Subject: RE: New Voicemail Received

This person claims we have take three of her cans in two weeks. Her trash has been serviced. Two cans were older and damaged, but one was a toter with a lid and bar in front for tipping. I explained to her that we have no record of any cans being stuck in our hoppers and our driver team would have communicated that. She has no proof as she said that she check her neighbors Ring and her Ring, but she wants her toter can replaced. [REDACTED]

Team, what is our best course of action? Just want to see if we can supply a can for her or take a different direction.

To confirm, her trash is clean and up to date.

Importance: High

I spoke with the resident and she said some in her court did not have their yard waste picked up. I told her I would send our team back to investigate before they leave town. Explained to her if they are overloaded, it becomes a safety issue.

However, some of the communication I am getting from the field is that there are stops that are overloading bags with dirt. Example below are cheap thin bags loaded with dirt that if we pick up, they will tear all over the street. Mike, in case you get a call from [REDACTED] (address is [REDACTED], not [REDACTED] per driver), we could not pick up there. Screenshot below:

Address Redacted

It seems in speaking with the resident, a few of the residents on [REDACTED] in the Country Walk section had "clippings" out and the gentleman didn't take the bags? Are clippings in the "no pick up column"? Please listen to attached..

Can someone please touch base with this resident. Seems he left a note for the crew to take his 2 OLD trash cans and throw them away but for some reason, the crew left the OLD trash cans and took and threw away his brand new one.

Both of the calls were from one street, [REDACTED]. In discussion with both it appears that we missed one side of the street. We are back in town tomorrow and I will have our drivers clean them up tomorrow.

I don't mind speaking with residents at all. Like I said in the chain, my driver assured me he completed his maps left over from yesterday today. Did he error in reporting, looks like it. Is he human, he is. Were the residents upset, no because I had the chance to speak and explain to them what happened and the plan for recovery.

Hope this helps Mike.

All the best,

Mike,

Just left you a message. I sent you the maps and the highlighted in email below. I explained we had a breakdown and recovery would take place today.

I will call your residents directly. I spoke with our driver and he picked up whatever was laying from last night by 1PM today. We will be in the town again tomorrow.

I spoke with our drivers on route today in Mansfield. Both have their maps and their instructions not to leave town until everything is off the ground. Both are progressing nicely so far. Both are aware of Petticoat Bridge road and have been given instruction to work as a team to ensure it is picked up before they come into port. It will be picked up before the end of the day so you might get calls on this but that doesn't mean it isn't going to be serviced.

Thank you,
