Subject: OPRA request - Emails
To: OPRA requests at Glen Rock Public School District <mrinder@glenrocknj.org>

Dear Glen Rock Public School District,

This is a request for public records made under OPRA and the common law right of access. I am not required to fill out an official form. Please acknowledge receipt of this message.

Records requested:

Emails from Frank Triolo or Frances Triolo or Jennifer Triolo that were sent to Brett Charelston or the GRBOE. Dates for the emails July 2022 to Oct 2022.

Yours faithfully,
Zak Hayek

Subject: G13 Vote, BOE Policy 2210

Hello,

First I would like to thank the four of you for standing up for the children and the residents of Glen Rock. Second I would like to direct you to board policy number 2210. Attached is the policy with a portion highlighted for your review.

The policy clearly states that in the case of curriculum development a vote cannot be made until the meeting after the presentation. Last night was the presentation so, the board broke policy by voting on G13 as a whole.

I humbly request that at the 8/29 board meeting a motion is set to recall the vote for all of G13.

Before this curriculum can be passed
Health
English
Social Studies
Math
and Books coming into the district

must be properly vetted by the board and by Glen Rock residents before it can be approved. Paying attention to what is happening in school systems around the country these are the areas where there is questionable material.

I will gladly present this at the public comments at the meeting on the 29th but it is the responsibility of the board members to uphold the policy and this vote was a direct violation of that policy.

I thank you for your time and look forward to your responses. Please reply stating you have received this email.

Thank you,
Frank Triolo

The Superintendent shall be responsible to the Glen Rock Board of Education for the development of curriculum to meet identified student needs. The Board shall ensure that curriculum and instruction are content-rich and aligned to the most recent revision of the New Jersey Student Learning Standards (NJSLS). In addition, the Board shall ensure that appropriate instructional adaptations are designed and delivered English language learners, gifted and talented students and for students with disabilities. Instruction shall be designed to engage all students and modified based on student performance. The curriculum shall include:

1. Interdisciplinary connections throughout;
2. Integration of 21st century skills;
3. A pacing guide;
4. A list of instructional materials, including various levels of text at each grade;
5. Benchmark assessments; and
6. Modifications for special education students, for English language learners, and for gifted students.

Professional development plans shall support the implementation of the curriculum. Professional development opportunities shall be offered that further the improvement of teachers' understanding of the content and pedagogy related to their teaching assignment. Professional development shall also promote individual and collaborative professional learning with adequate and consistent time for teachers to work together in and across content areas and grade levels to review student work, analyze classroom assessments and other achievement data, critique lesson plans, and solve instructional problems.

The Superintendent shall establish procedures for curriculum development that ensure the effective participation of teaching staff members; students, as appropriate to their age and grade; parents; the community; members of the Board; and the use of all available resources. Care shall be taken that certified staff shall not be assigned to teach material outside the limits of their certification and endorsements.

The Superintendent shall report to the Board the objectives, evaluative criteria and costs of each proposed program before seeking Board adoption. New programs and courses of study shall not be acted upon by the Board until the meeting following their presentation, in order for Board members to have an opportunity to review the proposed program.

Criteria for Curriculum Approval

Criteria by which the Board will judge the acceptability of new course offerings include:

1. Does it address an identified student need?
2. Is it relevant to the Board's philosophy and goals and does it offer real possibilities for progress toward these goals?
3. Does it satisfy the requirements of the Board's school and classroom practices prohibiting bias and stereotyping?
4. If the proposed course replaces an existing program, what defect in the
