145 Crash Description/Narrative

V1 was traveling east on SR 33 East, in the left hand lane, approaching the Brighton Ave intersection. V2, an ambulance (ABBA #107), was traveling to an emergency (an unresponsive subject at Seabrook Village), with its emergency lights and siren activated. V2 had just come off of SR 33 East to W Sylvania Ave, and made a left to head north on Brighton Ave onto SR 18 North. V2 had a red light at Brighton Ave to cross SR 33. D2 entered the left hand oncoming lane, stopped at the red light to check for traffic, and then proceeded into the intersection.

D1 (who had a green light), stated she did not see the emergency lights nor hear the siren, and did not yield to the emergency vehicle. V1 then collided with V2. The front of V1 collided with the rear driver fender of V2. There were no reported injuries, and both vehicles were left on scene.

I received dash camera footage from ABBA, which showed both inside and outside the ambulance leading up to the crash. In the interior video, I could see D2 and P2 operating the siren, and from the exterior video, I could see several vehicles (who had the right of way) stop and yield the right of way to V2. I then checked the surveillance footage from Exxon (1 Brighton Ave), which had a clear, unobstructed view of the Brighton Ave / W Sylvania Ave and Brighton Ave / SR 33 intersections. In the video, V2 is clearly shown with emergency lights activated.

D1 was issued Summons #E20 757 for Failure to Yield Right of Way to Emergency Vehicles.
