**Re: Affidavit and Certification of Air Emissions Reduction Credits**  
Woodbridge Energy Center (Keasbey Energy Center Project)  
Permit Activity Number: BOP160004 / Program Interest Number: 18940

Dear Mr. Owen:

CPV is submitting the enclosed Affidavit and Certification of Air Emissions Reduction Credits. The enclosed includes specific emission reduction credits that CPV Keasbey certifies will be applied to the Keasbey Energy Center and secured prior to operations. The Affidavit is also being FedExed to your attention.

CPV Keasbey has already secured and transferred 11.74 tons of VOC Creditable Emission Reduction credits from United Wire Hanger Corporation (NJDEP Banking Log Number 2017-1411). At the time of transfer these VOC credits were subject to the 5-year Discount of 50%, so only 5.587 tons year of VOC were applied to the emissions reductions associated with the CPV Keasbey Energy Center.

Additionally, for your information, CPV and TRC submitted the Multisource Air Quality Modeling under separate transmittal to Mr. Greg John at the NJDEP on April 29, 2022.

We look forward to working with the NJDEP on finalizing the air permit and appreciate the NJDEP efforts to date.

Regards,
