Subject: Recycle Coach - Greenwich & Hopewell
From: Joshua Alzona <jalzona@recyclecoach.com>
Date: 1/8/2019, 11:53 AM
To: public works <publicworks@hopewelltp-nj.com>

Hello Dave,

The new year has arrived and now is a great time to be on board with Recycle Coach. Just last year, the average municipality in NJ had 2973 unique Recycle Coach visits, with 15,905 touches of the product. **All of this was completed with cost to the municipality.**

Your municipality can be part of the program too. We are present in over 200 NJ towns and we would love for you to join.

Please contact us at your earliest convenience to get this started.

Thanks.

And the winners are...

Subject: And the winners are...

From: All Access Equipment <mike@allaccessequipment.com>

Date: 1/8/2019, 3:41 PM

To: David <publicworks@hopewelltp-nj.com>

The votes are in, we have our winners!

[View this email in your browser](#)

We have our winners...

Drum roll please!

We received so many incredible photo submissions, it was tough to pick the winners! Amazing shots of tree care, facility maintenance, glass cleaning, and more from all over the USA, featuring several different models of CMC tracked aerial lifts. After long and careful consideration, we narrowed it down to the three winners:

[Click on any image to read the full blog post on our website, and see more of the photo submissions.](#)

glass cleaning with a spider lift

#1 - Varsity Facility Services

John, of Varsity Facility Services (TN), sent in some incredible shots of their CMC 83HD+. We chose this as the top submission for several reasons. Congratulations John!

- 1) Impressive job site:** *difficult access, extreme setup, telescoped reach, and more.*
- 2) High quality image:** *the photo was sent with high resolution, clarity, the lift was in focus, and there weren't overpowering shadows.*
- 3) Proper PPE & safe practices:** *basket operator is wearing all proper PPE (helmet & harness), and the lift is properly & safely setup on the slope.*

#2 - Frontier Tree Service

Kevin, of Frontier Tree Service (NJ), submitted several great photos of their CMC 83HD+ Arbor Pro working. Our favorite among their submissions was this one of the lift set up in a backyard around a pool.

- 1) **Impressive job site:** One of the most important values of a CMC lift is that it gets you into areas that have been previously impossible or inaccessible. This image shows the lift using its full potential, and what makes it special.*
- 2) **High quality image:** the photo was sent with high resolution, clarity, the lift was in focus, and there weren't overpowering shadows.*
- 3) **Proper PPE & safe practices:** basket operator is wearing all proper PPE (helmet & harness), and the lift is properly & safely setup around the pool.*

Winners will receive their award package within 1-2 weeks.

Thank you to all who participated!

This was a fantastic photo contest. We have received many pictures, and they were even better than the last contest. We're excited for the next one!

If your photo submission isn't featured here, [read the full post on our website](#), and here are a few things to consider for the next contest:

1. Is my image high quality? *(high resolution, not edited, no dark shadows, focused. If you zoom in, is it clear?)*
2. Are the personnel in the photo wearing proper safety gear?
3. Ask us if you have questions! *(media@allaccessequipment.com)*

Honorable Mentions:

Crawler lift power washing

narrow access tracked lift

Action Window Cleaning
Tight quarters, easy access!

C.I. Woodworking
Compact entrance no problem!

And the winners are...

decorated tracked aerial lift

spider lift tree care

North Goshen Tree Service

Ho ho ho!

Forest Tree Surgeon

Narrow setup!

track lift tree care

tracked lift climbing slope

Bluestone Tree

Set up anywhere you can imagine!

Tri County Services

Easy slope climb with the 83HD+!

Upcoming Events

Opportunity Zones: "Unlocking the Potential for Brownfields"

January 16, 4:00 PM - 7:00 PM | Newark, NJ

Join BCONE as it discusses the Opportunity Zones initiative, a provision in the Tax Cuts and Jobs Act of 2017, to boost private investment in low-income areas. This program will discuss:

- Where are the Opportunity Zones?
- Why are Opportunity Zones expected to be more successful than past programs?
- What are Opportunity Funds and why are they important?
- Who is establishing Opportunity Funds and how do you connect with them?
- What can municipalities with Opportunity Zones do to better position themselves for private investors?
- What are some of the unresolved issues with Opportunity Zones/Funds?
- What resources are available to support Opportunity Zones/Funds?

Funding Available for Collaborative Sustainability Projects; TFN Partners for Places Grant

Due: January 31, 2019

The Funders' Network for Smart Growth and Livable Communities (TFN) has announced the

fourteenth round of its Partners for Places grant competition to help fund local projects that promote a healthy environment, a strong economy, and well-being for all residents. This program creates opportunities for cities and counties in the United States and Canada to improve communities by building partnerships between local government sustainability offices and place-based foundations. Through these projects, Partners for Places fosters long-term relationships that make our urban areas more prosperous, livable, and vibrant. [View details on funding opportunities here>>](#)

Funding Available for Creative Placemaking

Due February 14, 2019

The National Endowment for the Arts (NEA) is offering up to \$100,000 for projects that enhance communities, complement revitalization, and better connect cross-sector stakeholders through arts and culture under the Art Works grant program. Public art projects can be the start of a transformative effort in your community or complement existing redevelopment. Projects should focus on creativity, livability, learning, and engagement, and partnerships are strongly encouraged. [View details on funding opportunities here>>](#)

Good morning!

My name is Melanie Cucunato, I am your watershed ambassador for WMA 17 which includes the Salem, Cohansey, and Maurice River.

For those of you who do not know about me or my program, I am serving a term with AmeriCorps and the New Jersey Department of Environmental Protection (NJDEP). My position includes going into schools to conduct environmental education presentations, I collaborate and organize community outreach events like rain barrel workshops, rain gardens, tree plantings, trash cleanups, etc, I conduct environmental stewardship trainings where I train volunteers on how to be citizen scientists for the day, and I do field work for the NJDEP and collect data on water quality of streams. **I am a FREE resource available to municipalities, schools, and organizations who want to work together to improve the watershed we all share!**

There will be a lot of information in this one email, so please bear with me!

First, I have an event coming up during the week of April 6th – April 13th called the South Jersey Scrub. The Partnership for the Delaware Estuary (PDE) and the NJDEP are partnering in this southern New Jersey cleanup effort, targeting the Lower Delaware Watershed region. The South Jersey Scrub will be in its second year in 2019, with support from the NJDEP AmeriCorps Watershed Ambassador Program and NJ Clean Communities.

In 2018, PDE partnered with the Cumberland County Improvement Authority (CCIA) and the Salem County Clean Communities program to clean up six sites over two days, with 80 volunteers! This year, we are looking to expand the South Jersey Scrub to as many towns as possible, ranging from Trenton down to Cape May.

If your town would like to get involved and schedule a cleanup as part of the South Jersey Scrub, **please respond to this email so I can set up a meeting date with you.** Please respond by January 25th as we need to start picking out sites as soon as possible! If those dates do not work for you, let me know and I will be more than happy to figure out a different date for your cleanup.

Second, those of you who are registered with Sustainable Jersey – they have just released a PSEG Foundation sponsored grant for municipalities and schools to support efforts related to the Sustainable Jersey actions. If your municipality or any schools in your town would like to participate (or if you have any suggestions of towns or schools) **please respond to this email stating you are interested so we can set up a meeting date to discuss further the projects we can collaborate on!** The municipality grant is due February 15th and the schools grant is due March 15th

If there is anything else that I can provide my services for; if you are interested in presentations, other projects, or a training, please let me know. I want to serve my watershed as best as I can, and with your help, I believe I can make that possible!

Sincerely,

AmeriCorps: Getting things done for America!

Melanie Cucunato

Licenses available [here](#).

Offer valid only on in-home sales contracts signed between 1/10/2019 through 1/30/2019 and installations completed and paid in full by 2/15/2018. Offers are not valid on prior purchases, clearance merchandise, purchases of gift cards and may not be combined with certain offers. Offer valid only on in-home sales contracts signed and systems installed between valid dates. Customers will receive a rebate via The Home Depot Mastercard® Prepaid Card with purchase of qualifying installed heating and cooling systems through The Home Depot®. Card is issued by MetaBank®, Member FDIC, pursuant to license by Mastercard International Incorporated. Mastercard is a registered trademark, and the circles design is a trademark of Mastercard International Incorporated. No cash access or recurring payments. Card valid for up to 12 months. Funds do not expire and may be available after card expiration date, monthly card account management and post-expiration card re-issuance fees may apply. Card terms and conditions apply. All rebate amounts are based on the specific qualifying products and model numbers installed. Please check with service provider on rebate amounts by model number. Eligible on select products in the following categories: indoor air handler/furnace, outdoor condensing unit or heat pump, ductless mini-splits, package units, and boilers of eligible brands including Rheem®, Carrier®, Lennox® and Mitsubishi Electric. Not all equipment types available in all brands. Full systems are not required; however, installations which include both indoor and outdoor units must be AHRI-rated matched equipment (same brand for outdoor and indoor). Home Depot will submit online claim on eligible equipment on behalf of customer following completed installation and when paid in full and processed by Service Provider. Allow up to 8 weeks to receive rebate cards by mail. Offer cannot be combined with any other manufacturer rebate or financing offer. This program is subject to change at any time. Offer not valid in all areas. Call 1-800-HOMEDEPOT (466-3337) for details. All sales must be to homeowners in the United States. Void where prohibited. Service may not be available in all areas. Home Depot local Service Providers are background checked, insured, licensed and/or registered. Good afternoon Coordinators,

I just wanted to send out a reminder for next weeks meeting on January 16 at 9:30a at the MSF. We will be primarily covering the change in our single stream and how it is affecting your community, as well as how each municipality is informing their citizens of this change.

Attached you will find the HHWD flyer. I apologize this is a little behind.

Thank you,

Loretta Pregartner
Recycling and Clean Communities Coordinator
