Good Afternoon Kai,

Thank you for contacting us and for your suggestions. Middletown Rd is definitely a narrow and curvy road. Holmdel officers constantly conduct speed enforcement on Middletown Rd to encourage drivers to slow down and drive safely. Based on the investigation into yesterdays accident, the drivers condition was the cause of the accident not the specific roadway. We will take your suggestions into consideration. Please feel free to contact me directly if you would like to discuss further.

Hi Sgt. Vincent -

I sincerely appreciate your response.

On my way to school today, I did see an officer in the drive of the farm, right before Stillwell (or after it depending on your direction).

I can easily see how an accident could happen around that curve without any kind of impairment. That being said, thank you for letting me know that yesterday's accident was the result of his impairment.

My family is new to the area. We sincerely appreciate your attention in this matter. Please keep us posted on what else can be done to make this road safer.

Hi, I work for the IMA Urgent Care in Hazlet and we recently did a bottled water drive to benefit local fire departments. Can someone from the Holmdel Fire Department reach out to me? Or can someone in town let me know who I can contact?

Thank you!

The department is governed by rules promulgated by the New Jersey Department of Personnel. As such we may only hire from the list that is supplied to us by the state. Individuals wishing to pursue a career with our Police Department must obtain a test application through the New Jersey Department of Personnel. Further information may be obtained on the State of New Jersey website.
