To the Town Council:

It does take a township to have a successful book sale. Many thanks from the Friends of the Teaneck Public Library to all of the township workers who partnered with us on this event.

Thanks to Library Director Shinae Hyun and her staff for tolerating the squeaky wheels of the carts and the constant bustle. Thanks to Township Manager Dean Kazinci and his staff for making arrangements and connections and for helping us get the word out on the website and through the electronic signs. Thanks to Superintendent of Public Works Michael Sermabekian and his staff for delivering and picking up the dumpster, the tables, and the tents. And thanks to Police Chief Glenn O'Reilly and his officers for managing the traffic flow.

All of these departments have been supporters over the many years the Friends have held book sales, but the outdoor ones require another level of partnership. We thank all of them heartily. Anybody want any books?

Gratefully yours,
Lynn Kloss, Book Sale Chair

Good morning all!

Library Board appointments are made by the Mayor, according to our Code;
<https://ecode360.com/13625229?highlight=library%20board&searchId=24595949498331696#13625229>
which has typically been done by Letter - sample attached

I believe when this occurred last the Mayor made mention of his appointments at Open Session during new business

Looking at my records I am unsure if anyone's term is up

Hi Debbie,

I cannot attend this month's meeting. However, I have attached a Friends Report for the minutes. I offer one small correction to the minutes of February: The Brainfuse program covers all subject areas, not merely math. (I tried the math as a test and found it to be adequate).

Dear Board members,

Please see attached Ann Sorkowitz's resume and cover letter.

She has been working with us as a Part-Time Librarian and created "History of Teaneck" for the township's 125th anniversary as well as other instructional videos. She has also been volunteering at the Bogota Library and offered several unique programs to attract patrons into the library.

She is energetic, creative, and knowledgeable. She is a Teaneck resident and knows how to connect with people. I am confident that she would be a great asset to the Library.

If you have any questions, please let me know.

A Truly Safe Space: Cultural Literacy; First Amendment Muscle

- Tuesday, 6/21/22 7:00-8:30 pm
- ZOOM (register via [Eventbrite](#))

We all try our best, but libraries can sometimes fall short of providing truly safe spaces for all communities. **BCCLS' Diverse & Underserved Populations Committee (DUP)** is partnering with **Bergen County LGBTQ+ Advisory Committee (BCLA)** to present an informative evening session for **ALL** library staff. BCLA's mission is to advocate for equality and resources for the LGBTQ+ community in Bergen County, to celebrate our diversity, and to identify and create safe spaces for our true selves. Here, we hope to help inform library folk on how best to support and work with our local LGBTQIA+ communities.

Good morning-

Apologies for the late notice. It was challenging to assemble this month's board packet after a long holiday weekend, and in time for the meeting on June 2-tomorrow. With that in mind, please let us know **ASAP** if you will be able to attend so we can ensure there will be a quorum. (Thank you Terry and Paul for advising that you will not be able to attend.)

I hope you will join us for the Library Board of Trustees meeting scheduled for Thursday, June 2 at 6:30 PM via Zoom Webinar.

Attached you will find your electronic Board packet. Please note: if you have any questions or comments, please let us know prior to the Board meeting.

If you have not received it already, you should be receiving an invitation to the Zoom Webinar soon.

Dear Councilman Kaplan,

The Teaneck Library Board of Trustees approved the Banned Books resolution at the meeting on August 4th. Please see the resolution attached.
Please consider approving it at the Council meeting as well.

During the Banned Books week, September 18-24, the Library will have a book display, banned book discussion, and special programs to celebrate the Freedom to Read and reject any efforts to censor or remove materials from the library, based on content.

Please let me know if you have any questions. Thank you for your support.

Good morning-
A few quick updates:

1) **REVISED #22-64** should replace the one previously sent. NBC's Request to Use the Auditorium is back on the Agenda and this is the complete Application, with Hold Harmless Agreement, and Certificate of Insurance.

2) We need one more for a quorum...

Benjy, Keisha, Myron, Evalyn - please advise if you will be attending in-person or virtually... Shinae needs to create individual panel links for those on Zoom.

(Thank you to Joy, Lilian, Barbara, Keith and Sandi who have replied and need zoom links.)

Thank you!

Attachments: Panel Flyer (1).pdf

Hello Dean,

I trust this note finds you well. It's been some time since we've spoken, though both Steve and I have reached out to you on numerous occasions over many months. More than likely, you've had to navigate the Covid crisis amongst other things, and perhaps have been unusually busy, which is understandable. However, we need to schedule a time to meet to discuss our status with the Township on the ongoing plans for the creation of the Memorials on the Township Green.

Both the EAMC and HC (Holocaust Committee) have ignited community interest in seeing the monuments built, through our various grant support that fueled our public engagements, community outreach and educational program initiatives. Though at this point, the lack of response by your office has us gravely concerned. We're not sure if the original support to build these monuments which was offered through a Township Resolution is being honored. As it relates to the remainder of the State DCA grant monies that both groups, including the Teaneck Public Library received under the sponsorship of former Senator Loretta Weinberg, we're not clear why those monies held by your office, as the fiduciary, has not been released. We don't know how the remainder of those funds and its allocation to our respective groups to continue our work are being used or not? The invoices submitted over a year ago by both groups have not been processed to date with no formal explanation.

Nevertheless, we will not be deterred and plan to continue our mission because we believe these monuments are a testament to the ideology of "inclusion and diversity" that Teaneck so upholds and prides itself on. By way of information, Governor Murphy has recently committed funds for the development of an African American heritage trail that will tell the story of enslavement in NJ by creating historical markers throughout the State. We are in a unique position to gain access to these funds to support our goals.

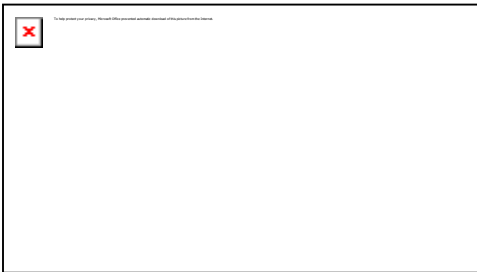

Perhaps it is an oversight and not a priority to engage us in this monumental task but somehow we need to get back to the table to discuss, analyze, and reconstruct the stated mission that both groups had with the Township and the library.

We await your prompt response and look forward to meeting with you. Below, is a virtual symposium that the EAMC sponsored which provides further information and context about memorials. The panel was moderated by our Humanities Scholar, Dr. Jack Tchen, Director of the Clement Price Institute at Rutgers University and esteemed guest that includes both our architect Rodney Leon and renown sculptor, Dr. Lorenzo Pace and cultural preservationist for the African Burial Ground in NY, Peggy King-Jorde . Also see the attached symposium done in collaboration with HC and local students from various schools about chattel slavery and the Holocaust and the intersection between the two histories.

In Teaneck we have the Native American and Enslaved African Burial Ground on Pomander Walk and countless other reminders in and around Bergen County that though not known by many display the long-forgotten history, invisibility, and erasure of underrepresented people. The history of the African/Americans/Native American presence of those enslaved and those dispossessed throughout the state has long been ignored in the history of NJ. Both committees want to ensure that this information be shared with the general public. We hope to affect that change for further inclusion of a more diverse and nuance history which our monuments will represent.

We trust you will honor and respect our desire to engage in community building, and education which these memorials will most certainly accomplish once created. The Enslaved and Holocaust monuments will speak to the "Triumph of the Human Spirit" and to the values we espoused and uphold on diversity and inclusion here in our town of Teaneck.

Please see attached Ann Sorkowitz's resume and cover letter.

She has been working with us as a Part-Time Librarian and created "History of Teaneck" for the township's 125th anniversary as well as other instructional videos. She has also been volunteering at the Bogota Library and offered several unique programs to attract patrons into the library.

She is energetic, creative, and knowledgeable. She is a Teaneck resident and knows how to connect with people. I am confident that she would be a great asset to the Library.

Good morning-
A few quick updates:

1) **REVISED #22-64** should replace the one previously sent. NBC's Request to Use the Auditorium is back on the Agenda and this is the complete Application, with Hold Harmless Agreement, and Certificate of Insurance.

2) We need one more for a quorum...

Benjy, Keisha, Myron, Evalyn - please advise if you will be attending in-person or virtually... Shinae needs to create individual panel links for those on Zoom.

(Thank you to Joy, Lilian, Barbara, Keith and Sandi who have replied and need zoom links.)

Thank you!

Regards,
Debbie

Good morning-

A few quick updates:

1) **REVISED #22-64** should replace the one previously sent. NBC's Request to Use the Auditorium is back on the Agenda and this is the complete Application, with Hold Harmless Agreement, and Certificate of Insurance.

2) We need one more for a quorum...

Benjy, Keisha, Myron, Evalyn - please advise if you will be attending in-person or virtually... Shinae needs to create individual panel links for those on Zoom.

(Thank you to Joy, Lilian, Barbara, Keith and Sandi who have replied and need zoom links.)

Thank you!

Good morning everyone-

Sorry, the packet will be delayed a bit, as Chatur was out Friday. As soon as he finishes the bills, I will work on the budgets, assemble the packets and send it out for the

BOARD MEETING - THURSDAY, OCTOBER 6, 6:30 PM (*provided there is a quorum)**

* Please advise if you will be attending, and if in-person, or virtually (Lillian-thank you for the heads-up that you will be there virtually).

Thank you! Stay dry today...

Regards,
Debbie

Good morning Lillian-

I apologize for any confusion. Sorry, this month's meeting will be similar to last month's in that the board meeting will be hybrid - in-person, as well as virtual for anyone who requested a link. You should have already received a link from Shinae. If you have not, please advise.

Good morning-
A few quick updates:

1) **REVISED #22-64** should replace the one previously sent. NBC's Request to Use the Auditorium is back on the Agenda and this is the complete Application, with Hold Harmless Agreement, and Certificate of Insurance.

2) We need one more for a quorum...

Benjy, Keisha, Myron, Evalyn - please advise if you will be attending in-person or virtually... Shinae needs to create individual panel links for those on Zoom.

(Thank you to Joy, Lilian, Barbara, Keith and Sandi who have replied and need zoom links.)

Thank you!

Regards,
Debbie

FYI To my knowledge, thus far, we DO NOT have a quorum: **YES = 2** = Benjy (I'm assuming, since Gerald mentioned you would be "running it") and Terry ONLY; NO = Gerald and Paul.

If you have not yet responded, please advise so we may determine if there will be a quorum. Thank you!

President Reiner and Ms. Hyun,

My name is Deke Valerio and I am one of the commissioners part of the THPC. I was hoping to rehash conversations around the current collection. Would you happen to know what type of items constitute this collection and a rough idea of the size? Is it mostly historic photos or are there other types of items such as artifacts, newspapers, brochures, etc. that provide a glimpse of what life used to be like in Teaneck?

Secondly, in Ms. Hyun's email below it was mentioned a long term goal is to create a multi functioning local history room to store the collection. I was hoping to further inquire your vision for such a room. Would this room be a type of multipurpose room for library or community events in which a section of the room would house the collection? Or would this room be dedicated to all things that pertain to local history in which visitors can browse through different types of media (books, movies, artifacts, newspapers, interactive guides, etc.) to learn more about Teaneck's history?

Any information or guidance you can provide will be greatly appreciated as it will help guide us in determining the next steps. We have also had some preliminary discussions with the NJHPO in which they gave us some useful information as it relates to the planning and the care of a collection, but the main driver right now is the availability of space.

Regards,

Deke Valerio

Hi Councilman Kaplan,

I checked with the staff about the items we've received from the Volcker family. We have files downstairs but need to look at them.

The staff has no idea about the plans for the exhibit and I don't see anything either. My long term goal is to create a multi functioning local history room to house the local history collection. As the Board president said, the Library can work with the Teaneck Historic Preservation Commission.

Perhaps he worked out some of that plan already so it didn't need to start from scratch?

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link:

<https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>

We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?

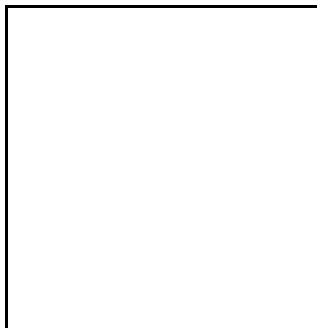

- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
-
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Hello Mr. Reiner,

I am reaching out to pick up on previous email correspondence that we had in the spring regarding an online pin map of historic sites, historical markers for parks, public artworks, and memorials within the Township that the Historic Preservation Commission has been working on. We had previously inquired as to whether it might be hosted on the library's website on the page with the archive collection of history of the Township (<https://archive.teanecklibrary.org/>)

The map is created and hosted on the Google Maps platform. Please visit the following link to view the map: <https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>

At this time, we have completed the map and are looking to see if it may be made available to the public. After speaking with the other Commission members and Councilman Kaplan, we would like to kindly request if the map may be hosted on the Library's website so that we may share it with the public?

Can you kindly advise if this would be possible, and if so, what would be the steps we would need to take? I am happy to share the data files with you and any other information as needed.

The Google Maps platform may be embedded into webpages. The data files can be exported as .kml/.kmz file types, which are the standard format for all of Google Maps.

Based on our previous correspondence, my understanding was that the library was open to hosting the map, but would not commit to updating it? We understand and that is fine with us. At this point, we are satisfied with the map as is and do not intend to make any changes in the immediate future. If it comes up that future changes are desired, I would be happy to update the data myself, and hopefully to make a change it should be as simple as providing the data file exports which can simply replace the old ones.

Kindly let me know if this is something the library would be open to. I'm happy to talk further and go over any questions or concerns and discuss any details.

Thank you so much for your time and consideration of our request!

Best,

-Kevin Force

Regarding resolution LB-22-01 (approving our new director), it would seem to be more accurate to say that "Teaneck is a CULTURALLY rich and diverse community"

Good morning-

Happy (and Healthy) New Year!

I apologize for the delay. I hope you will join us for the Library Board of Trustees meeting scheduled for Thursday, January 6 at 6:30 PM via Zoom Webinar. Please let us know if you will be able to attend so we can ensure there will be a quorum.

Attached you will find your electronic Board packet. Please note: if you have any questions or comments, please let us know prior to the Board meeting.

You should have already received an invitation to the Zoom Webinar.

Regards,
Debbie

Dear Board members,

Please see attached Ann Sorkowitz's resume and cover letter.

She has been working with us as a Part-Time Librarian and created "History of Teaneck" for the township's 125th anniversary as well as other instructional videos. She has also been volunteering at the Bogota Library and offered several unique programs to attract patrons into the library.

She is energetic, creative, and knowledgeable. She is a Teaneck resident and knows how to connect with people. I am confident that she would be a great asset to the Library.

Luis,
This is an affordable housing unit that was built by Bergen County. There is a deed restriction which governs the resale of the unit, but not sure that it addresses rentals. (These units were supposed to be sold to qualified individuals who would live there. The current owner acquired this through a Sheriff's Sale and has never lived there to my knowledge.)

This is a single dwelling unit that was built in 1986. It does not fall under Teaneck's rent control ordinance.

I would suggest that the tenant contact Bergen County's affordable housing department (used to be known as "CHIP" - Community Housing in Partnership) for any information regarding the rental of these units. They are responsible for determining the allowable resale price and for determining eligibility to purchase.

I have issues here where I live in Teaneck my landlord is increasing my rent by \$365 a month starting October 1 and it's putting me and my family and situation where we just can't afford it not to mention how they are trying to force me to sign his rent increase or they will charge me my whatever my current rate is +115% on top of that if I refuse to sign the lease I don't know what to do at this point and I think it's insane me being a teenage resident for over 30 years and having to deal with this is really absurd and I was wondering if there's anything that you can do to help me and my family out in this situation

Luis,

This is an affordable housing unit that was built by Bergen County. There is a deed restriction which governs the resale of the unit, but not sure that it addresses rentals. (These units were supposed to be sold to qualified individuals who would live there. The current owner acquired this through a Sheriff's Sale and has never lived there to my knowledge.)

This is a single dwelling unit that was built in 1986. It does not fall under Teaneck's rent control ordinance.

I would suggest that the tenant contact Bergen County's affordable housing department (used to be known as "CHIP" - Community Housing in Partnership) for any information regarding the rental of

these units. They are responsible for determining the allowable resale price and for determining eligibility to purchase.

I believe when this occurred last the Mayor made mention of his appointments at Open Session during new business

Looking at my records I am unsure if anyone's term is up

Dean,

I researched the funds set aside in the capital budget for library improvements. Unfortunately, due to the increase in costs to some other improvements such as the cooling tower last year and other municipal building improvements (based on the wording of the bond ordinance from 2018), other projects utilized the funding from the municipal building improvements line item.

Nonetheless, below is what is left for the library's improvements that I have encumbered under purchase order 23-00156.

<u>Year</u>	<u>Budget Code</u>	<u>Amount</u>	<u>Caption</u>
2018	C-04-55-999-024-021	\$ 250,000.00	Library Improvements
2020	C-04-55-999-041-022	\$ 224,000.00	Library Upgrades
2020	C-04-55-999-041-023	\$ 56,000.00	Library Upgrades - Section 20

Councilwoman Goldberg and Mayor Pagan,

Thank you for taking the time to speak to me today about the Expungement Clinic sponsored by Ascend Cannabis through Chirali Patel who is the founder and managing partner of Blaze Law LLC a specialized canibus law firm. The Mayor and I did a brief inquiry if she would be willing to host a clinic at no cost to the town or to the participants in Teaneck. Today she came back and offered March 29th as a potential date that worked for the program. Expungement opportunities are important as it allows people to get out of the shadow of past mistakes and be able to move forward garnering more economic opportunity and advancement in the workplace and in housing.

Chirali's contact information is her cell; 732-853-5336

About Chirali Patel:

Recognized on the InsiderNJ 2021 "Insider 100: Cannabis Power List" as an influential voice in the cannabis debate, Chirali started her journey in the cannabis industry through self-education and organic networking in legal states such as Colorado as early as 2016. Chirali went on to gain experience in facilitating vertical applications for medical cannabis licenses in New Jersey and in advising individuals on ancillary market opportunities. She is also an advocate in the community and was the South Asian liaison for NJ CAN 2020, the successful "vote yes" campaign led by the ACLU-NJ to legalize adult-use. Chirali is currently an attorney in the Cannabis & Hemp Law and Litigation practices at one of the top law firms in New Jersey, Pashman Stein Walder Hayden, P.C. Chirali combined her business and legal experience and created Blaze Responsibly™, a brand that aims to educate and empower the new generation of cannabis leaders. Chirali is also a Managing Partner and the Chief Compliance Officer for Digital Venture Partners, a majority black-owned cannabis portfolio company. She is an Executive Member for the New Jersey State Bar Association Cannabis Committee and is Co-Chair of the Social Justice and Equity Subcommittee. She is also a member of several industry organizations and speaks frequently on the topic in her professional and personal capacity. Chirali devoted the early years of her career to serving the public, previously working for the County of Bergen as assistant county counsel, for the City of Hoboken as assistant corporation counsel and assistant prosecutor, and for the County of Passaic as a legal associate. Her prior litigation experience at Carella Byrne Cecchi Brody & Agnello, P.C. is on complex commercial litigation, including business torts and civil RICO claims against Fortune 500 companies, and complex class actions and mass tort litigation against pharmaceutical drug companies and automobile manufacturers. Chirali was also appointed as Liaison Counsel in the multidistrict litigation In re Elmiron as part of one of the most arguably diverse plaintiff's steering committees. Chirali received her Bachelor's in Business Management from Rutgers University Business School in New Jersey and her J.D. from Yeshiva University, Benjamin N. Cardozo School of Law in New York.

About Ascend Canibus and the Expungement Clinic;

AWH is a U.S. multi-state operator, with assets in six states including Illinois, Michigan, Massachusetts, New Jersey, Ohio, and Pennsylvania. The company focuses on limited license states east of the Rockies, with flagship locations in desirable retail corridors serving key medical and adult-use markets.

AWH is committed to breaking down traditional barriers in the cannabis marketplace to redefine the industry from the ground up. The company owns and operates state-of-the-art cultivation facilities, grows award-winning strains and

produces a curated selection of premium products. AWH provides accessible retail experiences, trusted products and exclusive brand partnerships. Because cannabis should be accessible to everyone.

Ascend hosts expungement clinics to support those impacted by the War on Drugs in an effort to undo some of the harm they've been subjected to. Through fundraising, events, and educational campaigns, Ascend works to right the wrongs of the past and pave the way to a more equitable future. Ascend hosts clinics across all of its states to help people seal and/or expunge their past criminal records.

Doug,

Rather than take time on Zoom I wanted to pose the following comments;

1. I want to confirm there is no present plan to allow the deforestation of the Shepherds woods property in the Northeast area of Teaneck for a proposed development project.
This is Township owned land so perhaps review this property as park acquisition or as a land bank to facilitate the DPW project or other land swaps.
2. The RFP process isn't hard at all. I would gladly volunteer my professional services for the Township if they need it. I literally issue these for the 3 public agencies I work for directly and several clients on a regular basis.
3. If it's a workshop or a meeting it's the administration of the meeting that makes or breaks the meeting. If the meetings operated as the BOE does where the same issue is listed two meetings in a row this would add no benefit to the community. If the sessions are used to get the people's business done and undertake routine item's it's better. Also to note the Mayor currently has the ability to call a meeting at any time.
4. If the goal is to have a full time attorney or a paralegal to do routine legal tasks then hire one. The current contract for the Attorney has a rate of \$165 per hour. Considering tonight it was said an attorney is assigned in the Township 3 days a week full time so 3 days x 8 hours x 52 weeks x \$165 an hour is \$205k plus reimbursable expenses like mileage and so on. A full time attorney with the base level of experience for municipal government would be around \$75-\$90k a year plus benefits, they may or may not be appointed as the Township attorney depending on preference.

Ms. Pitt,

The issue is going to apply disproportionately across various states as it is up to the state to re-verify enrollment eligibility within 14 months of the April 1st date.

Perhaps there is a way to get a NJ Family Care representative (NJ's CHIP provider) to visit the district on a regular basis so that enrollment and information is accessible.

I understand the concern of your e-mail, but find it to be a little confusing as to what the next steps for families are to take. Also unfortunately families impacted tend to also be of limited english ability and the documentation was provided only in english alone.

Other resources which could be shared include; <https://njfamilycare.dhs.state.nj.us/> since the program is administered by each state, each state has state specific resources.

Also families should be reminded that if you no longer qualify for the expanded eligibility there may be an affordable option through <https://nj.gov/getcoverednj/> as a loss of coverage is a life changing event so the open period may be applicable to certain families.

In closing, this is a very detailed and inquisitive topic and the right resources need to be made available so as to not cause undue panic, while also conveying the sense of urgency of the matter.

I am cc'ing the Mayor of the Township because this topic should be addressed town wide in my opinion.

Thank you so much for advocating for our kids.

Good afternoon Hawthorne Families,

As of the 4/1 date for the Medicaid unwinding to start. AAP federal and state government affairs have been advocating for safeguards for almost 2 years. Despite this fact, they expect that 3.8 million children may lose Medicaid over the coming 14 months and a significant number of them for administrative reasons (like they may have moved and the letter to process renewals was never received.) Currently more than HALF of the kids in the country are covered by Medicaid or CHIP.

If you are a Parent or Guardian of students who receive Medicaid benefits, starting 4/1, due to the Families First Coronavirus Response Act (FFCRA) funds ending, fewer children will be covered by Medicaid. To: Doug Ruccione <druccione@teanecknj.gov>

For the ordinance introduced at reorganization, I don't think it's legal. There isn't a citation which seems to imply a provision may be enacted which grants such a restrictive covenant for a particular class of persons other than handicapped parking. All other specific restrictions of parking also have to be named and adopted by ordinance specific to the locations affected and therefore in the absence of such action the restriction would be unenforceable at best.

In fact because it's impossible to determine where a council or BOE member would live in perpetuity, for example on a county road or within a proximity to a state road or in an apartment it would be impossible to enact such a parking restriction. There is also an issue with a rented home would the owner have to sign off?

Furthermore the power to restrict a public road for the benefit of a elected official would also violate the NJ school ethics act in that by virtue of their election a school board member would get a private benefit which could be interpreted as undue and unavailable to the general public. A school Board member only exists with authority as a body of the whole, they do not exist as an official in any individual capacity. There is also concern with the benefit being extended beyond the official but also to that of a family member.

Njsa 18A:12-24 b. No school official shall use or attempt to use his official position to secure unwarranted privileges, advantages or employment for himself, members of his immediate family or others;

And

By funding projects without the right process it's literally 40% more expensive off the bat.

<https://www.njsba.org/news-publications/school-leader/may-june-2018-vol-48-no-6/school-finance-long-term-debt-planning-for-school-districts/>

How to Pay for the Projects After the district officials prioritize the project list and assign a cost to each project, financial planning can begin. Districts can pay for capital projects in one of four ways; however, the source of funds differ, so it is important to understand each option. Projects can be funded through the operating budget, from capital reserve, through a successful bond referendum and through an Energy Savings Improvement Program (ESIP).

First, projects can be funded through a district's operating budget on an annual basis. The downside to this option is that this funding method is limited because operating budgets are subject to a spending cap, and, unless capital budgets are routinely included in the operating budget, it will cause stress on the budget. On the positive side, if a district can afford this option, no long-term debt is accrued.

The second option is funding through the capital reserve. This reserve is funded by annual (optional) deposits directed through a resolution of the board of education. Using a disciplined approach, a school district can amass a significant allocation in this reserve over a number of years.

A third option is accomplished through a successful bond referendum approved by the voters. **The biggest benefit of this option is that certain projects can receive 40 percent debt service aid. (Eligible projects are entitled to 40 percent aid. However, the state has decreased the aid by 15 percent, and therefore the aid should be anticipated to be 34 percent. This is 85 percent of the 40 percent rate.)**

Essentially then, the state of New Jersey is paying up to 60 percent of the project. This requires debt service to be budgeted throughout the term of the bonds. If a district has debt coming off the books as was discussed earlier, this option could be used with no additional impact to the taxpayer.

Thank you for taking the time to speak to me today about the Expungement Clinic sponsored by Ascend Cannabis through Chirali Patel who is the founder and managing partner of Blaze Law LLC a specialized canibus law firm. The Mayor and I did a brief inquiry if she would be willing to host a clinic at no cost to the town or to the participants in Teaneck. Today she came back and offered March 29th as a potential date that worked for the program. Expungement opportunities are important as it allows people to get out of the shadow of past mistakes and be able to move forward garnering more economic opportunity and advancement in the workplace and in housing.

Chirali's contact information is her cell; 732-853-5336

About Chirali Patel:

Recognized on the InsiderNJ 2021 "Insider 100: Cannabis Power List" as an influential voice in the cannabis debate, Chirali started her journey in the cannabis industry through self-education and organic networking in legal states such as Colorado as early as 2016. Chirali went on to gain experience in facilitating vertical applications for medical cannabis licenses in New Jersey and in advising individuals on ancillary market opportunities. She is also an advocate in the community and was the South Asian liaison for NJ CAN 2020, the successful "vote yes" campaign led by the ACLU-NJ to legalize adult-use. Chirali is currently an attorney in the Cannabis & Hemp Law and Litigation practices at one of the top law firms in New Jersey, Pashman Stein Walder Hayden, P.C. Chirali combined her business and legal experience and created Blaze Responsibly™, a brand that aims to educate and empower the new generation of cannabis leaders. Chirali is also a Managing Partner and the Chief Compliance Officer for Digital Venture Partners, a majority black-owned cannabis portfolio company. She is an Executive Member for the New Jersey State Bar Association Cannabis Committee and is Co-Chair of the Social Justice and Equity Subcommittee. She is also a member of several industry organizations and speaks frequently on the topic in her professional and personal capacity. Chirali devoted the early years of her career to serving the public, previously working for the County of Bergen as assistant county counsel, for the City of Hoboken as assistant corporation counsel and assistant prosecutor, and for the County of Passaic as a legal associate. Her prior litigation experience at Carella Byrne Cecchi Brody & Agnello, P.C. is on complex commercial litigation, including business torts and civil RICO claims against Fortune 500 companies, and complex class actions and mass tort litigation against pharmaceutical drug companies and automobile manufacturers. Chirali was also appointed as Liaison Counsel in the multidistrict litigation In re Elmiron as part of one of the most arguably diverse plaintiff's steering committees. Chirali received her Bachelor's in Business Management from Rutgers University Business School in New Jersey and her J.D. from Yeshiva University, Benjamin N. Cardozo School of Law in New York.

Is the only way to protest an ordinance through a legal action?

To: Doug Ruccione <druccione@teanecknj.gov>

For the ordinance introduced at reorganization, I don't think it's legal. There isn't a citation which seems to imply a provision may be enacted which grants such a restrictive covenant for a particular class of persons other than handicapped parking. All other specific restrictions of parking also have to be named and adopted by ordinance specific to the locations affected and therefore in the absence of such action the restriction would be unenforceable at best.

In fact because it's impossible to determine where a council or BOE member would live in perpetuity, for example on a county road or within a proximity to a state road or in an apartment it would be impossible to enact such a parking restriction. There is also an issue with a rented home would the owner have to sign off?

Furthermore the power to restrict a public road for the benefit of a elected official would also violate the NJ school ethics act in that by virtue of their election a school board member would get a private benefit which could be interpreted as undue and unavailable to the general public. A school Board member only exists with authority as a body of the whole, they do not exist as an official in any individual capacity. There is also concern with the benefit being extended beyond the official but also to that of a family member.

Njsa 18A:12-24 b. No school official shall use or attempt to use his official position to secure unwarranted privileges, advantages or employment for himself, members of his immediate family or others;

And

NJSA 18A:12-24 c. No school official shall act in his official capacity in any matter where he, a member of his immediate family, or a business organization in which he has an interest, has a direct or indirect financial involvement that might reasonably be expected to impair his objectivity or independence of judgment. No school official shall act in his official capacity in any matter where he or a member of his immediate family has a personal involvement that is or creates some benefit to the school official or member of his immediate family;

By funding projects without the right process it's literally 40% more expensive off the bat.

<https://www.njsba.org/news-publications/school-leader/may-june-2018-vol-48-no-6/school-finance-long-term-debt-planning-for-school-districts/>

How to Pay for the Projects After the district officials prioritize the project list and assign a cost to each project, financial planning can begin. Districts can pay for capital projects in one of four ways; however, the source of funds differ, so it is important to understand each option. Projects can be funded through the operating budget, from capital reserve, through a successful bond referendum and through an Energy Savings Improvement Program (ESIP).

First, projects can be funded through a district's operating budget on an annual basis. The downside to this option is that this funding method is limited because operating budgets are subject to a spending cap, and, unless capital budgets are routinely included in the operating budget, it will cause stress on the budget. On the positive side, if a district can afford this option, no long-term debt is accrued.

The second option is funding through the capital reserve. This reserve is funded by annual (optional) deposits directed through a resolution of the board of education. Using a disciplined approach, a school district can amass a significant allocation in this reserve over a number of years.

A third option is accomplished through a successful bond referendum approved by the voters. **The biggest benefit of this option is that certain projects can receive 40 percent debt service aid. (Eligible projects are entitled to 40 percent aid. However, the state has decreased the aid by 15 percent, and therefore the aid should be anticipated to be 34 percent. This is 85 percent of the 40 percent rate.)**

Essentially then, the state of New Jersey is paying up to 60 percent of the project. This requires debt service to be budgeted throughout the term of the bonds. If a district has debt coming off the books as was discussed earlier, this option could be used with no additional impact to the taxpayer.

Thank you Councilman Kaplan.

The library will review what we can and can not do, and perhaps reach out to BCCLS for guidance.

There are some documents that New Milford asks for that I am uncomfortable collecting in the manner they do, so it's cause for concern.

But I'm all about not re-inventing the wheel. There are 70 towns in Bergen County and if any (or all) of them have an easier method of handling renewals, I'm happy with adopting their system(s).

SDL was just a suggestion.

A quick look shows New Milford has an online form (complete with ability to sign on-screen):

Dear Keith,

Our system is connected to all BCCLS libraries and the emails are automatically generated by the system. I am not sure BCCLS would allow the system to be connected to the township system. However, if we can access the SDL system, the library staff can probably renew the Teaneck library accounts manually.

I will contact BCCLS to find out the best way to handle this.

Thank you for a great suggestion.

We have some new Town systems (SDL just let me renew a dog license in seconds) and the new systems also have built in proof of residency, so if they can work with BCCLS, that may be a great combination.

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

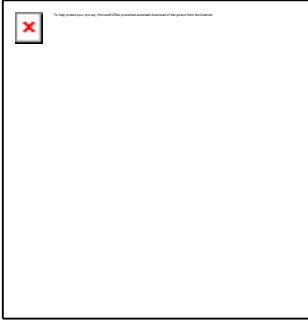

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link:
<https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>
We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?
- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
-
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Best,

-Kevin Force

Additional Information on Eligibility:	

ADDITIONAL INFORMATION

Agency Name:

National Archives and Records Administration

Description:

The National Historical Publications and Records Commission seeks projects that encourage public engagement with historical records. The NHPRC is looking for collaborative projects that create models and technologies that other institutions can freely adopt, including the development of new tools that enable people to engage online. Collaborations should include archivists as part of the project team in addition to documentary editors, historians, educators, and/or people working in community-based organizations. Projects that focus on innovative methods to introduce primary source materials and how to use them in multiple locations also are more likely to create a competitive proposal. Projects that center the voices and document the history of Black, Indigenous, and People of Color are especially welcome. In addition, with the 250th anniversary of the Declaration of Independence approaching, the Commission is interested in projects that promote discovery and access to collections that explore the ideals behind our nation's founding and the continuous debate over those ideals to the present day. Projects should create and develop programs to engage people in the study and use of historical records for institutional, educational or personal reasons. For example, an applicant can:

- Enlist volunteer "citizen archivists" in projects to accelerate access to historical records, especially those online. This may include, but is not limited to, efforts to identify, tag, transcribe, annotate, or otherwise enhance digitized historical records.
- Develop educational or creative programs for K-12 students, undergraduate classes, or community members that encourage them to discover and use historical records already in repositories or that are collected as part of the project.
- Collect primary source material from people through public gatherings and sponsor discussions or websites about the results.
- Use historical records in workshops for artistic endeavors. This could include K-12 students, undergraduate classes, or community members. Examples include projects that encourage researching and writing life stories for performance; using record facsimiles in painting, sculpture, or audiovisual collages; or using text as lyrics for music or as music.
- Develop technologies that encourage the sharing of information about historical records.

For a comprehensive list of the Commission's limitations on funding, please see "What we do and do not fund". Applications that consist entirely of ineligible activities will not be considered. Award Information A grant normally is for one to three years. The Commission expects to make up to five grants of between \$50,000 and \$150,000. The total amount allocated for this program is up to \$400,000. Grants begin no earlier than July 1, 2023. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligibility Eligible applicants:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-recognized or -acknowledged or state-recognized Native American tribes or groups

Projects must include at least one of the eligible activities described for this program. Applications must include all required elements (SF424, Narrative, NHPRC Budget form, and Supplemental Materials). Applications that do not meet one or both of these criteria will not be considered. In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section. Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the

applicant's cost sharing contribution if they are included in the budget. The Commission provides no more than 75 per cent of total project costs in the Public Engagement with Historical Records category. For example, a total project cost of \$100,000 means the applicant institution can request up to \$75,000 in NHPRC grant funds and must provide at least \$25,000 in cost share. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at www.sam.gov. Please refer to the User Guides section and the Grants Registrations PDF.

Hello Mr. Reiner,

I am reaching out to pick up on previous email correspondence that we had in the spring regarding an online pin map of historic sites, historical markers for parks, public artworks, and memorials within the Township that the Historic Preservation Commission has been working on. We had previously inquired as to whether it might be hosted on the library's website on the page with the archive collection of history of the Township (<https://archive.teanecklibrary.org/>)

The map is created and hosted on the Google Maps platform. Please visit the following link to view the map: <https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>

At this time, we have completed the map and are looking to see if it may be made available to the public. After speaking with the other Commission members and Councilman Kaplan, we would like to kindly request if the map may be hosted on the Library's website so that we may share it with the public?

Can you kindly advise if this would be possible, and if so, what would be the steps we would need to take? I am happy to share the data files with you and any other information as needed.

The Google Maps platform may be embedded into webpages. The data files can be exported as .kml/.kmz file types, which are the standard format for all of Google Maps.

Based on our previous correspondence, my understanding was that the library was open to hosting the map, but would not commit to updating it? We understand and that is fine with us. At this point, we are satisfied with the map as is and do not intend to make any changes in the immediate future. If it comes up that future changes are desired, I would be happy to update the data myself, and hopefully to make a change it should be as simple as providing the data file exports which can simply replace the old ones.

Kindly let me know if this is something the library would be open to. I'm happy to talk further and go over any questions or concerns and discuss any details.

Thank you so much for your time and consideration of our request!

Best,

-Kevin Force

FYI the smoke Free air act would prohibit smoking and vapes in parks already, although Teaneck has no signage. Also note you can't restrict marijuana use exclusively and it be enforceable because marijuana can not be used as a reason to stop someone.

Hi Sandi,

If you're amenable, I'd be happy to pass a resolution with the text of the ALA (American Library Association) Banned Book Week model (see resolution text below) possibly, with the library director as a joint (Library and Council) proclamation. I've sent Director Hyun an email to discuss.

You can read the resolution text below and see more information here:

<https://www.ala.org/advocacy/bbooks/bannedbookweek/ideasandresources/proclamation>

This proclamation lets you proclaim Banned Books Week at your local library. Feel free to use it as is, or modify it for your own celebration of the freedom to read.

WHEREAS, the freedom to read is essential to our democracy, and reading is among our greatest freedoms; and

WHEREAS, privacy is essential to the exercise of that freedom, and the right to privacy is the right to open inquiry without having the subject of one's interest examined or scrutinized by others; and

WHEREAS, the freedom to read is protected by our Constitution; and

WHEREAS some individuals, groups, and public authorities work to remove or limit access to reading materials, to censor content in schools, to label "controversial" views, to distribute lists of "objectionable" books or authors, and to purge libraries of materials reflecting the diversity of society; and

WHEREAS, both governmental intimidation and the fear of censorship cause authors who seek to avoid controversy to practice self-censorship, thus limiting our access to new ideas; and

WHEREAS, every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of American society and leaves it less able to deal with controversy and difference; and

WHEREAS, Americans still favor free enterprise in ideas and expression, and can be trusted to exercise critical judgment, to recognize propaganda and misinformation, and to make their own decisions about what they read and believe, and to exercise the responsibilities that accompany this freedom; and

WHEREAS, intellectual freedom is essential to the preservation of a free society and a creative culture; and

WHEREAS, conformity limits the range and variety of inquiry and expression on which our democracy and our culture depend; and

WHEREAS, the American Library Association's Banned Books Week: Celebrating the Freedom to Read is observed during the last week of September each year as a reminder to Americans not to take their precious freedom for granted; and

WHEREAS, Banned Books Week celebrates the freedom to choose or the freedom to express one's opinion even if that opinion might be considered unorthodox or unpopular and stresses the importance of ensuring the availability of those unorthodox or unpopular viewpoints to all who wish to read them; now, therefore, be it

RESOLVED, that the _____ Library celebrates the American Library Association's Banned Books Week, (Insert Dates Here), and be it further

RESOLVED, that the _____ Library encourages all libraries and bookstores to acquire and make available materials representative of all the people in our society; and be it further

RESOLVED, that the _____ Library encourages free people to read freely, now and forever.

Subject: "Book Banning" position statement for the town

Dear Council Members,

Thank you for your responses to my question about taking a position as Council vis-à-vis the recent spate of book.

I have been concerned about this issue and have been collecting data and articles for several months. Speaking for myself and not as a member of any group or organization, I have dealt with issues of academic freedom all my life. Please accept my expression of gratitude for your supportive comments.

I am attaching a draft that contains the kinds of remarks that you might entertain as a point of departure for your own position statement. Please feel free to accept or reject any of the content. Of course, you will submit any statement to your attorney for review.

I am happy to meet with anybody about crafting the language and appreciate that the Council's liaison to the Library will talk to the new director about issuing a position from the Library as well. Do not hesitate to contact me as you see fit.

Respectfully,

Sandi Silverberg

Good morning-
A few quick updates:

1) **REVISED #22-64** should replace the one previously sent. NBC's Request to Use the Auditorium is back on the Agenda and this is the complete Application, with Hold Harmless Agreement, and Certificate of Insurance.

2) We need one more for a quorum...

Benjy, Keisha, Myron, Evalyn - please advise if you will be attending in-person or virtually... Shinae needs to create individual panel links for those on Zoom.

(Thank you to Joy, Lilian, Barbara, Keith and Sandi who have replied and need zoom links.)

Thank you!

Thanks so much.

Dean / Shinae,

I recently received my renewal application email for my library card and was hoping there's a way to tie out new SDL system (which has resident ownership records) with our library system (which requires proof of ownership) to enable a seamless process for many residents to renew their library cards.

Great, thanks!

We have some new Town systems (SDL just let me renew a dog license in seconds) and the new systems also have built in proof of residency, so if they can work with BCCLS, that may be a great combination.

It was just one suggestion (to make things a bit easier).

The email I received (below) didn't actually contain instructions on ***how*** to renew, which would be very helpful, in the first instance.

But I'm all about not re-inventing the wheel. There are 70 towns in Bergen County and if any (or all) of them have an easier method of handling renewals, I'm happy with adopting their system(s).

SDL was just a suggestion.

A quick look shows New Milford has an online form (complete with ability to sign on-screen):

Dear Keith,

Our system is connected to all BCCLS libraries and the emails are automatically generated by the system. I am not sure BCCLS would allow the system to be connected to the township system. However, if we can access the SDL system, the library staff can probably renew the Teaneck library accounts manually.

I will contact BCCLS to find out the best way to handle this.

Thank you for a great suggestion.

Terrific.

I know that little bits of friction like this can lead people to stop using services like the library, so eliminating the small bumps can have great downstream effects.

I Now that I had given Director McGinley a number of items (including photos) that were provided to me by Paul Volcker, Jr from his fathers collection and the idea (put off sue to covid) was to exhibit them after they were catalogued.

Perhaps he worked out some of that plan already so it didn't need to start from scratch?

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link:
<https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>
We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?
- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Terrific.

I'm happy to chat with you about those specific items as well.

While I doubt it will ever come to pass, Mr Volcker gave them to me for Teaneck with the caveat that the estate can request them back, if necessary.

Also, the exhibit was related to coincide with the 125th anniversary celebration, which due to covid, wound up changing a bit.

I look forward to chatting about your ideas for our local history displays.

Take care,
Keith.

Hi Councilman Kaplan,

I checked with the staff about the items we've received from the Volcker family. We have files downstairs but need to look at them.

The staff has no idea about the plans for the exhibit and I don't see anything either. My long term goal is to create a multi functioning local history room to house the local history collection. As the Board president said, the Library can work with the Teaneck Historic Preservation Commission.

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

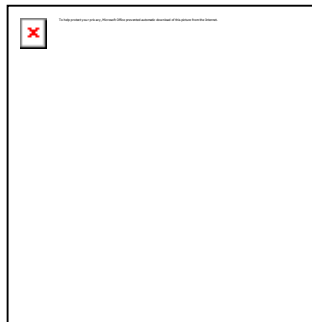

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link:
<https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>
We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?
- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Dear Director Hyun,

It was suggested by the friends of the Teaneck Library that we speak out against the concept of banning books. Did you have a moment to chat about this?

My number is 201-645-4042 – feel free to call any time.

In the meantime, I wanted to see how you felt joining with the council to do a joint resolution regarding Banned Books Week from the American Library Association (see below for additional information).

This proclamation lets you proclaim Banned Books Week at your local library. Feel free to use it as is, or modify it for your own celebration of the freedom to read.

WHEREAS, the freedom to read is essential to our democracy, and reading is among our greatest freedoms; and

WHEREAS, privacy is essential to the exercise of that freedom, and the right to privacy is the right to open inquiry without having the subject of one's interest examined or scrutinized by others; and

WHEREAS, the freedom to read is protected by our Constitution; and

WHEREAS some individuals, groups, and public authorities work to remove or limit access to reading materials, to censor content in schools, to label "controversial" views, to distribute lists of "objectionable" books or authors, and to purge libraries of materials reflecting the diversity of society; and

WHEREAS, both governmental intimidation and the fear of censorship cause authors who seek to avoid controversy to practice self-censorship, thus limiting our access to new ideas; and

WHEREAS, every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of American society and leaves it less able to deal with controversy and difference; and

WHEREAS, Americans still favor free enterprise in ideas and expression, and can be trusted to exercise critical judgment, to recognize propaganda and misinformation, and to make their own decisions about what they read and believe, and to exercise the responsibilities that accompany this freedom; and

WHEREAS, intellectual freedom is essential to the preservation of a free society and a creative culture; and

WHEREAS, conformity limits the range and variety of inquiry and expression on which our democracy and our culture depend; and

WHEREAS, the American Library Association's Banned Books Week: Celebrating the Freedom to Read is observed during the last week of September each year as a reminder to Americans not to take their precious freedom for granted; and

WHEREAS, Banned Books Week celebrates the freedom to choose or the freedom to express one's opinion even if that opinion might be considered unorthodox or unpopular and stresses the importance of ensuring the availability of those unorthodox or unpopular viewpoints to all who wish to read them; now, therefore, be it

Dear Council Members,

Thank you for your responses to my question about taking a position as Council vis-à-vis the recent spate of book.

I have been concerned about this issue and have been collecting data and articles for several months. Speaking for myself and not as a member of any group or organization, I have dealt with issues of academic freedom all my life. Please accept my expression of gratitude for your supportive comments.

I am attaching a draft that contains the kinds of remarks that you might entertain as a point of departure for your own position statement. Please feel free to accept or reject any of the content. Of course, you will submit any statement to your attorney for review.

I am happy to meet with anybody about crafting the language and appreciate that the Council's liaison to the Library will talk to the new director about issuing a position from the Library as well. Do not hesitate to contact me as you see fit.

Respectfully,

Sandi Silverberg

Hi Shinae,

It was my understanding from Mayor Dunleavy and Councilman Katz that they were hoping to go forward **asap** with a resolution from the town with respect to this topic. I would hope that as soon as they do that, the library board will follow suit. Whatever final form the council resolution takes, we can be sure that it is properly vetted by their attorney, so that should reassure the hesitate board member that there is nothing controversial in the response. The only controversial part is the notion of banning in the first place. It is important that we don't drag our feet, in my opinion.

We'll talk and work together for a good outcome. At least we know that the town leadership is on board. This is a very good moment which I plan to enjoy!

I am speaking here only for me, not for the Friends. When I do represent the Friends, I will be sure to say so to ensure that there is no misunderstanding. I am grateful to Councilman, and liaison to the library Keith Kaplan, and to Mayor James Dunleavy for their leadership on this critical issue.

As always, I appreciate what you do. I'm ready to meet and discuss whenever it is mutually convenient.

Take care,

Sandi

I suggested that because the Library Board expressed their concerns with putting the statements out now, we should do it in September.

The Banned Books Week is September 18-24. The Library is planning to offer displays and two banned book discussions. I think if the Library Friends puts out the statement during this week, it would be less controversial and show that the library and friends are working together.

I think this is a sound compromise and I would like to suggest this to the Board. I hope you are ok with this. If you have any questions, please feel free to stop by me.

Thank you always for your support.

We had previously inquired as to whether it might be hosted on the library's website on the page with the archive collection of history of the Township (<https://archive.teanecklibrary.org/>)

The map is created and hosted on the Google Maps platform. Please visit the following link to view the map: <https://www.google.com/maps/d/edit?mid=1Zv6Cl5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>

After speaking with the other Commission members and Councilman Kaplan, we would like to kindly request if the map may be hosted on the Library's website so that we may share it with the public?

Can you kindly advise if this would be possible, and if so, what would be the steps we would need to take? I am happy to share the data files with you and any other information as needed.

The Google Maps platform may be embedded into webpages. The data files can be exported as .kml/.kmz file types, which are the standard format for all of Google Maps.

Based on our previous correspondence, my understanding was that the library was open to hosting the map, but would not commit to updating it? We understand and that is fine with us. At this point, we are satisfied with the map as is and do not intend to make any changes in the immediate future. If it comes up that future changes are desired, I would be happy to update the data myself, and hopefully to make a change it should be as simple as providing the data file exports which can simply replace the old ones.

Kindly let me know if this is something the library would be open to. I'm happy to talk further and go over any questions or concerns and discuss any details.

Thank you so much for your time and consideration of our request!

Best,

-Kevin Force

No overstep at all and I've been very in favor of the project.

But rather than have you try to find a home, Council can direct one be created - and save you time to do work that matters.

It's the point of being liaison, after all.

Take care.

Good Evening Councilman Kaplan,

I do apologize for not offering this for review to the full Council first.

It was not my intention overstep, to leave the Council members out and not provide them an opportunity for review and comment if they would like to.

That sounds excellent, and I would be happy to work with any Councilmembers and provide any information as necessary.

Best,

-Kevin Force

I think it would be appropriate for council to review and consider.

Ill ask the clerk to add this to our next agenda for brief discussion.

Mr. Ruccione - please post "THPC mapping project" under my council listed items for consideration.

Sounds fine to me--kudos once again to the creators, Commissioners Force and Valerio!
Just as a perhaps obvious fyi, but from time to time the Historic Preservation Commission will need to update the map, so hopefully that process will be rather easy. For instance, we have commemorative markers we would eventually like to put up at Bryant School and for Lizette Parker and Ulysses Kay.

I understand, and I agree! Thank you so much for your support, for this and in general, Councilman! Really, truly appreciated!

I think it will be a great benefit having the full Council look over and review the map.

I agree- one of the things which is great about the Google Maps platform is that it's so universal- easy to embed, share, and transfer the data. Also, very simple and user friendly.

I see from the electronic calendar that the next Council meeting would be August 9th? I am available to attend and would be happy to demonstrate and discuss anything related to the map if called upon.

Thank you so much!

Best,

Sounds fine to me--kudos once again to the creators, Commissioners Force and Valerio!
Just as a perhaps obvious fyi, but from time to time the Historic Preservation Commission will need to update the map, so hopefully that process will be rather easy. For instance, we have commemorative markers we would eventually like to put up at Bryant School and for Lizette Parker and Ulysses Kay.

The nice part about a map like this is that it can exist in many places, as an embed.

The issue, as I understand it (please correct me if I'm mistaken), is where the info should be "owned".

If no one has objections, let's have the Township create and maintain the info and then we can share it with the library for entry on your site, at well.

At this time, we have completed the map and are looking to see if it may be made available to the public. Mr. Reiner,

Thank you for your quick reply, and I am sorry for the delayed response!

Understood. I will return to the reference room and check for any other archived materials and check the online BCCLS catalog.

That sounds good. Is there a way I can provide the map to a library controlled account?

Great! I think the idea came about with archaeological finds as well. I don't anticipate they would be too numerous. But if that ends up being the case, we can always work with the library/reevaluate.

I love that idea! I think it would be amazing to see if anyone in town has historic photos they would be willing to share. Happy to talk about this further!

Thanks so much again!

I Now that I had given Director McGinley a number of items (including photos) that were provided to me by Paul Volcker, Jr from his fathers collection and the idea (put off sue to covid) was to exhibit them after they were catalogued.

Perhaps he worked out some of that plan already so it didn't need to start from scratch?

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link: <https://www.google.com/maps/d/edit?mid=1Zv6CIt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>
We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?
- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to

inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Sounds fine to me--kudos once again to the creators, Commissioners Force and Valerio!

Just as a perhaps obvious fyi, but from time to time the Historic Preservation Commission will need to update the map, so hopefully that process will be rather easy. For instance, we have commemorative markers we would eventually like to put up at Bryant School and for Lizette Parker and Ulysses Kay.

The nice part about a map like this is that it can exist in many places, as an embed.

The issue, as I understand it (please correct me if I'm mistaken), is where the info should be "owned".

If no one has objections, let's have the Township create and maintain the info and then we can share it with the library for entry on your site, at well.

Hello Mr. Reiner,

I am reaching out to pick up on previous email correspondence that we had in the spring regarding an online pin map of historic sites, historical markers for parks, public artworks, and memorials within the Township that the Historic Preservation Commission has been working on. We had previously inquired as to whether it might be hosted on the library's website on the page with the archive collection of history of the Township
(<https://archive.teanecklibrary.org/>)

The map is created and hosted on the Google Maps platform. Please visit the following link to view the map: <https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEiMKOPijD&usp=sharing>

At this time, we have completed the map and are looking to see if it may be made available to the public. After speaking with the other Commission members and Councilman Kaplan, we would like to kindly request if the map may be hosted on the Library's website so that we may share it with the public?

Can you kindly advise if this would be possible, and if so, what would be the steps we would need to take? I am happy to share the data files with you and any other information as needed.

The Google Maps platform may be embedded into webpages. The data files can be exported as .kml/.kmz file types, which are the standard format for all of Google Maps.

Based on our previous correspondence, my understanding was that the library was open to hosting the map, but would not commit to updating it? We understand and that is fine with us. At this point, we are satisfied with the map as is and do not intend to make any changes in the immediate future. If it comes up that future changes are desired, I would be happy to update the data

myself, and hopefully to make a change it should be as simple as providing the data file exports which can simply replace the old ones.

Kindly let me know if this is something the library would be open to. I'm happy to talk further and go over any questions or concerns and discuss any details.

Thank you so much for your time and consideration of our request!

Best,

-Kevin Force

Michael,

Thank you in advance for our help regarding the upcoming real estate event. We are looking to have the event on Thursday March 10th or Thursday, March 24,2022 at 7:00pm.

Kindly, find out if someone from the building department will be available to speak for 5-10 minutes on the topic of "Renovations and upgrades". There will be a panel of speakers that include a general contractor,a real estate agent and possibly a Title Company. Would the library be available for us to use?

The best way to reach me is by cell 201-543-8226 or by email.

I look forward to your response.

Best,

Luis,

This is an affordable housing unit that was built by Bergen County. There is a deed restriction which governs the resale of the unit, but not sure that it addresses rentals. (These units were supposed to be sold to qualified individuals who would live there. The current owner acquired this through a Sheriff's Sale and has never lived there to my knowledge.)

This is a single dwelling unit that was built in 1986. It does not fall under Teaneck's rent control ordinance.

I would suggest that the tenant contact Bergen County's affordable housing department (used to be known as "CHIP" - Community Housing in Partnership) for any information regarding the rental of these units. They are responsible for determining the allowable resale price and for determining eligibility to purchase.

The issue is going to apply disproportionately across various states as it is up to the state to re-verify enrollment eligibility within 14 months of the April 1st date.

Perhaps there is a way to get a NJ Family Care representative (NJ's CHIP provider) to visit the district on a regular basis so that enrollment and information is accessible.

I understand the concern of your e-mail, but find it to be a little confusing as to what the next steps for families are to take. Also unfortunately families impacted tend to also be of limited english ability and the documentation was provided only in english alone.

Other resources which could be shared include; <https://njfamilycare.dhs.state.nj.us/> since the program is administered by each state, each state has state specific resources.

Also families should be reminded that if you no longer qualify for the expanded eligibility there may be an affordable option through <https://nj.gov/getcoverednj/> as a loss of coverage is a life changing event so the open period may be applicable to certain families.

In closing, this is a very detailed and inquisitive topic and the right resources need to be made available so as to not cause undue panic, while also conveying the sense of urgency of the matter.

I am cc'ing the Mayor of the Township because this topic should be addressed town wide in my opinion.

Sorry, the packet will be delayed a bit, as Chatur was out Friday. As soon as he finishes the bills, I will work on the budgets, assemble the packets and send it out for the

BOARD MEETING - THURSDAY, OCTOBER 6, 6:30 PM (*provided there is a quorum)**

* Please advise if you will be attending, and if in-person, or virtually (Lillian-thank you for the heads-up that you will be there virtually).

Thank you! Stay dry today...

Hi Sandi,

If you're amenable, I'd be happy to pass a resolution with the text of the ALA (American Library Association) Banned Book Week model (see resolution text below) possibly, with the library director as a joint (Library and Council) proclamation. I've sent Director Hyun an email to discuss.

You can read the resolution text below and see more information here:

<https://www.ala.org/advocacy/bbooks/bannedbookweek/ideasandresources/proclamation>

This proclamation lets you proclaim Banned Books Week at your local library. Feel free to use it as is, or modify it for your own celebration of the freedom to read.

WHEREAS, the freedom to read is essential to our democracy, and reading is among our greatest freedoms; and

WHEREAS, privacy is essential to the exercise of that freedom, and the right to privacy is the right to open inquiry without having the subject of one's interest examined or scrutinized by others; and

WHEREAS, the freedom to read is protected by our Constitution; and

WHEREAS some individuals, groups, and public authorities work to remove or limit access to reading materials, to censor content in schools, to label "controversial" views, to distribute lists of "objectionable" books or authors, and to purge libraries of materials reflecting the diversity of society; and

WHEREAS, both governmental intimidation and the fear of censorship cause authors who seek to avoid controversy to practice self-censorship, thus limiting our access to new ideas; and

WHEREAS, every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of American society and leaves it less able to deal with controversy and difference; and

WHEREAS, Americans still favor free enterprise in ideas and expression, and can be trusted to exercise critical judgment, to recognize propaganda and misinformation, and to make their own decisions about what they read and believe, and to exercise the responsibilities that accompany this freedom; and

WHEREAS, intellectual freedom is essential to the preservation of a free society and a creative culture; and

WHEREAS, conformity limits the range and variety of inquiry and expression on which our democracy and our culture depend; and

WHEREAS, the American Library Association's Banned Books Week: Celebrating the Freedom to Read is observed during the last week of September each year as a reminder to Americans not to take their precious freedom for granted; and

WHEREAS, Banned Books Week celebrates the freedom to choose or the freedom to express one's opinion even if that opinion might be considered unorthodox or unpopular and stresses the importance of ensuring the availability of those unorthodox or unpopular viewpoints to all who wish to read them; now, therefore, be it

RESOLVED, that the _____ Library celebrates the American Library Association's Banned Books Week, (Insert Dates Here), and be it further

RESOLVED, that the _____ Library encourages all libraries and bookstores to acquire and make available materials representative of all the people in our society; and be it further

RESOLVED, that the _____ Library encourages free people to read freely, now and forever.

Subject: "Book Banning" position statement for the town

Dear Council Members,

Thank you for your responses to my question about taking a position as Council vis-à-vis the recent spate of book.

I have been concerned about this issue and have been collecting data and articles for several months. Speaking for myself and not as a member of any group or organization, I have dealt with issues of academic freedom all my life. Please accept my expression of gratitude for your supportive comments.

I am attaching a draft that contains the kinds of remarks that you might entertain as a point of departure for your own position statement. Please feel free to accept or reject any of the content. Of course, you will submit any statement to your attorney for review.

I am happy to meet with anybody about crafting the language and appreciate that the Council's liaison to the Library will talk to the new director about issuing a position from the Library as well. Do not hesitate to contact me as you see fit.

Respectfully,

Sandi Silverberg

Dean,

I researched the funds set aside in the capital budget for library improvements. Unfortunately, due to the increase in costs to some other improvements such as the cooling tower last year and other municipal building improvements (based on the wording of the bond ordinance from 2018), other projects utilized the funding from the municipal building improvements line item.

Nonetheless, below is what is left for the library's improvements that I have encumbered under purchase order 23-00156.

<u>Year</u>	<u>Budget Code</u>	<u>Amount</u>	<u>Caption</u>
2018	C-04-55-999-024-021	\$ 250,000.00	Library Improvements
2020	C-04-55-999-041-022	\$ 224,000.00	Library Upgrades
2020	C-04-55-999-041-023	\$ 56,000.00	Library Upgrades - Section 20
Totals		\$ 530,000.00

Dear Keith,

Our system is connected to all BCCLS libraries and the emails are automatically generated by the system. I am not sure BCCLS would allow the system to be connected to the township system. However, if we can access the SDL system, the library staff can probably renew the Teaneck library accounts manually.

I will contact BCCLS to find out the best way to handle this.

Thank you for a great suggestion.

We have some new Town systems (SDL just let me renew a dog license in seconds) and the new systems also have built in proof of residency, so if they can work with BCCLS, that may be a great combination.

The email I received (below) didn't actually contain instructions on ***how*** to renew, which would be very helpful, in the first instance.

But I'm all about not re-inventing the wheel. There are 70 towns in Bergen County and if any (or all) of them have an easier method of handling renewals, I'm happy with adopting their system(s).

SDL was just a suggestion.

A quick look shows New Milford has an online form (complete with ability to sign on-screen):

Others let you use emailed documents (utility bills, etc...)

Hi Councilman Kaplan,

I checked with the staff about the items we've received from the Volcker family. We have files downstairs but need to look at them.

The staff has no idea about the plans for the exhibit and I don't see anything either. My long term goal is to create a multi functioning local history room to house the local history collection. As the Board president said, the Library can work with the Teaneck Historic Preservation Commission.

Kevin,

All of our resources are in the reference room or at least listed as a collection in BCCLS.

As for the map, that should be a easy integration we have a section for Teaneck history on our website and there is currently a dead link for the Historic Sites. We can make this map that link and perhaps have a paragraph to describe what it is. That would be the hosting concept and for prosperity we would need to link it to a library controlled account since it's linked to one of your personal accounts. However I don't feel the library can commit to updating it, which may not be a problem because these are historic sites and thus will not change often.

The library can absolutely host certain exhibits and we will have to meet with the director to find out what space we have and or identify resources we need to host things properly. There are areas of the library with underutilized space and the right case/shelf so on could be the right fit. I will defer to the director for formal space planning.

As for photos, Teaneck is always a treasure trove of resources untapped. Perhaps we can help with a call to the community for such pictures? I don't know what do you think?

Good Evening,

Thank you for the introduction, Councilman Kaplan!

President Reiner- nice to meet you and thank you for your time and consideration!

We have three items we would like to discuss:

- We have created a pin map using the Google Maps online platform identifying designated historic sites within the Township. Please see the map at this link: <https://www.google.com/maps/d/edit?mid=1Zv6Cl5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>
We would like to ask whether it would be appropriate to host this on the library's website, and if so, how we may facilitate that?
- During our last Historic Preservation Commission meeting, we discussed designating a place/institution within the Township to keep and display archaeological findings/artifacts which may be discovered. We would like to discuss whether it would be appropriate for the library to undertake that function.
-
- In the process of identifying photos for the online map, Commissioner Valerio and I perused the Teaneck Collection within the library reference room. We wanted to inquire if the library was aware of any other resources/archives within its collection which may be of historical interest to the Township/Commission?

Feel free to reach out to me for any further discussion!

Thanks so much again!

Sure, we should be able to embed it on the library website.

Shinae,

Do we have a place we can put this link on our site? This is a really neat map and project.

Hello Mr. Reiner,

I am reaching out to pick up on previous email correspondence that we had in the spring regarding an online pin map of historic sites, historical markers for parks, public artworks, and memorials within the Township that the Historic Preservation Commission has been working on. We had previously inquired as to whether it might be hosted on the library's website on the page with the archive collection of history of the Township (<https://archive.teanecklibrary.org/>)

The map is created and hosted on the Google Maps platform. Please visit the following link to view the map: <https://www.google.com/maps/d/edit?mid=1Zv6Clt5zCKolAnpMrP5MUyAEjMKOPijD&usp=sharing>

At this time, we have completed the map and are looking to see if it may be made available to the public. After speaking with the other Commission members and Councilman Kaplan, we would like to kindly request if the map may be hosted on the Library's website so that we may share it with the public?

Can you kindly advise if this would be possible, and if so, what would be the steps we would need to take? I am happy to share the data files with you and any other information as needed.

The Google Maps platform may be embedded into webpages. The data files can be exported as .kml/.kmz file types, which are the standard format for all of Google Maps.

Based on our previous correspondence, my understanding was that the library was open to hosting the map, but would not commit to updating it? We understand and that is fine with us. At this point, we are satisfied with the map as is and do not intend to make any changes in the immediate future. If it comes up that future changes are desired, I would be happy to update the data myself, and hopefully to make a change it should be as simple as providing the data file exports which can simply replace the old ones.

Kindly let me know if this is something the library would be open to. I'm happy to talk further and go over any questions or concerns and discuss any details.

Thank you so much for your time and consideration of our request!

Best,

-Kevin Force

Good morning,

BCCLS is providing a program on a First Amendment Audit going around the libraries nationwide. The Fort Lee Library had to deal with it in August this year.

If you are interested, please feel free to sign up for the program. [First Amendment Audits - Registration](#)

The program is open to library staff, trustees, and friends members. For the trustees, this counts towards 7 hours required continuing education.

Thank you!

Good morning all-

Here is the print newsletter for the library. Thank you for all your efforts and support to make this happen! I encourage you to stop by the library to pick up the actual print copy, if you can.

Have a great rest of the week! Stay warm! Be well and stay safe too!

Regards,
Debbie
