145. Crash Description/Narrative V1 traveling behind V2 in the left lane of Rt1 North Bound near Thalia. Crash analysis revealed, as V2 slowed suddenly, the front of V1 struck the rear of V2 causing V1 to become disabled. V2 sustained moderate damages at this time. D2 advised, as he was traveling straight a vehicle from the middle lane cut in front of him, causing him to suddenly slow down. D1 advised, he was traveling straight when V2 suddenly decelerated, causing him to slam on his brakes and skid across the wet surface into the rear of V2. While on scene I observed the roadway to be slick and tires of V1 to be in good condition. 2 rear passengers of V2 advised that they had lower back pain, and declined medical attention at this time.
