Good Morning Timothy,

My name is Brian Vergantino. I am the Code Enforcement Official and Assistant Zoning Official for the Township of Dennis. I was asked to contact you by our Business Administrator Jessica Bishop.

We are looking to get the LEA back in house. We would like to know any and all non life hazards and life hazards, also including residential and any and all permits/fees that were collected in the year 2021. If you know how we can obtain this and if you are able to provide this to us, it would be very helpful.

If you have any questions or need to speak you can give me a call at 609-861-9700x226 or give me an email back. Thank you. Have a good day.

Lou
I received this message again today from Dennis Twp. I replied to him that you were reaching out to the Business Administrator to discuss.

Good Morning Mr. Paar,

I am just following up to the email I sent on February 2, 2022. I just wanted to check on the status of being able to obtain all the fees that were collected in Dennis Township for the year 2021. If you could get back to myself, or the Business Administrator Jessica Bishop, it would be greatly appreciated. Thank you and have a good day.

Subject: RE: [EXTERNAL] Dennis Township 0504

Good Afternoon Mr. Vergantino,

It is my understanding that Dennis Township is looking to assume the responsibility for the enforcement of the Uniform Fire Code in Dennis Township. Pursuant to N.J.A.C. 5:71-2.7(c) "The status of any enforcing agency with respect to responsibility to enforce the Code or inspect life hazard uses shall change as of the deadline date for submission to the next applicable quarterly registry unless the Division assumes jurisdiction in accordance with these regulations. Submission deadline dates for the registry are as follows:

- i. For the annual (first quarter) registry, December 31 of the previous year.
- ii. For the second quarter registry, March 31; for the third quarter registry, June 30; and, for the fourth quarter registry, September 30."

Prior to the closing dates for the registry the Division of Fire Safety will need the following items. An ordinance creating the Local Enforcing Agency, a letter from the appointing authority naming the Fire Official, a resolution appointing the Fire Official by name with an effective date, a letter from the appointed Fire Official accepting the responsibility, a copy of the Fire Official's certification card and complete contact information including e-mail address and 24 hour emergency contact number.

The appointed fire official will be responsible for enforcing the Uniform Fire Safety Act including the 26 duties listed under N.J.A.C. 5:71-3.3. The duties include but are not limited to inspection of Life Hazard Uses, inspection of Non-Life Hazard Uses, issuance of permits, fire investigations, public education and issuance of Certificate of Smoke Alarm, Carbon Monoxide Alarm, and Portable Fire Extinguisher Compliance. The ordinance creating the Local Enforcing Agency will need to include a Non-Life Hazard Use fee schedule to be charged to the business owners in your municipality that are not Life Hazard Uses for their annual inspections. I am unable to provide you with an estimate for the revenue generated through Non-Life Hazard Use inspections as currently the State Division of Fire Safety is providing this service free of charge to the businesses in your township. The Division has inspected the majority of all Non-Life Hazard Uses in addition to all Life Hazard Uses in Dennis Township.

Pursuant to N.J.A.C. 5:71-2.6(a) the Division of Fire Safety bills the Life Hazard Uses annually and remits 65% of the fees collected back to the Local Enforcing Agency. At the end of each year the Local Enforcing Agency must submit an annual report to the Division of Fire Safety certifying among other things that all Life Hazard Uses have been inspected. In cases where all Life Hazard Use inspections have not been completed, the Division will deduct an amount equal to the

registration fees attributable to those uses, from the amount of the Life Hazard Use registration fees disbursed in future quarters.

Please note, pursuant to N.J.A.C. 5:71-2.6(d) "All revenues generated pursuant to the Act or local implementing ordinance which are collected by or provided to a county or municipality shall be appropriated by the local governing body to the local enforcing agency for the purpose of enforcing the Code, operating the local enforcing agency and advancing local fire prevention interests." Accordingly, the funds derived from enforcing the Fire Code locally can only be utilized for fire prevention activities. Additionally, the penalties currently collected by the Division of Fire Safety for failure to abate violations and rebated to your fire districts will no longer occur.

Please be advised that the Fire Official that you appoint must have a current certification with the Division of Fire Safety as a Fire Official and must maintain that certification for the duration of their employment.

I have attached to this e-mail a listing of the Life Hazard Uses in Dennis Township. The total billable value is \$37,068.50. If all businesses paid their fees, no businesses closed or changed uses, the 65% rebate amount to Dennis Township would be \$24,094.53. Unfortunately, especially in light of the current pandemic, we have experienced businesses closing and not paying their Life Hazard Use fees. Currently this is running in excess of 10% and should be taken into account when figuring out your revenue.

During 2021 the State Division of Fire Safety performed 123 Certificate of Smoke Alarm, Carbon Monoxide Alarm, and Portable Fire Extinguisher Compliance inspections in one and two family dwellings at change of occupancy. \$5,535.00 in fees were received.

Additionally, I have attached to this e-mail a list of permits that were issued in Dennis Township in 2021. There were 74 permits issued for a total of \$5,915.00

It is also my understanding that Dennis Township has at least one fire district governing the operation of the fire department. Please be advised that pursuant to N.J.A.C. 5:71-2.3(a)3 which states "The governing body may designate as its local enforcing agency a requesting fire department, fire district, or an available county agency. In the event that none of the entities enumerated are available for designation, the governing body may elect to create or designate a local enforcing agency within the municipality. If no agency is created or designated, the Division shall exercise jurisdiction in accordance with N.J.A.C. 5:71-2.2(b)3."

Accordingly, based on the above regulation we will need a letter from each of the fire districts or in absence of a fire district, each fire company stating that they do not want to be designated as the enforcing agency prior to approving the municipality as the Local Enforcing Agency. The fire districts and or fire companies have first right of refusal pertaining to who is the Local Enforcing Agency.

I apologize for the long e-mail, but I wanted to make sure that I covered the important points to remember and address when creating a Local Enforcing Agency. I attempted to contact you by phone but was unable to reach you and had to leave a message. I never received a call back. Accordingly, I wanted to make sure that everything you needed was listed in the e-mail. If I can be of any further assistance or answer any additional questions, please feel free to contact me. I would appreciate it if you would kindly keep me advised as to your plans. Thank you.

Lou Kilmer
