A few years ago my daughter's kindergarten class went on an after school tour of the toms river police station. The trip was to compliment the curriculum, which discusses community helpers. The children toured the police station and learned a little bit about police work. It was a great experience for the kids. Now, my son is starting kindergarten and I was wondering if there was a chance of getting a tour like this for his class?

This is for the A [REDACTED] Kindergarten class. There are approximately 16 children in the class. It would be an after school, non-mandatory trip so I'm not sure how many would attend. The children would be accompanied either by their own parents or other class parents who have volunteered as chaperones and probably some siblings.

Thank you,

[REDACTED]

Could you shed some light on the strong rumor that is circulating on the barrier island regarding the construction on Rt. 35 continuing through the summer...we are very concerned about traffic and safety when the population surges from May to September.

Toms River Police Department

at 15:12:29 on 3/03/2014 UTC

Chief Little is working with the Mayor and Town Council to get the "facts" from the D.O.T. We are extremely concerned as well. Right now we are trying to develop a plan for the St. Patrick's day parade to avoid serious traffic problems such as had occurred with the Polar bear Plunge.

I was at last night's Neighborhood Watch...one of Chief Little's announcements/introductions was for Gene ??? who is responsible for the school officers/beach officers...I couldn't catch his last name...and do you have contact info for him? BTW...when I was searching the TRPD website, there were still references to [REDACTED] that may need to be updated..

Hello,

I will be taking the tr police application this summer, since I will be graduating from [REDACTED] this May with a bachelor's degree. However, they do not send out the physical diploma until the end of this year to around the beginning of next year, and I noticed that the TR department requires a physical cop of the diploma. Is there any way around this, seeing that I will have achieved my bachelor's degree this May, anyway?

I'm not sure where I was on the Jersey Shore but I vaguely remember the police cars being marked with Toms River being pulled over by two male police officers. If you could pass this message either to them or to the neighboring police department to ensure this gets sent. I and my friend were stopped on August 22nd around 4-5pm by two police officers and we are two black males. I'd like to say they exemplified professionalism and compassion. In a time where our differences sometimes outweigh our similarities this was a life altering experience. Two officers pulled over two black males and we had a wonderful dialogue and for that I am appreciative of your department. They followed every protocol I would expect an officer and assured myself and driver of what was happening during the traffic stop. If there is anyway to find out these gentleman's information is love to send them lunch or any gesture to show my gratitude for making this encounter simple. If anyone can please assist we were in a [Redacted] I can be contacted via messenger or by email [Redacted] Thank you again.

Hi [Redacted]
This message warms my heart so much. I would like to look up this call and let the officers and our Chief know if it was us. Is there any way you could provide me with the license plate of the vehicle so I can look it up? We try very hard to respect every person and always have positive encounters with everyone we see. I know Chief would like to personally thank the officers as well. I tried to look up the stop but just need a little more detail.
Thank you again for this message, have a wonderful day!

Have a great day!

So I was just made to come back to [REDACTED] because me and my girlfriend took garbage out of the dumpster and that is officially considered public domain so no laws were broken at all, your responding officers attitude was out of hand he told me he would throw me in handcuffs if I didn't shut up and I got the entire thing on video, now I know I am allowed my free speech specially when any laws aren't broken, my lawyer told me to record the entire even because there were no signs posted saying that particular garbage wasn't garbage therefore no laws broken so how dare you people think you can waste my and my girlfriends time when no law has been broken.. So why would your officer be so aggressive? So rude? No laws broken means no laws broken.. Once something is discarded it becomes public domain so your officer threatening me is umm against the law? I just want you to know I'm spreading the video like wild fire and I will not stop until I have an apology.. Good day.

[REDACTED]
at 3:40:03 on 11/07/2016 UTC

Just wanna know why I was threatened? Didn't commit any crime at all and even if I did I am entitled to my first amendment rights before an arrest is made.. So you should really tell your officers to watch what they say because they don't have the power to run around telling people they are gonna cuff them because they fucking feel like it and I now have organized a coalition of people in Toms River all with videos of police (TRPD) being incredibly rude or threatening and now we are going to edit them all together so people can see how the power tripping TRPD acts.. It's 2016 anyone can lookup any penal code for any town or county or state or government and if you aren't in violation of anything the police officers don't have any rights to even engage you. Lots of people in this town are tired of cops talking to us like they are better or more powerful than us, they aren't it's just a job, one most sociopaths pursue. You don't need to be shooting innocent people or people who aren't committing a felony (like yanno the law states) but now you can just shoot anyone you want right? But this isn't about police brutality it's about the verbal abuse these power tripped officers display on a daily basis.. I'm encouraging people from town to town state to state.. I'm tired of the abuse of power and I have many internet collectives on my side. Police officers don't deserve any more respect than any other man, they choose to work that line of duty right?
