Hello TRPD,

I have a question. I live in a townhouse development off [REDACTED] There's a little boy on my block that rides his dirt bike all over the neighborhood with no helmet and no supervision. Sometimes late at night. He's about 7.

When he's doing this, would this be something to call the main office about? Thanks for your time!

Hello! I have a suggestion for TR and all surrounding areas of NJ. I'm sure someone has brought this to your attention before but we need to eliminate unmarked police vehicles. I understand they are used for undercover work and scenarios such as texting and driving, speeding, even drug arrests, but as a woman it just adds to the list of dangers we have to face daily. Sex trafficking and child predators are everywhere and I fear that the problem is growing. Thank you for your time and have a good day

Hi - this is floating around on Facebook saying that it is Toms River and it is not. It is from Kentucky. With what is going on this weekend and the tensions that seem to boil over in town, I wanted to bring it to your attention. Thanks

Hi there!

My name is  and I'm a Patrol Officer with the City of  Police Department. I'm wondering if your agency would be interested in exchanging regular (and/or pink patches if you participate)? My goal is to surprise our Chief with a collection of agency patches towards the end of the year, as he has expressed his interest in collecting patches. If you could please let me know either way, that would be greatly appreciated! I would be happy to send an email with my request using my department-issued email address.
Thank you so much!

I'm seeing posts on FB that the missing gentleman from a facility in Manahawkin, was seen on Route 37 in Toms River. Are you involved in the search and if you are, could you please post on your page? If volunteers would be asked to help search that area today I would be one of them.

I must say (though I shouldn't have taken a picture at the red light) I was very moved by this officers actions today. The car in front of me had small children in the back. At first I didn't realize the officer flashed his lights for the kids. I thought he had just gotten a call but it was super quick and he even rolled down his/her window to talk to and wave at the kids. I could see the children waving back from the back seat. I bet it made those kids day as it did mine. Here are the pictures

Okay thank you. I thought offering to dress in any matter in which may be requested would be reason to check the real intention here. I run a reputable cleaning service and men have replied asking for photos that I absolutely will not provide Seeing this kind of advertising I understand why. Thank you for your response. However I see it differently.

Hi 

Thank you very much for your message. There are two officers currently assigned to that particular job. It is an emergency job that unfortunately is causing major traffic delays. Our Traffic Safety Officer is on his way down to the area as per your request. We appreciate all public comments and concerns and believe positive community partnerships are imperative!

We will continue to best serve the town and keep all residents safe.

Have a great day and as always, stay safe!

I will also ask residents to try to avoid the area via social media and Nixle.

 
at 16:24:55 on 11/28/2018 UTC

Thank you for the quick response. I would suggest an officer approaching the work area. This is where people are cutting into the coned area (in front of ) and causing problems.

A tree was down on [REDACTED] rd Friday morning and Toms River PD called in Toms River Township to remove the tree. [REDACTED] rd is a county road. Again the police should have called the road department but didn't. Food keeps getting taken right out of my kids mouths! Who do I need to speak with?

Toms River Police Department

at 20:49:00 on 11/29/2018 UTC

Good afternoon [REDACTED]

I apologize for the delay, I wanted to took look further into the call for the tree removal the morning of November 16th. Our dispatchers are always mindful of contacting the proper departments for road hazards. In this particular case there is a chance it was a dispatcher error in who was contacted. I can assure you there was no ill intent and in no way was anyone trying to take work from any agency.

Thank you for reaching out to us, we appreciate you bringing this to our attention and have addressed it within the department.

[REDACTED]
at 21:04:13 on 11/29/2018 UTC

Thank you for the reply. We have been called in the last couple of weeks for flooding in the area. We appreciate all that PD does to help us. Thanks again!
