Addendum Disposition Notes: Your request for all "Denial Letters for preliminary applications that were refused to properties and or places attempting to be listed in the NJ historic registry filed from 2015 through 2019", has been denied on the basis that the request requires the NJDEP to conduct research & correlate data, which is not required pursuant to N.J.S.A. 47:1A-9 & Mag Entertainment v. Div. of Alcoholic Beverage Control 375 N.J. Super 537 (App. Div. 3/05). The Historic Preservation Office (HPO) does not track the status of responses to Preliminary Applications in their systems. In order to identify responsive records, the NJDEP would have to first create a report that identifies all preliminary applications received during the subject period, locate the matter's file, and then review each application response to determine if it would be considered a "denial". These activities would be considered "research" and "correlation" of data. HPO's responses to preliminary applications are usually either that the subject matter appears to be eligible or ineligible based on the information provided. The issuance of a denial would be a rare occurrence.	Matthew J. Cofer 02/11/2020 Custodian Signature Date
