I thought I'd give you a heads up that the NAACP released it's statement on the "study" you three did and you are not going to like it. I will be releasing it to the press a bit later and I am sure they will have some questions for you.

Patrick

To:

Greetings Governor Murphy,

I sincerely hope this email finds you in high spirits and feeling well.

Please see the letter attached written to Acting Commissioner Catherine R. McCabe in reference to concerns we have with the MLK House in Camden, NJ being placed into the New Jersey Historic Registry.

Any assistance you may provide in our efforts would be greatly appreciated.

Thanks so much,

Richard T. Smith

Subject: Request for comment: Study on 753 Walnut Street Camden
To: Diane.D'Amico@stockton.edu

Hello Ms. D'Amico-

I write at the request of Dr. John O'Hara.

I contacted Dr. O'Hara this morning regarding questions I had about the study he and his team performed for the NJ ~~H10~~¹¹ regarding a property in Camden associated with Dr. King Luther King Jr. and the first lawsuit against discrimination

(OPRA) DUFF 010920-1(A)

Dr. King filed in 1950.

My name is Linn Washington.

I am a journalist in Philadelphia. I have reported on and researched matters related to Dr. King's time in the Philadelphia region since the mid-1980s.

The NAACP New Jersey State Conference has urged the HPO to reject the recommendations of the study conducted by the Stockton team. The NAACP, in a letter to the NJ Department of Environmental Protection dated April 11, stated: "We reject the very formation of the study and their finding."

I take the liberty to include a link to an article about the NAACP's action:

<http://thiscantbehappening.net/node/3871>

I would like comment regarding the contention of the NAACP that the study performed by Stockton researchers is factually flawed.

One conclusion in the study is that the first lawsuit King filed against discrimination was of minor import in King's development as a civil rights activist. King himself and other historians have stated events surrounding the lawsuit were pivotal in his civil rights activism.

That study utilizes five newspapers as sources for documentary evidence on matters related to the application to have 753 Walnut St. placed on the NJ Historic Register. None of those five newspapers include *The Philadelphia Tribune*, an African-American owned newspaper in this area that has published for over a century. *The Tribune*, for example, carried a contemporaneous account of that 1950 incident that produced King's lawsuit.

I would like comment on why the *Tribune* was not utilized as a principal source.

The incident in Maple Shade that triggered King's first lawsuit led to two Camden civil rights luminaries providing legal and other assistance to Dr. King. However, despite the historic stature of then state NAACP head Dr. Wiggins and NAACP branch attorney Robert Burke Johnson, the study makes no reference to them.

I would like comment on why Wiggins and Johnson were not referenced in the study. (Those two men had historic stature before, during and after that 1950 incident.)

Finally, I would like to know if the Stockton research team thinks 753 Walnut Street should receive listing on the NJ Historic Register.

Thank you for your attention to the above listed inquires.

I have a deadline of 6 p.m. this evening. I would appreciate a reply at your earliest convenience.

Linn Washington Jr.

Hello Ms D'Amico

I write to renew the request for comment contained in the email request I sent last week.
I would greatly appreciate your response to my inquiry...even if the response of Stockton University is 'no comment.'
Thank you for your attention to my request.
Linn Washington Jr.

To: Diane.D'Amico@stockton.edu

Hello Ms. D'Amico-

I write at the request of Dr. John O'Hara.

I contacted Dr. O'Hara this morning regarding questions I had about the study he and his team performed for the NJ HPO regarding a property in Camden associated with Dr. King Luther King Jr. and the first lawsuit against discrimination Dr. King filed in 1950.

My name is Linn Washington.

I am a journalist in Philadelphia. I have reported on and researched matters related to Dr. King's time in the Philadelphia region since the mid-1980s.

The NAACP New Jersey State Conference has urged the HPO to reject the recommendations of the study conducted by the Stockton team. The NAACP, in a letter to the NJ Department of Environmental Protection dated April 11, stated: "We reject the very formation of the study and their finding."

I take the liberty to include a link to an article about the NAACP's action:

<http://thiscantbehappening.net/node/3871>

I would like comment regarding the contention of the NAACP that the study performed by Stockton researchers is factually flawed.

One conclusion in the study is that the first lawsuit King filed against discrimination was of minor import in King's development as a civil rights activist. King himself and other historians have stated events surrounding the lawsuit were pivotal in his civil rights activism.

That study utilizes five newspapers as sources for documentary evidence on matters related to the application to have 753 Walnut St. placed on the NJ Historic Register. None of those five newspapers include *The Philadelphia Tribune*, an African-American owned newspaper in this area that has published for over a century. *The Tribune*, for example, carried a contemporaneous account of that 1950 incident that produced King's lawsuit.

I would like comment on why the *Tribune* was not utilized as a principal source.

The incident in Maple Shade that triggered King's first lawsuit led to two Camden civil rights luminaries providing legal and other assistance to Dr. King. However, despite the historic stature of then state NAACP head Dr. Wiggins and NAACP branch attorney Robert Burke Johnson, the study makes no reference to them.

I would like comment on why Wiggins and Johnson were not referenced in the study. (Those two men had historic stature before, during and after that 1950 incident.)

Finally, I would like to know if the Stockton research team thinks 753 Walnut Street should receive listing on the NJ Historic Register.

Thank you for your attention to the above listed inquiries.

I have a deadline of 6 p.m. this evening. I would appreciate a reply at your earliest convenience.

Linn Washington Jr.

*** External email alert ***

Hello to all attached.

My name is Patrick Duff and I filed a preliminary application for a home connected to Dr Martin Luther King Jr with the NJDEP to review back in March of 2015. When it was originally filed I was told it would take about 3 months for the state to either approve or deny the application, yet it's been over 4 years since then and still no decision has been made. It has been more than 2 years since you received the original "study" which was headed by Paul Schopp, who by the way only has a A.A.S from Burlington County College, a study that cost the tax payers \$21,000 dollars. Take a look at the article I wrote about him.

<https://rabblrouser.blog/2018/04/29/25/>

In that study your main researcher, Schopp, who also sat on Camden Cities Historic Preservation Commission in a direct conflict of interest, concluded that the first time Dr Martin Luther King Jr was ever involved in a court battle involving civil rights, which happened right here in NJ, was not a historically significant event for NJ. The problem for his conclusion was it was in direct contradiction to his ~~(OPRA) DUFF 010920-1(A)~~ regarding the same incident just years before. Schopp, in an email he must have forgotten about, claimed the ~~144~~ event was such a significant event in King's life that when the

state decided to tear it down he fought for it but "the bulldozers won out".

Stockton has more redactions in the Emails regarding the MLK project than the JFK files have. Why? The people will want to know.

<https://rabblrouser.blog/2018/12/13/what-is-stockton-university-and-the-dep-hiding/>

Once this said "study" was finished the DEP told me that it would be published to the DEP's website and a decision would be made after the HPO reviewed it...but still, nearly 2 years later now and I have no answer. I asked the state to mediate this but the HPO refused to speak with the conflict resolution folks and me. Derrick Green promised me that Governor Murphy wanted to help, but again, I have gotten nothing except several missed attempts at meetings from that office.

The Peter J McGuire memorial was placed on the historic registry with little to no scrutiny. You have a statue that was easily listed on the registry with no scrutiny that calls a man the "Father of Labor Day" who the NJ Historical Society says is not.

<https://jerseyhistory.org/matthew-maguire-father-of-labor-day/>

Do you really care that much about accuracy? This is not a joke to me, but the joke will now be on you. I have been left with no choice other than to publicly shame the HPO, Stockton, State and local officials. I will be taking out billboards directing people to a website that shows the whole story. I will also be letting people know that the Governor didn't give a crap and how local officials and non profits helped steal \$250,000. You should all be ashamed of yourselves, and now, you will be.

Want whole story. Read my complaint I will be refilling this week also in a discrimination case against the State.

Hello to all attached.

My name is Patrick Duff and I filed a preliminary application for a home connected to Dr Martin Luther King Jr with the NJDEP to review back in March of 2015. When it was originally filed I was told it would take about 3 months for the state to either approve or deny the application, yet it's been over 4 years since then and still no decision has been made. It has been more than 2 years since you received the original (OPRA) DUFF-010920-1(A) headed by Paul Schopp, who by the way only has a A.A.S from Burlington County College, a study that cost the taxpayers \$21,000 dollars. Take a look at the article I wrote

about him.

<https://rabblrouser.blog/2018/04/29/25/>

In that study your main researcher, Schopp, who also sat on Camden Cities Historic Preservation Commission in a direct conflict of interest, concluded that the first time Dr Martin Luther King Jr was ever involved in a court battle involving civil rights, which happened right here in NJ, was not a historically significant event for NJ. The problem for his conclusion was it was in direct contradiction to his statements he made regarding the same incident just years before. Schopp, in an email he must have forgotten about, claimed the event was such a significant event in King's life that when the state decided to tear it down he fought for it but "the bulldozers won out".

Stockton has more redactions in the Emails regarding the MLK project than the JFK files have. Why? The people will want to know.

<https://rabblrouser.blog/2018/12/13/what-is-stockton-university-and-the-dep-hiding/>

Once this said "study" was finished the DEP told me that it would be published to the DEP's website and a decision would be made after the HPO reviewed it...but still, nearly 2 years later now and I have no answer. I asked the state to mediate this but the HPO refused to speak with the conflict resolution folks and me. Derrick Green promised me that Governor Murphy wanted to help, but again, I have gotten nothing except several missed attempts at meetings from that office.

The Peter J McGuire memorial was placed on the historic registry with little to no scrutiny. You have a statue that was easily listed on the registry with no scrutiny that calls a man the "Father of Labor Day" who the NJ Historical Society says is not.

<https://jerseyhistory.org/matthew-maguire-father-of-labor-day/>

Do you really care that much about accuracy? This is not a joke to me, but the joke will now be on you. I have been left with no choice other than to publicly shame the HPO, Stockton, State and local officials. I will be taking out billboards directing people to a website that shows the whole story. I will also be letting people know that the Governor didn't give a crap and how local officials and non profits helped steal \$250,000. You should all be ashamed of yourselves, and now, you will be.

Want whole story. Read my complaint I will be refilling this week also in a discrimination case against the State.

This shows that as of 1950, Thelma would have been 17, and she wasn't married till 1952. So she was living there during this same period. Did you bother to talk with her?

[Reply directly in this email or View in Dropbox](#)

PD Patrick Duff at 5:30 PM

Whoa, you agree here that King was at Zion Baptist Church in 1952, but somehow you claim it was his Father in 1951? There was no Jr in the 1952 article either?
