Hello,

This is the weekly population census that shows the number of each species that are currently checked into cornerstone. If you feel this number is not correct, please do a manual census as this represents all animals currently checked in to the Shelter. If animals are missing, they may have been checked into the VVCC. Thank You

Hey Jon,

Hope you are well. Can you please add Barbara Lovell to this report.

Chief

Will be happy to, though I will double check if I have access. Bob knows how to add this so he will be a little faster, but I will gladly do it later tonight if easier for everyone 😊

I'll take care of this tomorrow. It's easier from the office. I can add people anytime to any of those reports when needed. I also have the archives of all past reports.
