Enclosed is a review an ex employee that Ken McKeel has me fire had posted about me.
Along with this is communication with an employee currently employed in Animal Care at MCSPCA.
I would appreciate your help on this matter of defamation of character.

Sincerely
Kathy Derry

This is definitely a great place to adopt and was once a great place to work. Over the past year management and leadership roles of the animal care department have changed hands a few times and the title of Assistant Manager has unfortunately fallen into the very wrong hands of Kathy Derry. She is not cable of leading the staff

as she has no respect for them. This woman has twisted words and situations to get employees wrongfully terminated, verbally abuses staff, does not correctly follow animal care protocols, has erratic mood swings leading one to believe there is possible drug abuse. There are multiple negative employee encounters that can back up these claims, I am only compiling them on their behalf. The staff, animals and the establishment as a whole deserve someone more suited for this position.
