NARRATIVE On Friday May 3, 2019 at approximately 22:45 hours: The undersigned officer along with Sergeant Capaccio also of this agency responded to the area of 6 Pennsylvania Avenue, Waretown, New Jersey for a reported motor vehicle accident with airbag deployment. Upon our arrival, I observed subjects standing in the roadway waiving with their arms up signaling me to come to them. I then observed a gold sedan located in the middle of the roadway with damage and debris in the roadway. I parked my patrol vehicle (20-14) along the North side of the roadway, exited my patrol vehicle and started running towards the gold sedan. I identified the vehicle as a gold Toyota bearing NJ [REDACTED]. The Toyota's audible horn was set off from the crash and continuing to sound. I approached the opened driver's side door of the Toyota and observed the driver; a white female with brown hair and blue eyes wearing a brown jacket with a black undershirt. I identified the female as Shannon A Hancock [REDACTED] of [REDACTED] Vessel Road, Waretown, New Jersey. I noted immediately upon reaching a reasonable arms length distance with Hancock I detected the strong odor of an alcoholic beverage emanating from her person. I also made note Hancock's eyes were bloodshot and glassy. I observed Hancock's vehicle had front driver side airbag deployment. Sgt. Capaccio contacted dispatch and requested both First Aid and Fire Department to respond to the scene. Sgt. Capaccio was able to access the engine bay of the vehicle and stopped the audible horn from sounding. Hancock related she had pain across the center of her chest due to the seatbelt harness. Sgt. Capaccio and I assisted Hancock out of the vehicle to a standing position. At this time Hancock had no further complaints of pain. While Hancock stood up I noted she was staggering and swaying from side to side appearing to have trouble keeping balance. While waiting for First Aid to arrive, I rendered Standard Field Sobriety Tests (SFSTs) with Hancock. Test#1: Horizontal Gaze Nystagmus (HGN). See Sgt. Capaccio's Supplementary Report. For this test, Sgt....										
NAME PATROLMAN SAWYER, JOEL M 328 <i>Joel Sawyer 328</i>			DATE OF REPORT 05/03/2019		REVIEWED BY SERGEANT CAPACCIO JR, 315 JAMES			SIGNATURE <i>[Signature]</i> #315		

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16829

Capaccio directed Hancock to the front of her vehicle. I noted while observing Hancock walking towards the front of her vehicle, she was taking wide gated steps and was swaying from side to side again appearing to have trouble keeping balance.

At the conclusion of Sgt. Capaccio's test, he turned Hancock over to me for rendering of SFSTs. I stood with Hancock at the front of her vehicle and noted the pavement where I would be administering the SFSTs was flat, level, dry and clear of debris. I also noted there was little to no wind in the area where Hancock would be conducting the SFSTs. I elected Hancock the opportunity to remove her shoes for the test and she did. I noted while she was removing her shoes, she lowered herself bending her knees and appeared to have difficulty removing her shoes.

Test#2: One Leg Stand (explained). I first asked Hancock if she had any problems with her legs or medical conditions which would inhibit her ability to perform the test and she related she did not. Hancock was advised to stand with her heels together and her arms at her side. She was advised not to begin the test until told to. She was advised to raise one leg, either leg, approximately six (6) inches off the ground, foot parallel to the ground. She was advised to keep both legs straight and keep her eyes looking at the toe of the elevated foot. While holding that position she was advised to count out loud; one thousand and one, one thousand and two, one thousand and three and so forth until reaching one thousand and thirty or until told to stop. This test was demonstrated for Hancock and she was asked if she understood the instructions to which she answered yes.

Results: While explaining the instructions for the test to Hancock I noted she was continually bending her knees, swaying from side to side and talking small steps appearing to try and keep her balance. I also noted the odor of an alcoholic beverage became more pronounced while standing with Hancock. After Hancock related she did not have any questions regarding the test I advised her she may begin whenever ready. Hancock started the test by raising her right leg and immediately began raising her arms up from her sides. She was swaying and bending her knees. She started counting and I noted her audible voice tone was very low. I also noted Hancock appeared to be slurring her speech while counting the numbers out loud. When she reached one thousand and three (3) I noted Hancock touched the right ball of her foot to the pavement appearing to do so for balance. Hancock then raised her right leg lifting her right foot off the pavement and again raised her arms up from her sides appearing to have extreme difficulty standing. She continued touching her right foot to the pavement on every number beyond one thousand and three and when she reached one thousand and seven she crossed her right leg in front of her left and related she couldn't do it.

Test #3: Walk and Turn (explained). Hancock was advised to stand facing East on Pennsylvania Avenue with her left foot on the pavement and her right foot in front, touching her right heel to her left toe. She was advised to keep her arms at her side. The stance was then demonstrated. Hancock was advised not to begin the test until I told her to. I advised Hancock to then take nine (9) heel-to-toe steps forward counting out loud, looking at her feet and keeping her arms at her sides at all times. Upon completion of the ninth (9th) step she was advised to keep one foot on the pavement and turn around by taking several small steps with her other foot. After turning around, Hancock was advised to take nine (9) more steps heel-to-toe, again counting out loud, looking at her feet and keeping her hand at her sides. I demonstrated this test to Hancock and asked her if she understood my instructions. Hancock advised me she understood my instructions.

Results: When Hancock first stood in the starting position, she was swaying from side to side and appeared to be having difficulty keeping her right foot in front of her left. As I explained the rest of the instructions I noted Hancock was swaying from side to side. Hancock began the test and staggered through the first two (2) steps. When she reached the third (3rd) step she stepped out of alignment with her right foot. From this point moving forward Hancock took a wider gated stance and continued through steps four (4) to eight (8) failing to keep heel-to-toe contact with her feet. In addition the steps she was taking were approximately two feet apart from each other. Hancock failed to come to a stop on step nine (9) and continued walking until step fifteen (15). I noted she was counting her steps out quietly and in a mumbled tone. I also noted after she reached step seven (7) she paused in her voice and started counting with number three (3) on step eight (8). I stopped Hancock and directed her to turn around for the remaining nine (9) steps back. Hancock turned around in a staggering manner and started walking back with a wider gated walk failing to maintain heel-to-toe contact. I then terminated the test.

Test #4: Alphabet test (explained). Hancock was first asked what her highest level of education was and she related high school. I then asked her if she was familiar with the English Alphabet. When I asked Hancock if she was familiar with the English Alphabet, she looked away from me opened her mouth and appeared to be confused. I asked her a second time after not receiving a response and she began

INCIDENT # : I-2019-16829

moving her head from left to right and related she did not know the English Alphabet. This test was subsequently not performed.

Test #5: Dexterity test (explained). Hancock was advised to hold out her right hand palm facing up. She was advised to touch her thumb to each successive finger while counting; one, two, three, four from her index finger to her little finger. After reaching her little finger, she was then instructed to count; one, two, three, four back from her little finger to her index finger. I asked Hancock if she had any problems with her hands that would inhibit her ability to perform the test and she related she did not.

Results: Hancock stood in a wide gated stance and began touching her thumb to her index finger and counting touching each successive finger. During this test I noted she was swaying from side to side and was mumbling the numbers out loud.

Now First Aid had arrived on scene and I turned Hancock over to them for assessment. After being assessed by First Aid, Hancock refused to be taken to the hospital and she was turned back over to me.

Based on my observations of the crash, the odor of an alcoholic beverage emanating from Hancock, my observations of her performance with the SFSTs and Sgt. Capaccio's observations of HGN, Hancock was subsequently placed under arrest for driving while intoxicated. Hancock was handcuffed (double locked), searched and seat belted into the rear of patrol vehicle 20-14 where I advised her she would be both video and audio recorded. Hancock's vehicle was impounded by Price Right towing Co. as per John's Law.

Lieutenant Thompson also of this agency arrived on scene and photographed pictures of the crash. The second (2nd) vehicle involved in the crash was a parked brown Buick sport utility vehicle (SUV) bearing NJ [REDACTED]. This vehicle was parked facing East along the South shoulder of Pennsylvania Avenue in front of house #20 Pennsylvania Avenue. Hancock's vehicle struck the Buick in its driver's side front bumper and fender causing disabling damage to the vehicle. The Buick was not occupied or running at the time of impact. After striking the Buick, Hancock's vehicle continued to drive forward pushing the Buick into the mailbox of house #18 Pennsylvania Avenue destroying the mailbox and pushing the vehicle into the front yard of house #18. Hancock's vehicle stopped in the street in front of house #18 facing South East. Hancock's vehicle sustained disabling damage to its front driver side bumper and fender causing airbag deployment.

While Hancock was being assessed by First Aid I was able to locate the owner of the Buick identified as Jason M Deangelo [REDACTED] of [REDACTED] Village Drive, Barnegat, New Jersey. I advised Deangelo to remove anything he needed from his vehicle before it would be towed from the scene. Deangelo's vehicle was towed from the scene by Midland Towing Co.

I transported Hancock to police headquarters for processing. At police headquarters, she was read the NJ Standard Statement for Motor Vehicle Operators to which she replied "yes" to provide samples of her breath for the purpose of chemical testing to determine blood alcohol content. She was then turned over to Sgt. Capaccio for chemical breath testing. After providing two (2) breath samples, Alcotest 7110 MK111-C Sequential File No. 00990 reported a control test failure. Barnegat Township Police Department was contacted and advised there Alcotest machine was operable.

Hancock was subsequently turned over to Lieutenant Murphy also of this agency to be transported to Barnegat Police headquarters for testing. She was handcuffed (double locked) in front and seat belted into the rear of patrol vehicle 20-19 where she was again advised she would be both video and audio recorded (see Lt. Murphy's supplemental report). Hancock provided two (2) good samples of her breath with a blood alcohol content reading of .23 (see Alcohol Influence Report Form, Alcotest 7110 MK111-C Sequential File No. 01077).

Hancock was read her Constitutional Rights, stated she understood them and waived in writing. Hancock was processed, photographed and released on the following motor vehicle summons' ending a scheduled court date:

A-048487 FOR 39:4-50
A-048488 FOR 39:4-88B
A-048489 FOR 39:4-96.

Hancock was released to Tara M Vanhest (09/09/1990) of 15 Vessel Road, Waretown, New Jersey, who

signed the New Jersey Potential Liability Warning Form in accordance with N.J.S.A. 39:4-50.22.

These events were memorialized on the mobile video recorder (MVR) of patrol vehicle 20-14 and the station house cameras of the Ocean Township Police department.

Hancock has never served in the United States Armed Forces.

This investigation is considered cleared by Hancock's arrest.

On 05/03/2019 at approximately 0009 hours the undersigned officer was called to operate the Alcotest Machine. While at police headquarters Ptl. Joel Sawyer advised Shannon Handcock of the standard statement form by reading it to her pursuant to 39:4-50.2(E). Handcock agreed to submit samples of her breath at which time she was turned over to this officer. I had to transport Handcock to Barnegat Township Police Department due to our Alcotest not working. I observed her in the Barnegat Township Police Department processing room for a period of no less than twenty minutes. I asked Handcock to open her mouth and lift her tongue to ensure she did not have any items inside of his mouth prior to the start of the observation period. Handcock was asked if she wore dentures to which she indicated "No". It should be noted that during this observation period she did not belch or regurgitate in her mouth. Prior to administering the breath tests all portable radio frequency emitting electronic devices and cellular phones were removed from the processing room. Handcock provided two breath samples and was found to have a 0.23% B.A.C. It should be noted that Handcock was advised of the instructions and was given a new mouth piece prior to each sample she gave. The breath test results were checked through the Ocean County Sheriff's Department Dispatch Alcotest calculator and were found to be within acceptable tolerance. Handcock was then transported back to Ocean Township Police Department and turned over to Ptl. Joel Sawyer custody. Nothing further

I initiated the motor vehicle stop because during the time I was traveling behind the vehicle I observed on several occasions the passenger side wheels touch or cross over the white painted fog line as well as what I believed to be a cigarette butt be thrown from the window of the vehicle creating a quantity of sparks to be thrown into the air. Upon coming to a stop I approached the vehicle on the driver's side and upon the window opening I immediately detected the odor of alcoholic beverages emanating from the interior of the motor vehicle. I requested the driver's license, registration and proof of motor vehicle insurance. He complied and was then identified as Ernestino Rincon [REDACTED] Shell St., Beachwood, NJ. I informed Rincon of what I detected and asked if he had been drinking to which he replied yes he had had a single beer. At this point in time SLEO Mezzanotte arrived on scene and I proceeded to ask Rincon to exit the vehicle...

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16453

in order to conduct SFST's. As Rincon exited the vehicle I observed a slight sway in his gait. While standing in front of me as I prepared to provide the instructions for the SFST's I was able to observe Rincon swaying in a circle as he stood with his feet together as well as his eyes to be blood shot and glassy in appearance. Furthermore, I detected the odor of alcoholic beverages emanating from Rincon's mouth as he spoke or breathed out in my direction.

The tests issued were as follows:

Test #1 HGN. Instructions: Stand with feet together and arms at one's side. Upon being presented a stimulus follow the stimulus with your eyes and your eyes only, do not move your head. A total of six fields will be evaluated, three fields in each eye. The fields to be evaluated are smooth pursuit or lack thereof, onset of nystagmus at maximum deviation, and onset of nystagmus prior to 45 degrees. A ballpoint pen would be used as the stimulus.

Results: While receiving the instructions Rincon swayed in a circle. During the test he lacked smooth pursuit in both eyes as indicated by a jumping of his eyes from one point to another along the stimulus' path of travel. I also observed nystagmus at maximum deviation in both eyes as indicated by a bouncing of his eye when the stimulus was held at maximum deviation to the left or right.

Test #2 Walk and Turn. Instructions: Place your right foot in front of your left with your right heel touching your left toe. The stance was then demonstrated. Keep your hands at your side and listen to the remaining instructions; do not move from the start position prior to being told to do so. Upon being told to begin take nine heel to toe steps counting out loud as you do so. Upon reaching number nine, keep your front foot planted on the surface, take a series of small steps to turn around to now face the start point and take nine steps back. All steps must have heel to toe contact and all steps must be counted out loud. Rincon was further instructed to keep his arms at his side, count out loud, look at his feet and once he began the test he could not stop.

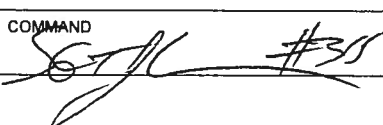

Results: Rincon broke from the start position and stumbled to his right during the instruction phase of the test. Upon being instructed to return to the start position Rincon placed his left foot in front of his right and had to be instructed multiple times to place his right foot in front of his left for the test. Upon starting the test Rincon stepped off to his left and right multiple times and failed to make heel to toe contact on several steps in both directions. Upon reaching step number nine, Rincon proceeded to execute an improper turn based on the instructions.

Test #3 One-Legged Stand. Instructions: Rincon was instructed to stand with his feet and heels together and his arms at his side which was then demonstrated for him. I then told Rincon that upon being told to begin the test he could pick either leg of his choosing and raise it approximately six inches off of the ground, keeping his foot parallel to the ground, and count out loud by one-one thousands until told to stop. Rincon indicated he understood the instructions. I kept the 30 second time limit using a wrist watch with a digital second indicator.

Results: Rincon began the test by lifting his left leg approximately 3-4 inches off of the ground and not any further. Rincon counted to one thousand two and put his foot down indicating he was nervous. Upon restarting the test Rincon switched legs and now raised his right leg and began counting from one instead of where he left off in opposition to the instructions given.

Based upon my operations and Rincon's performance of the SFST's he was placed under arrest. Rincon was instructed to place his hands behind his back and was handcuffed, double-locked, and seat belted in the rear of patrol vehicle in 20-20. He was advised he was under audio and video recording in the rear compartment and informed of his Miranda Rights which he waived verbally and would later in writing. Rincon was subsequently transported to headquarters for processing and his vehicle impounded as per John's Law. It should be noted that prior to departing the scene it was discovered that my MVR had not activated during the stop due to a problem with data storage space on the hard drive. SGT Capaccio was notified as well as dispatch who time stamped it in the incident. This incident was also documented on SLEO Mezzanotte's MVR for vehicle 20-07.

Upon arrival at headquarters Rincon was subsequently searched and secured in cell #1. It was during this time it was discovered that Rincon had a hearing aid in his right ear due to extreme difficulty hearing. He indicated not being a member of the military and was read the NJ Standard Statement and replied "yes" when asked to provide breath samples. At this point in time he was turned over to SGT Capaccio for administration of the ALCOTEST. See his supplemental investigation report for further details.

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

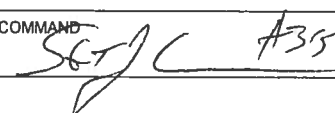

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16453

Following the administration of the ALCOTEST, Rincon was asked the Drinking and Driving questionnaire. He indicated he was not sick, injured or under the care of a physician. He further indicated he consumed two beers at a friend's house despite very rarely drinking. Rincon further indicated he was not taking any medications other than heart burn medication.

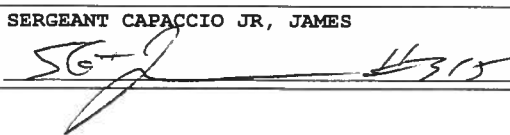

Rincon was subsequently issued motor vehicle summonses 048507 for 39:4-50, 048508 for 39:4-88b, and 048509 for 39:4-96 and released to his son, Eric Rincon [REDACTED] of 57 Shell St., Beachwood, NJ who signed the potential liability form. Rincon was released pending a scheduled court date.

Nothing further at this time.

ON THE ABOVE DATE AND TIME, THIS OFFICER RESPONDED TO ROUTE 9 IN THE AREA OF BAY PARKWAY TO ASSIST PATROLMAN MICHAEL MATELSKI OF THIS AGENCY ON A MOTOR VEHICLE STOP. UPON ARRIVAL, PTL. MATELSKI WAS CONDUCTING FIELD SOBRIETY TESTS WITH THE OPERATOR, WHO WAS IDENTIFIED AS ERNESTINO RINCON D.O.B. [REDACTED] THE COMPLETION OF THE FIELD SOBRIETY TEST PATROLMAN MATELSKI DETERMINED THAT RINCON WAS INTOXICATED. HE WAS SUBSEQUENTLY PLACED UNDER ARREST AND TRANSPORTED TO HEADQUARTERS TO BE PROCESSED. AT HEADQUARTERS HE WAS READ THE STANDARD STATEMENT FORM PURSUANT TO NEW JERSEY STATUTE AND NJSA 39:4-50.2E TO WHICH AGREED TO PROVIDE BREATH SAMPLES. AT THIS TIME HE WAS TURNED OVER TO ME FOR A 20 MINUTE OBSERVATION PERIOD AND ALCOTEST TESTING. IT SHOULD BE NOTED THAT ALL ELECTRONIC RF DEVICES WERE CLEARED FROM THE ROOM PRIOR TO TESTING. UPON THE COMPLETION OF THE NO LESS THAN 20 MINUTE OBSERVATION, RINCON PROVIDED TWO CONSECUTIVE BREATH SAMPLES WITH A NEW MOUTHPIECE UTILIZED FOR EACH SAMPLE. RINCON WAS FOUND TO HAVE A BREATH TEST READING OF .01% BAC. AT THIS TIME RINCON WAS TURNED BACK OVER TO PTL. MICHAEL MATELSKI WHO WAS ADVISED OF THE ALCOTEST READINGS.

I immediately executed a U-turn and began to close the distance with the vehicle in question. Upon reaching the vehicle I noted it to be a gray Kia bearing NJ registration [REDACTED] I further observed the vehicle to be in violation of 39:3-66, maintenance of lamps; specifically his driver's side brake light would not light up. I proceeded to initiate a motor vehicle stop in the area of Route 9 and Sunoco, observing the vehicle to have one occupant. At this point in time SGT Capaccio of this agency arrived as a back up officer. I approached on the driver's side of the vehicle and made contact with the driver. I requested his driver's license, registration and proof of motor vehicle insurance. He then proceeded to provide a Mexican Consular ID, vehicle registration and proof of insurance and was identified as Oscar G. Bonilla-Mendoza [REDACTED]

INCIDENT # : I-2019-16341

currently of [REDACTED] Demy Ave, Waretown, NJ. While speaking with Bonilla I was able to observe his hand motions to be slow and his verbal responses to be somewhat lethargic, delayed and slow.

After obtaining his documentation I returned to my patrol vehicle in order to check his driving status while SGT Capaccio remained with Bonilla. A short time later SGT Capaccio came to my vehicle to inform me he detected the odor of alcohol on Bonilla's breath. Upon speaking with him about it, Bonilla admitted to having consumed a single Corona beer earlier in the evening. It would later be determined that the time of consumption was approximately 15-20 minutes prior to the motor vehicle stop.

I then returned to the vehicle and asked Bonilla to exit the vehicle and step to the front of his car in order to perform SFST's. It should be noted at this point in time while standing in front of Bonilla and his breathing out directly towards me I was able to detect the odor of alcoholic beverages emanating from his mouth when he exhaled or spoke. While I began to initiate the tests it should also be noted I observed Bonilla's eyes to be blood shot and watery. I further observed Bonilla swaying slightly from front to back despite there being no winds present significant enough to cause a person to lose their balance.

The tests issued were as follows:

Test #1 HGN. Instructions: Stand with feet together and arms at one's side. Upon being presented a stimulus follow the stimulus with your eyes and your eyes only, do not move your head. A total of six fields will be evaluated, three fields in each eye. The fields to be evaluated are smooth pursuit or lack thereof, onset of nystagmus at maximum deviation, and onset of nystagmus prior to 45 degrees. A ballpoint pen would be used as the stimulus.

Results: While receiving the instructions Bonilla swayed from front to back. During the test he lacked smooth pursuit in both eyes as indicated by a jumping of his eyes from one point to another along the stimulus' path of travel. I also observed nystagmus at maximum deviation in both eyes as indicated by a bouncing of his eye when the stimulus was held at maximum deviation to the left or right. I did not observe a clear onset of nystagmus prior to 45 degrees in either of Bonilla's eyes.

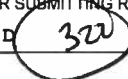

Test #2 Walk and Turn. Instructions: Place your right foot in front of your left with your right heel touching your left toe. The stance was then demonstrated. Keep your hands at your side and listen to the remaining instructions; do not move from the start position prior to being told to do so. Upon being told to begin take nine heel to toe steps counting out loud as you do so. Upon reaching number nine, keep your front foot planted on the surface, take a series of small steps to turn around to now face the start point and take nine steps back. All steps must have heel to toe contact and all steps must be counted out loud. The steps, turn, counting and arms remaining at my side were demonstrated for Bonilla and illuminated with a hand held flashlight. Bonilla was further instructed to keep his arms at his side, count out loud, look at his feet and once he began the test he could not stop.

Results: Bonilla broke from the start position and stumbled to his right during the instruction phase of the test. Upon being instructed to return to the start position Bonilla placed his left foot in front of his right and seemed confused about which foot belonged where when I and SGT Capaccio instructed him to place his right foot in front of his left. Upon reaching step number nine, Bonilla proceeded to take a 10th step and executed an improper turn based on the instructions. Bonilla then executed nine heel to toe steps back to the starting point staggering several times off to the left and right.

Test #3 One-Legged Stand. Instructions: Bonilla was instructed to stand with his feet and heels together and his arms at his side which was then demonstrated for him. I then told Bonilla that upon being told to begin the test he could pick either leg of his choosing and raise it approximately six inches off of the ground, keeping his foot parallel to the ground, and count out loud by one-one thousands until told to stop. Bonilla indicated he understood the instructions. I kept the 30 second time limit using a wrist watch with a digital second indicator.

Results: Bonilla began the test by lifting his left leg approximately 3-4 inches off of the ground and not any further. Bonilla initially counted to one thousand four and put his foot down indicating he was nervous. Upon restarting the test Bonilla began counting from one instead of where he left off in opposition to the instructions given.

Based upon my observations and Bonilla's performance of the SFST's he was placed under arrest. Bonilla was instructed to place his hands behind his back and was handcuffed, double-locked, and seat

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16341

belted in the rear of patrol vehicle in 20-20. He was advised he was under audio and video recording in the rear compartment and informed of his Miranda Rights which he waived verbally. Bonilla was subsequently transported to headquarters. It should be noted that Bonilla's vehicle was released to the registered owner, identified as Roberto Torres-Velazquez.

Upon arrival at headquarters Bonilla was searched and secured in cell #1. He was not a member of the military and was read the NJ Standard Statement and replied "yes " when asked to provide breath samples. At this point in time he was turned over to SGT Capaccio for administration of the ALCOTEST. See his supplemental investigation report for further details.

Following the administration of the ALCOTEST and having been advised of his Miranda rights on scene, Bonilla was asked the Drinking and Driving questionnaire. He indicated he was not sick, injured or under the care of a physician. He further indicated he consumed a single beer, Corona brand, approximately 15-20 minutes prior to being stopped in his motor vehicle. Bonilla indicated not being a member of the Armed Forces. Bonilla was then read the Miranda Rights warning form in accordance with department policy and indicated he understood but would not answer any additional questions.

After being informed by SGT Capaccio the results of the ALCOTEST indicated a .000 reading, the County Radio Room was contacted to request a DRE. While awaiting the arrival of the DRE I requested Bonilla provide a urine sample and read the urine consent request form to Bonilla who indicated his consent by signing at the bottom of the form. Bonilla then provided a urine sample which was secured in the evidence refrigerator in the patrol room for transportation to the lab for analysis. Bonilla was then re-secured in cell #1 pending the arrival of a DRE, at which point in time he was turned over to the custody of PTL Christopher Linnel of the Seaside Heights Police Department DRE # 026763 for further testing. See PTL Linnel's DRE report for further details about his findings.

Following the DRE testing Bonilla was secured again in cell #1 and his processing completed. Upon completion of processing Bonilla was issued motor vehicle summonses 048503 for 39:3-40, 048504 for 39:4-96, 048505 for 39:4-88B and 048506 for 39:3-66 and released to Roberto Torres-Velazquez who signed the potential liability form.

Nothing further at this time.

ON THE ABOVE DATE AND TIME, THIS OFFICER RESPONDED TO ROUTE 9 IN THE AREA OF THE SUNOCO GAS STATION TO ASSIST PATROLMAN MICHAEL MATELSKI OF THIS AGENCY ON A MOTOR VEHICLE STOP. WHILE ON LOCATION I SPOKE WITH THE DRIVER OF THE VEHICLE WHILE PTL. MATELSKI CHECKED THE DRIVER'S CREDENTIALS THROUGH DISPATCH. WHILE SPEAKING WITH THE DRIVER, I DETECTED THE ODOR OF AN ALCOHOLIC BEVERAGE COMING FROM HIS BREATH. I ASKED THE DRIVER IF HE HAD BEEN DRINKING TO WHICH HE INITIALLY DENIED AND THEN INFORMED ME THAT HE HAD CONSUMED AN ALCOHOLIC BEVERAGE. I RETURNED TO PTL. MATELSKI'S VEHICLE AND ADVISED HIM OF WHAT I DETECTED.

AT THIS TIME, PATROLMAN MATELSKI RETURNED TO THE SUSPECT VEHICLE AND REQUESTED THE DRIVER TO EXIT THE VEHICLE. PTL. MATELSKI REQUESTED THE DRIVER TO PERFORM SEVERAL FIELD SOBRIETY TESTS. PTL. MATELSKI THEN CONDUCTED THE FIELD SOBRIETY TESTS WITH THE OPERATOR, WHO WAS IDENTIFIED AS OSCAR BONILLA MENDOZA DOB [REDACTED] AT THE COMPLETION OF THE FIELD SOBRIETY TEST PATROLMAN MATELSKI DETERMINED THAT BONILLA WAS INTOXICATED.

HE WAS SUBSEQUENTLY PLACED UNDER ARREST AND TRANSPORTED TO HEADQUARTERS TO BE PROCESSED. AT HEADQUARTERS HE WAS READ THE STANDARD STATEMENT FORM PURSUANT TO NEW JERSEY STATUTE AND NJSA 39:4-50.2E TO WHICH AGREED TO PROVIDE BREATH SAMPLES. AT THIS TIME HE WAS TURNED OVER TO ME FOR A 20 MINUTE OBSERVATION PERIOD AND ALCOTEST TESTING. IT SHOULD BE NOTED THAT ALL ELECTRONIC RF DEVICES WERE CLEARED FROM THE ROOM PRIOR TO TESTING. UPON THE COMPLETION OF THE NO LESS THAN 20 MINUTE OBSERVATION, MENDOZA PROVIDED TWO CONSECUTIVE BREATH SAMPLES WITH A NEW MOUTHPIECE UTILIZED FOR EACH SAMPLE. MENDOZA WAS FOUND TO HAVE A BREATH TEST READING OF .00% BAC. AT THIS TIME MENDOZA WAS TURNED BACK OVER TO PTL. MICHAEL MATELSKI WHO WAS ADVISED OF THE ALCOTEST READINGS. AT THIS TIME PTL. MATELSKI CONTACTED THE OCEAN COUNTY RADIO ROOM AND REQUESTED A DRUG RECOGNITION EXPERT RESPOND FOR FURTHER TESTING.

I observed an oncoming vehicle with its high-beam head lamps turned on. As I continued observing the vehicle approaching me, I noted the vehicle's front and rear driver side tires crossed over the solid double yellow line causing them to enter the South bound lane of U.S. Highway 9 (violation 39:4-88B). I then observed the front and rear driver side tires of the vehicle again cross over the solid double yellow line and return to the North bound lane of U.S. Highway 9. The vehicle then passed me without dimming its high-beams, indicating an improper use of high-beam lamps (violation 39:3-60). I made a U-turn and started closing the distance with the vehicle. I activated my emergency lights and advised dispatch I would be stopping a vehicle. I closed the distance with the vehicle and was able to determine it was a dark colored Mercedes-Benz sport utility vehicle (SUV). I was now driving behind the Mercedes-Benz SUV with my emergency lights activated at a reasonable distance to be observed by the driver. I advised dispatch I would give them my location when the vehicle stopped and continued following the vehicle with my emergency lights activated. While following the vehicle, I noted it began drifting left, causing its front and rear driver side tires to ride on the solid double yellow...

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16064

center line of U.S. Highway 9. I then observed the vehicles rear brake lights activate and the Mercedes-Benz came to an abrupt stop along the South bound shoulder of U.S. Highway 9 and Bay Parkway. I noted the location where the vehicle stopped was just several feet North of the intersection with Bay Parkway causing the location of my patrol vehicle to temporarily block the intersection.

I advised dispatch I would be stopping a blue Mercedes-Benz SUV bearing NJ [REDACTED] at the described location with an unknown number of occupants. I exited my patrol vehicle and approached the opened driver's side window of the SUV. I introduced myself and advised the driver he was being stopped for improper use of high-beam lamps and failure to maintain his lane. While speaking to the driver, I immediately observed his eyes were glassy and bloodshot. I also rapidly detected the strong odor of an alcoholic beverage emanating from the interior of the SUV. I asked the driver how much he had to drink before driving, and without providing me with a verbal answer, he raised his left hand and left index finger. I then asked the driver what he had to drink and he related he had one (1) scotch.

I asked the driver to provide me with his driver's license, registration and proof of motor vehicle insurance. While locating his credentials I noted the driver's hand movements were slow and he appeared to be unsure where his documents were located. The driver provided me with his New Jersey Driver's License and I was then able to identify him as Kumar Cidambi [REDACTED] of Krams Trail, Bound Brook, New Jersey. I advised Cidambi to continue trying to locate his other credentials. I contacted dispatch with Cidambi's information and requested an additional unit to respond to my location for assistance with the administering of Standard Field Sobriety Tests (SFST's).

Patrolman McGavin and Ptl. Mastrandrea also of this agency arrived on scene to assist. I again approached the opened driver's side window of Cidambi's vehicle, requested him to turn it off and step out. Cidambi complied with my request and opened his driver's side door. Cidambi exited his vehicle and I directed him to the rear of it. While walking to the rear of his vehicle I noted Cidambi was walking in a wide gated stance appearing to be doing so for balance. At this time I also detected the odor of an alcoholic beverage emanating from his breath. The area were I directed Cidambi for testing was flat, level, dry and clear of debris. The following tests were administered to Cidambi from the New Jersey State Police SFST Administrative Guide. While observing Cidambi standing at the rear of his vehicle, I requested him to remove his hands from his pants pockets.

Test #1: Alphabet Test (explained). Cidambi was first asked if he was familiar with the English Alphabet. After relating he was familiar with the English Alphabet Cidambi was asked to recite the English Alphabet beginning with the letter C as in Charlie and ending with the letter V as in Victor. He was asked to not begin the test until instructed and told to recite the Alphabet without signing, rhyming or stopping. Cidambi was asked if he understood my instructions and he related he did.

Results: Several times during my explanation of the instructions for the test I noted Cidambi continued putting his hands into his pants pockets after being asked not to. When asked to begin the test, Cidambi started to recite the Alphabet. I noted he recited the Alphabet beginning with C and continued until reaching the letter Z not stopping at the letter V as I had instructed.

Test #2: One Leg Stand (explained). Cidambi was advised to stand with his heels together and his arms at his side. He was advised not to begin the test until told to. He was advised to raise one leg, either leg, approximately six (6) inches off the ground, foot parallel to the ground. He was advised to keep both legs straight and keep his eyes looking at the toe of the elevated foot. While holding that position he was advised to count out loud; one thousand and one, one thousand and two, one thousand and three and so forth until reaching one thousand and thirty or until told to stop. This test was demonstrated for Cidambi and he was asked if he understood the instructions. After advising me he understood my instructions I asked Cidambi if he had any problems or medical conditions with his legs that would prevent his ability to perform the test. Cidambi related he did not have any medical conditions or problems with his legs.

Results: After explaining the instructions for the test to Cidambi I noted he took several short staggered steps backwards towards the trunk of his vehicle appearing to be off balance. I advised Cidambi to begin the test and he raised his left foot off the ground. Immediately upon raising his left foot off the ground Cidambi began swaying and raising his arms up from his sides. Cidambi began counting and when he reached one thousand and three, he touched his left foot back down to the pavement. When Cidambi reached one thousand and five, he reached his left hand backwards and touched the trunk of his vehicle continuing to sway back and forth. When Cidambi reached one thousand and six, he again reached his left hand backward touching the trunk of his vehicle and his left leg crossed right, over his right leg causing him to fall towards me. He then reached both hands backward

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16064

again touching the trunk of his vehicle to regain balance. Now that Cidambi appeared to regain his balance I elected him the opportunity to start the test over again from the beginning. I directed Cidambi away from the rear of his vehicle and advised him to again return to the starting position. While moving to the starting position I noted Cidambi was continuing to sway and appeared to be having difficulty maintaining his balance. Cidambi started the test a second time raising his left foot off the ground and began counting out loud. Immediately Cidambi was again raising both of his arms up from his sides and swaying back and forth. When he reached one thousand and five he touched his left foot to the pavement and began swaying more rapidly. Cidambi touched his left foot to the pavement upon reaching one thousand and seven, one thousand and nine, one thousand and ten and one thousand and eleven. After one thousand and eleven I instructed Cidambi to stop the test. I noted when he stopped the test, he put his left hand into his pants pocket.

Test #3: Dexterity test (explained). Cidambi was advised to hold out is right hand palm facing up. He was advised to touch his thumb to each successive finger while counting; one, two, three, four from his index finger to his little finger. After reaching his little finger, he was then instructed to count; one, two, three, four back from his little finger to his index finger. I asked Cidambi if he had any problems with his hand that would inhibit his ability to perform the test and he related he did not.

Results: Cidambi began the test touching his thumb to his little finger first and then counting; one, two, three, four until reaching his index finger. After reaching his index finger, Cidambi again returned his thumb to his little finger continuing to count; one, two, three, four back to his index finger not as I had instructed. At the conclusion of this test Cidambi again placed his left hand into his left pants pocket.

Test#4: Walk and turn (explained). Cidambi was advised to stand facing the front of my patrol vehicle with his left foot on the pavement and his right foot in front, touching his right heel to his left toe. He was advised to keep his arms at his side. The stance was then demonstrated. Cidambi was advised not to begin the test until I told him to. I advised Cidambi to then take nine (9) heel-to-toe steps forward counting out loud, looking at his feet and keeping his arms at his sides at all times. Upon completion of the ninth (9th) step he was advised to keep one foot on the pavement and turn around by taking several small steps with his other foot. After turning around, Cidambi was advised to take nine (9) more steps heel-to-toe, again counting out loud, looking at his feet and keeping his hands at his sides. I demonstrated this test to Cidambi and asked him if he understood my instructions. Cidambi advised me he understood my instructions.

Results: When Cidambi first stood in the starting position, he was swaying from side to side and appeared to be having difficulty keeping his right foot in front of his left. As I explained the rest of the instructions I noted Cidambi was swaying from side to side and staggering in his position taking small choppy steps appearing to be having difficulty standing. While explaining the rest of the tests instructions Cidambi attempted starting the test two times after being told not to. At the conclusion of the tests instructions I advised Cidambi to begin the test whenever he was ready. Cidambi came to the starting position with his left foot in front of his right foot not as I had instructed and continued swaying back and forth. Cidambi took his first step and staggered on his second touching his right foot to the pavement in two (2) choppy steps appearing to try and regain his balance. Cidambi continued swaying and staggering through steps three (3) to nine (9) taking short choppy steps and slowly veering left towards the South bound shoulder on U.S. Highway 9 failing to maintain a straight walking line and raising his hands up from his sides. After reaching step nine (9) Cidambi took a wide gated stance and turned around without maintaining one (1) foot contact with the pavement, not as I had instructed. For all nine (9) steps walking back towards the starting point Cidambi was staggering, swaying and taking short choppy steps in between steps appearing to have difficulty maintaining his balance. At the conclusion of the test, Cidambi placed both of his hands into his pants pockets.

Based on my observations of Cidambi's performance with the SFST's, the odor of an alcoholic beverage emanating from his breath, my observations of him operating of a motor vehicle and his admission to consuming an alcoholic beverage before operating his motor vehicle, Cidambi was subsequently placed under arrest for driving while intoxicated. Cidambi was handcuffed (double locked), searched and seat belted into the rear of patrol vehicle 20-14 where I advised him he would be both video and audio recorded. Cidambi's vehicle was impounded by Midnite Towing Co. as per Johns Law.

At headquarters, Cidambi was read the NJ standard Statement for Motor Vehicle Operators to which he replied "yes" to provide samples of his breath for the purpose of chemical testing to determine blood alcohol content. Cidambi was then turned over to Ptl. McGavin for Chemical Breath Testing (see Ptl.

INVESTIGATION REPORT

50 RAILROAD AVENUE
609-693-4007
WARETOWN, NJ 08758

Municipal Code: 1520
ORI: NJ0152000

INCIDENT # : I-2019-16064

McGavin's supplemental report). Cidambi only provided one (1) good sample of his breath out of eleven (11) attempts (see Alcohol Influence Report Form, Alcotest 7110 MK111-C Sequential File No. 00987).

Cidambi was read his Constitutional Rights, stated he understood them and signed that he was not willing to relinquish them. Cidambi was processed, photographed and released on the following motor vehicle summons' pending a scheduled court date:

A-048481 FOR 39:4-50
A-048482 FOR 39:3-60
A-048483 FOR 39:4-96
A-048484 FOR 39:4-88B
A-048485 FOR 39:4-50.2

Cidambi was released to Arthur Madresh [REDACTED] of [REDACTED] Harbor Inn Road, Bayville, New Jersey who signed the New Jersey Potential Liability Warning Form in accordance with N.J.S.A. 39:4-50.22.

These events were memorialized on the mobile video recorder (MVR) of patrol vehicle 20-14 and the station house cameras of the Ocean Township Police department.

Cidambi has never served in the United States Armed Forces.

This investigation is considered cleared by Cidambi's arrest.

On 04/27/19 at 2250 hours, Ptl. Joel Sawyer of this agency conducted a motor vehicle stop with a blue Mercedes-Benz SUV bearing NJ registration (P80KWJ) in the area of Route 9 and Bay Parkway. This officer arrived on scene as a back up officer. Ptl. Sawyer requested the driver identified as Kumar Cidambi D.O.B. [REDACTED] Krams Trail, Bound Brook NJ to exit the vehicle to perform field sobriety tests. Ptl. Sawyer determined that Cidambi was intoxicated and he was subsequently placed him under arrest (see Ptl. Sawyer's Investigation Report). Ptl. Sawyer transported Cidambi to headquarters for processing.

This officer responded to headquarters to operate the Alcotest 7110 MKIII-C machine. At police headquarters, Ptl. Sawyer advised Cidambi of the standard statement form by reading it him pursuant to 39:4-50.2(e). Cidambi then agreed to submit samples of his breath.

Cidambi was turned over to this officer at police headquarters. This officer observed Cidambi in the prisoner processing room for a period of no less than twenty minutes which started at 2317 hours. I asked Cidambi to open his mouth and lift his tongue to ensure he did not have any foreign items inside of it prior to the start of the observation period. Cidambi was asked if he wore full or partial dentures to which he indicated that he did not. It should be noted that during the observation period Cidambi did not belch, spit or regurgitate. While he was speaking with this officer I did detect the odor of an alcoholic beverage from his breath.

Prior to administering the breath test, all portable radio frequency emitting electronic devices and cellular phones, including Cidambi's were removed from the processing room.

At 2344 on the alcotest machine, this officer began to attempt to obtain two samples of Cidambi's breath. Cidambi only provided one good sample of his breath out of eleven attempts. On ten of the samples Cidambi did not achieved the minimum volume required for a sample. It should be noted that Cidambi was advised of the instructions and was given a new mouth piece prior to each sample he...

gave. During the test on the samples that did not meet the minimum volume required Cidambi would hold back on blowing and did not blow hard. Cudambi also on the ten test that did not meet the minimum needed would stop blowing prior to this officer advising him to stop. This officer also advised he did not provide the required breath sample he would be issued a summons for refusal to submit to breath sampling.

Following Cidambi not providing breath samples he was turned back over to Ptl. Sawyer for further processing. While reviewing Cidambi's Alcohol Influence Report Form, he provided no volume of air or a low volume of air well below the 1.5L of air required. On the one good sample provided he was able to provide well over the required volume of air. It was this officer opinion that Cidambi was not providing the required volume of air of his own knowing to not provide a %BAC reading.
