145 Crash Description/Narrative

Box 118A: Driver states when she attempted to use the brakes, she may have accidentally hit the accelerator, which caused her to continue forward and crash.

Driver #1 was attempting to park in an open parking spot in the lot of 116 3rd Ave, Stop and Shop. Driver #1 began to pull into the spot, and claims when she attempted to use the brakes, she accidentally hit the accelerator. Vehicle #1 continued moving forward, and the front of the vehicle mounted the curb. The vehicle continued forward, and the front of the vehicle collided with a tree causing moderate/functional damage to the vehicle. The tree was dislodged and destroyed as a result of the collision. The driver then left the scene of the accident without reporting it to the police. When the Driver got home, they called the Stop & Shop to inform them of the accident.

I later spoke with the property owner, Richard Roccesano, who advised me he had photographs of the accused vehicle. I was able to determine the license plate, and responded to Driver #1's residence. I spoke with the driver, Susan Pardo, who told me she did not think she had to call the police since she told an employee of Stop & Shop. Pardo advised me she had lower back pain, however she refused medical attention.

I issued Pardo summons # 1335E20001010 for careless driving. Pardo was advised she has a mandatory court date of October 7, 2020 at 9:00 AM.

I spoke with Roccesano afterwards and he approximates that the value to replace the tree will cost him \$1,500.
