

Regions:

- Northwest: Morris, Passaic, Sussex, Warren
- Northeast: Bergen, Essex, Hudson
- Central West: Hunterdon, Mercer, Somerset
- Central East: Middlesex, Monmouth, Ocean, Union
- Southwest: Burlington, Camden, Gloucester, Salem
- Southeast: Atlantic, Cape May, Cumberland

Every week, beginning this week, NJDOH will be providing information on COVID-19 transmission at the regional level, characterizing risk as low (green), moderate (yellow), high (orange), and very high (red). This information will be posted online on the Department's [website](#). Where a region falls in the color-coding categories is based on three criteria: number of cases in past week, percent positivity past week and syndromic surveillance in the past week.

When regions are in the very high-risk category (red), it is recommended that they implement fully remote learning.

Schools in other risk levels should consult with their local health departments as they work to:

- Implement protocols requiring staff and students to stay home when sick or if they have been in close contact with someone with COVID-19 in the past 14 days. School administrators should be notified of illness.
- Develop a policy for daily symptom screening for students and staff; have plans for students and staff to report symptoms that develop during the day
- Identify rapid testing resources when staff and students develop COVID-19 symptoms.

Schools should:

- Clean and disinfect frequently touched surfaces at least daily
- Ensure adequate hand hygiene supplies are available
- Implement physical distancing measures such as reducing occupancy, installation of partitions and physical barriers, and cancelling large gatherings
- Implement source control through wearing face covering

Regional risk levels are just one tool that local health departments (LHDs) and schools can use when assessing COVID-19 risk. Local health departments have additional knowledge of COVID-19 in their jurisdictions that can inform local planning and response actions.

Local health departments should maintain close communication with school officials in their community to provide information and share resources on COVID-19 transmission, prevention, and control measures and to establish procedures for LHD notification and response to COVID-19 illness in school settings. LHDs should identify a designated point of contact within each school that will be responsible for coordinating COVID-19 response with local public health authorities.

The recommendations released today also provide information about length of school exclusion, the role of testing and steps to take to respond to suspected and known positive students in schools and outbreaks identified in schools.

Subject: Re: FW: School Nurse Moderna COVID-19 Vaccine

Does anyone know if we have to adhere to second vaccine at 28 days? I scheduled my second one a little later than that due to scheduling on OCHD choices. (34 days apart).

Thank you.

Hello

Please see attached and the email from Donna below.

Thank you

Mary

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website ochd.org

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

Subject: School Nurse Question

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

Attachments: Public Health- Education 6-25-20 meeting summary.pdf

I'm sorry, the attachment is now included.

Thank you all for taking time out of your busy schedules to attend the first COVID-19 Summer Advisory Committee meeting. We have attached the minutes from the meeting, along with a brief recap.

Over the past couple of weeks, we have had a lot of interest coming in to have additional meetings for our nurses to discuss what their new "normal" will look like. We are happy to announce that our first Nurses Sub-Committee meeting will be held on Thursday, July 9th at 9 AM- 10 AM. We will do this virtually via GotoMeeting. A link will be sent out when the day gets closer so that everyone who wants to attend can have access to it. Please bring any questions you may have as well as any suggestions on how we can all safely return to school. All questions and thoughts are welcome! We believe that working together and using each other as resources will help us all in the long run.

Thank you **Danielle Padovani**

Subject: FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school
Attachments: NJ_AAP_School_testing.108383.pdf

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you
Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or

they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Subject: FW: School Nurse Moderna COVID-19 Vaccine
Attachments: 1A.pdf

Hello
Please see attached and the email from Donna below.
Thank you
Mary

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website ochd.org

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.
Be well and be safe,
Donna

Subject: RE: Feedback

Good morning, Dr. McCabe. My apologies as I was led to believe Donna Rauch replied to you on Friday.

You are correct in your understanding. It remains you cannot test out of quarantine if identified as a close contact to a **positive case**.

As a result of our region's COVID-19 activity level being classified as "High" according to the most recent NJDOH surveillance report, contact tracing and exclusion should also be done for individuals with COVID-19 compatible symptoms. This is summarized in the "High Risk" column on page 13 of the NJDOH's K-12 guidance document. Prior to "High Risk" status, this was only done for known positives. If the individual with clinically compatible illness goes on to test negative (viral test, not rapid), the excluded close contacts would no longer be considered as such and could resume normal activity.

Hope this helps,
Jen

**Subject:** FW: NJDOH COVID-19 Weekly Activity Report for week ending 11/14

Please review the latest information.

Good afternoon, hope this email finds you and your family well. Please be advised the most recent COVID-19 Activity Level Report (week ending 11/14/2020) has our region now going into the "High" activity level. You can review the report here - [https://www.nj.gov/health/cd/documents/topics/NCOV/COVID\\_19\\_Report\\_Week\\_46.pdf](https://www.nj.gov/health/cd/documents/topics/NCOV/COVID_19_Report_Week_46.pdf).

Please note this changes Public Health guidance for schools moving forward in terms of overall considerations on page 3 and how to handle close contacts outlined on page 13 of the New Jersey Department of Health's guidance document, available here - [https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts\\_K12Schools.pdf](https://www.state.nj.us/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf).

The Ocean County Health Department remains committed and available to you during this time, please reach out if you have any questions or concerns.

We look forward to our continued partnership.

Thank you  
Mary

**Subject:** FW: Rapid Covid test locations in Ocean County for our staff .

Cathy, I spoke with Jen in regards to your question about the Rapid Covid test sites. See her response.

We do not have a list of sites broken down by what type of test is being performed. My suggestion is to provide <https://covid19.nj.gov/pages/testing> and let Cathy decide how best to utilize this resource.

Hope that helps.

**Subject:** RE: School COVID Line List Template

Hello,

It would appear that this line list is something provided to the health departments for tracking purposes. School nurses are not at this time doing rapid testing and so they would often not have knowledge of test results and tracking all this information for every child who presents to the school nurse with URI symptoms would be burdensome.

I would like to suggest we pare this down to something more manageable for school nurses if they do testing and also for the many places doing rapid testing. I believe that Quest and LabCorp do get positive PCR information to you. I would suggest name, DOB, address and contact number, type of test {antigen/ saliva} date of onset of symptoms, date of test and, if asymptomatic with a positive rapid, whether a PCR test was sent for confirmation

Maybe we can discuss this Monday morning ??

Have a good weekend

Mary Ann McCabe

**Subject:** FW: School COVID Line List Template

**Importance:** High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Hello Mary , This is alot of information to gather. We really do not get the information such as the symptoms, labs , infection control. Is this form to be sent to you weekly? Or do we keep this at each school in the nurses office? How much information would you be expecting? Please let me know what you would like us to do .

Cathy, does this work like Google Docs, where it automatically updates? Or how do we save the entries? And is it protected from other people seeing it?

Is this something that we print out and write in pencil, or are we supposed to save it as an on-going electronic record?

Good Afternoon

As Ocean County has now transitioned to the red zone I would like to get the OCHD opinion on what transmission criteria would require full remote learning. I do not believe we have had significant in school transmission although we do have a number of staff out on isolation or quarantine. If there is to be a decision to go all remote I would like to make sure it is planned out and families and staff given adequate notice.

Thank You

Mary Ann McCabe, MD

**Subject:** Re: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

Good Morning

In December we instituted a policy of having siblings of students with COVID compatible symptoms also quarantine at least until the ill student tested negative, had a documented alternative diagnosis like strep or flu, or allowing them back if asymptomatic after the ill child was out for 10 days. I imagine that would still be the preferred policy and would help encourage parents to get their child tested particularly when rapid tests are also being accepted.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

I agree with this as household contacts is a primary infection/exposure source.

Good Morning

In December we instituted a policy of having siblings of students with COVID compatible symptoms also quarantine at least until the ill student tested negative, had a documented alternative diagnosis like strep or flu, or allowing them back if asymptomatic after the ill child was out for 10 days. I imagine that would still be the preferred policy and would help encourage parents to get their child tested particularly when rapid tests are also being accepted.

Thank you Mary for sending this out. I know I spoke with some of you or your school reps yesterday regarding this. Please know we received this first from Will Smith and his distribution. We later received this "officially" from the NJ DOH at 6:04pm last night even though its dated 1/1/21/.

Happy new year all and thank you for everything you are doing for the children of Ocean Co.

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

**Subject:** Re: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

Good Morning

In December we instituted a policy of having siblings of students with COVID compatible symptoms also quarantine at least until the ill student tested negative, had a documented alternative diagnosis like strep or flu, or allowing them back if asymptomatic after the ill child was out for 10 days. I imagine that would still be the preferred policy and would help encourage parents to get their child tested particularly when rapid tests are also being accepted.

**Subject:** FW: Public Health Info: Testing of ill children suspected of having COVID-19 prior to return to school

The attached letter from the State was just received to the Ocean County Health Department yesterday from Will Smith in regards testing children before returning to school.

Thank you

Mary

Please see the attached letter from the New Jersey Department of Health (NJDOH) Communicable Disease Service, disseminated through the New Jersey Chapter of the American Academy of Pediatrics, outlining the recent modified recommendation for return to school for children with COVID-19 compatible symptoms outlined in the NJDOH COVID-19 Public Health Recommendations for Local Health Departments for K-12 Schools.

The NJDOH recommends that any child with COVID-19 compatible symptoms should not return to school until they have either received a negative viral test (molecular or antigen) for SARS-CoV-2 or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.

Hello

Thank you again for allowing me to come in yesterday I noted that when I attempted to make appt for the second dose the next available was the week of the 22 of Feb which would be very close to the 50 day mark In addition I will be traveling on the 14th of Feb and would like to have full documentation for that trip So I will come in on the 1st or 8th of Feb as I did yesterday if that is OK with you.

You will likely get questions from people unable to get their second vaccine appt within the 50 day time frame.

**Subject:** COVID vaccine school nurses are 1A and qualify NOW  
**Importance:** High

Good evening school nurses,  
I hope all is well with everyone. I just wanted to send a reminder to all school nurses that you **currently qualify for phase 1A COVID vaccination**. If you want to be vaccinated next week, please let us know. Please also spread the word.

You can respond to this email to me but please also copy my assistant Mary Kaminski at [mkaminski@ochd.org](mailto:mkaminski@ochd.org). We are currently offering the Moderna vaccine at Toms River HS North Arena.

Stay well, happy new year.  
Dan

**Subject:** RE: COVID School Nurse Email from OCHD

Good evening, everyone. Thank you for your continued partnership and all you are doing! I would just like to clarify that if you are calling **after business hours** (M-F, 8am-4:30pm) or on a weekend/holiday you can dial 732-341-9700 but when you begin to hear our recorded message you should **press zero** and our answering service will pick up. If you dial extension 7515 (main extension for the Communicable Disease Unit) you will go into voicemail.

Please feel free to bypass entirely using the cell numbers provided below. We are available whenever you need to reach us.

Best regards,  
Jen

Subject: COVID School Nurse Email from OCHD

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools
COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

Subject: School Subcommittee meeting / Mental Health Resources

Good Day,

Thank you for your participation in today's COVID School Subcommittee meeting. I believe that it was a productive and insightful meeting and truly appreciate everyone's contribution. Tracy Maksel, PhD, Director Ocean County Department of Human Services was with us on the GoTo meeting, however we were having connection issues. Below is information available from DHS for mental health services.

DEPARTMENT OF HUMAN SERVICES

Children's Inter Agency Coordinating Council

The Ocean County C.I.A.C.C. serves as a mechanism to...

advise the County Mental Health Board and the NJ Department of Children and Families in planning for mental health services for children;

provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional and behavioral challenges identify and address barriers to effective service delivery; and seek solutions for the County and make appropriate recommendations on programs and policies that impact children and families.

Subject: RE: FW: School Nurse Moderna COVID-19 Vaccine

Good Day,

The 2nd dose of the Moderna vaccine is to be given > 28 days after the 1st.
The second dose can be given up to 50 days post 1st dose, **however that is not ideal**.
So as close to the 28 day mark that it can be given is acceptable.

Learn from yesterday, live for today and hope for tomorrow !
Happy 2021 to all !!
Donna

On Wed, Dec 30, 2020 at 9:50 PM Ensor, Deirdre <ensor@mtschoools.org> wrote:

The second vaccine must be at LEAST 28 days from the first dose for the Moderna vaccine.

Due to scheduling, it is going to >28 days.

The OCHD is doing an excellent job, and the operation runs very smoothly!

I got my vaccine, and my second one is 37 days after.

I wanted it on a Saturday, so I could rest on Sunday before going to work Monday in the event of any side effects.

On Wed, Dec 30, 2020 at 9:25 PM Nancy Arias <narias@trschoools.com> wrote:

I was told no sooner than 28 days so that is fine.....mine are 34 days apart.

On Wed, Dec 30, 2020, 9:17 PM Brink, Bonnie <bbrink@brickschools.org> wrote:

Does anyone know if we have to adhere to second vaccine at 28 days? I scheduled my second one alittle later than that due to scheduling on OCHD choices. (34 days apart).

Thank you.

Hello

Please see attached and the email from Donna below.

Thank you

Mary

Good Day School Nurses of Ocean County,

We hope this winter break restful for you. Ocean County Health Department is providing the Moderna COVID-19 vaccine starting this week.

Licensed school nurses working in the K-12 clinical setting are eligible for the COVID-19 Vaccine under Tier 1A.

OCHD is conducting vaccination clinics at Toms River North High School RWJ Arena.

You can register for your vaccine at our website ochd.org

Click on the Red Box to book and appointment.

Complete the form and bring that with you to our appointment.

Information regarding the vaccine can also be obtained from our website.

Hope this is helpful.

Be well and be safe,

Donna

Subject: School Nurse Question

Hi Donna,

I hope all is well.

I'm wondering where school nurses can go to get the vaccine. Will the OCHD be distributing them to us?

Thank you for the information.

Subject: RE: School COVID Line List Template

Good Day,

I just wanted to clarify regarding the Line List that I sent this week. This is the Line List posted on the NJDOH COVID-19 School website @ https://www.nj.gov/health/cd/topics/covid2019_schools.shtml

The purpose in sharing this document (dated 9/2/2020) is to make everyone aware of its existence in the event that your school has an outbreak. This is a standard in public communicable disease reporting for any infectious disease outbreak. The local health departments will add much of the information required through further investigation. With that being said, it is very important to keep accurate and cumulative data in your schools. Certainly use what works best for your districts/schools. Perhaps you may want to have a secure shared document between your COVID Team (ie: nurse/principal). If a Line List is needed, we will send you a [secure] encrypted email that you can return with the attached line list or other confidential information.

I hope this is helpful going forward. Thank you for your ongoing hard and dedication.

Regards,
Donna

Subject: FW: School COVID Line List Template

Importance: High

Good Day,

Hope you are all doing well.

Attached is the **NJDOH Line List**.

This will be utilized to report and track new and ongoing cases to the LHD and NJDOH in the event of an outbreak in your school.

This Line List should remain **cumulative**.

Also, in the COMMENTS section please include **ADDRESS/PHONE NUMBER**, any other information such as **CLOSE CONTACTS/ KNOWN EPIDEMIOLOGICAL LINK/Date & Place of Test**.

Thank you,

Donna

Subject: RE: School COVID Line List Template

Good Day,

Yes, this is the Line List posted on the NJDOH COVID-19 School website
@ https://www.nj.gov/health/cd/topics/covid2019_schools.shtml

The purpose in sharing this document (dated 9/2/2020) is to make everyone aware of its existence in the event that your school has an outbreak. This is a standard in public communicable disease reporting for any infectious disease outbreak. The local health departments will add much of the information required through further investigation. With that being said, it is very important to keep accurate and cumulative data in your schools. Certainly use what works best for your districts/schools. Perhaps you may want to have a secure shared document between your COVID Team. If a Line List is needed, we will send you [secure] encrypted email that you can return with the attached line list or other information.

I hope this is helpful going forward. Thank you for all of your hard and dedication.

Regards,
Donna

Subject: RE: School COVID Line List Template

Hello,

It would appear that this line list is something provided to the health departments for tracking purposes. School nurses are not at this time doing rapid testing and so they would often not have knowledge of test results and tracking all this information for every child who presents to the school nurse with URI symptoms would be burdensome.

I would like to suggest we pare this down to something more manageable for school nurses if they do testing and also for the many places doing rapid testing. I believe that Quest and LabCorp do get positive PCR information to you. I would suggest name, DOB, address and contact number, type of test {antigen/ saliva} date of onset of symptoms, date of test and, if asymptomatic with a positive rapid, whether a PCR test was sent for confirmation

Maybe we can discuss this Monday morning ??

Have a good weekend

Mary Ann McCabe

Hello Mary , This is alot of information to gather. We really do not get the information such as the symptoms, labs , infection control. Is this form to be sent to you weekly? Or do we keep this at each school in the nurses office? How much information would you be expecting? Please let me know what you would like us to do .

Good Day,

Glad to connect with the school nurse group today. Once again we apologize for the technical delay. We will look to reconvene in a month and will send out another Survey Monkey for date, time and questions.

Here are the afterhours contact phone numbers for Ocean County Health Department:

Main number: 732-341-9700 ext. 7515

Dan Regenye Health Officer
Jen Crawford Communicable Disease
Richa Sharma Communicable Disease

Also, attached is the NJDOH General Guidelines for Outbreaks in Schools

COVID Cannot Test Out of Quarantine
Communicable Disease Reporting Requirements

Hope these are helpful resources for you. As always please call for any questions or concerns. Thank you for all of your hard work and dedication during this unprecedented time.

Be well and Be Safe,
Donna

Subject: FW: School Nurse COVID-19 Information Email and School Nurse meeting

Hello,

See below for the information for the Nurse's meeting on Oct 13th at 330. Anyone that would like to join the meeting can and also the CDC's form is attached for guidance.

We hope that you are slowly but surely settling into the unprecedented routine of COVID-19 management in your schools.

Attached you will find the CDCs Form "Waiting for test Results". We have begun giving this form out at the OCHD OCC Testing site in the hopes of making clear the recommendations for self-isolation and quarantine.

FYI

NJSIAA website is now back

up: <https://www.njsiaa.org/> <https://www.njsiaa.org/sites/default/files/document/COVID-19%20Protocols.pdf>

NJSIAA COVID-19 Protocols

Return to Play:

Due to the increased risk of myocarditis, any student-athlete who tests positive for COVID-19 must be cleared by either a Doctor of Osteopathic Medicine (DO) or a Doctor of Medicine (MD). Final clearance must come from the school's district physician for those schools that have one. Clearance must be sent in writing to the school nurse.

Be safe and Be well,
OCHD COVID School Nurse Team

School Nurse

Tue, Oct 13, 2020 3:30 PM - 4:30 PM (EDT)

Please join my meeting from your computer, tablet or smartphone.

May 2020 CCYC Calendar We Are Community final.pdf

Hello families and partners,

I hope you are doing well. I want to share with you our May calendar for Ocean County Council for Young Children virtual meeting dates. The topic of our meetings is "Impact of COVID19 on our families" we will have a Q & A time for parents to ask partners and other families how to overcome their current challenges. We will also have a meeting dedicated only to families with special needs children. Please share to all your staff, community partners and families. CCYC is a group where families and stakeholders can learn and support one another. In addition we have a School Readiness program for families in Lakewood. All details about our Zoom meetings and programs are in the flyer attached and below. I hope you can join us!

PS. Make sure you stop by our Facebook page and check all our updates and resources. <https://www.facebook.com/monmouthoceanccyc/>

Subject: CDC guidelines
Attachments: 10Things.pdf

COVID-19 CDC Guidelines:

***Considerations for who should get tested**

- People who have symptoms of COVID-19.
- People who have had [close contact](#) (within 6 feet for a total of 15 minutes or more) with someone with confirmed COVID-19.

Watch for symptoms:

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms may have COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

This list does not include all possible symptoms. CDC will continue to update this list as we learn more about COVID-19.

Steps to take if exposed to COVID-19 during a holiday gathering

If you are exposed to COVID-19 at a holiday gathering, while traveling, or at any time, quarantine yourself to protect others by doing the following:

- [Stay home for 14 days](#) after your last contact with a person who has COVID-19.
- Stay away from others, especially people who are at [increased risk for severe illness from COVID-19](#).

- Watch for fever (100.4°F or higher), cough, shortness of breath, or [other symptoms](#) of COVID-19.
- Consider getting [tested](#) for COVID-19. Even if you test negative for COVID-19 or feel healthy, you should still stay home (quarantine) for 14 days after your last contact with a person who has COVID-19. This is because symptoms may appear 2 to 14 days after exposure to the virus, and some infected people never have symptoms but are still contagious.
- Do not travel until 14 days after your last possible exposure.

If you can't completely stay away from others during the 14 days:

- Stay at [least 6 feet](#) (about 2 arm lengths) away from other people.
- Wear a [mask](#) that covers both the mouth and nose when you are around other people or animals, including pets (even at home).
- [Wash your hands](#) often with soap and water for at least 20 seconds or use [hand sanitizer](#) that contains at least 60% alcohol.
- Monitor yourself and household members for [symptoms of COVID-19](#).
- [Get information](#) about COVID-19 testing if you feel sick.

If you develop [symptoms consistent with COVID-19](#) *within 14 days of the event or celebration*, such as fever, cough, or shortness of breath, or if you [test positive for COVID-19](#), immediately notify the host and others who attended. They may need to inform other attendees about their possible exposure to the virus. Contact your healthcare provider and follow the CDC-recommended steps for [what to do if you become sick](#), and follow the [public health recommendations for community-related exposure](#).

If you have been diagnosed with COVID-19, a [public health worker may contact you](#) to check on your health and ask you who you have been in contact with and where you've spent time in order to identify and provide support to people (contacts) who may have been infected. Your information will be confidential. Learn more about [what to expect with contact tracing.pdf icon](#)

Why practice social distancing?

COVID-19 spreads mainly among people who are in close contact (within about 6 feet) for a prolonged period. Spread happens when an infected person coughs, sneezes, or talks, and droplets from their mouth or nose are launched into the air and land in the mouths or noses of people nearby. The droplets can also be inhaled into the lungs. Recent studies indicate that people who are infected but do not have symptoms likely also play a role in the spread of COVID-19. Since people can spread the virus before they know they are sick, it is important to stay at least 6 feet away from others when possible, even if you—or they—do not have any symptoms. Social distancing is especially important for [people who are at higher risk](#) for severe illness from COVID-19.

If you are sick with COVID-19, have [symptoms consistent with COVID-19](#), or have been in close contact with someone who has COVID-19, it is important to stay home and away from other people [until it is safe to be around others](#).

COVID-19 can live for hours or days on a surface, depending on factors such as sunlight, humidity, and the type of surface. It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or eyes. However, this is not thought to be the main way the virus spreads. Social distancing helps limit opportunities to come in contact with contaminated surfaces and infected people outside the home.

Although the risk of severe illness may be different for everyone, anyone can get and spread COVID-19. Everyone has a role to play in slowing the spread and protecting themselves, their family, and their community. In addition to practicing [everyday steps to prevent COVID-19](#), keeping space between you and others is one of the best tools we have to avoid being exposed to this virus and slowing its spread in communities.

Good afternoon all, As promised last evening, below is a unique link specific for schools who meet the 1A criteria specified below and in yesterdays email. **At this time I ask you to screen your staff who meet this criteria and pass it along to those individuals ONLY who you have determined to meet the criteria.** The available appointments start this coming Thursday and go through next week. All vaccinations will be administered at Toms River High School North.

<https://ochd.info/vaccinations/registration/registration-form.html?hash=7937436e63766b4258493165784d5832724350334e7a30384b35764177714c33376964704b6c66475769453d>

Good evening all,
The Ocean County Health Department has been hard at work trying to role out the COVID vaccine and accommodate all 1A individuals which we are still in. The Governor did expand phase 1A to include Police and Fire but others have not been included for vaccination at this point.

In an effort to vaccinate 1A school personnel, the health department has transitioned to a new scheduling appointment system. Tomorrow, I will be sending you all a "unique" link for you to pass along JUST TO staff that meet the criteria below.

- 1) School nurse and nursing assistants that assist the nurse in their daily role of nursing office duties.
- 2) School staff that have healthcare provider roles such as ST, PT, OT etc.

My ask for each of you is to prescreen and identify staff that meet this criteria and then forward this registration link which you will receive tomorrow to those individuals. This link will allow your staff to make appointments for COVID vaccination starting this Thursday, January 14, 2021. If you have any questions, please feel free to reach out to me.

Best regards and thank you all for everything.
Dan

Thank you Will,
Unfortunately the process and criteria we were trying to put in place is not being followed and is being abused so for right now, we need to stop.
Please do not send anyone from your school other than your school nurse at this time.

Subject: Vaccine--Please Read

Good afternoon,
I just got off the phone with Dan, and he asked that I reiterate the message sent previously that the vaccine opportunity right now is **ONLY for 1A individuals, which includes school nurses ONLY**. Apparently, dozens of teaching staff members are showing up to the clinic without appointments and overrunning the clinic with unauthorized requests.

Dan is our partner in getting to the finish line on this. I promised to send out a cease and desist immediately. Please help let OCHD best help us by ensuring the message to our staff members is clear--**the vaccine is not yet available to school staff members**.

Thank you,
Will

Subject: [External] Message from NJAS Board

Dear NJAS Members and Friends,

Happy New Year's! I hope all is well with you.

I just received information that Phase 2 COVID-19 vaccine registration in NJ just opened tonight. This means that staff, educators and administrators in K-12 education and higher education levels (University level) can register beginning tonight to reserve their spot for the COVID-19 vaccine.

Link to site: <https://covidvaccine.nj.gov>

This is a difficult time for all of us, but you're not alone: we're just as committed to helping you and to engage, inform and communicate to our members about current scientific highlights and news.

If you have any questions, please feel free to reach out.

Sincerely,

Maria Agapito, PhD

NJAS President

Subject: COVID vaccine school nurses are 1A and qualify NOW
Importance: High

Good evening school nurses,
I hope all is well with everyone. I just wanted to send a reminder to all school nurses that you **currently qualify for phase 1A COVID vaccination**. If you want to be vaccinated next week, please let us know. Please also spread the word.

You can respond to this email to me but please also copy my assistant Mary Kaminski at mkaminski@ochd.org. We are currently offering the Moderna vaccine at Toms River HS North Arena.

Stay well, happy new year.

Subject: Fwd: NJNG-TR CAP Meeting
Location: <https://zoom.us/j/2458136397?pwd=V3ZURkMxRnhDVk43SFEybGZsRktFZz09>
Start: Mon 1/25/2021 12:00 PM
End: Mon 1/25/2021 1:00 PM
Show Time As: Tentative
Recurrence: (none)
Organizer: Clark Maura

The next meeting of the NJNG-TR CAP will be held on Monday, January 25th. Due to the COVID-19 virus, this will be a Zoom meeting which will begin promptly at noon. However, please plan on joining the call by 11:45 am to ensure a quorum. Please note the instructions to join the meeting below.

This is our Annual Public Meeting. Election of Officers will be held at this time. Our former Vice Chairman Rick Pallamary has retired and is no longer a CAP member. If you are interested in serving as either Chairman or Vice Chairman, please let me know ASAP.

Also, please advise of your attendance as we will need a quorum to conduct business. Meeting materials will follow shortly.

Thank you.

Subject: Re: OCVPP January Meeting Notice

Good morning all! Just wanted to send a reminder that there is still time to respond to our OCVPP meeting on **January 27th at 3:15 PM**. As mentioned, our topic will be Human Trafficking Prevention and in addition to Dr. Susan Neigher from the NJ Coalition Against Human Trafficking, Keyla Munoz, a victim specialist from the FBI, will also be educating us on Human Trafficking. It will be a wonderful opportunity to learn more about preventing violence in our community. I hope you can join us-please email me to confirm or if you have any questions! See you there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Subject: RE: Vaccine--Please Read

Good evening all,

The Ocean County Health Department has been hard at work trying to roll out the COVID vaccine and accommodate all 1A individuals which we are still in. The Governor did expand phase 1A to include Police and Fire but others have not been included for vaccination at this point.

In an effort to vaccinate 1A school personnel, the health department has transitioned to a new scheduling appointment system. Tomorrow, I will be sending you all a "unique" link for you to pass along JUST TO staff that meet the criteria below.

- 1) School nurse and nursing assistants that assist the nurse in their daily role of nursing office duties.
- 2) School staff that have healthcare provider roles such as ST, PT, OT etc.

My ask for each of you is to prescreen and identify staff that meet this criteria and then forward this registration link which you will receive tomorrow to those individuals. This link will allow your staff to make appointments for COVID vaccination starting this Thursday, January 14, 2021. If you have any questions, please feel free to reach out to me.

Best regards and thank you all for everything.
Dan

Thank you Will,
Unfortunately the process and criteria we were trying to put in place is not being followed and is being abused so for right now, we need to stop.
Please do not send anyone from your school other than your school nurse at this time.

Subject: Vaccine--Please Read

Good afternoon,

I just got off the phone with Dan, and he asked that I reiterate the message sent previously that the vaccine opportunity right now is **ONLY for 1A individuals, which includes school nurses ONLY**. Apparently, dozens of teaching staff members are showing up to the clinic without appointments and overrunning the clinic with unauthorized requests.

Dan is our partner in getting to the finish line on this. I promised to send out a cease and desist immediately. Please help let OCHD best help us by ensuring the message to our staff members is clear--**the vaccine is not yet available to school staff members**.

Thank you,
Will

Subject: OCVPP January Meeting Notice

Hello all and Happy New Year! 2021 brings us into a new year and new opportunities to prevent violence in our community!

Please mark your calendar for our January OCVPP Meeting, which will be held on **January 27th at 3:15 PM!** In honor of Human Trafficking Awareness Month (January), the speaker for this meeting will be Dr. Susan Neigher from the New Jersey Coalition Against Human Trafficking. Dr. Neigher will provide us with information about human trafficking and how we, as members of the violence prevention community, can help prevent and assess for the presence of human trafficking.

We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by 1/25/21** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

Hello all!

Please see attached meeting minutes for November's meeting-a huge THANK YOU to Ann Keever from Family Planning Center of Ocean County for educating us on the services available thru the center! I am attaching the information brochure about the center for your review.

I am also attaching the Season Stress Support Group thru St Francis Counseling Service that was discussed at the meeting-if you have any clients in need, please feel free to refer!

The next meeting will be in January-I will put out an exact date as soon as I get a clearer idea what January is going to look like within our agency. Please continue to take care of yourselves and each other and I hope you all have a peaceful and safe holiday season. As always, please feel free to contact me with any questions or concerns.

See you in 2021!

If you are receiving this email outside of your typical working hours, I hope you feel no pressure to read or respond until your schedule and workload permit.

Subject: OCVPP November Meeting

Good Afternoon All! It's time for our last OCVPP meeting of 2020! I thank you all for sticking with it thru these interesting times and remaining committed to preventing violence in our communities!

Please mark your calendar for our November OCVPP meeting on **Wednesday, November 18 at 3 PM!** Our speaker this month will be Ann Keever, Director of Health Education and Outreach Services at Family Planning Center of Ocean County. She will be providing a presentation about the services available at FPCOC and we will also be facilitating a discussion about reproductive control/coercion and birth control sabotage. We will also catch up on updates from any programs that would like to share, so please let me know if you would like to update about your program so I can add you to the agenda!

The zoom link is below, but please **RSVP by November 16th** if you or someone in your agency (or both!) would like to attend. Also, please feel free to invite a friend or two! Can't wait to "see" you all there!

Danielle Dunne is inviting you to a scheduled Zoom meeting.

May 2020 CCYC Calendar We Are Community final.pdf

Hello families and partners,

I hope you are doing well. I want to share with you our May calendar for Ocean County Council for Young Children virtual meeting dates. The topic of our meetings is "Impact of COVID19 on our families" we will have a Q & A time for parents to ask partners and other families how to overcome their current challenges. We will also have a meeting dedicated only to families with special needs children. Please share to all your staff, community partners and families. CCYC is a group where families and stakeholders can learn and support one another. In addition we have a School Readiness program for families in Lakewood. All details about our Zoom meetings and programs are in the flyer attached and below. I hope you can join us!

PS. Make sure you stop by our Facebook page and check all our updates and resources. <https://www.facebook.com/monmouthoceanccyc/>

May 6th at 4pm

Seaside Heights Subcommittee: "Impact of COVID19 on our families" a Q & A time for parents to ask partners and other families how to overcome their current challenges. We are in this together! Zoom link:

Contact Info: Jennifer M. Smith, Vaccine Preventable Disease
Phone: 609-826-4860; Email: js24@njlincs.net

Attachments: None

The New Jersey Department of Health (NJDOH) has received inquiries regarding the status of the immunization of pupils in school regulations (N.J.A.C. 8:57-4). The value of immunizations is even more evident during this pandemic: therefore, NJDOH will not waive the vaccine requirements nor will there be any extensions for the upcoming school year. Students will be expected to comply with all vaccine requirements prior to attending virtually or in-person at a New Jersey child care/preschool and school. New Jersey still allows for medical and religious exemptions when applicable.

The potential for the spread of infectious diseases is increased whenever individuals are brought into group settings. New Jersey has minimum vaccine requirements for school attendance. Following the Centers for Disease Control and Prevention's (CDC) recommended immunization is encouraged to provide optimal protection from vaccine-preventable diseases. Ensuring that vaccines are up-to-date can help protect schools and communities from vaccine-preventable disease outbreaks during the COVID-19 pandemic.

For more information please visit the New Jersey Immunization Requirements Frequently Asked Questions document available on the website https://www.nj.gov/health/cd/imm_requirements/ and directly at https://www.nj.gov/health/cd/documents/imm_requirements/vaccine_ga.pdf

This document contains new information regarding DTaP/Tdap vaccinations and the immunization requirements at institutions of higher education. For your convenience, new/updated information is highlighted in yellow.

Subject: Superintendent/School Nurse COVID-19 Update Ocean County Health Department
Attachments: Excel PPE template MADOE.xlsx; LINC_S_Close_Contact_oct_22_20.108317.pdf; COVID_test-result-iq-timetable Oct.pdf; reportable_disease_magnet.pdf; School Case Report Form 10.24.20.docx
Importance: High

Good Day Ocean County Superintendents and School Nurses,

Hope you are all well as we continue down this long path. We wanted to touch base with everyone regarding recent changes and ongoing support as we manage this COVID-19 pandemic together.

The recent CDC update of the definition of **COVID-19 close contact criteria** places an increased level of contact tracing requirements in our whole community.

NEW! Close Contact: *Someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.*

The research underlying this change further reveals the infectiousness and complexity of this novel viral pandemic. NJDOH has adopted the revised CDC definition effective immediately. The NJDOH is currently in the process of updating recommendations and we are watching closely to see any changes that the NJDOE may enact.

Please be aware that the NJDOH **COVID-19 Regional Risk Matrix** is currently in the **Yellow Moderate** category.

This requires 2 important actions:

1. In response to COVID symptomatic students and staff, follow COVID-19 exclusion criteria; wait at least 24 hours and clean/disinfect areas where ill person spent time.
2. Minimize activities that involve interaction with multiple cohorts.

Reporting of a COVID-19 positive cases within the schools are **required immediately** according to the New Jersey Administrative Code Title 8, Chapters 57 & 58.

We appreciate the cooperation of the majority of the Ocean County school districts.

However, there have been some districts that have not been in compliance with this statute.

Ocean County Health Department Main number:

732-341-9700

Business hours Communicable Disease : ext. 7515

Off business hours: ext. 7411 or "0"

In cases of immediately reportable diseases and other emergencies – if the local health department cannot be reached – the **New Jersey Department of Health** maintains an emergency phone number @ 609-392-2020

Attached is a school case report form that you may find helpful when gathering and reporting positive results. It is necessary to have the COVID lab report in order to establish a case. The prevalence of Rapid COVID-19 testing and the lack of reporting from the diagnosing agencies has slowed our ability to quickly investigate cases. It would be helpful to either identify the

place that the testing was done and or have the case themselves request the lab to fax the report to OCHD Communicable Disease Department. **Fax:** 732-678-0065

Finally below is the NJSIAA link to the updated website of **NJSIAA COVID-19 Resources:**

<https://www.njsiaa.org/health-safety/covid-19-resources>

Thank you for all that you are doing to keep our community safe. We look forward to ongoing collaboration as updates are released.

Be well and be safe.

Subject: RE: Staff Member & Student COVID Positive

If you cannot determine who has or has not been in close contact with the known positives and they all were in close proximity to each other then they should be all requested to quarantine. I know some schools and programs initiated smaller "pods" of training meaning they limited the number of players who participated in drills and/or activities. This would then keep players exposure to others at a minimum through smaller groups. Was that instituted at all do you know? I will confer with the team here and we will touch base.

Subject: Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,
Mrs. Cara DiMeo

Subject: Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

Subject: RE: NJDOH guidance

Importance: High

Good morning Christina,

Previous COVID-19 positive (viral test) cases and new exposure as a close contact: A person who tested positive for COVID-19 (viral test), has clinically recovered from COVID-19 and then is identified as a contact of a new case within 3 months of symptom onset of their most recent illness does not need to be quarantined or retested for SARS-CoV-2. However, if a person is identified as a contact of a new case 3 months or more after symptom onset, they should follow quarantine recommendations for contacts.

References: <https://www.cdc.gov/coronavirus/2019-ncov/php/open-america/contact-tracingresources.html>;
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/faq.html>

That being said since you were never tested, and did not have any symptoms, if you feel you were exposed and came in close contact with a symptomatic individual consistent with COVID symptoms or an individual who tested positive, you MUST quarantine appropriately.

Please let me know if you have questions.

Thank you,
Richa

Subject: Questions regarding COVID Positive students

Hi Richa,

I have been in contact with Jennifer Crawford and could not reach her today. I called your number given to me but was not correct. I have questions about a few students who tested positive and close contacts and need to speak with someone at the OCHD. Could you please call me at 732-505-5900, ext#2 for the nurses' office when you get this message.

Thank you,
Laura Bailey, RN

Upcoming Events

Identifying Depression and Treatment Options During Covid-19

Online Event

- Monday, January 25th 10:30am – 11:30am
- Monday, February 8th 10:30 – 11:30am
- Saturday, March 20th 10am – 11am
- Saturday, April 10th 10am – 11am

Registration Required

Details:

As a community behavioral health leader, **OceanMHS** is offering a one-hour session on how to recognize depression and access help when and if it is needed. The effects of the COVID-19 pandemic are so individualized, and so many community residents may find themselves or a loved one struggling.

Please join us to learn the signs and symptoms of depression, and how to seek help if needed. This education session is offered at ***no cost*** to attendees thanks to a grant Ocean Mental Health Services received from ***Investors Bank Foundation***.

**Looking at Mental Health Through the Lens of Stigma and Race:
*Implications for Assessment, Diagnosis,
Treatment, and Service Delivery***

Presented by: Dr. Tawanda L. Hubbard, LCSW

Date: March 16, 2021

Location: Zoom

Time: 8:30 a.m. – 4:30 p.m.

Pricing: *Registration Closes on March 12th*

\$89 by March 1, 2021

\$99 after March 1, 2021

*Approved for 6 Clinical & Social Cultural Competence CE credits
Approval #: 201611-1206*

Registration Required

Description:

Historically in our country as well as other parts of the world, persons with mental illness have been stigmatized, treated as inferior, and some forced to endure deplorable conditions and treatments. Today, advances have been made in research and practice that has improved treatment and service delivery to persons with mental problems and mental illness, but they still must contend with the stigma that goes along with having a mental disorder. To complicate matters for persons of color with mental health problems and mental illness, they not only have to deal with the struggles of their condition, encounter stigma, but also contend with discrimination. In this workshop, participants will discuss disparities persons of color with mental illness encounter in mental health programs and society-at-large. Look at the history of how persons with mental illness have been seen and shamed; discuss how that view still lives today within the mental health system; prevalence of discrimination in mental health towards persons of color; and identify the role of service providers and agencies in fighting health inequalities and discrimination apart of ensuring quality care. Participants will become familiar and identify how they can operationalize key concepts, such as, social determinants of health, macroaggressions and microaggressions, difference, privilege and power, anti-oppression approach, cultural formulation, social location, etc. All instrumental in understanding and removing stigma and fighting discrimination within the mental health system across the treatment continuum of care working with persons of color.

**Institute for
Prevention
and Recovery**

**RWJBarnabas
HEALTH**

During the COVID-19 pandemic, emotional resilience is vital.

RWJBarnabas Health Institute for Prevention and Recovery's Hope and Healing Program offers emotional support services, education and community-based resources for individuals and families affected by the COVID-19 pandemic.

Through a variety of virtual services, this program aims to assist those impacted by the pandemic to better adjust to their new reality, mitigate stress, review options, develop coping strategies, and, if needed, find linkages to agencies, programs, and other resources in their community.

Subject: Free COVID-19 Pandemic Support & Resources from RWJBarnabas Health

**Institute for
Prevention
and Recovery** | **RWJBarnabas
HEALTH**

During the COVID-19 pandemic, emotional resilience is vital.

RWJBarnabas Health Institute for Prevention and Recovery's Hope and Healing Program offers emotional support services, education and community-based resources for individuals and families affected by the COVID-19 pandemic.

Through a variety of virtual services, this program aims to assist those impacted by the pandemic to better adjust to their new reality, mitigate stress, review options, develop coping strategies, and, if needed, find linkages to agencies, programs, and other resources in their community.

Subject: Youth Mental Health Resources

Hello Ms. Bulbach, Mr. Cooney and Ms. Voorhees,
This is Rick Hager, the Community Outreach Coordinator for the New Jersey Department of Children and Families. I am working from home and copying my State email account on this important communication.

Dear child welfare partner,
There have been a series of articles like [this](#) and [this](#) and [this](#) from throughout the country focused on the impact COVID-19 has had on young people's mental wellness. Social distancing has, for many, meant remote learning, no recreational sports, no birthday parties or school dances; no group outlet.

For youth already struggling with grades or confidence or belonging, the pandemic has exacerbated their mood swings, emotional withdrawal, substance use or behavioral conditions. **Families need to know that there is help available**. The New Jersey Department of Children and Families' (DCF) Division of the Children's System of Care has free or low-cost access to behavioral health support 24/7/365. Please share the attached flyers (also [located here](#)) with your constituency and through your social media channels. **Help us spread the word** so that at-risk youth can get the support they need.

Thank you.

Rick Hager (working from home and copying my State email account on this)

Subject: Community Webinar Series: Links to Webinar Recordings

Watch Webinar Recordings at Your Leisure!

In August, the RWJBarnabas Health Institute for Prevention and Recovery (IFPR) assembled a Professional Development Community Webinar Series with an emphases on the needs of educators. This two-week long series provided informative material and perspectives on wide-ranging topics, from current drug trends to in-classroom coping mechanisms and relationship cultivation. Each webinar also discussed the impact that the COVID-19 pandemic has left – and will continue to leave – on our communities and youth.

While the live series has come to a conclusion, webinar recordings from each of the topic areas are available on IFPR's YouTube Channel. Please see the links to the aforementioned webinars below, as well as to a select number of webinar recordings from our previous Community Webinar Series back in the Spring of 2020.

Please Note: While Certificates of Attendance and Department of Education CEUs cannot be provided for viewing these webinar recordings (live attendance was required), the presentations can still be viewed at your leisure.

Self-Care and Maintaining Work-Life Balance

Change presents an opportunity to reevaluate and enhance self-care practices to support a more balanced life. This is even more true today as we all adjust to the new normal during this unprecedented time. Work-life Balance is essential to living life more fully. This presentation will provide a framework for participants to examine their current situation and tools, resources and concrete exercises to make personalized changes to support your work life balance.

Original Air Dates: August 17th and August 21st
Presented by: Ruth Palacio and Lauren Olsen

[View Webinar](#)

Returning to School After COVID-19

Returning to School After COVID-19 will discuss the collective trauma that educators and students have experienced, signs to look for in-person and in virtual classrooms, and when and how to reach out for help, for yourself and students.

Original Air Date: August 18th
Presented by: Kendall Murphy and Special Guest, Susan Tellone
from the *Society for the Prevention of Teen Suicide*

[View Webinar](#)

Current Drug Trends

Current Drug Trends will educate participants on substance use related trends, specifically impacting our youth, including vaping, underage drinking, and prescription drug abuse. Part of this webinar will include information tailored to young athletes that can be implemented in school districts across Ocean County. Additionally, we will look at how substance use trends may be changing as a result of COVID-19.

Original Air Dates: August 19th and August 24th
Presented by: Michael Capko and Abby Thompson

[View Webinar](#)

Changing the Script: Sports Injuries and Exposure to Opiates Among Young Athletes

Intended for athletic directors, athletic trainers, school nurses, coaches and parents, this presentation focuses on the intersection between youth sports injuries and exposure to prescription opioids among student athletes.

Original Air Date: August 20th
Presented by: Andrea Zapcic

[View Webinar](#)

Understanding the Impact of Teen Social Media Use

Have you seen teens try to master choreographed dances lately and are wondering what it is all about? Or are you wondering what GenZers are up to on TikTok, Snapchat, Insta, or Houseparty? This webinar will explore, the social, emotional, and physical impacts of teen social media use and what you can do to provide guidance.

Original Air Dates: August 24th and August 26th
Presented by: Abby Thompson and Michael Capko

[View Webinar](#)

Cultivating Resiliency in the Classroom by Promoting Positive Behavior and Strength-Based Feedback

This training will dive into different psycho-social interventions that touch on trauma-informed care while promoting kindness and respect in the classroom. These techniques will help cultivate meaningful teacher/student relationships that support a safe and happy learning environment.

Original Air Dates: August 25th and 27th
Presented by: Roberta Rapisardi, Amy Piacente-Desch, and Michelle Garcia

[View Webinar](#)

Understanding Social and Emotional Learning

Social Emotional Learning (SEL) involves children's ability to learn about and manage their emotions, knowledge, and interactions in ways that benefit themselves and others. It helps youth to succeed in school, the workplace, and in forming long-term relationships. In this webinar we will discuss how developing youth's SEL, can help them to become more empathetic, better decision-makers, and develop healthier relationships in life with recommendations for the classroom.

Original Air Dates: August 25th and August 28th
Presented by: Michelle Garcia and Kendall Murphy

[View Webinar](#)

Stress, Anxiety, and Adverse Childhood Experiences (ACEs) in the Classroom – Effects and Providing Support

What stress and anxiety might students face? What complications do Adverse Childhood Experiences (ACEs) bring? This webinar focuses on the impact that these have on students, what difficulties it brings to the classroom environment, and what you can do to provide support.

Original Air Dates: August 26th and August 28th
Presented by: Amy Piacente-Desch, Abby Thompson, Kendall Murphy, and Roberta Rapisardi

Subject: 2020 Ocean County PAC/PACADA Webinar Series

2020 Annual
Ocean County PAC/PACADA Conference
a virtual webinar series

This year's joint conference will be virtual! Please join us for a 3-part webinar series on timely topics important to all behavioral health treatment professionals, advocates, and partners: Deaths of Despair, Staff Burnout, and PTSD/ Panic Disorder Survivors with Substance Use Disorders.
Registration is FREE but space is limited. CEUs Offered.

Part 1: Addressing Deaths of Despair

Friday, October 23, 2020 1:00PM- 3:00PM

*Free registration required. Space is limited.
CEUs application pending*

Deaths as a result of substance misuse and suicide have been on the rise. Economists Case and Deaton linked these “deaths of despair” to long-term social and economic decline, rising joblessness, and lower incomes among middle age, non-Hispanic whites without a college degree. In the wake of the COVID-19 pandemic, the number of deaths of despair is projected to rise further.

What You Will Learn:

- Overview of where we are as a nation with mental health and addiction
- Impact of COVID and how this has changed things
- Deaths of Despair 101 – what are they
- New Jersey Specific data on Deaths of Despair
- Evidence-informed approaches to addressing Deaths of Despair
- Delivery, financing, and policy solutions
- The role that each of us can play in tackling mental health and addiction

[Register Now](#)

[View Flyer](#)

Part 2: Why Mental Health Staff Burnout and What You Can Do About It

Friday, November 13, 2020 12:00PM- 1:15PM

Have you ever felt overwhelmed or indifferent about your work? Have you ever worried about becoming this way?

Around 25% to 40% of mental health professionals will become burnt out at some point in their job. This talk will

help you to recognize the signs of burnout and ways to combat it through your own actions and through changes in your organization.

Free registration required. Space is limited.

*APA approved for 1 CEU
NASW CEU application pending*

[Register Now](#)

[View Flyer](#)

Part 3: Overcoming the Avoidance Trap

Friday, November 20, 2020 12:00PM- 1:15PM

Free registration required. Space is limited.

*APA approved for 1 CEU
NASW CEU application pending*

What You Will Learn:

- The connection between substance use as an avoidance strategy for managing PTSD and Panic Disorder

- How substance use and PTSD/Panic can be treated at the same time

- The importance of the therapeutic relationship in successful treatment outcomes for substance use and PTSD/Panic

Subject: Reminder: Virtual Town Hall: Substance Use Disorder Treatment in N.J. During COVID-19 and Beyond

**Institute for
Prevention
and Recovery** | **RWJBarnabas
HEALTH**
Let's be healthy together.

Join RWJBarnabas Health Institute for Prevention and Recovery Vice President, Connie Greene and fellow industry leaders on September 29th for a free virtual town hall that will discuss substance use disorder treatment during COVID-19.

Connie will share her insights on the opioid epidemic including what resources are available for individuals and family members with SUD, how telehealth is making a difference during the pandemic, and what's to come in the future.

Space is limited- register today!

[Register](#)

Virtual Town Hall: Substance Use Disorder Treatment in N.J. During COVID-19 and Beyond

Join us for a free virtual town hall where leaders in behavioral health and addiction treatment services will discuss the impact that the COVID-19 pandemic has had on SUD treatment and outcomes in New Jersey as well as how to best move forward post-pandemic.

Topics include:

- How providers have transitioned and adapted care during the pandemic
- The challenges the pandemic has created in treating individuals with SUD
- How inpatient services were impacted and outpatient treatment services have evolved during the pandemic
- How telehealth is being utilized to enhance care and how it has removed some barriers to treatment

- Changes in MAT services as a result of the pandemic
- How to combat the increase in overdose deaths
- Lessons learned from the pandemic and how they will impact and inform care in the future

Moderator: Lilo Stainton, NJ Spotlight

Panelists:

- Connie Greene, Vice President, RWJBarnabas Health Institute for Prevention and Recovery
- Kaitlan Baston, MD, MSc, DFASAM Program Director Southern NJ MAT Center of Excellence Division Head, Addiction Medicine Medical Director, Government Relations Cooper University Health Care Assistant Professor of Medicine Cooper Medical School of Rowan University
- Robert J. Budsock, President & CEO of Integrity House
- Jerry Joseph, MD, VP of Addiction Medicine for CarePlus NJ
- Erin Zerbo, MD, Director of the Northern NJ MAT Center of Excellence; Assistant Professor of Psychiatry, Rutgers New Jersey Medical School

For questions please contact Tiffany Miller at tmiller@randjsc.com.

Subject: OCC's Counseling Center September Events

***** This is an External Email *****

Hi Clair,

I hope this message finds you well😊

I wanted to forward information about some events we are hosting in recognition of Suicide Prevention Month this September in the hope that you could support us by sharing out the following...

If you have any questions, don't hesitate to reach out!

Minding Your Mind, a national organization dedicated to ending stigma and destructive behaviors associated with mental health issues, will be providing a webinar on the topics of suicide prevention, coping, and the effects of COVID-19 on mental health. This webinar will include combined perspectives of a clinical expert as well as a nationally recognized mental health advocate sharing his lived experiences coping with the mental health challenges he faced during high school and college.

Read more about our speakers here:

<https://mindingyourmind.org/pennsylvania/jordan/>

<https://mindingyourmind.org/new-jersey-new-york/suzelle-marques/>

Scheduled Webinar Session

Thursday, September 17, 2020 12:30 - 1:45pm

QPR - Question, Persuade and Refer, facilitated by the New Jersey Division of Mental Health and Addiction Services. *QPR* is a simple 3 step process to help save a life from a suicide. With suicide being a leading cause of death and current global circumstances increasing stress for many, it is our goal to ensure our entire campus community is able to both recognize the warning signs that a person may be experiencing a mental health crisis, and is prepared to help.

Scheduled Training Sessions

Monday, September 14, 2020 12:30 - 2:30pm via Zoom

Thursday, September 24, 2020 12:30 - 2:30pm via Zoom

All events are open to the public. We are asking participants to register in advance by calling the Counseling Center at 732-255-0386 or emailing counselingservices@ocean.edu. Online meeting information will be provided upon registration.

Thank you!!

Kerry Holzschuh

Subject: {EXTERNAL}SBYSP Advocacy Information and Materials - Join the Effort to Restore SBYSP Funding!

Importance: High

To: Main/Secondary Contacts; Children's Practice Group; 8/27 Call Participants; SBYSP Email List

First, thank you to all of you who participated in NJAMHAA's 8/27 call – just under 200! The groundswell of support to reinstate the SBYSP funding leads us to be very optimistic we will be successful!

(If you are receiving this email and are not a NJAMHAA member or were not on the call, your email was included in lists shared by those who were on the call. If you wish [to opt out of future emails, please let me know via reply email.](#))

There are many actions you, your colleagues, family members, students can easily take!

1. **Sign and share [this petition](#)** (begun by a Counselor at Brick Memorial High School on 8/26, it currently has over 8,000 signatures!)
2. **Call/email/write your State Legislators, the Governor's Office, Senate and Assembly Budget Committee members, and Legislative Leadership:**

[Template letter to legislators and the Governor](#) (You may want to work a link to this [DCF September 2018 Report on the SBYSP](#) into your own letter.)

2.a Write and call your State Legislators - you can send your individualized version via email or via regular mail. [Find your local legislators' contact information](#) by [name](#), [locality](#) or [district](#). (Once you know your district, it is best to use that link as you then can click on "Legislators for District #" that will have one page with your Senator and two Assembly Members and all their contact information.)

2.b. Write the Governor

2. c. Send the same letter/email and call [Assembly Budget Committee Members](#) and [Senate Budget and Appropriations Committee Members](#) (find the Committee Members' phone numbers [here](#).)

2. d. Send the same letter/email and call [Assembly and Senate Leadership](#) (click on the names at the link for contact information)

(Please share with me any significant responses you get from legislators, the Governor's office or other policymakers.)

3. Contact your legislators or groups of legislators via social media:

[This document](#) provides social media links for The Governor and the Legislature (for groups by Party and Senate/Assembly)

At this page, you can click on a name for [individual social media links for Democratic Assembly Members](#) (If you know of any similar lists for the Senate/Republicans, please share them with me to distribute.)

Tag NJAMHAA when you reach out on Facebook and Twitter: @njamhaa

4. Ask your School Board, Town Council, County Board, all State or Local elected officials to sponsor a resolution:

[Template Resolution](#)

5. Reach out to newspapers, radio and tv: (please share links to anything you have published or aired with NJAMHAA)

[Send a letter to the editor](#) – these should be limited to 200 words

[Reach out to media outlets on social media](#)

6. Submit Testimony on the FY2021 Revised Budget Proposal to the Legislature's Budget Committees

There is a link posted near the top of the [Legislature's home page](#), "[Submit Testimony](#)", that you can use to submit testimony to both Budget Committees via email. Alternatively, you can mail your testimony to the [Assembly](#) and/or [Senate](#) at the addresses at these links.

7. Here are some other materials

Repeating link for [DCF September 2018 Report on the SBYSP](#)

[Budget data](#) (taken from the [original FY2021 budget](#) and the recently released [FY2021 Revised Budget Proposal](#))

[List of SBYSP Schools](#) (if you have a school to add, please email me the information – we are missing a few)

PLEASE SHARE ALL OF THIS INFORMATION FAR AND WIDE!

(If you did not receive this information directly and wish to be added to the SBYSP email list, please email mabrams@njamhaa.org.)

Thank you for participating in this advocacy campaign! We will continue to share information, talking points and other materials.

Sincerely,

Mary Abrams

Subject: {EXTERNAL}SBYSP Advocacy Information and Materials - Join the Effort to Restore SBYSP Funding!
Importance: High

To: Main/Secondary Contacts; Children's Practice Group; 8/27 Call Participants; SBYSP Email List

First, thank you to all of you who participated in NJAMHAA's 8/27 call – just under 200! The groundswell of support to reinstate the SBYSP funding leads us to be very optimistic we will be successful!

(If you are receiving this email and are not a NJAMHAA member or were not on the call, your email was included in lists shared by those who were on the call. If you wish [to opt out of future emails, please let me know via reply email.](#))

There are many actions you, your colleagues, family members, students can easily take!

1. **Sign and share [this petition](#)** (begun by a Counselor at Brick Memorial High School on 8/26, it currently has over 8,000 signatures!)
2. **[Call/email/write your State Legislators, the Governor's Office, Senate and Assembly Budget Committee members, and Legislative Leadership:](#)**

[Template letter to legislators and the Governor](#) (You may want to work a link to this [DCF September 2018 Report on the SBYSP](#) into your own letter.)

2.a Write and call your State Legislators - you can send your individualized version via email or via regular mail. [Find your local legislators' contact information by name, locality or district.](#) (Once you know your district, it is best to use that link as you then can click on "Legislators for

District #” that will have one page with your Senator and two Assembly Members and all their contact information.)

2.b. Write the Governor

2. c. Send the same letter/email and call Assembly Budget Committee Members and Senate Budget and Appropriations Committee Members (find the Committee Members’ phone numbers [here](#).)

2. d. Send the same letter/email and call Assembly and Senate Leadership (click on the names at the link for contact information)

(Please share with me any significant responses you get from legislators, the Governor’s office or other policymakers.)

3. Contact your legislators or groups of legislators via social media:

[This document](#) provides social media links for The Governor and the Legislature (for groups by Party and Senate/Assembly)

At this page, you can click on a name for [individual social media links for Democratic Assembly Members](#) (If you know of any similar lists for the Senate/Republicans, please share them with me to distribute.)

Tag NJAMHAA when you reach out on Facebook and Twitter: @njamhaa

4. Ask your School Board, Town Council, County Board, all State or Local elected officials to sponsor a resolution:

[Template Resolution](#)

5. Reach out to newspapers, radio and tv: (please share links to anything you have published or aired with NJAMHAA)

[Send a letter to the editor](#) – these should be limited to 200 words

[Reach out to media outlets on social media](#)

6. Submit Testimony on the FY2021 Revised Budget Proposal to the Legislature’s Budget Committees

There is a link posted near the top of the [Legislature’s home page](#), “[Submit Testimony](#)”, that you can use to submit testimony to both Budget Committees via email. Alternatively, you can mail your testimony to the [Assembly](#) and/or [Senate](#) at the addresses at these links.

7. Here are some other materials

Repeating link for [DCF September 2018 Report on the SBYS](#)

Budget data (taken from the original FY2021 budget and the recently released FY2021 Revised Budget Proposal)

List of SBYSP Schools (if you have a school to add, please email me the information – we are missing a few)

PLEASE SHARE ALL OF THIS INFORMATION FAR AND WIDE!

(If you did not receive this information directly and wish to be added to the SBYSP email list, please email mabrams@njamhaa.org.)

Thank you for participating in this advocacy campaign! We will continue to share information, talking points and other materials.

Sincerely,

Mary Abrams

Subject: OceanMHS Launches Ocean Integrated Trauma Center

OceanMHS Launches Ocean Integrated Trauma Center

Essential Personnel, WE are Here for YOU!

BAYVILLE, NJ – **Ocean Integrated Trauma Center** at **Ocean Mental Health Services** was developed in direct response to the effects and trauma the COVID-19 pandemic is

placing on our frontline workers, healthcare professionals, first responders, and the individuals and families who have suffered an impact and loss. The development of **Ocean Integrated Trauma Center** (opening on September 1st, 2020) was made possible through a grant to **OceanMHS** by the **New Jersey Pandemic Relief Fund**.

When asked about the new trauma center **OceanMHS**, CEO **James Cooney, LCSW** had this to say, *"Our world has become so complex. The serious trauma we are all experiencing as a result of the Covid-19 pandemic has only added to the stress we all feel. And that stress is at a minimum doubled for those first responders and healthcare heroes on the frontline. The impact on all of our mental health is dramatic. We have never had so many requests for help. As a result, there has never been a greater need for a sophisticated, integrated trauma treatment center. With the help of the NJ Pandemic relief Fund, OceanMHS is answering that need!"*

OceanMHS welcomes all persons seeking professional treatment and care for any trauma they have experienced in life, and additionally place a special focus on trauma's resulting from the current pandemic. They have a team of licensed therapists with expertise in evidenced based trauma protocols ready to provide service and care. While we understand there is no quick fix for trauma, at **OceanMHS** we offer hope for healing and wellness. *"Having a traumatic experience can have a profound impact on our well-being, having multiple traumatic experiences can put us at risk for health-related issues and other problems. Our emotional experience related to a trauma can cause problems within our relationships, our work, and even our ability to engage in everyday life. The current pandemic has first responders, medical personnel, and family members living with painful events daily. First responders and medical personnel are trained to expect a certain amount of tragedy in their line of work and are taught skills to manage the circumstances that may cause them distress. But, the pandemic is different, it is prolonged exposure to difficult and painful circumstances with continued uncertainty in a way that is unprecedented,"* explained **Kim Veith, MBA, MSW, LCSW, LCADC** is the **Director of Adult Clinical Services at OceanMHS**.

OceanMHS is grateful for the opportunity and privilege to provide this valuable care to our community and frontline heroes. The **Ocean Integrated Trauma Center** will be opening September 1st and appointments will be available in office or virtual! **Kim Veith** also commented, *"At **Ocean MHS** one of our main purposes has been to participate in building strong, healthy communities. This grant through NJPR gives us the opportunity to give back to those who take care of all of us. The heroes who may be feeling weary and need some support. We are grateful for the opportunity to offer these services and will continue to strive to make a difference one life at a time."*

LEARN MORE

Essential Personnel, WE are here for YOU!

Ocean Integrated Trauma Center

You may be experiencing the effects of trauma if:

YOU FEEL:

*Sad
Anger
Denial
Fear
Shame*

EXPERIENCE:

*Nightmares
insomnia
outbursts
relationship difficulty*

PHYSICALLY:

*nausea
dizziness
altered sleep
changes in appetite
GI problems*

The Trauma Center was developed in direct response to the effects and trauma the COVID-19 pandemic is placing on our frontline workers and the individuals and families who have suffered an impact and loss.

We welcome all persons seeking professional treatment and care for any trauma they have experienced in life, and additionally place a special focus on trauma's resulting from the current pandemic.

The development of Ocean Integrated Trauma Center was made possible through a grant to OceanMHS by the New Jersey Pandemic Relief Fund. OceanMHS is grateful for the opportunity and privilege to provide this valuable care to our community and frontline heroes. We accept most major insurance plans, including Medicare and Medicaid. Sliding scale fee is available.

Services are available in person and telehealth.
To schedule your appointment, please contact:

732-349-5550

Subject: Join us for On the Road to Unlocked!

New Virtual Series to Highlight Justice System and Policing Alternatives

A virtual three-part national symposium will present alternatives to the kinds of traditional policing, probation, placement, and parole approaches that have perpetuated systemic injustice. On the Road to Unlocked!: Investing in Our Children and Communities is hosted by [The Social Justice Initiative of Bryn Mawr College](#) and [Youth Advocate Programs \(YAP\), Inc.](#), an alternative to youth incarceration and out-of-home placement.

Session one of the series takes place 12:00 pm-1:30 pm (ET), Thursday, August 20. [Youth First Initiative Policy Director Carmen Daugherty](#) is the session moderator. Daugherty supports state-based campaigns by developing policy options, reviewing legislation, proposed budgets, and creating state and national reports on youth incarceration.

Speakers include:

[Rev. Dr. Starsky Wilson](#), President and CEO of the St. Louis, MO-based Deaconess Foundation -- In 2014, the governor of Missouri appointed Rev. Wilson to co-chair the Ferguson Commission to study the underlying conditions that impede progress, equality and safety and make policy recommendations following the police shooting death of Michael Brown, Jr.

Shadoe Tarver, Associate Director of Community Safety with Save Our Streets (S.O.S.) in Brooklyn. SOS works to prevent gun violence in Crown Heights and Bedford-Stuyvesant neighborhoods by mediating conflicts that may end in gun violence and acting as peer counselors to the people who are at risk of perpetrating or being victimized by violence. It is NYC's first and longest standing Cure Violence Site.

Seventeen-year-old Travontay ("Tray") – Tray received intensive community-based mentoring and wraparound services from YAP as an alternative to youth incarceration.

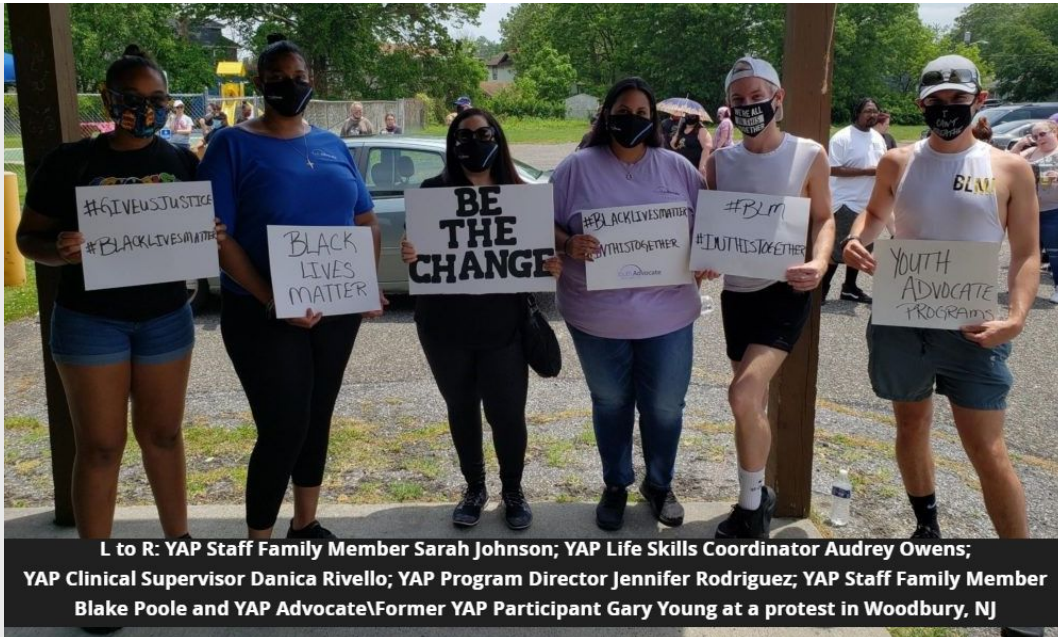

Following the panelists' presentations on effective community safety alternatives, Daugherty will open the discussion to questions from attendees.

Note: This event is co-sponsored by Bryn Mawr College Graduate School of Social Work and Social Research (GSSWSR) for a maximum of 1.5 credit hours. Bryn Mawr College GSSWSR, as a CSWE accredited School of Social Work, is a pre-approved provider of continuing education for Social Workers, professional counselors, and marriage and family therapists in Pennsylvania and many other states.

Register for Aug 20 Session

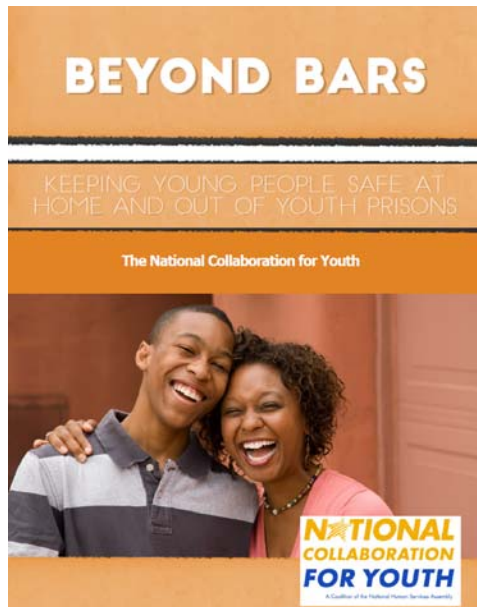

These Advocates are on the Front Lines of Reinventing the Kinds of Systems that Perpetuate Racism

Every day, they're in their neighbors' homes, delivering rehabilitative services that would otherwise happen in youth prisons and congregate treatment facilities. Employees of Youth Advocate Programs (YAP), Inc. know firsthand the work and rewards of reinventing systems that have a long history of perpetuating racial injustice. YAP's services are a community-based alternative to incarcerating and institutionalizing justice- and child welfare-involved youth.

[Meet some of the YAP professionals and see what they're thinking and feeling in this story.](#)

A Timely Report: National Human Services Assembly's Roadmap for Reforming Youth Justice

By Jeff Fleischer, Youth Advocate Programs CEO/National Human Services Assembly Chair

The National Human Services Assembly (NHSA), in light of the George Floyd killing and the Covid 19 pandemic, is re-releasing our 2017 publication; [**Beyond Bars: Keeping Young People Safe at Home and Out of Youth Prisons**](#), a roadmap for reform that calls on state and local policymakers, juvenile justice administrators, police and judges to end the practice of youth incarceration and instead invest in community-based alternatives.

This report is more relevant today than ever before as policy makers and legislatures are looking to develop alternatives to policing, probation, youth detention, youth prison and parole.

Community safety should be defined by more than law enforcement and carrots and sticks; it's about all the things that characterize safe neighborhoods, like access to good schools and jobs, opportunities to learn, grow, develop, and play in safe environments.

The array of services available to justice-involved young people should exist at every point in the justice system, from an alternative to arrest to an alternative to out-of-home placement and aftercare that can hasten return home from a placement.

Learn more in this roadmap for reform from the [**National Human Services Assembly**](#).

YAP in the News

Diasee Scott shared his experience as a YAP participant at a [**news conference**](#) where Illinois Gov. JB Pritzker announced the state's plans for a community-based approach to youth justice.

In a [**TV news story**](#), New Milford, PA YAP's Behavioral Health Services professionals and a family they served talked about support during the pandemic.

YAP Senior Executive Gary Ivory is featured in "[It's Time to Close Youth Prisons](#)," a Fair and Just Prosecution documentary.

Walker County, AL YAP is featured in a [story that highlights the team's School-based Behavioral Health Services](#) and how the county's efforts are being recognized statewide.

Wayne County, NY YAP Assistant Director James Schuler [helped a group of young people in his community plan and implement a Black Lives Matter march and rally](#).

YAP Human Resources Chief Naomi Frazier took part in a [series of reports](#) where Black professionals shared their expertise in support of Central PA Black business owners.

Subject: YSC Meeting Reminder Thursday August 6th 3pm - Quorum is needed!
Attachments: 08062020 Meeting Agenda.docx; 07092020 YSC meeting minutes.docx; 4. 2021 Innovations Funds-Innovation Proposal OCEAN.docx; 5. 2021 Innovations Funds-Budget OCEAN.doc

Importance: High

Hello Folks!
Happy Friday! ☺

This serves as a reminder that we have a virtual YSC meeting scheduled for Thursday August 6th at 3pm via WebEx. This is an OPEN PUBLIC Meeting and can be shared. Attached is the Agenda, minutes of the July 9th YSC meeting for your review and comment, as well as the 2021 Innovations proposal for your review. We will be voting on the 2021 Innovations Proposal next Thursday so we will need quorum. Please let me know if you have any questions regarding the proposal.

Additionally, ALL YSC funded providers should submit their July program updates as it relates to COVID-19 by Wednesday close of business. I will send out a separate email with this information.

Anyone who would like to have their flyers or any program updates added to the YSC packet is encouraged to send that information to me no later than Tuesday close of business.

A meeting reminder will go out again next week with the WebEx information, you can also find it on our Juvenile Services, YSC webpage.

<http://www.co.ocean.nj.us/OC/JuvServices/frmYouthServices.aspx>

Please RSVP with your anticipated attendance!

Thank you and have a great weekend!

Subject: BackPACKED!

Community Partners,

As a follow up to my June 13th "BackPACKED" e-mail, I wanted to touch base with some additional information. There was a terrific response in regards to the idea of including resource information in the backpacks, as well as interest in contributing to that, so we are going to move forward with it! Thank you again!!

The hope is to distribute backpacks in mid-August. With the help of our partners, we are working through the logistics for a safe, yet fun, event again this year! **If you offered to contribute your program's information and/or items for the backpacks please mail to Oasis Family Success Center by Friday, July 31st or contact me and I'd be happy to pick them up from you.**

The first week of August our team will most likely need a few volunteers to assist with packing the backpacks. We plan to set up a way to safely do this in our parking lot sometime in early August. Unfortunately I do not have a date/time for that yet, but **if you'd like to be included on any future e-mails regarding volunteering for "BackPACKED" (packing and/or distributing) please let me know as soon as possible.** I will start a different e-mail thread for that to avoid flooding your e-mails more so than they already are 😊

Have a great week!

Thanks!

Alyssa Kertis

Subject: BackPACKED!

Community Partners,

We hope this e-mail finds you well. Like many of you, Oasis Family Success Center continues to strategize unique and safe ways to serve and support our community. To that point, we have realized our annual back-to-school event will look different this year.

Given BackPACKED's successful turnout last summer, we had hoped to add a resource component to this year's event. As we've collected feedback from the community through various platforms during COVID-19, we have decided to include resources and supports to families in the backpacks that will be distributed.

We have begun discussion with last year's partners, Barnegat School District and Bayside Chapel, to work through all necessary logistics for a safe and enjoyable distribution. In the meantime, if your organization would like to provide resource information to be included in the backpacks and/or have additional ideas on collaboration please let us know by Friday, June 19th. Someone from our team will reach out to all partners who express interest with more information.

Thank you for all you do for the community!

Stay well!

The Oasis FSC Team

Alyssa, Tara, Kerri and Lauren

Subject: FW: NJ DCA Covid 19 Emergency Rental Assistance Extension

Importance: High

Good morning,

Please see the below web link for information regarding the open enrollment period for the **DCA COVID-19 Emergency Rental Assistance Program** for low- and moderate-income households that have faced a reduction in income or unemployment due to the pandemic.

NJDCA has decided to extend the online registration for the COVID 19 Emergency Rental Assistance Program (CVERAP). Online pre-applications will now be taken until JULY 17, 2020 at 5 p.m.

Completion of the pre-application does not guarantee assistance. ONLY ONE pre-application per household will be accepted. All participants will be selected through an online lottery process.

Requirements and income limits as well as all further information can be found using the link below.

<https://www.nj.gov/dca/divisions/dhcr/offices/cverap.html>

Subject: FINAL CHANCE! We Want to Hear From You!

DART Prevention Coalition

Taking Aim at Substance Abuse In Ocean County

DART: Community Check-In Survey

We want to hear from you, Ocean County!

For the past 11 years, the **DART Prevention Coalition** has served Ocean County, providing additional support during the economic recession, Superstorm Sandy, the opioid epidemic, and now the COVID-19 pandemic. As part of our efforts to stay connected to and best serve our community, **we want to hear how COVID-19 and social distancing has impacted you and your families.** With this in mind, we put together a brief survey check-in. Your responses will help inform programs and initiatives for both **DART** and the **RWJBarnabas Health Institute for Prevention and Recovery.**

Please take our survey now!

(or copy and paste: <https://www.surveymonkey.com/r/95HLBYT>)

TODAY (6/30) IS THE LAST DAY TO PARTICIPATE!

The survey will take approximately 5-7 minutes to complete.

Your participation in this survey is voluntary, and if you decide to participate, you may withdraw at any time. Your responses will be anonymous and we do not collect identifying information such as your name or email address.

**If you are able to, we encourage you to send this survey
to the community members you serve.**

The more people we hear from, the better we can tailor our response!

If you have any questions, feel free to email dart@rwjbh.org

**We thank you for your time, feedback, and continued commitment
to helping us make Ocean County a healthier community.**

Subject: BackPACKED!

Hello YSC partners,

Below is an email from Oasis Family Success Center... They did a BackPACKED event at Bayside Church in Barnegat last summer for the community and are looking for resources to add to the backpacks for this upcoming school year. This is a great event for the southern end of the County and those communities surrounding the Barnegat area! If any of you would like to provide information on resources available to families in the southern end of the County please reach out to Alyssa Kertis! Her information is listed below! Thank you and please share as you see fit!

Have a great day!

Shelby ☺

Subject: BackPACKED!

Community Partners,

We hope this e-mail finds you well. Like many of you, Oasis Family Success Center continues to strategize unique and safe ways to serve and support our community. To that point, we have realized our annual back-to-school event will look different this year.

Given BackPACKED's successful turnout last summer, we had hoped to add a resource component to this year's event. As we've collected feedback from the community through various platforms during COVID-19, we have decided to include resources and supports to families in the backpacks that will be distributed.

We have begun discussion with last year's partners, Barnegat School District and Bayside Chapel, to work through all necessary logistics for a safe and enjoyable distribution. In the meantime, if your organization would like to provide resource information to be included in the backpacks and/or have additional ideas on collaboration please let us know by Friday, June 19th. Someone from our team will reach out to all partners who express interest with more information.

Thank you for all you do for the community!

Stay well!

The Oasis FSC Team
Alyssa, Tara, Kerri and Lauren

7 Tips for Getting a New Job in Your 50s

Becoming someone who's readily employable in your 50s (and beyond) calls on a skill set you can and should start working on as early as your first few jobs – even when you're just in your teens or 20s. You can also pick up and start polishing these strengths, even if you're in your 60s or 70s when you want to find work. **[Read more.](#)**

Should I Accept A Subpar Job Over Being Unemployed?

In this market, the popular saying "beggars can't be choosers" may come to mind, but that doesn't mean you should just accept any opportunity that comes your way.

While the global pandemic has taken a toll on the economy and has led to some unusual circumstances in the job market, it's still worth doing your due diligence before signing on the dotted line. [Read more.](#)

Reinventing Your Career in the Time of Coronavirus

When you don't know what the future will bring, or when the path you thought you were on takes an unexpected turn, it makes sense to pursue a diverse portfolio of options rather than just sticking single-mindedly to one. Even in happier times, career change is never a perfectly linear process. It's a necessarily messy journey of exploration — and to do it right, you have to experiment with, test, and learn about a range of possible selves. [Read more.](#)

**Subject:** NJ Human Services Announces Availability of Up to \$20 Million in Health and Safety Grants for Child Care Centers and Youth Camps

NEW JERSEY  
DEPARTMENT OF HUMAN SERVICES

## **NJ Human Services Announces Availability of Up to \$20 Million in Health and Safety Grants for Child Care Centers and Youth Camps**

*\$5k and \$2k Grants Available; Emergency Child Care Assistance Program to Continue through June 30th*

May 29, 2020

(TRENTON) – New Jersey Human Services Commissioner Carole Johnson today announced the immediate availability of up to \$20 million in grants to assist child care centers and youth camps in meeting health and safety guidelines in response to COVID-19.

Child care centers can receive up to \$5,000, while youth camps can receive up to \$2,000.

The money can be used to purchase additional cleaning products, personal protective equipment such as masks, gloves and thermometers, and other products and services to assist centers in complying with appropriate guidelines.

In addition, Human Services announced that the state Emergency Child Care Assistance Program, which is paying for child care services for essential employees identified in Executive Order 110, will continue through the end of June, when the program will end. Applications will no longer be accepted after June 1<sup>st</sup>.

Human Services also will continue to pay child care centers throughout the month of June for the child care slots for children enrolled through the State's child care subsidy program for families with lower incomes. Payments will continue to be made based on the centers' March subsidy enrollment.

Between April 1<sup>st</sup> when child care centers were ordered to close and June 15<sup>th</sup> when centers can reopen, Human Services expects to have provided about \$125 million in funding to centers for both emergency child care and state subsidy program child care slots. Funding is intended to support families' needs as well as the viability of the child care network.

"The health and safety of the children served in child care settings and the dedicated staff who nurture and support them is paramount," Commissioner Johnson said. "We encourage eligible child care centers and youth camps to apply for these grants to help comply with new public health guidelines. We look forward to continuing to work with child care providers to support the educational development of the children served and the needs of the critical staff who make quality child care possible."

The grants are available to licensed child care providers and youth camps that comply with updated state health and safety guidance. The providers must be registered with the [NJ Workforce Registry](#) and must apply through the [New Jersey Child Care Information System \(NJCCIS\)](#). Applications are subject to review and approval.

Providers who have received funding for these same services from other sources such as the federal government, school districts or private grants are not eligible for this funding.

"We are committed to doing all that we can to support child care during this challenging time," Human Services Deputy Commissioner Elisa Neira said. "With these grants, child care centers and youth camps can be better prepared and ready to protect the all-important health and safety of both children and staff."

The grants are the latest steps by Human Services to assist child care centers during the COVID-19 pandemic. Human Services has also:

- Worked with child care centers throughout the state to fund emergency child care for essential employees;
- Continued to pay child care providers for the slots used in March - when centers first closed - by children whose care is covered by the state's child care subsidy program;
- Waived parent co-pays in the state's child care subsidy program for parents who requested it due to impacts from COVID-19; and
- Delivered PPE to emergency child care centers.

"We urge residents to visit [www.ChildCareNJ.gov](http://www.ChildCareNJ.gov) for additional information regarding the New Jersey Child Care Subsidy Program," said Human Services Assistant Commissioner Natasha Johnson, who directs the Division of Family Development that oversees the child care program. "I also thank the child care centers and their staff for their amazing dedication and commitment during this difficult time."

**New Jersey Department of Health - Virtual  
Youth Town Hall**

**The NJ DOH** are inviting youth to attend and participate in a virtual town hall by teaming up and serving as break out room facilitators. Facilitator teams will be able to choose a topic that they are comfortable with from the list below:

- How is your mental health right now and what are you doing to cope?
- What are your expectations on returning to school?
- What has been your community's response to COVID-19?
- How are you coping with loss and grief?
- What is the upside to this unexpected pandemic?

***Click on the image below to view the flyer!***

**2020**

**June 11th  
11 a.m. -1 p.m.**

# NEW JERSEY VIRTUAL YOUTH TOWN HALL

Topics include:

- COVID-19: Q & A
- Emotional Well Being: Checking In
- Loss, Grief and Coping
- Expectations: Now What?
- In Your Community / In Your Voice
- The Upside

As we prepare for a "new normal", all New Jersey middle & high school students between the ages of 13 and 19 are invited to attend a Virtual Youth Town Hall event focused on the pandemic. Youth will enjoy a brief presentation, have an opportunity to network with other NJ youth, share thoughts and feelings related to COVID-19, participate in activities and share ideas for what our new normal will look like.

**Subject:** DCF Mental Health Awareness month campaign-PLEASE SHARE

Good afternoon Paulette,

I sent the following email from DCF to the CIACCs of the Southern region and part of Central NJ, but I don't have contacts for up North. Would you be able to send it to the CIACCs in Central and Northern NJ?

Today marks the start of Mental Health Awareness month, a time to raise awareness and to break down the barriers and stigma associated with diseases that affect our brain and our behavior.

At the Department of Children and Families' Division of Children's System of Care (CSOC) and among our network of system partners, we work hard to offer programs and services that support families with children that have behavioral challenges. During COVID-19, our Department has made a conscious effort to remind families that social distancing shouldn't mean social isolation and that help is just a phone call away.

Please share our information with your constituents and social media audiences to ensure that they are aware of the important services available to them. The attached mental health flyers and our other support materials can be found on our [COVID19 publications page](#). *(which you have already posted on your website – thank you again for that).*

**Subject:** Sen. Booker hosts a webinar for NJ Non-profits Thurs. 4/9

Good morning,

I hope this finds you all safe and well. As you all know, non-profit organizations have been met with greater need and working with fewer resources during this crisis. Senator Booker will be hosting a webinar for New Jersey non-profit organizations this **Thursday, April 9, 2020** from 3:30 to 4:30 p.m. with the NJ Center for Non-profits, the U.S. Small Business Administration, and the NJ Economic Development Authority on impact of the COVID-19 crisis and how to access government assistance from the coronavirus relief package. The webinar is entitled "COVID-19 and government assistance for New Jersey Non-Profits".

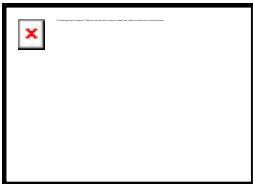

**Please register to attend this free webinar**  
**here:** <https://register.gotowebinar.com/register/4517075647950393356>

Also, if you have not received it already, please find attached to this email a comprehensive guide of resources that may be helpful to people in New Jersey during this crisis. Please feel free to share it with anyone who may find it helpful, and to reach out with any questions.

Thanks,

**Kaitlin McGuinness**

**Subject:** YSC April 2020 Update  
**Attachments:** 02062020 YSC meeting minutes.docx; YSC Bill record 04022020.pdf; YSC monthly service report January 2020.pdf; YSC monthly service report February 2020.pdf; Behavioral Health Resources page 1.jpg; Behavioral Health Resources page 2.jpg; OCPO Resources for those affected by COVID-19.jpg; 04022020 updates.docx

Hello Folks,

I hope this finds all of you well. Sadly we are unable to meet for our regularly scheduled YSC meeting today. ☹️ At this time I am unaware of when our next face-to-face meeting will be. We still have the May 7<sup>th</sup> meeting on the calendar but only time will tell if we will be permitted to hold that meeting. In the event we cannot, I will explore what options we have to host a virtual meeting.

I have attached the meeting materials you would have gotten at today's meeting.

The meeting minutes of the February 6<sup>th</sup> YSC meeting are attached for your review. I have also attached the 2020 YSC bill record. The Monthly Service reports for January and February are also attached. Some updates from the agencies who usually report out are attached as well.

Some YSC Updates:

Bob is sending out Pre-Monitoring materials by the end of the week to our providers. Our Monitoring schedule starts mid May. We will adjust the schedule as needed due to COVID-19 practices.

The Q1 2020 Provider Outcome reports are due April 15<sup>th</sup>.

Additionally, JAMS Q1 Agency narratives are due by April 15<sup>th</sup> as well. JAMS intakes and completions must be in the JAMS system and accurate. Some agency payments have been held up because the backup documentation is not been complete or is not accurately reflected in JAMS. Bob is in touch with those agencies who are missing backup documentation and working with them to remedy the situation as quickly as possible.

During this time of Social Distancing and COVID-19 practices, the YSC providers have risen to the occasion and are working intently to provide our youth and families with services utilizing remote technology. All agencies have submitted plans and information to the YSC regarding how COVID-19 has impacted their service delivery and the strategies they are employing to work around it. The YSC is keeping in regular contact with the providers to assist in any way we can. I would like to thank our agencies, and system partners for their dedication to our youth and families all the time, but particularly in times like these is when we see the genuine helpful nature of the service providers, the community and the YSC Stakeholders to collaborate and work collectively to assist our youth and families, as well as support each other! I am proud to be a part of this amazing collaborative.

I am regularly sending out information as it becomes available to me so please check your emails, and please share the information as necessary. Please see the Behavioral Health Resources as well as the OCPO Resources for those affected by COVID-19. Additionally, if you are on FB please go to the RWJBarnabas Health IFPR Communities that Care - Toms River page, Like it and follow for information and updates. You can also go to the Barnegat Communities That Care page, Like it and follow for information and updates.

The YSC is still working off the timeline presented at the February meeting (also attached). Some of the items on the timeline are subject to change as this COVID-19 pandemic progresses. I will keep you informed of any changes. Please check out the FB page for the Ocean County Youth Center, Like it and follow for information and updates!

If anyone has any questions about the information that is attached please do not hesitate to reach out. I wish you all a safe and healthy weekend. Take care and be well!  
Shelby

**Subject:** Re: FW: Checking-In! Resources for You and Your Students  
**Attachments:** Agency-closings-and-updates-3.24.20.pdf

Good Afternoon All,

I hope this e-mail finds you well as we transition into the afternoon for Wednesday. Thank you for providing these resources, I will be sure to utilize and distribute as needed. I'd like to also note that the SNAP-Ed Team for Ocean/Monmouth county is presently active in operations (albeit remotely) and works closely with both the Community Foodbank of NJ and Fulfill Foodbank in Central Jersey. For the Monmouth/Ocean regions, I'd like to provide a list of pantry/agency services with updated hours and closures (updated as of yesterday) that Fulfill operates with in the area if anyone is in need of such resources presently. It is attached to this document.

Best Regards and Stay Safe!  
Thomas Venezia

**Subject:** Re: FW: Checking-In! Resources for You and Your Students

ATTENTION: As encouraged by the Centers for Disease Control and Prevention (CDC), Genpsych, PC is implementing additional measures to prevent the spread of COVID-19. As of Tuesday March 17, 2020 we will be operating remotely using telehealth services to provide ongoing treatment for all current and new patients. New program intakes, out patient evaluations, and follow up appointments are still being scheduled. Our PHP and IOP programming continues to operate on a virtual basis. To schedule an appointment or for additional information please contact one of our offices.

Admissions: 1-855-436-7792

Good morning DYPC Advisors,

Megan and I hope that this email finds you all and your families healthy and well. We know that we are currently living in a time of great uncertainty during this Covid-19 outbreak and we wanted to provide you all with some prevention focused resources for you, your families, and your students (including our YPC student heroes).

We are also working on creating webinars through Zoom that we will invite you all to. These modules will also be available as recorded sessions. We welcome any feedback you may have on the content/resources you need during this unprecedented time in our country. You can fill out our Coalition survey here to provide this insight: [https://www.surveymonkey.com/r/covid-19\\_coalitionconnections](https://www.surveymonkey.com/r/covid-19_coalitionconnections).

We are of course monitoring the potential for an uptick in substance use during and after this epidemic. However, we also know that providing our families with tools they may need during this time can lead to increased family connection and bonding. Please let us know how we can be of assistance to you, your families, and students during this time. We all know the importance of community connection and are hoping to continue to forge a strong network even if it is via digital platforms.

Stay healthy and well. Talk to you all soon.

Best,

Abby, Meg, and the DART Prevention Coalition Team

**For You/Your Families/Your Students' Families:**

- ***NIDA's Toolkit for Out of School Time*** offers science-based activities and resources on drug use and addiction for educating teens during out of school time (OST). The OST setting—before and after school, in the summer, or any time teens attend a supervised program outside of the typical school time—offers a unique opportunity for STEM (science, technology, engineering, and math) learning.
  - o <https://teens.drugabuse.gov/teachers/out-of-school-time-toolkit>
- ***Lesson Plan and Activity Finder*** from NIDA – you name it, it is there
  - o <https://teens.drugabuse.gov/teachers/lessonplans>
- ***Managing Stress and Anxiety during COVID-19***

ATTENTION: As encouraged by the Centers for Disease Control and Prevention (CDC), Genpsych, PC is implementing additional measures to prevent the spread of COVID-19. As of Tuesday March 17, 2020 we will be operating remotely using telehealth services to provide ongoing treatment for all current and new patients. New program intakes, out patient evaluations, and follow up appointments are still being scheduled. Our PHP and IOP programming continues to operate on a virtual basis. To schedule an appointment or for additional information please contact one of our offices.

Good morning DYPC Advisors,

Megan and I hope that this email finds you all and your families healthy and well. We know that we are currently living in a time of great uncertainty during this Covid-19 outbreak and we wanted to provide you all with some prevention focused resources for you, your families, and your students (including our YPC student heroes).

We are also working on creating webinars through Zoom that we will invite you all to. These modules will also be available as recorded sessions. We welcome any feedback you may have on the content/resources you need during this unprecedented time in our country. You can fill out our Coalition survey here to provide this insight: [https://www.surveymonkey.com/r/covid-19\\_coalitionconnections](https://www.surveymonkey.com/r/covid-19_coalitionconnections).

We are of course monitoring the potential for an uptick in substance use during and after this epidemic. However, we also know that providing our families with tools they may need during this time can lead to increased family connection and bonding. Please let us know how we can be of assistance to you, your

families, and students during this time. We all know the importance of community connection and are hoping to continue to forge a strong network even if it is via digital platforms.

Stay healthy and well. Talk to you all soon.

Best,

Abby, Meg, and the DART Prevention Coalition Team

---

**Subject:** FW: Press Release: Mental Health Telephone Support Available During COVID-19 Outbreak

FYI

## Mental Health Telephone Support Available During COVID-19 Outbreak

*The NJ Mental Health Cares Helpline Offers Support to Individuals Experiencing Anxiety and Worry Related to the Coronavirus Pandemic*

March 23, 2020

(TRENTON) – New Jerseyans feeling the emotional and mental toll of COVID-19 can get support from a special helpline.

NJ Mental Health Cares, the state's behavioral health information and referral service, will now also offer help to people dealing with anxiety and worry related to the Novel Coronavirus (COVID-19) outbreak. New Jerseyans can call **1-866-202-HELP (4357)** for free, confidential support. NJ Mental Health Cares will be answered from 8 a.m. to 8 p.m. seven days a week by live trained specialists.

NJ Human Services' Division of Mental Health and Addiction Services provides support to the Mental Health Association of New Jersey (MHANJ) to operate the line.

“This is a very challenging time for so many of us,” said Carole Johnson, Commissioner of NJ Human Services. “We want to make sure that New Jerseyans have a safe space to talk to someone about their worries and concerns. The thoughtful and caring team at NJ Mental Health Cares are here – at the other end of the phone line – to help.”

“Talking to others and staying connected with friends and family can help reduce anxiety and make people feel more in control,” DMHAS Assistant Commissioner Valerie Mielke said. “The trained specialists answering these phones can help callers take care of their mental health during this difficult time.”

“In times of crisis, it is important to pay as much attention to your mental health as your physical health,” said Mental Health Association of New Jersey President and CEO Carolyn Beauchamp. “Life has shifted drastically and quickly – this causes us to feel that we are not in control, which adds to the intensity of these emotions.”

NJ Human Services’ Division of Mental Health and Addiction Services has previously partnered with the Mental Health Association of New Jersey to operate the state’s mental health call line following Superstorm Sandy and 9/11.

Along with providing help for mental health issues related to COVID-19, the NJ Mental Health Cares helpline will also continue to offer general mental health support and referral. It does not provide any medical or financial advice or referrals.

For the latest medical information, including mental health guidance and tips, visit the Centers for Disease Control’s website: <https://www.cdc.gov/coronavirus/2019-ncov/prepare/managing-stress-anxiety.html>.

For the latest information about the COVID-19 outbreak in New Jersey, go to the NJ Department of Health’s website: [nj.gov/health/cd/topics/ncov.shtml](https://nj.gov/health/cd/topics/ncov.shtml).

For the latest COVID-19 guidance and information for individuals, families and providers, visit NJ Human Services’ website: [nj.gov/humanservices/coronavirus.html](https://nj.gov/humanservices/coronavirus.html).

Good morning DYPC Advisors,

Megan and I hope that this email finds you all and your families healthy and well. We know that we are currently living in a time of great uncertainty during this Covid-19 outbreak and we wanted to provide you all with some prevention focused resources for you, your families, and your students (including our YPC student heroes).

We are also working on creating webinars through Zoom that we will invite you all to. These modules will also be available as recorded sessions. We welcome any feedback you may have on the content/resources you need during this unprecedented time in our country. You can fill out our Coalition survey here to provide this insight:

[https://www.surveymonkey.com/r/covid-19\\_coalitionconnections](https://www.surveymonkey.com/r/covid-19_coalitionconnections).

We are of course monitoring the potential for an uptick in substance use during and after this epidemic. However, we also know that providing our families with tools they may need during this time can lead to increased family connection and bonding. Please let us know how we can be of assistance to you, your families, and students during this time. We all know the importance of community connection and are hoping to continue to forge a strong network even if it is via digital platforms.

Stay healthy and well. Talk to you all soon.

Best,  
Abby, Meg, and the DART Prevention Coalition Team

#### **For You/Your Families/Your Students' Families:**

- **NIDA's Toolkit for Out of School Time** offers science-based activities and resources on drug use and addiction for educating teens during out of school time (OST). The OST setting—before and after school, in the summer, or any time teens attend a supervised program outside of the typical school time—offers a unique opportunity for STEM (science, technology, engineering, and math) learning.

Good morning DYPC Advisors,

Megan and I hope that this email finds you all and your families healthy and well. We know that we are currently living in a time of great uncertainty during this Covid-19 outbreak and we wanted to provide you all with some prevention focused resources for you, your families, and your students (including our YPC student heroes).

We are also working on creating webinars through Zoom that we will invite you all to. These modules will also be available as recorded sessions. We welcome any feedback you may have on the content/resources you need during this unprecedented time in our country. You can fill out our Coalition survey here to provide this insight: [https://www.surveymonkey.com/r/covid-19\\_coalitionconnections](https://www.surveymonkey.com/r/covid-19_coalitionconnections).

We are of course monitoring the potential for an uptick in substance use during and after this epidemic. However, we also know that providing our families with tools they may need during this time can lead to increased family connection and bonding. Please let us know how we can be of assistance to you, your

families, and students during this time. We all know the importance of community connection and are hoping to continue to forge a strong network even if it is via digital platforms.

Stay healthy and well. Talk to you all soon.

Best,

Abby, Meg, and the DART Prevention Coalition Team

### **For You/Your Families/Your Students' Families:**

- ***NIDA's Toolkit for Out of School Time*** offers science-based activities and resources on drug use and addiction for educating teens during out of school time (OST). The OST setting—before and after school, in the summer, or any time teens attend a supervised program outside of the typical school time—offers a unique opportunity for STEM (science, technology, engineering, and math) learning.

**From:** Saranda Ceka  
**Sent:** Monday, September 21, 2020 9:19 AM  
**To:** Shannon Brown  
**Cc:** Helen McGovern; Geralynn Roma ([REDACTED]); Joann Benson; Kimberly Reilly  
**Subject:** RE: "Footprints for Life" Letter of Intent from Toms River, Pine Beach, Beachwood MA Coalition

Good morning,

Thank you for reaching out to inquire about where we stand with the training. I hope you and your staff are doing well as I know these are trying times for schools.

Unfortunately the Footprints for Life teacher training has been put on hold for the foreseeable future. We face two COVID related issues as why we are not able to implement the training: the first being Municipal Alliance funds have been rerouted by the state to help deal with COVID and the second is that the training needs to be done in person and the health department is still closed to in-person trainings and meetings. We expect funding to be restored by next year and we will notify the alliances if we can revisit the Footprints for Life trainings at that time.

In the interim if you would like to schedule Footprints for Life for TR schools the health department is offering the program virtually. Teachers can contact [HealthEd@ochd.org](mailto:HealthEd@ochd.org) for information and scheduling.

Thank you again for touching base. I hope that TR has a successful and safe school year!

Best,

Hi everyone,

Well, it's been awhile, and I'm sure for some of you, it has felt like an eternity! I hope that you are all well and have stayed safe and healthy throughout our current reality.

While there are much more important things happening in our world and community, I wanted to touch base to determine where we stand with the possibility of obtaining funding for implementation of Footprints for Life with our Toms River Schools' second graders. Please know that I completely understand if the funding has been used elsewhere and am mindful that the OCHD may have their hands too full to provide training for our staff, so consider this email a no pressure follow-up to simply see where we stand as we transition back to a degree of normalcy. ;)

I look forward to hearing back from you! Thanks for everything that you are doing and have done for our community!

Shannon

Hi Helen,

Truly wonderful work! I want to thank everyone who worked together to accomplish the LOI. Students who attend Toms River schools will benefit tremendously off of this great opportunity. I will notify you in late March after the LOI is scored and approved by the CASS committee. From there we can start looking at what dates in April/May/June would work best for the identified personnel to be trained.

All the best,

Dear Saranda,

I have scanned in our MA Coalition Letter of Intent with a detailed letter from TR Schools' very efficient Shannon Brown! I think we've covered everything.

Let me know if you need anything else.

Would you like me to send you a hard copy in the mail?

Thank you for all your assistance on this!

**Subject:** [REDACTED] BDI

Hi Stacey,

Is there a BDI from the last 6 months for [REDACTED]? And if so can you try and get consents from the parent to share it with me (I know last you checked you didn't have them). We came up with a bit of a plan to try and move forward with eligibility and having a current BDI helps big time. If it's not from within the last 6 months then no worries we can't use it.

Thanks so much!

**Subject:** RE: RE: NJ Department of Health Vaccine Information

No, unfortunately that is from the State Dept. of Health. Many of the seniors are getting confused with the registration process that the State has offered. This has nothing to do with an appointment with us. Please ask her to check our website at [www.ochd.org](http://www.ochd.org) for updates on our availability and to schedule an appointment with us, when one becomes available. She can also call us at 732-341-9700 ext. 7411. It is very nice of you, to offer to help her.

Thank you,  
Stephanie

Anita sent me this. I don't think this has anything to do with the Ocean County Health department? Do you know?

Really appreciate your time. She is 87 and happened to call our school. I felt bad and trying to help her. She can not seem to find the email confirmation she did say she gave her insurance information.

Again Thank you sure you must be busy.

## - Please type your reply above this line -##

Thank you for contacting the New Jersey Department of Health Vaccination Center.

All persons who pre-registered on the NJ Vaccine Scheduling System (NJVSS) will receive a confirmation email within one hour of signing up. This e-mail will confirm your registration and provide

important updates and will be sent to the e-mail address you provided when you registered on the NJVSS. Please be sure to check your Spam Box.

If you have additional questions or would like more clarification please reply to this email and one of our support representative will contact you. We appreciate your patience and commitment to stopping the spread of COVID-19!

**Subject:** RE: How to verify my shot time and date

Good morning,

Unfortunately, I can't find Anita in our system. We do not have her scheduled at this time. Sometimes when this happens, it is because the person scheduled for a covid test and not the vaccine. I can't check that system. Can you please confirm if she ever received a confirmation email from us or if she remembers entering her insurance information at the time of scheduling?

I will try to assist her once I know this information. However, if she did not successfully submit the form for a vaccine appointment, she would not have an appointment with us. At this time, we are currently full.

Thank you,  
stephanie

**Subject:** RE: Staff Member & Student COVID Positive

If you cannot determine who has or has not been in close contact with the known positives and they all were in close proximity to each other then they should be all requested to quarantine. I know some schools and programs initiated smaller "pods" of training meaning they limited the number of players who participated in drills and/or activities. This would then keep players exposure to others at a minimum through smaller groups. Was that instituted at all do you know? I will confer with the team here and we will touch base.

**Subject:** Staff Member & Student COVID Positive

Good afternoon Dan,

On Saturday, the TR High School East head football coach tested positive for COVID-19. We immediately initiated procedures for contact tracing and quarantine. Today, a varsity football player also tested positive. Due to the fact football does not entail limited close contact, it is not possible to conduct accurate contact tracing, and it has thereby been determined by our district physicians that all players should follow the 14-day quarantine procedures. We would like to have your input in this matter.

Thank you in advance.

Sincerely,  
Mrs. Cara DiMeo  
Assistant Superintendent  
Toms River Regional Schools

**Subject:** Positive COVID

Good afternoon ,

We have a second positive COVID-19 case at HSN. The staff member had not been in contact with the previous positive case.

Previous guidance that we had received indicated that two positive cases might entail a building needing to be shut down. We need to get our procedures nailed down now, especially before we start bringing students into building in 2 weeks. Should we reach out to the Ocean county health department for guidance?

Ed. is also planning to get a communication out to the staff letting them know that they will be contacted if they had been in the 6 foot 15 minute direct contact. Please let us know how we should proceed.

Thanks in advance for your help.

Greetings,

Our preschools are an integral part of our communities and true partners in public health. During this unprecedented time we know that you and your employees will have questions and concerns. Please know that the Ocean County Health Department stands at the ready as your resource to assist and answer any questions you may have not only in times of emergency but throughout the year as well for your school and all Ocean County residents. Today, we have enclosed a presentation on COVID-19 for your review. Additionally, please feel free to contact our COVID-19 information line at (732) 341-9700 x 7411 should you have further questions or concerns. Lastly, visit our website at [www.ochd.org](http://www.ochd.org) anytime for a complete list of our departments, services and additional points of contact.

Thank you for your continued service to the residents of Ocean County.

Kind Regards,

Victoria Machtinger  
Assistant Administrative Analyst  
Ocean County Health Department  
732-341-9700 x 7508

**Subject:** Update

Good Afternoon All,

As most of you are aware, most facilities will be closed until further notice. Should there be any questions or concerns, the COVID-19 hotline at the Health Department is (732) 341-9700 x 7411. For updates, view the Health Department website at [www.ochd.org](http://www.ochd.org).

Thank you and stay healthy!

Kind Regards,

Victoria Machtinger
