Sub-Contractors

Next Technology Partners will support all IT managed services entirely using our own resources. No subcontractors will be involved as part of this project.

Our Qualifications | Client Advantage

For over 19 years, Next Technology Partners, LLC has been delivering cutting edge technology solutions, project management, and responsive support services to businesses in the Tri-State area.

We offer a comprehensive suite of services that can be tailored to the needs of our clients. Our expertise in business process management and development combined with successful implementations of hundreds of IT projects has honed our proficiency to analyze your environment, parse out your needs, and match the best solutions within your budget by leveraging cutting edge technologies that will maximize your IT dollars and streamline your infrastructure.

Our business process experience and expertise will assist you throughout any implementation and will bring with it process improvements and efficiency along the way. Next Technology treats the client as a partner and acts as an in-house resource to deliver continuous value throughout the project lifetime. Trust your IT infrastructure management and IT needs to an organization of proven professionals that utilize cutting edge technology and tools. Being that we are vendor-agnostic, we provide both cloud-based and premise-based solutions and only offer the technology we feel will best meet the needs of the client.

Fast forward to today **Next Technology Partners** stands uniquely poised to support Rockaway Township's managed IT services with a proven track record of delivering resilient, secure, and high-availability IT solutions. Our extensive experience in the IT sector, combined with a deep understanding of network operations and security, enables us to construct and manage robust systems that are not only safe but also consistently reliable. We leverage cutting-edge technologies and industry best practices to safeguard against evolving threats, ensuring that Rockaway Township's systems remain both secure and optimally functional.

Our team of certified professionals is committed to implementing a proactive approach to IT management, focusing on prevention, swift response, and continuous improvement. This dedication to excellence in service and technical prowess makes Next Technology Partners the ideal candidate to handle Rockaway Township's IT needs, ensuring peace of mind with systems that are always safe and available.

We approach all of our projects with a focus on understanding the current state of the organization and macrotrends in the space, which we then use to develop a tailored strategy and custom

implementation. Because we staff projects using our own resources, we guarantee all projects live up to our standards of quality.

Executive Summary | Robust-Available-Scalable

At Next Technology Partners, our state-of-the-art technical environment is architected to deliver unparalleled IT managed services, ensuring robust security, high availability, and seamless scalability that directly benefits our clients.

Infrastructure Excellence - Our advanced IT infrastructure is an expansive cloud integration, optimized for agility and resilience. We maintain a hybrid cloud environment that allows for flexible resource allocation, ensuring Rockaway Township's services can scale on-demand without compromising performance.

Disaster Recovery Assurance - We employ a robust disaster recovery strategy, ensuring business continuity with minimal service interruption. Rockaway Township can trust in our rapid response and predefined recovery protocols to maintain operational consistency in any eventuality.

Sophisticated Software Suite - Underpinning our dedication to maintaining the highest levels of data integrity and privacy for our clients we employ leading industry solutions for network management, automated helpdesk ticketing, and real-time incident response. These tools facilitate efficient problem resolution, minimize downtime, and enhance user experience, translating into reliable IT support for Rockaway Township.

Security at the Forefront - We implement a multilayered security approach, with endpoint protection, and continuous monitoring systems. Our commitment to safeguarding data is manifested in our strict adherence to digital security frameworks and regular security audits with our customers, ensuring Rockaway Township's operations are shielded from threats.

Executive Summary | Proven Performance

Proven Performance - Our SLAs include a 99.5% uptime guarantee, with detailed ticket reporting and response time tracking. Although we currently do not have government clients, our approach to service performance reporting is thorough and transparent, focused on identifying trends and implementing proactive measures to prevent recurring issues.

Expertise and Immediate Support - We offer a multi-channel helpdesk with an average response time of less than 15 minutes*. Our support includes a stationary help desk and the capacity to provide on-site assistance within an hour for issues that cannot be resolved remotely, ensuring rapid response and resolution.

Cost-Effective Operations - Our optimized technical solutions not only enhances performance but also drives cost efficiencies through budget-friendly solutions to Rockaway Township.

Innovation-Driven Solutions - Next Technology Partners is at the forefront of technological innovation. We continuously explore and integrate cutting-edge solutions, such as AI-driven threat detection offering Rockaway Township a competitive edge through modernized IT services.

Experience and ability to perform this work.

In almost two decades of doing business, we have a 100% customer retention rate. This repeat business from our clients is due to the results we consistently provide. We believe in producing real results for our clients, and we work hard to make sure this always happens.

As we expand into government sector services, we are actively reviewing compliance with specific government regulations. It's important to note that we do not store government data; therefore, data protection and privacy safeguards are primarily managed at the agency level with their existing software and hardware.

By selecting Next Technology Partners, Rockaway Township will gain a partner who is a strategic asset driving the Township's IT agenda forward.

* as of 12/1/2023

Scope of Work | Rockaway Township Managed IT Services

Next Technology Partners (hereinafter "NTP") brings a depth of expertise and a commitment to excellence, ensuring that Rockaway Township's IT systems are not only well-managed and secure but also aligned with the Township's strategic goals and operational needs.

Requirement

Pro-active system maintenance for all network devices (i.e. warranty, network and asset status), including routine maintenance, monthly reviews and security management to prevent cyber-attacks including penetration testing.

On-site maintenance is required only if required due to limitations of remote corrections. c. Provide work ticket solution with response time in proposal. The Township desires response time for regular requests to be within 2 – 4 hours and will review proposals for categorizations of response times

Emergency response within two (2) hour maximum response time for operational issues, servers down, email access, network performance, network connectivity and other system issues.

Provide 24-7 coverage with four (4) hour emergency on site network and technical support, when required, to the Township's Police Department.

Response

Our managed services include the deployment of security agents on all machines for antivirus protection and patch management, ensuring that the network infrastructure remains up-to-date with the latest security protocols. We employ proactive monitoring techniques to identify and rectify performance issues swiftly, ensuring network reliability and minimal downtime.

NTP will implement a rigorous maintenance schedule for all network devices, ensuring optimal performance and security. Our monthly reviews and regular security assessments are designed to preemptively identify and mitigate potential vulnerabilities.

We are equipped to provide both remote and on-site maintenance, adapting to the specific needs of each situation. Our team is committed to responding to regular IT requests within 2-4 hours and emergency situations within a maximum of 2 hours, ensuring minimal downtime.

We are equipped to provide both remote and on-site maintenance, adapting to the specific needs of each situation. Our team is committed to responding to operational issues, servers down, email access, network performance, network connectivity, and other system issues deemed "emergency" within (2) hour maximum.

Recognizing the critical nature of the Police Department's operations, we offer dedicated 24/7 emergency support with a response time of 4 hours for on-site needs.

Requirement**Response**

Provide remote monitoring and email support for all departments, including response to Open Public Records Act requests from the Township email system in a timely manner. The vendor is not expected to provide legal review for OPRA, only to produce records.

Our remote monitoring and support includes: · Unlimited phone and email support · Enterprise class management systems · Unlimited PC, server and network support · Helpdesk throughout normal working hours · Proactive monitoring and maintenance systems · Anti-virus and ransomware protection · Fast IT issue response and resolutions · Self-service customer portal · IT advice and user training · Dedicated account manager

Provide regular support and updates for Microsoft Operating Systems, Microsoft Office Suite, network firewall, system security, back-up appliance, anti-virus and any other software applications used by the Township presently or in the future.

Our team will regularly update and support essential software applications and manage the maintenance and troubleshooting of hardware across all Township locations. This includes workstations, servers, and peripheral devices.

System maintenance and updates are managed remotely, scheduled during off-hours to minimize operational impact. Our approach ensures that systems across different agencies remain current without significant downtime or disruption to services.

Requirement

Provide preventative maintenance, troubleshooting, network server/workstation maintenance, updates, upgrades, installations, configurations and troubleshooting of any and all software and hardware for workstations, servers and printer/copiers/scanners at all locations.

Response

Our cloud services utilize Microsoft Azure, leveraging their advanced security protocols. We focus on providing secure and compliant cloud solutions without hosting any government data ourselves, thus aligning with data sovereignty and privacy requirement.

NTP provides preventive maintenance based on your specific needs. This includes all server/workstation maintenance, updates, configuration, and troubleshooting as detailed below.

Cloud Services · Inspect and test cloud-based services. · Verify cloud service backups and archives. · Review and update cloud service policies and contracts. **Data Storage And Backup** · Review and update backup and disaster recovery plans. · **Verify offsite storage of backup media.** · Test and verify backup schedules and logs. **Software** · **Install the operating system and software updates.** · Inspect and maintain antivirus and malware protection. · Review and update access control lists and user accounts. · **Test and verify remote access and VPN (Virtual Private Network) connections.** · Review and update software licensing and maintenance contracts. **Email And Communication Systems** · Inspect and clean email servers and other communication servers. · **Test and verify email backups and archives.** · Review and update email and communication policies. **Security And Access Control** · Test and verify access control systems. · Inspect and test surveillance systems. · **Review and update security policies and procedures.** · Inspect and test intrusion detection and prevention systems. **Internet Connectivity** · Test and verify internet connectivity and speed. · Review and update internet usage policies. · Inspect and clean firewall filters and rules. **User Training and Education** · Conduct regular user training and education as needed or requested. · **Review and update user security policies** and procedures along with any corresponding best practices.

Requirement

Act as a point of contact for issues relating between the network and the Police Department proprietary applications including but not limited to, the following: CAD/RMS, MDT, NCIC, MCAS, MCS and other systems not completely listed herein.

Response

At NTP, we are committed to providing comprehensive support for key law enforcement systems used by Rockaway Township. Our support services encompass a range of systems critical to police operations, ensuring they are efficient, secure, and reliable. Here's how we will support these systems:

1. **Computer-Aided Dispatch/Records Management System (CAD/RMS):**
 - We will provide software maintenance, manage the database, ensure seamless integration with other systems, conduct regular user training, and offer continuous technical support for troubleshooting.
2. **Mobile Data Terminal (MDT):**
 - Our support includes maintaining the hardware, updating software, troubleshooting connectivity issues, and ensuring secure and efficient access to police networks and databases on these mobile devices.
3. **National Crime Information Center (NCIC):**
 - We will ensure reliable and secure access to the NCIC database, maintain compliance with FBI standards, provide user training, and assist with the integration of NCIC into the Township's local systems.
4. **Multi-Jurisdictional Case Assessment System (MCAS) or similar systems:**
 - Our team will manage data integration, system updates, user access, and offer technical support to system users, ensuring effective cross-jurisdictional data analysis and management.
5. **Mobile Computing System (MCS) or Management Control System:**
 - Depending on the specific system in use, we will provide hardware support for mobile computing devices or comprehensive IT management, including system optimization, security management, and user support.

In supporting these systems, we adhere to strict security and data privacy standards, recognizing the sensitivity of law enforcement information.

This includes:

Requirement

Response

- **Robust Security Protocols:** Implementing stringent security measures to safeguard sensitive data and system access.
- **Compliance with Legal Standards:** Ensuring all systems comply with relevant legal and regulatory standards, including federal and state guidelines for law enforcement data.
- **Regular Training and Awareness:** Providing ongoing training and awareness programs for our team and the Township's staff to stay updated on best practices in data security and privacy.

By entrusting NTP with the support of these critical law enforcement systems, Rockaway Township can be assured of not only efficient and uninterrupted operations but also the highest standards of security and data protection.

Monitoring Internet, web, portal information, service and work order ticketing electronically.

We utilize firewall software to monitor internet, web, and portal traffic, carefully analyzing incoming and outgoing data. For comprehensive traffic monitoring, we may require proprietary software or the establishment of a DMZ, depending on the specific needs of your network. This will be thoroughly assessed during our onboarding process to identify necessary software and hardware adaptations. Additionally, our advanced ticketing system plays a crucial role in managing service and work order tickets. This system allows for efficient tracking, prioritization, and resolution of issues, ensuring seamless and timely support for all network-related inquiries. The onboarding process includes a detailed evaluation of your current ticketing practices and integration with our system for optimized service management.

Support and maintain data backup and disaster recovery and e-mail archiving.

Our approach includes diligent management of:

- Access Control / Enterprise Identity & Access Management (Authentication and authorization)
- data encryption (where applicable)
- data masking (where applicable)
- data loss prevention (DLP)
- data backup and resiliency and email archiving

Coupled with efficient troubleshooting services for hardware and software issues.

Troubleshooting (either remotely or on-site) hardware and software problems.

NTP is equipped to provide both remote and on-site troubleshooting adapting to the specific needs of each situation.

Requirement	Response
Maintain hardware/software inventory and license documentation.	NTP will meticulously maintain an inventory of all hardware and software assets, along with detailed documentation of licenses. This critical task forms an integral component of our onboarding process, ensuring a seamless transition and clear understanding of Rockaway Township's IT infrastructure from the outset. This includes regular updates and audits of the inventory to keep pace with changes and upgrades, aligning with the evolving needs of the Township. By managing this inventory and documentation, NTP ensures that all IT assets are effectively utilized, compliant, and optimally supported. This is a critical component in streamlining our IT management and enhancing operational efficiency for Rockaway Township.
Provide for on-site and off-site system file backup for PC operations, which includes rebuilding the various databases in case of system malfunction	NTP will implement a comprehensive backup strategy for Rockaway Township's PC operations. This includes both on-site (as required) and cloud-based off-site backups to ensure data redundancy and quick recovery. In the event of a system malfunction, our team is proficient in rebuilding databases to restore operations swiftly and efficiently, minimizing downtime and data loss.
Monitor network security usage and perform necessary system 'housekeeping'.	We prioritize maintaining a secure and efficient network. Our approach includes regular monitoring of network security to detect and mitigate threats proactively. Additionally, we conduct systematic 'housekeeping' to optimize network performance, including patch management, system updates, and ensuring all security protocols are rigorously followed.
Document information system processes and procedures and assist with network security.	Our team will meticulously document all information system processes and procedures, providing Rockaway Township with a clear roadmap of its IT infrastructure. We will also actively assist in strengthening network security, employing best practices and the latest technologies to safeguard against cyber threats.
Demonstrate successful experience in supporting Edmund's finance and tax applications as well as other NJ municipal-based computer software applications, as appropriate	While NTP does not have specific experience with Edmund's finance and tax applications, our team's expertise ensures seamless integration and operation of these critical municipal-based applications, tailored to meet the specific needs of local government operations.

Requirement	Response
Recommend new workstation equipment and software, when necessary as well as setup and install acquired items.	We regularly assess the technology landscape and recommend the most suitable and cost-effective workstation equipment and software for the Township's needs. Our service includes the procurement, setup, and installation of these systems, ensuring they are configured for optimal performance and security.
Strategic planning for future system upgrades, including advising on 5-year capital and operational budgeting	Our strategic planning services include advising on 5-year capital and operational budgeting for IT system upgrades. We work collaboratively with Township stakeholders to forecast future technology needs and plan upgrades that align with both operational requirements and budget constraints.
Provide security clearance to work on Criminal Justice systems.	Our team members will possess the necessary security clearances to work on Criminal Justice systems, ensuring compliance with all legal and regulatory requirements. We understand the sensitivity of these systems and are committed to maintaining the highest standards of security and confidentiality.
Work with the Township insurance and risk managers in meeting recommended cybersecurity and information technology measures	NTP is committed to working closely with the Township's insurance and risk managers. Our goal is to align with and exceed recommended cybersecurity and IT measures, contributing to a robust risk management strategy that protects the Township's digital assets and infrastructure.

Requirement**Response**

Whether a phishing attack, malware incidents, insider threats, credential theft, physical theft or loss, and accidental exposure of sensitive data NTP employs a multi-faceted approach to prevent, remediate, and report data breaches in compliance with relevant laws and regulations.

To prevent these breaches, NTP implements robust security measures such as regular security audits, advanced phishing detection tools, and comprehensive employee training programs. Our strategy includes strict access controls, multi-factor authentication, and cutting-edge endpoint protection to safeguard against unauthorized access and malware. To address the risks of physical theft and accidental exposure, we enforce rigorous physical security measures and data encryption protocols.

In the event of a data breach, NTP activates a well-defined incident response plan that outlines immediate containment, thorough investigation, and swift remediation actions. This plan ensures minimal impact and quick recovery from any security incident. Additionally, regular software updates and patch management are key to our approach, reducing vulnerabilities and fortifying our defenses against emerging threats.

Furthermore, NTP will maintain stringent compliance with legal and regulatory standards, including mandatory breach notification protocols. In case of a breach, we ensure timely reporting to relevant authorities, adhering to legal requirements and helping to maintain public trust and transparency. Our commitment to these practices underlines our dedication to safeguarding the sensitive data entrusted to us by government entities like Rockaway Township.

Requirement**Response**

Special Projects

For many of our 'special projects', we work with vendors across different technology areas because we believe that hiring experts may be best for our clients. While we utilize our in-house resources where possible, we recognize that sometimes a specialized company is best suited for our client's particular needs, and we work together to use our extensive resources to support the implementation. Because we so frequently work with outside vendors, we are intimately aware of the challenges that come with this, and we have developed many processes to account for those challenges.

Our project managers all have technical backgrounds, and this allows us to anticipate and plan for any challenges with the technology. However, we recognize that external vendors have their own priorities and processes, and when we develop the project charter, plans, and schedule, we will work closely with all vendors to gain buy-in and approval early in the process. This approach not only starts the project on a positive note, but it allows us to identify any potential conflicts early in the process and plan to resolve them.

Onboarding | IT Services Migration

As NTP commences its managed IT services for Rockaway Township, the initial phase of engagement and introduction involves the account manager reaching out to key stakeholders. This step is crucial to establish a foundational understanding and rapport. Following this, a discovery meeting is held with the Township's IT team to delve into their current IT environment, pinpointing challenges, expectations, and objectives.

Discovery

Following this foundational understanding, the account manager and technical team undertake a full inventory assessment of Rockaway Township's hardware and software assets, documenting versions, licenses, and configurations. Parallel to this, detailed information on user profiles, encompassing access levels and departmental as well as individual user requirements, is gathered. This comprehensive data collection extends to an analysis (scan) of the existing network and system infrastructure, evaluating performance, security, and compliance standards.

The collated information is provided in a comprehensive report, documenting the Township's current IT environment (as a baseline). This report then forms the basis for a strategic IT planning session with Rockaway Township, aimed at aligning the IT roadmap with their broader organizational goals and identifying areas for potential enhancements or upgrades. From this an implementation plan is developed, clearly outlining the scope, timelines, and key milestones of the managed services to be provided (1-5 year view).

Setup & Configuration

The setup and configuration phase follows, wherein agreed-upon changes are implemented. This includes the deployment of monitoring tools and security protocols, along with any necessary software installations, ensuring the IT infrastructure aligns with both current and future needs of the Township.

Throughout this process, NTP ensures that the Township's staff are thoroughly trained on the ticketing system, covering all facets from ticket creation to resolution tracking. This training extends to an understanding of the Service Level Agreements (SLAs), setting clear expectations for issue resolution timelines. Alongside, Rockaway Township is furnished with detailed documentation, including user guides for the ticketing system, a comprehensive overview of the SLAs, and a summary of the IT services and support structure. This documentation is designed to be an accessible, valuable reference tool for the Township staff.

Communication & Reporting

Upon the initiation of our services, NTP will provide Rockaway Township with detailed documentation. This documentation will include user guides for the ticketing system, an overview of the SLAs, and a comprehensive summary of the IT services and support structure. The documentation is designed to be user-friendly and will serve as a valuable reference tool for Township staff, ensuring clarity and transparency in our managed IT services.

Account Management

To maintain a transparent and effective communication channel, the account manager from NTP is designated as the primary point of contact. Regular communication channels are established, along with scheduled periodic reviews, ensuring that the IT services provided remain in sync with Rockaway Township's evolving needs.

NTP's account manager will provide monthly performance/status reports. These reports will include key metrics, resolved and ongoing issues, and insights into the overall health of the IT infrastructure. In addition to these monthly reports, we will also provide detailed quarterly reports. These quarterly reports will offer a more in-depth analysis of the services provided, including trends, performance against SLAs, and recommendations for future improvements or adjustments. The account manager will be available to discuss these reports and any other concerns, ensuring open lines of communication and a strong, collaborative relationship with Rockaway Township.

Ticketing System Training

As part of our managed IT services for Rockaway Township, NTP will ensure all relevant personnel are thoroughly trained on our ticketing system. This training, conducted by experienced IT professionals, will cover all aspects of ticket creation, tracking, and resolution. Participants will gain a deep understanding of how to efficiently use the system for reporting issues, requesting support, and monitoring the status of their tickets.

Additionally, we will provide comprehensive training on the Service Level Agreements (SLAs) that govern our response and resolution times. This will help Township staff to set realistic expectations and understand the timelines for issue resolution.

Financial Terms | Pricing & Billing Proposal

Services

All-Inclusive Managed IT Services comprehensive IT management (24/7 coverage, emergency response, regular software updates, preventative maintenance, strategic planning, compliance, and risk management).

Custom SLA- Tailored to specific client needs, particularly for sectors of the supported units "locations" with unique IT requirements like the police department.

Thank you Rockaway Township for your consideration!

Next Technology Partners is fully prepared and eager to meet the comprehensive scope of work outlined in the Rockaway Township RFP. Our approach is centered around modernization and the implementation of robust security measures, ensuring the safeguarding of critical data and systems. We recognize the importance of identity management, system availability and network performance. We are ready to undertake any necessary infrastructure refreshes or upgrades, particularly in transitioning to cloud computing.

With 19 years of experience, we've significantly enhanced IT performance and outcomes across a diverse range of industries, including manufacturing, IT companies, architecture firms, and service-oriented businesses. Our team is adept at integrating new business applications, enhancing operational efficiency and productivity. A key focus of our strategy is to minimize institutional knowledge risks through meticulous documentation of the technology stack and procedures, along with implementing automation wherever feasible.

NTP offers competitive pricing tailored for the New Jersey market, reflecting our commitment to providing value-driven IT solutions. We are enthusiastic about the opportunity to commence our partnership with Rockaway Township in 2024, confident in our ability to deliver a service that not only meets but exceeds your expectations.

Give Form to the
requester. Do not
send to the IRS.

Go to www.irs.gov/FormW9 for instructions and the latest information.

Print or type.
See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

Edward W. Amaty Jr.

2 Business name/disregarded entity name, if different from above

Next Technology Partners, LLC

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☒ Individual/sole proprietor or single-member LLC

☐ C Corporation

☐ S Corporation

☐ Partnership

☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

10 Regina Road

6 City, state, and ZIP code

Succasunna, NJ 07876

7 List account number(s) here (optional)

Requester's name and address (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

0 4 - 3 7 9 6 0 0 0

or

Employer identification number

0 4 - 3 7 9 6 0 0 0

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Ed Amaty
Next Technology Partners
10 Regina Road
Succasunna, NJ 07876

Dear Ed,

I am taking this opportunity, as requested, to provide a testimonial on your company.

I have had the pleasure of working with Next Technology Partners (NTP) for the past 19 years. Over that time, we have worked on three ERP implementations with numerous upgrades, network support services, project management as well as bolt on and integrated applications. With the expertise that NTP has, we have gone from one physical server to multi server environments to complete cloud-based solutions.

Trademark has always required that service partners have commitment, dedication, integrity while always showing discretion and confidentiality. NTP has been and is today our most trusted service provider responsible for securing our systems and most sensitive data in an ever-changing environment.

The entire team at NTP, year after year, has been responsive, professional, and effective in all tasks needed to keep Trademark operations running efficiently daily, weekly, yearly.

Thank you for the continued support of Trademark. We value the relationship tremendously and are looking forward to many more years to come!

Sincerely,

Sean Browne, CFO
Trademark Plastics Corporation

Testimonial from CM & Associates | 17 year customer

Next Technology Partners and its staff are a must for all your IT needs. They will meet all deadlines and exceed your expectations. Next makes their team readily available to coordinate and execute the revamping of your IT department and will also help with resolving an array of technical issues. They are very knowledgeable, friendly and are an asset to help you scale your company IT and protect your brand. You won't lose with Next Technology Partners!

Non-Collusion Affidavit

State of New Jersey

County of Morris

ss:

I, Edward W. Amaty (name of affiant) residing in Roxbury (name of municipality) in the County of Morris and State of New Jersey of full age, being duly sworn according to law on my oath depose and say that:

I am President (title or position) of the firm of Next Technology Partners, LLC (name of firm) the bidder making this Proposal for the bid entitled RFP Information Technology Consulting (title of bid proposal) and that I executed the said proposal with full authority to do so that said bidder has not, directly or indirectly entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free, competitive bidding in connection with the above named project; and that all statements contained in said proposal and in this affidavit are true and correct, and made with full knowledge that the Township of Rockaway relies upon the truth of the statements contained in said Proposal and in the statements contained in this affidavit in awarding the contract for the said project.

I further warrant that no person or selling agency has been employed or retained to solicit or secure such contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by

Ownership Disclosure Certification

N.J.S.A. 52:25-24.2 (P.L. 1977, c.33, as amended by P.L. 2016, c.43)

This Statement Shall Be Included with All Bid and Proposal Submissions

Name of Business:

Next Technology Partners, LLC

Address of Business:

10 Regina Rd, Succasunna, NJ, 07876

Name of person completing this form:

Edward W. Amaty

N.J.S.A. 52:25-24.2:

"No corporation, partnership, or limited liability company shall be awarded any contract nor shall any agreement be entered into for the performance of any work or the furnishing of any materials or supplies, unless prior to the receipt of the bid or proposal, or accompanying the bid or proposal of said corporation, said partnership, or said limited liability company there is submitted a statement setting forth the names and addresses of all stockholders in the corporation who own 10 percent or more of its stock, of any class, or of all individual partners in the partnership who own a 10 percent or greater interest therein, or of all members in the limited liability company who own a 10 percent or greater interest therein, as the case may be.

If one or more such stockholder or partner or member is itself a corporation or partnership or limited liability company, the stockholders holding 10 percent or more of that corporation's stock, or the individual partners owning 10 percent or greater interest in that partnership, or the members owning 10 percent or greater interest in that limited liability company, as the case may be, shall also be listed. The disclosure shall be continued until names and addresses of every noncorporate stockholder, and individual partner, and member, exceeding the 10 percent ownership criteria established in this act, has been listed.

To comply with this section, a bidder with any direct or indirect parent entity which is publicly traded may submit the name and address of each publicly traded entity and the name and address of each person that holds a 10 percent or greater beneficial interest in the publicly traded entity as of the last annual filing with the federal Securities and Exchange Commission or the foreign equivalent, and, if there is any person that holds a 10 percent or greater beneficial interest, also shall submit links to the websites containing the last annual filings with the federal Securities and Exchange Commission or the foreign equivalent and the relevant page numbers of the filings that contain the information on each person that holds a 10 percent or greater beneficial interest."

The Attorney General has advised that the provisions of N.J.S.A. 52:25-24.2, which refer to corporations and partnerships apply to limited partnerships, limited liability partnerships, and Subchapter S corporations.

This Ownership Disclosure Certification form shall be completed, signed and notarized. Failure of the bidder/proposer to submit the required information is cause for automatic rejection of the bid or proposal

Part I

Check the box that represents the type of business organization:

- ☐ Sole Proprietorship (skip Parts II and III, sign and notarize at the end)
☐ Non-Profit Corporation (skip Parts II and III, sign and notarize at the end)
