Annual Use of Force Instruction for Reporting

Atlantic Highlands Police Department Report for 1/1/16 - 12/31/16 by DSGT T. Stone

The following information must be provided in the annual report.

First, the total number of incidents which necessitated the use of force must be enumerated. The policy mandates that in all instances where physical, mechanical or deadly force is used each officer who has employed such force must complete a use of force report. As such, more than one officer may be completing a use of force report regarding an encounter with a single individual. Multiple uses of force against a single individual in the context of a single encounter should count as one incident and should not be double or triple counted. However, a single incident which results in a single officer using force against multiple suspects requires only one report.

Second, the information as to type of force utilized is to be broken down the following way:

Number of incidents involving officer use of physical force 7

Number of incidents involving officer use of mechanical force 0

Number of incidents involving officer use of deadly force 0

Number of incidents involving officer use of physical force and mechanical force 0

Number of incidents involving officer use of physical force and deadly force 0

Number of incidents involving officer use of mechanical force and deadly force 0

Number of incidents involving officer use of physical, mechanical and deadly force 0

Please note that these categories request information as to how many times officers used force as opposed to how many incidents of force there were. It bears repeating that there could be one incident where three officers use force against a single individual. This would result in one incident being counted but three uses of force reports being filed.

Please do not write in the shaded areas of the report.
