Fax (732) 612-1454

February 25, 2021

To Resident:

You requested records under the Open Public Records Act in a request of Saturday February 20, 2021,

The Board of Education is providing the records requested in your request #1.

Your request #2 would require the Board to perform a search for records over the 20 year period (2000 – Present) covered by the request. The Board does not have documents organized as requested and does not know which of the requested documents exist. The request would require the custodian to research records to locate any documents meeting the criterion set forth in the request. OPRA does not require the Board to conduct research. The request would require an open-ended search by the Board involving extensive time. The request is overbroad. Thus, the request is invalid. Accordingly, the Board is not providing records in response to this request.

Sincerely,

Vincent S. Smith
Superintendent of Schools
