Hello,

In an effort to try to maximize the number of shelter animals we can accommodate next week (we have a sizeable transfer coming over the weekend) would it be ok for us to ask Corrinne and Victoria to limit their TNR numbers next week?

We have a packed owned animal schedule, and some days with meetings scheduled as well as Dr H not being here on Thursday, so it would be extremely helpful to be able to focus on the shelter and owned surgeries primarily.

Do we know what we want to limit the number of TNR cats to each day for next week?

And which days, Amy? (Knowing we'd like to get at least SOME in!) 😁

Absolutely-not requesting we shut it down, just limit the numbers on some days next week.

Dr H would like to review the schedule and then we can email specific requests/days.

Just wanted to make sure it was something we could make the ask for at all :)

On Thursday the 6th, ideally I would prefer to not have TNRs. If that's not possible I'd like to limit the number to 2-3 TNRs. I am also not sure if I will be able to get to a shelter list that day.

I have a dental patient with a heart condition and the client owned spay/neuter list so that Dr. H can go to the court case. The dental will take a minimum of 1 hour of my time, only if there are no surprise extractions which happens commonly. Then paperwork afterwards and prolonged monitoring due to his heart murmur.
