Subject: Municipal Unit Count - Update

Good morning Mike,

Hope all is well! I am hoping that you can assist me with an updated unit count. Republic will be performing a local internal audit and part of this process is providing any difference between the number of units that was contained within the original bid specifications and where it was at the end of 2022.

From the original bid specs it stated that there was: 3,678 units – has there been any significant change since?

I know this might be a heavy lift and it doesn't have to be 100% accurate, just a general idea would be appreciated if possible. If you are not the correct person to ask, could you please forward to the right person(s)?

Let me know if you have any questions or concerns.

I sincerely appreciate your assistance

All the best,

Gary

Good afternoon,

While I appreciate the excellent job the crew does on our trash collection, would it be possible to ask them to stop throwing the lid of my trash can into the poison ivy on the side of the street when they collect? My 4 kids and I would really be grateful to avoid getting poison ivy from taking out the trash lol. Just leaving it next to the can or tossing it into the grass would be great. 😊

Thank you!!

Please see below from one of my employees that took the call.... Not sure what you can do but here it is.

Michael,

These trash complaints are getting crazier and crazier.

Jerry Levanduski from [REDACTED] stopped by and is concerned because multiple times he has come home and his trash can has been emptied but the trash men are putting it dead center in the bottom of his driveway. He and or his wife have to get out of the car and move the trash can before they can pull into the driveway. I told him I would pass the message on to you.
