

MUNICIPAL COMPLEX • PISCATAWAY, N.J. 08854

TOWNSHIP OF PISCATAWAY

Institution of Electric Vehicles and Electric Charging Infrastructure

Per discussions by the Township administration, the Township shall install electric charging stations for Township vehicles at certain municipal building locations. Upon installation of said charging infrastructure, the Township shall prioritize the acquisition of electric vehicles when purchasing Township vehicles pursuant to the current vehicle replacement policies. The administration will work with each Township Department to determine whether electric vehicles will meet the needs of each department and determine a proper ratio of electric vehicle to standard or alternative fuel cars. The administration shall continue to budget for investments in reduced or zero emission equipment as feasible. The Township will also continue to research and consider cars with alternative fuel options in order to continue to reduce emissions by the Township government.
