Deputy Clerk Cicero,

Here is the # 1 email requested

I did not have an email sent to Mr. Drucker on March 1 with the subject line Bill Spadea. But I sent this one to Mr. Drucker on Feb. 29. You and our Council can decide if this should be shared because technically it does not meet the criteria of the OPRA request.

Respectfully in the service of the people,

Pastor Dominick Cuzzo,
Plumsted Township Mayor

Deputy Clerk Cicero,

This my best attempt to give the # 2 email.

This again was not sent on March 1 but was sent on Feb. 29. I have attached the entire email chain. All of which was sent on Feb. 29.

Respectfully in the service of the people,

Pastor Dominick Cuzzo,
Plumsted Township Mayor

Mayor,
That sounds great. I am looking forward to meeting with Kevin anytime.
Also I'm definitely interested the recycling coordinator job.
I think that these two positions would be a perfect fit for me.

Thank you so much for looking into all of these options. I'm available anytime to meet.

Thank you
Richie Damato

Subject: Re: OPRA Request

Clerk Smith and Counselor Cipriani,

Here is the first email from Feb. 7:

I received this information and I am understandably very concerned. Please help me pass it around to the appropriate parties and please give me your thoughts on how to proceed.

Environmental Committee Chairman Neyenhouse,
Please send this information to the entire Environmental Committee and please call an emergency meeting. This matter needs to be dealt with urgently.

Clerk Witham,
Please forward to the entire Township Committee and make sure this is on the agenda for our special meeting. Please list it as "Potential Contaminated Farm at 149 Brindletown Rd."
Also, please assist John in getting the information emailed to the entire Environmental Committee.

LUB Secretary MacReynolds,
Please work with the lawyer and assist Chairman Hallock in making sure the municipality is protected.

Business Administrator Myhre,

Please assist me in recording the timeline of this information to make sure that the township does our due diligence expeditiously.

Respectfully in the service of the people,

Pastor Dominick Cuozzo,
Plumsted Township Mayor
iPhone 865-604-3618

Here is another email from Feb. 7,
The email was from John to Jen but I was copied on it:

Jen,

Can you please send me the contact information for the new Environmental Committee members that were just appointed to the Environmental Committee at this month's Township Committee Meeting?

I am not sure how to get in touch with them since I have never met any of the four new people that were appointed by the Township Committee.

Thank You,
John Neyenhouse

Here is an Email from Feb. 9:

EC Chairman Neyenhouse,

I tried calling and texting you today without any response or answer.

Please give me a call at your earliest convenience. I have several issues to discuss with you.

I would like to request that you CC me on all future Environmental Committee Meeting email correspondence.

I would also like to be notified of all your planned meetings. I will be attending.

There are several ways that Chairman Hallock and I would like to request that the EC conduct their advisory functions as well as ways in which we would like to request that the EC provide for its interactions with the LUB. The interactions and advisements of the EC to the LUB are of particular concern and we would like to confirm your understanding of the process going forward.

Respectfully in the service of the people,

Pastor Dominick Cuozzo,
Plumsted Township Mayor
iPhone 865-604-3618

I have a few more email chains from January but they are technically not about the environmental committee, they are about scheduling a meeting with John about an interview that the Deputy Mayor and I were working out scheduling. Should they be included as well? Please advise.

Thank you.

Respectfully in the service of the people,

Pastor Dominick Cuzzo,
Plumsted Township Mayor

Subject: RE: Rockin Fireworks

On it already. Stage, from Ocean County, is of utmost importance, which is reserved February 1. Herb had a suggestion about moving the event date to July 13, rather than July 6, as is it typically would be scheduled. His feelings, since the 4th falls on a Thursday, is it makes for a long weekend and other townships may be holding events the same day. What makes our event different is it generally follows later in July, bolstering attendance (for residents that may be vacationing during the long weekend) and the overall ability to attract "quality" vendors, food trucks, etc., with little or not problem. Perhaps that is a good idea for this year. It will also spread the distance, timewise, between other events you have added to our schedule. We will just need to firm that up soon to begin the scheduling and solicitation process. I have maintained all information from last year's event, as well as what was provided from previous events.

Also, we might consider a different title for the event. I attempted to stay away from the "rockin" verbiage last year since the band had less notoriety as had previously been billed in prior years. Yes, it was still rockin, but it may convey a different appeal to longtime residents. Fireworks "2024" or "2024 Fireworks Celebration" or similar, because it follows the 4th, may be more attracting and will project the image that this year's event will be different from prior July events. Obviously, we can come up with some clever names or embrace what we have already used.

Herb also indicated he has a meeting on Wednesday morning with the two other sponsors from last year. It was not clear whether or not they were going to fund the fireworks at this point. Hope all of this helps. I will certainly keep you in the loop.

Alan,

You had mentioned that several of the reservations for the Rocking Fireworks would need to be scheduled soon.

Could you begin working on those reservations that you believe should be arranged?

Please keep me in the loop as to what those arrangements are and let's make sure that we draft a plan for how we can proceed in planning.
