It's IMPERATIVE that those in law enforcement that swear an oath to the constitution to stand up for law abiding citizen's constitutional rights and educate themselves and other people about the first amendment.

Videography Is Not a Crime.
Independent Citizen Journalism Is Not a Crime either...!!

"You can't target journalists because you don't like their reporting."

 Freedom of speech, whether we agree with it or not, is our Constitutional right...!! It wasn't put there to be changed according to our feelings.

"Instead of trying to intimidate the public, officers need to be educated about First Amendment rights and the public's right to film in public places," Amol Sinha said. "They should be taught how to interact with people who are recording in public places and taught not to restrain them or threaten arrest, all of which chills speech and hinders constitutional rights."

When people operate out of misinformation and fear, things will go wrong.

 Law Enforcement needs to respect citizens' rights and follow the law just like everybody has to especially in this day and age...!!

 Let me be clear. There IS a war going on with the civil rights of individuals. Cops (but not all of them) don't care about your rights, and they want you to avoid exercising your rights. They'll try any trick in the book to get you to believe that you have to abandon your rights. They'll lie, intimidate with threats of jail, and they will get in your face while being armed (force).

 Members of the public, including the press, have a right to observe, take photographs and record video in any public place where they are lawfully present. Photography and the recording of video are common activities and are neither crimes nor indications of criminal activity, in themselves. Neither photography nor the recording of video, standing alone, can form the basis for a detention, arrest, or warrantless search.

 Dear Law Enforcement and the Government,
Ignorance of citizens' civil rights, the law and the United States Constitution is 'No Excuse' at all. !!

APR 7TH, 6:20PM

 I'm requesting the Middlesex County Prosecutor's Office to be part of the solution instead of the problem. "I'm a firm believer that law enforcement works best when there's trust and collaboration between law enforcement and the communities we serve," Attorney General Gurbir Grewal said, noting that trust is primarily established through "transparency and accountability."

If You See Something, Film Something...!!

Why does a judge(s) have to tell a police chief to do the right thing and comply with the law...?!! You think that a police chief with years of experience could do that on his own accord. It boggles my mind all together...!!

Ain't there a different way to get towns to comply with the laws and respect citizens' rights other than suing them in court...?!

Freedoms and Rights not exercised are Freedoms and Rights soon lost...!!

The establishment can't control the narrative anymore...!!

Please don't blame the messenger...!!
Journalism isn't the enemy here...!!

Cameras are an unbiased third party that doesn't take sides...!!

We must adjust to changing times and still hold to unchanging principles.
- Jimmy Carter

 The brand of America is equality and inclusiveness, no matter what one's race, class, ethnicity, color, creed, nationality, disability, gender identity or sexual orientation is...!!
