As per the Government Records Council on page 22 of the guideline:

'5. "Access to electronic records and non-printed materials shall be provided free of charge, but the public agency may charge for the actual costs of any needed supplies such as computer discs."

I'm requesting the body cam footage be sent via email. Special fees DO NOT apply in this instance as you are the custodian and are already being paid to provide these records. A cd-rom or flash drive is not required. Please fulfill the request as per the Government Records Council reads. I've included a cope of the page from the pdf.

Good Morning,

In response to your OPRA, please note that the only "report" generated was that of a CAD, which was labeled as a "Field Intelligence Report", which is not releasable under OPRA guidelines. As such, the report contains sensitive information not suitable for public disclosure. With regards to the Body Cam Footage for August 20th, please note that we would need to prepare/redact to protect any personal information, there would be a special service charge of \$75.00 to prepare. If you didn't want to pay the service charge, the video footage was simply based upon the footage of the encounter already being posted to various outlets, open to the public's view, such as "YouTube". One of the various links was in fact labeled, "DAN DAVISON #674 Howell Township Police: OATHBREAKER". This can be viewed @ <https://www.youtube.com/watch?v=Naciz7cXGDk>

This will complete both of your requests, unless of course you were interested paying the special service charge.

Good Afternoon,

This is the OPRA request that I filed with the Middlesex County Prosecutor's Office on June 11, 2018. I disputed their service fees and sued them in the Middlesex Superior Court. I was the prevailing party within the OPRA lawsuit. The documents were not uploaded to the Opramachine.com site as of today. I still need to send them to the site owner in order to be uploaded.
