Subject: Upcoming Visit

I hope you all are having a great summer.

I was very pleased to read in our confidential file that a certain individual is finally making an appearance in our district after years of requesting their presence. However, why is this information in the confidential file? Shouldn't this be part of the community engagement process? Shouldn't the public be notified that this individual will be here so they can ask about our funding issues? Why the secrecy? Didn't some of you express a desire for the public to be more involved in these matters? Did this individual refuse to attend our regular meeting so that the public can confront them?
If not I would hope that the election promises of getting the public more involved would be honored and the public be able to ask this person questions at the upcoming committee meeting!

Thanks
