I just spoke with Lt. Bezak about the concept of Tuckerton joining in the radios purchase we have for LEHT. If I mislead you, it was not intentional. The governing bodies must encourage a joint venture such as this to even explore the possibility. That is where I was saying Sue must get Gormley on board. Not to mention that Jenny needs to get funding increased by the EDA too. I now realize and believe that I made it sound too simple. This is a complicated task at this point with its many moving parts.

I think the idea makes sense for the residents of Tuckerton with the savings. I think it makes great sense with the LEHT dispatching to the same radio systems. I don't see any cost for the Township except some paperwork. But knowing the other complications must first be met, I really didn't give it the deeper attention yesterday. I thought we were talking of a conceptual thought, not solidifying the move. In my mind, I imagined amending our purchase order, but differently. I was more in tune with Motorola accepting a second purchase order and viewing it as an amendment to the first. Even if we were able to work out how to pay and reimburse, assuming governing body approval again, the new PO must have a separate budget line reflecting the reimbursement from Tuckerton.

I think we need to talk to Dave at Motorola as exactly what he needs or will accept to include you. If his only answer is to change my PO and increase the purchase and dollar amount, that will not float. If he says we can issue a second PO as an attachment or amendment, then we need the Mayors to get on board and I will check out how to do it fiscally.

Sorry, if I left you feeling it was a done deal.
